(494) January 11, 1988

GW REPORT

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

MARTIN LUTHER KING JR. TO BE REMEMBERED AT TWO EVENTS

The George Washington University will honor the memory of the late Martin Luther King Jr. at two separate events this year, one on Friday, January 15, and the other on Monday, January 18.

The January 15 event will be a University-wide memorial service at noon in the Marvin Theatre. The program includes a screening of the film, "From Montgomery to Memphis," highlighted with vocal selections by a choir of GW students, staff and faculty. The film is a documentary on the civil rights movement with King as its focus. Poetry by Langston Hughes will also be presented.

Two Martin Luther King Jr. Medals will be presented at the University's annual Martin Luther King Jr. Convocation and Community Festival of Choirs January 18 at 7:30 pm in Lisner Auditorium. This year's recipients are Dr. Vincent Harding, nationally recognized historian, activist and author; and a George Washington student to be announced at the convocation. These annual awards recognize individuals whose lives reflect the ideals and qualities of the late Dr. King.

Participants in the Community Festival of Choirs will be the Anacostia High School Choir and the choirs of five churches: Asbury United Methodist; Canaan Baptist; First Baptist Church of the City of Washington D.C.; Garden Memorial Presbyterian; and Ward Memorial A.M.E. Church.

The lower lounge of Lisner Auditorium will be the location of an Exhibit of Enlightenment, a series of displays sponsored by student and community groups, including the churches that are sending choirs for the occasion. Themes of the displays will include the cultural diversity of GW's campus life and the contributions of black Americans in fields such as industry, commerce and education. There will be a scroll in the lower lounge to give opportunity for individuals to sign their pledges to Dr. King's dream dream.

While admission is free, those coming to each event are asked to bring non-perishable food and items of clothing for distribution in the community.

HOME RULE DISCUSSION SET FOR JANUARY 13

D.C. Delegate Walter Fauntroy will participate in a discussion of home rule for the District of Columbia on Wednesday, January 13, from 6 to 7:30 pm in Marvin Center, Room 414. Associate Professor of Public Administration James Edwin Kee will serve as discussion guide. The open event is part of the Public Administration Department's Alumni Lecture Series.

YOUNG INVESTIGATORS

The Office of Naval Research is accepting applications for its Young Investigator Program. Awards will be made in the areas of biological, cognitive and neural sciences. These awards will be $50,000 a year for three years. Applicants must be United States citizens in tenure-track positions who have held a Ph.D. or equivalent degree for less than five years. For more information, contact Helen Spencer, Office of Sponsored Research, 46255.

ALLIANT SUPPORT -- SEAS Dean Harold Liebowitz, second from left, recently extended the appreciation of the University to President Ronald H. Gruner of the Alliant Computer Systems Corporation, third from left, for the support Alliant Systems is giving the Engineering School in providing half the cost of a supercomputing facility in Tompkins Hall. Looking on are, l to r, Associate Professor of Engineering and Applied Science E. Thomas Moyer Jr., J.B. Eberlein and Michael P. White of the Alliant Corporation.

LEO LEONARD CHOSEN DEAN OF THE SCHOOL OF EDUCATION

Leo D. Leonard, currently dean of the School of Education of the University of Portland (Oregon), has been named to become dean of the School of Education and Human Development, effective July 1. In announcing the appointment, Vice President for Academic Affairs Roderick S. French said, "Over the last two years, the School of Education and Human Development has taken substantial steps toward refocusing its mission and strengthening its academic programs. Dr. Leonard brings the administrative experience and demonstrated qualities of leadership required to carry this process of reorganization and program enhancement forward. Several programs for which he is presently responsible have received national citations for excellence. His background in national education policy issues and in international education is most appropriate for The George Washington University."

Leonard has had extensive experience both in the public and private sectors of education, as an administrator and as an academician.

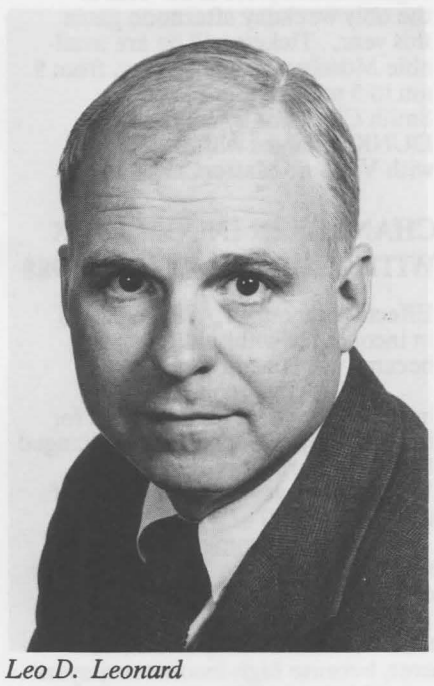
He has been a public school teacher in Seattle, Washington, and in Ogden, Utah, where he received a Teacher of the Year Award in 1967. In 1969, the year he received his doctorate in education from Utah State University, he became a professor at the University of Toledo (Ohio). In 10 years there he served as director of undergraduate programs and as department chair as well as coordinator of curriculum projects for the Catholic Diocese of Toledo and for a Canadian consortium.

From 1974 to 1977, he was also a research consultant in the Research and Development Center of the University of Wisconsin.

Leonard spent a sabbatical year as an intern in the U. S. Office of Education and U.S. Office of Management and Budget before joining the University of Portland. He has also taught at Utah State University and Bowling Green State University.

Leonard's major research interests are competency based instruction, educational planning models and international education. He has conducted extensive research with the aid of federal, state and private research grants and has held major consultantships with schools and colleges in the United States and Canada.

A member of numerous professional societies, Dr. Leonard is a past president of the State Council of Deans of Education, OACTE. He has served with national task forces on teacher certification and health education, and on the boards of the American Council of Learned Societies and the Inter-University Teacher Education Council.



Leo D. Leonard

The incoming dean has found time to participate in community organizations, among them the Choral Arts Society of Portland and the board of the Toledo Symphony. He was also chair of the International Education Committee of the Portland Rotary Club and a board member of the Tucker Maxon School for the Deaf and the Open Meadows Learning School.

Leonard received a Fulbright Scholarship to Africa in 1966. He has been twice recognized by the U.S. State Department, once in 1971 as a diplomat/scholar, and again in 1979, as an education leader.

A frequent presenter of papers at professional meetings, the dean-designate is co-author of four books on aspects of competency based education, one of them in Spanish. He has written extensively for professional journals.

Leonard completed his undergraduate work at the University of Utah with honors, and his graduate studies took him to the University of Washington and Lewis and Clark College, as well as to Utah State University. He pursued post-doctoral studies at the University of Michigan.

POST IS JANUARY'S FIRST WEDNESDAY LECTURER

Jerrold M. Post, professor of psychiatry and public policy, will speak on "The Mind of the Terrorist" in the First Wednesday Lecture Series January 13 at 8 pm in Marvin Center's third floor Continental Room. He will discuss the individual group and the organizational psychology of terrorists. Admission is free but those planning to attend are asked to call 46345 for seating. Dinner, for both members and non-members of the GW Club, will be available beginning at 6:30 pm Call 46610 for dinner reservations.

MFA THESIS ART SHOW

Works by George Washington University students who are candidates for the Master of Fine Arts degree will be on view in the Dimock Gallery from January 14 to February 4.

The exhibition will include design, painting, photography, sculpture, and visual communications. The six artists whose works will be shown are Sanaa Elaroussi, Moa'taz H.W. El-Dajani, David H. Janssen, Maruta Andra Kajaks, Maria Ortega, and Alan Michael Scherr.

Hours are: 10 am to 5 pm Tuesday through Friday; noon to 5 pm Saturday; closed Monday.

BASKETBALL SPECIAL

The home basketball game between George Washington's Men's Team and the University of Rhode Island on January 18, the Martin Luther King Jr. holiday, has been designated a holiday basketball special by the Men's Athletic Department and the day is being called Youth Day.

All D.C. area youth will be admitted for one dollar to the 1:30 pm match in the Charles E. Smith Center. All GW alumni are invited to buy half-price tickets at $3. The regular ticket price is $6 This is the only weekday afternoon game this year. Tickets will be are available Monday through Friday, from 9 am to 5 pm in room 219 of the Smith Center or by calling 994-DUNK. Charges will be accepted with VISA or MasterCard.

CHANGES IN INCOME TAX WITHOLDING RATES IN 1988

Effective January 1, 1988, changes in income tax withholding rates became effective in three areas.

FICA The social security-hospital insurance tax increases for both employer and employee changed from 7.15 percent of the first $43,000 of wages to 7.51 percent of the first $45,000 of wages.

Federal Income Tax The second phase of the Tax Reform Act of 1986 took effect. Basic rates are 15 percent and 28 percent. The top tax rate could be 33 percent, however, because high-income taxpayers are subject to two separate surtaxes. Personal exemption amounts increased from $1,900 to $1,950.

DC Income Tax New rates range from 6 percent of taxable income not over $10,000 to $1,340 plus 9.5 percent of the excess over $20,000. Personal exemption amounts increased from $750 to $1,025.

SPECIAL DELIVERY PICK-UP SERVICE

The Procurement and Supply Department has negotiated a very favorable contract with Emery Worldwide Special Delivery Services. For example, the cost for delivering an eight-ounce envelope with next-day door-to-door service is $8.50. The charge for a two-pound package is $10.25.

Departments interested in using this contract should contact Carol Patterson, Procurement and Supply Department office manager, at 46865. Users will have an individual account numbers.

The first list will be submitted Monday, January 25. Call Ms. Patterson as soon as possible if your department wishes to use this service.

BRIEFLY...

Rehearsals of the GW Choir for the January 15 Martin Luther King Jr. Memorial Service are continuing this week. If you would like to participate, call 47402.

A Colonnade Gallery reception will be held this afternoon, January 11, from 5 to 7 p.m. in conjunction with the current exhibition of student art on the third floor of the Marvin Center.

The GW Club Breakfast Tuesday, January 12, will feature speakers Marianne Phelps and Ann Webster in a slide lecture, "Images of a Wildlife Safari in East Africa." Call 46610 for reservations.

Gelman Library's Annual Open House for Faculty and Graduate Students is scheduled for Thursday, January 14, from 4 to 6 p.m. on the first floor. New reference and research resources will be described and demonstrated as well as library services that support GW research.

Lisner at Noon will present classical guitarist David Perry on Wednesday, January 20, at 12:15 p.m.

"Electoral Politics" will be the topic discussed by Professor of Political Science Stephen J. Wayne at the GW Club's Round Table Dinner on Wednesday, January 20, at 5:30 p.m. Call 46610 for reservations.

Martin Luther King Jr. Buttons are available from Marvin Center Information Desk, first floor, and the News Stand, ground floor.

CHANGE OF COMMAND -- Midshipman Glenn Kuffel, right, was congratulated on his new post of battalion commander of the NROTC unit at George Washington by Captain Owen C. Martin, USN, professor of naval science, left, and immediate past battalion commander Midshipman William O'Brien following a December changeover ceremony.

The GW Forum topic for spring 1988 is a discussion of how or why any one book or author has had a significant impact on your life. Deadline for submission of 1,000 to 2,000 word personal essays is Thursday, February 18. Send to Astere Claeyssens, English Department, The George Washington University, Washington, D.C. 20052.

NEWS NOTES

JONATHAN MORENO, associate professor of philosophy and health care sciences, was interviewed by The Wall Street Journal on societal reaction to AIDS victims for an article appearing November 13.

EILEEN MORRIS GUENTHER, studio instructor in organ, appeared as guest soloist on the November Organ Series at Independent Presbyterian Church in Birmingham, Alabama, on November 15. The Birmingham News referred to her interpretation of works by Franck, Langlais and Dubois as "superb." She addressed the Birmingham chapter of the American Guild of Organists on November 16.

LANCE J. HOFFMAN, professor of engineering and applied science, presented a paper, "Smoking Out the Bad Actors: Goal Seeking Risk Analysis," at the Fourth National Computer Security Conference of the United Kingdom in October.

LEONARD NADLER, professor of human resource development and adult education, participated in a panel discussion of "Future Horizons for Occupational and Professional Education: Getting Our Act Together for the 21st Century" at the annual conference of the America Association for Adult and Continuing Education (AAACE) in Washington D.C., October 19-24. He was also a co-presenter of "Conferences: The Growing Edge of Human Resource Development," a session to address various aspects of conference planning and participation.

PUBLICATIONS

DENNIS GALE, assistant professor of urban and regional planning, a book, Washington, D.C.: Inner City Revitalization and Minority Suburbanization, Temple University Press, 1987; a volume in the Comparative American Cities Series, edited by Dr. Joe T. Darden of the University of Michigan.

TERRY L. HUFFORD, associate professor of botany, an article, "A Compilation of Published Reports of Diatoms from Virginia Fresh Waters, Exclusive of the Potomac River Boundary Waters," in Virginia Journal of Science, 38(3), pp. 171-193.

ROY C. LINDHOLM, professor of geology, an article, "Authigenic Potassium Feldspar in Ribbon Rocks of the Cambrian-Conococheague Limestone, Western Maryland" in U.S. Geological Survey Bulletin, No. 1578, pp. 183-196. Paul Hearn and John Sutter of the U.S. Geological Survey were co-authors.

JERROLD POST, professor of psychiatry and public policy, a chapter, "'It's Us Against Them': The Basic Assumptions of Political Terrorists," in Irrationality in Social and Organizational Life, James Krantz, editor.

PERSONNEL NOTICES

LECTURERS/INSTRUCTORS, part-time, Department of Human Kinetics and Leisure Studies. (Positions available for qualified individuals in the areas of yoga, cycling and racquetball for Spring Semester 1988.) For more information, call 47122.

GRADUATE RESEARCH ASSISTANT, full-time, Department of Human Kinetics and Leisure Studies. (Individual with writing and research skills to work on special projects such as grant applications and alumni communication. Master's or doctoral candidate preferred.) Contact Dr. Jeanne Snodgrass, Department of Human Kinetics and Leisure Studies, Building K, Washington, DC 20052, or call 46280.

RESEARCH ASSISTANT, full-time, Department of Anatomy. (Position available for two years on an NIH grant dealing with nerve regeneration in the central nervous system. Duties include animal care, preparation of chemicals, preparation, staining, examination and photography of microscope slides, and sectioning of tissues for light and electron microscopy. Must have a bachelor's degree in a biologically related field and experience in general laboratory procedures. Experience in electron microscopy desirable. Salary commensurate with experience.) Send resume to Dr. R.C. Bohn, Department of Anatomy, GWUMC, 2300 Eye St., NW, Washington, DC 20037

RESEARCH ASSISTANT, full-time, Department of Medicine. (Individual needed to work in the Division of Infectious Diseases. Duties include animal care, schistosomiasis and general maintenance of research laboratory. Bachelor's degree in biological science and experience in the field of parasitology and immunology preferred.) Send resume to the Division of Infectious Diseases, 2150 Penn. Ave., NW, Room 502, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Department of Medicine. (Individual needed to serve as senior technician in charge of laboratory operations in the Division of Gastroenterology and Nutrition. Applicant must have 3-5 years of experience doing research, planning and project execution with minimum supervision. Duties include small animal surgery, radioimmuno assay, maintenance of laboratory supplies and supervising technicians. Applicant must also be able to represent the Principal Investigator at meetings within and outside the University.) Call Robert Devlin before January 20 at 44418.

RESEARCH ASSISTANT, full-time, Department of Pathology. (Individual with undergraduate or master's degree in genetics, microbiology, biology, biochemistry, chemistry or medical science needed for project involving use of DNA techniques in medical diagnosis.) Submit resume to Dr. C. Garrett, Department of Pathology, GWUMC, 2300 Eye St., NW, Washington, DC, 20037, or call 43825.

The George Washington University is an equal opportunity/affirmative action employer.

Number 495

GW REPORT

January 25, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

PRESIDENT ELLIOTT TO JOIN NATIONAL GEOGRAPHIC

Lloyd H. Elliott has been chosen president and chief executive officer of the National Geographic Society Education Foundation. He will assume this post upon his retirement from GW.

The $20 million foundation, established as part of the 100th anniversary observance of the society, demonstrates "a renewed and expanded commitment to geography education," said National Geographic President Gilbert M. Grosvenor.

The foundation will raise funds and provide grants to support national and local programs in geography education. In addition, a challenge fund of $20 million has been established to match outside contributions. Eventually the society hopes to raise $100 million. Grosvenor will chair the foundation's board.

In accepting his new position, Elliott pointed out that the foundation will serve several needs. "It will focus public attention on the critical lack of geographic literacy in this country, bring together the resources needed to remedy the situation, and target those funds where they can make a real difference -- in the hands of classroom teachers and students," he said.

Grosvenor expressed his deep concern at America's lack of knowledge of geography, and noted that, "without geographically and technologically literate citizens, America cannot compete in world markets or take the lead in meeting international, political, economic, environmental, social, and military challenges."

ELLIOTT HONORED BY THE WASHINGTONIAN

On January 20, Lloyd H. Elliott was one of 16 individuals honored as Washingtonians of the Year by The Washingtonian magazine. Awards were presented at a luncheon at the Willard Hotel.

As part of the recognition, The Washingtonian profiles the honorees in its January issue. When Elliott retires, the current issue notes, "GW will lose one of its greatest assets." The quality of the University's three libraries, the growth of the endowment and the increasing distinction of the faculty are highlighted among the president's achievements during his 23-year tenure.

The Washingtonian of the Year awards were established in 1971 to recognize citizens who have made outstanding contributions to the quality of life in metropolitan Washington. Winners are selected by the magazine from nominations submitted by the public. In addition to Elliott, this year's award recipients included Cherry Adler, Dave Aland, Hardy Franklin, Ethel Georges, Cathy Gleisberg, Sonia Gutierrez, Wilhelmina Holladay, Jim Hunter, George Kettle, Rod Langway, Liz Lerman, Elsie Monroe, Peter O'Malley, Renee Poussaint and Kenneth R. Sparks.

LORD ASA BRIGGS, BRITISH HISTORIAN TO BE HONORED

Lord Asa Briggs of Lewes, considered one of the most distinguished British historians, will receive the honorary degree of Doctor of Humane Letters at a special convocation on Friday, January 29, at 6 p.m. in the Marvin Theatre. Members of the University community are invited to attend.

In his convocation address, Lord Briggs will discuss "Victorian Inventions: The Imaginative Response to New Technology."

The provost of Worcester College, Oxford, England, since 1976, he is widely recognized for his writings on British society, communications, education, labor history and technology. His works include A Social History of England (1983) and The BBC: The First Fifty Years (1985). He is also known for his studies of the 19th-century world.

In 1975, Lord Briggs received the Marconi Medal for his work in communications history. In 1979, he was awarded a medal by the French Foundation of the Architectural Academy for his work on heritage education. He is currently a Gannett Senior Fellow at Columbia University in New York, where he is researching the historical inter-relationship between American and British broadcasting.

CAREER WEEK '88

Career Week '88, sponsored by GW's Career Services Center, will feature more than 40 programs on "Choosing a Career," "Landing a Job," and "Moving Up," February 1 through 3, in the Marvin Center. Participants at any career stage are invited to learn more about job strategies from over 100 metropolitan area professionals. Panel discussions and speaker presentations will take place between noon and 8 pm and are free and open to the public. Call 46495 for more information.

MARTIN LUTHER KING JR. MEDALISTS Vincent Harding, distinguished historian, teacher and activist, left, and Toni Jackson, SGBA senior, center, and President Lloyd H. Elliott, visited after the January 18 Martin Luther King Jr. Convocation when Harding and Jackson received their medals.

TRACHTENBERG NAMED TO THE UNIVERSITY PRESIDENCY

The Board of Trustees, on January 21, named Stephen Joel Trachtenberg the 15th president of the University. He succeeds President Lloyd H. Elliott who is retiring after 23 years of service. Trachtenberg, president of the University of Hartford, West Hartford, Connecticut, since 1977, will assume the George Washington University presidency on August 1.

University Trustee L. Stanley Crane, chairman of the Presidential Search Committee, made the announcement. Crane said,"Stephen Trachtenberg is known as a dynamic and innovative leader who is committed to excellence in higher education. We look forward to his leadership at George Washington University."

The Presidential Search Committee considered some 100 applicants and nominees since May of last year. Eleven candidates were invited to Washington for interviews, and subsequently five met with and were interviewed by the full search committee.

Selection criteria included a record of leadership and successful management in higher education, fundraising, planning and organization. The committee also sought candidates with a commitment to diversity in all segments of the university community, and sensitivity to the responsibilities and opportunities of an urban university in the nation's capital.

In accepting the appointment, Trachtenberg said, "George Washington University has established an enviable reputation as an institution whose devotion to teaching, research and service is balanced with a powerful involvement in national and international affairs. My first goal as president will be to see to it that this balance and this record of achievement are maintained and, wherever possible, strengthened and expanded."

Trachtenberg, 50, has served as president and professor of law and public administration at the University of Hartford for 11 years. Previously he served for eight years at Boston University in successive administrative positions, including dean of university

Stephen Joel Trachtenberg

affairs, academic dean of the College of Liberal Arts and vice president for academic services. Trachtenberg also was special assistant for two years to the U.S. Education Commissioner, Department of Health, Education and Welfare. During that time he served as secretary for the Lyndon B. Johnson White House Task Force on Education.

Prior to his academic career he was an attorney in the New York office of the U.S. Atomic Energy Commission for three years.

He has written extensively on issues in higher education and is author of the lead chapter in the book Academic Leaders as Managers (Jossey-Bass, 1983). He has served as a consulting editor to The Journal of Education.

The president-designate is active in the American Council on Education (ACE), and serves on the advisory board for the association's journal, The Educational Record, as well as being a member of the ACE Commission on Minorities in Higher Education. He is currently president of the Connecticut Council on Higher Education, chair of the Connecticut Conference of Independent Colleges and a member of the board of directors of the American Association of University Administrators. He serves also on the boards of several hospitals, a bank and a variety of other organizations.

Trachtenberg was named one of the Top 100 Leaders in the American Academy in a 1978 Change magazine poll. He received a 1987 Human Relations Award from the National Conference of Christians and Jews, and, in 1986, an honorary Doctor of Humane Letters degree from Trinity College (Connecticut). His recognition has included being selected as a Winston Churchill Traveling Fellow to study in Oxford, England, in 1968.

He earned a B.A. degree from Columbia University in 1959, a J.D. degree from Yale University in 1962 and a Master of Public Administration from Harvard University in 1966. He is a member of Phi Beta Kappa.

Trachtenberg and his wife, the former Francine Zorn, have two children, Adam Maccabee, 12, and Ben Lev, 9.

LAW ASSOCIATION TO HONOR JOHN L. RAY

City Council member John L. Ray (J.D. 1973) will be honored by the D.C. chapter of the George Washington Law Association at a January 28 luncheon in the National Lawyers Club. Ray will speak on "Losing Leaders to the Money Factory." For more information and reservations, call 46420.

SPECIAL DELIVERY PICK-UP SERVICE

The Procurement and Supply Department has negotiated a favorable contract with Emery Worldwide Special Delivery Services. For example, the cost for delivering an eight-ounce envelope with next-day door-to-door service is $8.50. The charge for a two-pound package is $10.25.

Departments interested in using this contract should contact Carol Patterson, Procurement and Supply Department office manager at 46865. Users will have an individual account number.

The first list will be submitted February 1. Call Ms. Patterson as soon as possible if your department wishes to use this service.

BRIEFLY...

Eugene McCarthy, former senator and presidential candidate, will discuss "Presidential Primaries and Elections - Prospects for 1988" tonight at 8:30 pm in the Marvin Center's Market Square. The event is sponsored by the GW College Democrats and is free and open to the public.

Mona Simpson, author of Anywhere But Here, will read from her works on Thursday, January 28, at 8 pm, in Room 403 of the Marvin Center. The free reading is sponsored by the English Department and the Jenny McKean Moore Fund for Writers.

Blood Pressure Screening is being offered by the Wellness Resource Center on Saturday, January 30, between 10 a.m. and 3 p.m. Pre-registration is required. Call 46927.

A Quit Smoking Workshop will be conducted by the Wellness Resource Center February 2, 4, 9, 11 and 16 between noon and 1 p.m. The workshop is free. Pre-registration is required. Call 46927.

INTERVIEWS

JONATHAN D. MORENO, associate professor of philosophy and of health care sciences, was interviewed by WWRC-AM Radio on the problem of organ donation and anencephalic infants, on December 16.

BENJAMIN NIMER, professor of political science and international affairs, discussed the topic, "Liberal and Conservative: How to Obscure and Confuse Discourse on Public Policy," as a guest on the WMET Radio talk show, "Around Washington," on December 4.

STUART A. UMPLEBY, professor of management science, was interviewed by Karen Leggett of WMAL-AM Radio on December 3 about his computer program "Ethics," which is designed to help people understand patterns of reasoning characteristic of the United States and the Soviet Union.

D.C. DELEGATE. Walter Fauntroy, left, talked with Stephen R. Chitwood, professor of public administration, center, as Jerry W. Jones Jr., (M.P.A. 1987), looked on after Fauntroy's January 13 talk on statehood for the District of Columbia, part of the Public Administration's Alumni Lecture series.

PROFESSIONAL ACTIVITIES

CHARLENE BICKFORD and KENNETH BOWLING, co-editors at the First Federal Congress Project, lectured at the opening of "Liberty's Legacy: Our Celebration of the Northwest Ordinance and the United States Constitution," an exhibit at the Clements Library of the University of Michigan on November 12. "Liberty's Legacy," a major collection of documents, works of art and maps, is currently touring the six states of the original Northwest Territory. The topic of the Bickford-Bowling lecture was "Empire vs. 'Ohiosms': The First Federal Congress and the West." This lecture will also be given at Chicago's Newberry Library in January, the State Historical Society of Wisconsin (Madison) in March, and the State Historical Society of Minnesota (St. Paul) in May.

JONATHAN CHAVES, associate professor of Chinese, presented a lecture, "Chinese Poets in the Garden," at Asia House in New York on December 15.

THE DEPARTMENT OF OPERATIONS RESEARCH cosponsored the annual Washington Operations Research/Management Science Council Symposium in the Marvin Center on November 4. The topic of this year's symposium was "OR/MS: Back to Basics--Into the Future." DONALD GROSS, professor of operations research, spoke at midday on "OR: The Next Decade." In the afternoon session, he presented, "Numerical Problems in Probability Modeling," a paper he co-authored with a colleague from George Mason University, Carl M. Harris.

VALERIE EPPS, director of the Educational Opportunity Program (EOP), and two GW/EOP sophomore student representatives, Roger Baskin and Mark Chichester, provided feedback and recommendations for improving high school guidance counseling of college-bound students at the 23rd Annual C. Harold McCully Conference at the University of Maryland, College Park, on December 4. The event was sponsored by the DC Association for Counseling and Development.

AMITAI ETZIONI, university professor, has been awarded the Lester F. Ward Distinguished Contributions Award in Applied Sociology in 1987 by the Society for Applied Sociology.

DENNIS GALE, associate professor of urban and regional planning, chaired a panel on "The Role of History in the Urban and Regional Planning Curricula," at the national conference of the Association of Collegiate Schools of Planning in Los Angeles, November 5-8. At the conference, he attended a meeting of the editorial advisory board of the Journal of the American Planning Association, of which he is a member. He was invited to participate in a conference on The Comparative American Cities, sponsored by Michigan State University's Urban Affairs Program and Temple University Press, at Michigan State University on November 9. He discussed the findings and conclusions of his book on Washington, DC, along with authors of recent books on Chicago, Detroit and Houston. In addition, Gale was appointed by the American Planning Association to act as its representative at the National Agenda Workshop of the National Academy of Sciences-National Research Council on "America's Buildings in the 21st Century," in Washington, DC on December 2 and 3. The purpose of the workshop was to prepare a national agenda for research on the built environment in America, for presentation to Congress and the next presidential administration.

PERSONNEL NOTICES

ASSISTANT DIRECTOR, full-time, Continuing Engineering Education Program, School of Engineering and Applied Science. (Individual with 10 or more years experience in engineering application or management needed for developing, marketing, and managing intensive short courses using a worldwide continuing engineering education program, also to assist the director with national and international programs coordination and the development of an extensive off-campus program. Must be capable of presenting the University's program to training officers and executives, while also determining its pertinent costs and fees. A minimum of a B.S. in engineering or a related sciences is required. Salary subject to qualifications.) Send resumes to Director, Continuing Engineering Education, School of Engineering and Applied Science, The George Washington University, Academic Center, Room T-308, Washington, DC 20052.

DEPUTY DIRECTOR, full-time, Intergovernmental Health Policy Project. (Non-profit, university based research project and health policy information clearinghouse seeks individual with a master's degree in health care administration, economics, public health, business administration or public policy. Candidate should have excellent research, writing and verbal skills, as well as a working familiarity with general health policy issues. Grant management and prior experience in state or federal government are desirable. Deputy Director will be responsible for all operations of the project in the Director's absence. In addition, duties include grant and contract oversight, research agenda development, management of the state services division, preparation of funding proposals and budgets, and development of a marketing plan.) Send resume to the Personnel Office, Intergovernmental Health Policy Project, 2011 I Street, NW, Suite 200, Washington, DC 20006, by February 5.

RESEARCH ASSISTANT, full-time, Department of Pathology. (Individual needed to work on characterization and purification of nuclear enzymes and cloning of genes coding for the enzymes. Must have bachelor's degree in biology or biochemistry. Prior experience is essential.) Submit resume to Dr. R. Kurl, Department of Pathology, GWUMC, 2300 Eye Street, NW, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Department of Radiology. (Registered nuclear medicine technologist [board certified] needed to work in the PET section of the National Institutes of Health as a computer specialist. Requires ability to write, test and demonstrate software tools for use by PET technologists for data acquisition and processing. Will also support quality control and research studies of PET physicists in the area of physics research. Must be able to use VAX.) For more information, contact Geri Rosen in the Department of Radiology, GWUMC, 708 Ross Hall, Washington, DC 20037, or call 43466.

RESEARCH ASSISTANT, full-time, Educational Resources Information Center (ERIC) Clearinghouse on Higher Education. (Position available for applicant with undergraduate degree in education, liberal arts, information science or related field interested in helping users of ERIC, an education information database. Requires ability to conduct computer searches, develop customer products, perform document acquisitions, lead training sessions, and organize conference exhibits. On-line computer searching skills desirable.) Contact the ERIC Clearinghouse on Higher Education, 1 Dupont Circle, Suite 630, Washington, DC 20036, or call 296-2597.

RESEARCH ASSISTANT, full-time, Department of Medicine. (For individual with a bachelor's degree in biological sciences and experience in tissue culture. Applicant should also have expertise in membrane preparation, centrifugation and animal handling. Salary negotiable.) Address inquiries to Dr. P. O'Looney, Program Project Coordinator, Department of Medicine, Ross Hall, Room 409, 2300 Eye Street, NW, Washington, D.C. 20037.

RESEARCH ASSISTANT, full-time, Department of Medicine. (Position available in the Gastroenterology Research Laboratory for individual with a bachelor's degree in chemistry, biology or biochemistry to work on experiments involving the characterization of digestive enzyme secretions. Must have at least one year of relevant experience, preferably in animal surgical techniques, radioimmunoassay, in vitro cell culture techniques and cell isolation techniques.) Contact Dr. Ingram M. Roberts at 44123 or 42964.

GW REPORT

February 1, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

GW STUDENT ASSOCIATION President Adam Freedman, left, welcomed University Trustee James O. Wright to the January 21 breakfast sponsored by GWUSA in honor of President Elliott, center, who was presented a plaque in appreciation for his years of service to the University.

PRESIDENTIAL HONOR FOR BARRY BONTEMPS

Barry Bontemps, who joined GW as assistant comptroller on December 1, after a 27-year career in the federal government, received a Presidential Rank Award as a Distinguished Executive in ceremonies January 5 in the Old Executive Office Building.

He was one of 58 individuals who received awards from President Reagan. The award, established in 1978, recognizes outstanding contributions to the management of the government's programs and brings $20,000 to the recipient.

Bontemps, who joined the Department of Education in 1983, had previously served at the Department of Agriculture's National Finance Center. His last post at Education was director of grants and contracts. He was commended for using "creativity and innovation to achieve cost reduction and creativity for the Federal Service" and for using his talent "to benefit the public and the agencies he served."

A graduate of Mississippi State University (B.S. in Accounting, 1960), he is a native of Bay St. Louis, Mississippi.

FACULTY GRANTS FOR WASHINGTON AREA STUDIES

Regular full-time faculty members in any University school or division may apply for grants for scholarly projects related to any aspect of Washington area studies. The Banneker Awards, focusing on issues affecting the Washington region, are available through the Center for Washington Areas Studies for the 1988-89 Academic Year.

Topics may include the historical, political, literary, philosophical, artistic, social, economic, legal, scientific, educational, medical and public policy dimensions of the Washington region. While comparative studies involving other urban areas may be considered, projects focusing on federal government or national policy issues should not be proposed.

For more information, contact the Center for Washington Area Studies at 331-9044. The deadline is March 1.

CENTRAL AMERICAN AMBASSADORS ON PEACE

Five Central American ambassadors to the United States, representing countries participating in the Arias peace plan, will discuss prospects for peace in their region at a special colloquium tomorrow night.

"Prospects for Peace," sponsored by the Program Board and the School of International Affairs (SIA), will feature speeches by Ambassadors Carlos Tunnermann of Nicaragua, Oscar Padilla-Vidaurre of Guatemala, Ernesto Rivas-Gallant of El Salvador, Guido Fernandez of Costa Rica, and Roberto Martinez-Ordonez of Honduras. A question and answer period will follow. Maurice East, dean of SIA, will act as moderator.

The program starts at 8 pm on Tuesday, February 2, in the Dorothy Betts Marvin Theatre in the Marvin Center and is free and open to the public. For more information, call 47313.

GIRL SCOUTS came to campus on January 21 to present cookies to a number of University administrators as part of the kickoff of the National Girl Scouts of America Cookie Campaign. Funds raised through national sales will be used to further the organization's projects.

HENRY NAU IS SIA ASSOCIATE DEAN

Henry R. Nau, who returned to GW after a year's leave of absence, was named associate dean of the School of International Affairs, on January 1.

Nau, professor of political science and international affairs at the University since 1984, came to George Washington in 1973. His year's leave was spent as a fellow of the Woodrow Wilson International Center for Scholars of the Smithsonian Institution (January to September) and then as a fellow of the Foreign Policy Institute of the Johns Hopkins University School of Advanced International Studies (September through December).

During the leave, Nau completed an article, "Trade and Deterrence," for the spring 1987 issue of *The National Interest* and a chapter, "Export Controls and Free Trade: Squaring the Circle in COCOM," in *Controlling East--West Technology Transfers*, (Gary Bertsch, ed., Duke University Press, 1988). He edited and contributed to a book, *Domestic Trade Policies and the Uruguay Round*, to be published by the Columbia University Press. Nau also completed a book-length manuscript, tentatively titled, *The Beacon of Bretton Woods: Domestic Policy Pillars of Postwar Prosperity*, which is currently being reviewed for publication.

Prior to coming to George Washington, Nau taught at Williams College, the Johns Hopkins School of Advanced International Studies, Stanford and Columbia Universities. As a senior staff member of the National Security Council from January 1981 to July 1983, he was responsible for international economic affairs and coordinated White House preparations for the annual economic summits. He served as special assistant to the Undersecretary of State for Economic Affairs during 1975-76.

Nau holds a B.S. in economics, politics and science from Massachusetts Institute of Technology and M.A. and Ph.D. degrees from the Johns Hopkins University's School of Advanced International Studies. His current research includes work on U.S. international economic policy under the Carter and Reagan administrations and U.S. trade policy relations with developing countries.

FEBRUARY IS BLACK HISTORY MONTH

A variety of activities will mark the University's observance of Black History Month.

An exhibition titled, "21st Century and Beyond: Black History in the Making," can be viewed in the Colonnade Gallery, (third floor, Marvin Center) through February 27.

The exhibition presents the works of four black artists living in Washington. Joyce A. Lancaster's works include painting and sculpture. A collage of fabric stitchery by her mother is also shown. The works of Juan L. Smith are pen and ink drawings with ink wash. Photographs, in both color and black and white, by D. Omar Wynn, are on display, as well as a group of oil paintings and pastels by Bill Thorne. Gallery hours are 10 am to 7 pm daily.

"We try to keep the past alive in our works," the group has stated, noting that this can be a source of inspiration "for future artistic achievements for the next generation."

"Black Entrepreneurs: Strategies for Success: will be the topic of a Career Week '88 panel on Wednesday, February 3, at 6:10 pm in Marvin Center, Room 413. Jerylys Thompson, president of the GW Black Peoples' Union, will serve as moderator. Admission is free.

The Black Peoples' Union is also sponsoring a series of events. Wednesday, February 8, will be comedy night in George's, Marvin Center's fifth floor rathskeller. Thursday, February 11, will be Jazz Night in George's. Both events are at 8 pm and are open without charge.

A gospel concert is scheduled for Lisner Auditorium, Sunday, February 21, at 6 pm. Tickets, at $3, and will be available through the Black Peoples' Union by calling 47321.

CALL FOR PAPERS

Papers in mathematical programming are now being solicited for the 10th Symposium on Mathematical Programming with Data Perturbations. The symposium, an annual event sponsored by the Department of Operations Research and the Institute for Management Science and Engineering, will be held in the Marvin Center, May 26-27. It is designed to bring together practitioners, researchers and students interested in perturbation and approximation results in mathematical programming.

Abstracts of papers intended for presentation should be sent in triplicate to Professor Anthony V. Fiacco, Department of Operations Research, The George Washington University, Washington, DC 20052. to receive a listing of the range of paper topics solicited, or to request a Response Form, call Professor Fiacco at 47511. Responses are due by February 19.

1ST WEDNESDAY LECTURE

"Timelords: New Interpretations of Maya Prehistory" will be the topic of February's First Wednesday Lecture presented by Robert L. Humphrey Jr., professor of anthropology, on February 3, at 8 pm in the Continental Room of the Marvin Center. All members of the university community are invited to attend.

To reserve seating, call 46435. If you would like dinner at the University Club before the lecture, call 46610 to make reservations.

TRUSTEE LYN CLARK DIES

University Trustee Lyn Henderson Clark died on January 10 in Rehobeth, Delaware. She was 55.

A member of the Board since July 1, 1976, she served continuously on the Committee on Academic Affairs and was chairman for eight years. She was a member of the Presidential Search Committee.

A native of New York City, she was a George Washington University alumna, holding a B.A. from the Columbian College of Arts and Sciences. She was president of the General Alumni Association from 1972 to 1974.

Active in civic and community life, she served on the national executive committee of the Association of State Democratic Chairmen and on the board of directors of the League of Women Voters.

Mrs. Clark was long associated with the American Heart Association, serving that organization in a number of areas. She was a recipient of the association's Maryland bronze medal award.

A former commissioner of the Maryland Department of Transportation, she had been co-chairman of the Maryland Democratic Party and National Democratic Committeewoman for Maryland. In recent years, she was chairman of Lynco, Limited, in Rehobeth, Delaware.

UNIVERSITY POLICY ON WEATHER CONDITIONS

As a general policy, the University will remain open despite local weather or travel conditions and other emergency situations. At all times, certain services must be maintained and "designated" employees must remain at, or report to, work.

When conditions require, the University may cancel classes and invoke a liberal leave policy, which would apply to regular full-time and part-time employees other than "designated" employees. This liberal leave policy permits regular full-time and part-time employees to use accrued annual leave without permission of their supervisors if they are unable to report to work or to remain at work. Temporary employees do not accrue annual leave. Employees who have no accrued annual leave would be granted leave of absence without pay. The cancellation of classes *does not* mean that the University has invoked a liberal leave policy.

Individual employees should check with their supervisors for requirements within their units. When there is a need to do so, the University will give class cancellations and liberal leave policy information to local radio and television stations.

GW

PERSONNEL SERVICES' TRAINING WORKSHOPS

The Training Division of Personnel Services will be hosting a series of workshops from now through April of Spring Semester.

Topics include: advanced supervision; AIDS information; cardiopulmonary resuscitation; career discussion; delegation skills; discipline in the work environment; effective meetings; effective writing; employment interviewing; essentials of grammar; medical terminology; office skills; performance analysis and appraisal; skills for employees in lead positions; strategies for supervision; telephone techniques; and time management.

Information on schedules and eligibility is available by calling 44980.

JENIFER CHALK–MANAGER OF RECORDS AND BENEFITS

Director of Personnel Services James E. Clifford has announced the appointment of Jenifer Chalk to the position of manager, Records and Benefits.

She has been employed at the University for over eight years and has held positions in the Payroll Office and in Personnel Services. Her most recent post was supervisor of records and benefits. Jenny earned a Bachelor of Arts from the University in 1982 with a major in American Studies. She is currently a candidate for CEBS (Certified Employee Benefits Specialist) certification. Sue Bilsky, acting manager of Records and Benefits for the past three months, has returned to her position as personnel projects specialist.

BRIEFLY...

Lisner at Noon will present Sue Roemer, Cantor of Yiddish Folk songs, this Wednesday, February 3, at noon in Lisner Auditorium. The concert is free and listeners are encouraged to bring a lunch.

"Voice of the Voices: The Progressive Church in Latin America," will be the topic of a lecture by Dr. Alexander Wilde, executive director of the Washington Office on Latin America, on Wednesday, February 3, at 4 pm in Stuart Hall, Room 108. The event is sponsored by the School of International Affairs. For more information, call 46241.

A poetry reading by Michael Collier, author of The Clasp and Other Poems, is being sponsored by the Department of English and the Jenny McKean Moore Fund for Writers on Thursday, February 4, at 8:30 pm in the fifth floor lounge of the Marvin Center. No charge. For details call 46232.

PROFESSIONAL ACTIVITIES

JOSEPH A. GREENBERG, professor of education, was the keynote speaker on "Motivation and Incentives" at an American Association of Blood Banks meeting in Orlando, Florida, on November 11. He recently visited Indonesia to discuss programs and possible relationships with the Inter-Islamic University Council, representing over 160 Islamic universities throughout Indonesia.

SAMUEL GREENHOUSE, professor of statistics, was the lead speaker at a workshop sponsored by the MacArthur Foundation on clinical trials in the treatment of depression at the Center for Advanced Study in the Behavioral Sciences in Palo Alto, California, November 16-17. His topic was "Cost-Effectiveness of Multicenter versus Single Site Clinical Trials."

CHRISTOPHER JOYNER, associate professor of political science, served as rapporteur for a discussion entitled, "The Multilateral Factor in U.S. Foreign Policy," which was part of the 28th Strategy for Peace, U.S. Foreign Policy Conference, sponsored by the Stanley Foundation, at Airlie House in Warrenton, Virginia, October 22-24.

MARINA KEET, professorial lecturer in the Department of Theatre and Dance and artistic director of the Spanish Dance Society, was honored with a Special Achievement Award by the Hispanic Institute for the Performing Arts in Washington, DC, on November 21.

MFA CANDIDATE Moa'taz H.W. El-Dajani, center, showed his work "Soul House--to Naji, 1967" to Albert Mokhiber, left, and Leslie Remington at the opening of the Dimock Gallery's current MFA Thesis Candidate Show, which runs through February 4. A soul house is a Palestinian house for the soul of a loved friend.

RICHARD LONGSTRETH, associate professor of architectural history, gave a lecture on "Los Angeles, Architecture, and the Automobile" at the Department of Art and Archaeology at Princeton University on November 19.

DOROTHY MOORE, professor of education, was the keynote speaker at the fall meeting of superintendents and administrators of the Chambersburg Consolidated School District in Chambersburg, Pennsylvania. Her topic was education in Japan. Professor Moore was also invited to present a lecture on the "Historical and Cultural Context of Education in Japan" at a one-day conference on that country sponsored by Earlham College at the Johns Hopkins School of Advanced International Studies on November 14. The conference commemorated 100 years of research and scholarly exchange with Japan.

ROBERT PARRIS, professor of music, has composed a work, "Symphonic Variations," on commission from the National Symphony Orchestra Association and its conductor Mstislav Rostropovich. The piece had its premiere performances at the National Symphony Orchestra's Kennedy Center concerts of January 28, 29 and 30 and will be repeated February 2. The Folger Shakespeare Theatre has commissioned Professor Parris to write incidental music for the theatre's upcoming performances of "Macbeth," which begins February 16.

MARIANNE R. PHELPS, professor of education and associate provost, was elected to a three-year term on the Commission on Higher Education of the Middle States Association of Colleges and Schools at its annual meeting in December.

RAYMOND PICKHOLZ, professor of electrical engineering and applied science, spoke on "Data Protection and Authentication in Networks" at a joint meeting of the Institute for Electrical and Electronics Engineers (IEEE) and the Association for Computing Machines (ACM) in McLean, Virginia, on December 9.

ROBERTA SPALTER-ROTH, adjunct assistant professor of women's studies, and research associate Heidi I. Hartmann, presented testimony before the Subcommittee on Children, Families, Drugs and Alcoholism of the Committee on Labor and Human and Human Resources of the U.S. Senate relevant to S. 249, the Parental and Medical Leave Act, on October 29. The testimony was based on their study, funded by the Ford Foundation, of the costs to working women and men, business firms, taxpayers and society of the lack of a national parental and medical leave policy. The study was cited in an article, "Panel Clears Bill Giving Unpaid Leaves from Work to New Parents, Seriously Ill," in *The Wall Street Journal* on November 18. It was also presented before the Washington Women Economists and the Society of Government Economists on November 4. Spalter-Roth also presented a paper, "Feminist Methodology, Quantitative Data and the Decline of Family-Wage Patriarchy," at the annual meetings of the American Sociological Association in Chicago on August 20.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Emergency Medicine. (Laboratory technician needed to work with faculty members on several small animal research projects. Departmental interests include the study of cardiocerebral resuscitation as well as mechanisms of action and potential efficacy of hyperbaric oxygen therapy. Should have prior research laboratory and animal handling experience.) Send resumes to Susan Nesbitt, Department of Emergency Medicine, 2140 Pennsylvania Avenue, NW, Building VV, Washington, DC 20037.

RESEARCH ASSISTANTS/ PROGRAMERS, full-time, The Biostatistics Center. (Multiple openings for work with data management and analysis for major medical research projects. Applicants should have good communication skills, working experience in SAS programming and a B.A. or B.S. degree. Knowledge of statistical methods desirable. Includes tuition benefits.) Send letter and resume to Richard H. Raymond, Biostatistics Center, The George Washington University, 6110 Executive Boulevard, Suite 750, Rockville, MD 20852. No phone calls.

The George Washington University is an equal opportunity/affirmative action employer.

Number 497

GW REPORT

February 8, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

ELLIOTT TO ADDRESS WINTER CONVOCATION

President Lloyd H. Elliott will give the graduation address to approximately 900 degree recipients at the Winter Convocation on February 14 at 1 pm in the Charles E. Smith Center. This will be the last official ceremonial gathering of all the University's schools before President Elliott's retirement.

John Bonner Duncan will receive the honorary degree of Doctor of Public Service. A former commissioner of the District of Columbia in the administrations of Presidents Kennedy and Johnson, Duncan also served as recorder of deeds for the District and as assistant to the Secretary of the U.S. Department of the Interior for Urban Relations. He has given more than 40 years of public service to the District in the areas of education, health, recreation, welfare, religion, youth support, civil rights and human relations, and arts and culture. During 16 years as a member of the University's Board of Trustees, Duncan chaired the Committee on Student Affairs, giving particular support to efforts toward enhancing the quality of student life. He has been an honorary trustee since 1985.

Four individuals will receive Distinguished Alumni Achievement Awards: The Honorable Robert P. Casey, (J.D. 1956), governor of the Commonwealth of Pennsylvania; Emilio Angel Fernandez Jr. (M.E.A. 1976), inventor, president and chief executive officer of Pulse Electronics; Sandra Cavanaugh Holley, (B.A. 1965, M.A. 1966) president of the American Speech-Language-Hearing Association; and The Reverend John Philip Whalen (J.D. 1977), executive director, Consortium of Universities of the Washington Metropolitan Area.

The invocation and benediction will be given by The Venerable Kittithammavanno Bikku, of Wat Lao Buddhavong, a temple serving the largest Buddhist community on the East Coast. Music for the convocation will be provided by the Potomac Brass, under the direction of Wayne Anthony Baughman.

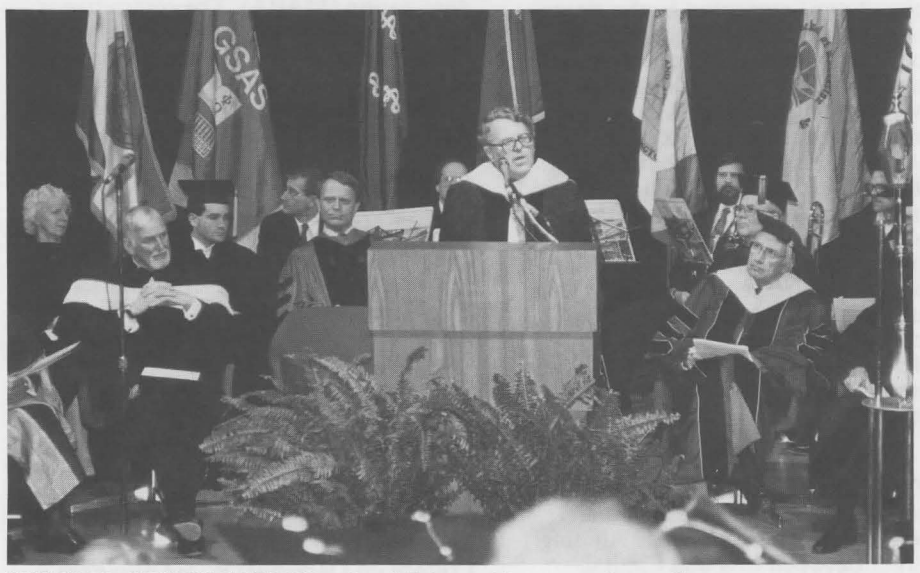
DANCE COMPANY TOURS IN CENTRAL AMERICA

The Dance Construction Company of Washington, D.C., under the direction of Maida Withers, associate professor of dance, toured Mexico, Guatemala and Costa Rica in late 1987. The troupe performed in Mexico City, Guatemala City and San Jose, Costa Rica, as part of a cultural and educational exchange in contemporary modern dance.

In Guatemala, the company was sponsored by First Lady Raquel de Cerezo, wife of the president. Mrs. Cerezo introduced the company to Guatemalan audiences and translated Withers' remarks before the performances.

The tour included the world premiere performance of "Obsession," an evening of entertainment choreographed by Withers to an original new jazz score. In addition, Withers was a guest artist for one week in San Jose where she taught daily workshops on choreography. She participated in the Second International Dance Research Conference in Taxco, Mexico, presenting a paper, "Light Suite: An Original Video/Dance."

The tour was made possible by the governments of Mexico, Guatemala and Costa Rica and was further supported by individual and corporate contributions.



SPECIAL CONVOCATION -- Lord Briggs of Lewes at the podium

LORD ASA BRIGGS IS HONORED, DISCUSSES VICTORIAN RESPONSE TO INVENTIONS

At a special convocation in the Marvin Theatre, Friday, January 29, Lord Asa Briggs of Lewes received the honorary degree of Doctor of Humane Letters and delivered an address titled "Victorian Inventions: The Imaginative Response to New Technology." In conferring the degree, President Lloyd H. Elliott said that Lord Briggs "merits the title, in our time, of Most Eminent Victorianist."

In a wide-ranging discussion, Lord Briggs gave abundant examples of responses to 19th century inventions by such poets and novelists as Charlotte Bronte, Rudyard Kipling, and Charles Dickens, as well as the reactions of scientific writers and cartoonists. Among the inventions of the Victorian era, the steam engine, the automobile, electricity, the telegraph or "wireless," and the telephone received particular attention. Electricity was seen as a new source of light and power. *The Times* of London called the laying of the first transatlantic cable "a vast enlargement . . . given to the sphere of human activity." The telegraph, Dickens said, had outdone "even delicate Ariel who could 'put a girdle round the earth in 40 minutes.'"

"We can trace back," Lord Briggs observed, "continuing patterns of response to the different novelties in the sequence that we now call a continuing 'communications revolution.'" He commented that the value of literature in studying the Victorian response to technology is that it gives evidence of what seemed to matter at the time. "I leave it to you," he told his listeners, "to compare our own technologies and our responses to them to those of the Victorians."

MANHEIM HEADS POLITICAL COMMUNICATIONS PROGRAM

Jarol B. Manheim, an authority on political marketing and public relations, has been appointed director of the Political Communications Program at GW, effective Spring Semester 1988. He is the first full-time director of the five-year-old program.

Manheim has written extensively on manipulative political communication. His works have been published in leading journals of political science and communications such as *American Political Science Review* and *Journalism Quarterly*. He is the author of several books, including *Empirical Political Analysis: Research Methods in Political Science* (2nd ed., Longman, 1986) and *The Politics Within: A Primer in Political Attitudes and Behavior* (2nd ed., Longman, 1982).

Manheim comes to GW from Virginia Polytechnic Institute and State University where he served for 13 years as an assistant professor and later as associate professor of political science. Prior to that, he served on the faculty of the City University of New York. He earned a B.A. from Rice University and an M.A. and Ph.D. in political science from Northwestern.

TRACHTENBERG ARTICLES ON RESERVE IN GELMAN

For the convenience of members of the University community, a selection of articles by President-designate Trachtenberg has been placed on file at the Reserve Desk in Gelman Library.

GW HOSPITAL WOMEN'S BOARD IS 90 YEARS OLD

The George Washington University Hospital Women's Board celebrated it's 90th birthday on February 3 at an informal midday ceremony in the University Hospital. Acting Vice President for Medical Affairs L. Thompson Bowles and Medical Director of the University Hospital William F. Minogue were present to extend their congratulations and appreciation to board members.

Founded in 1898, the board has been a major support group for the hospital over the years. More than $165,000 was donated to the Medical Center by the board in 1987. The funds were used to purchase an Argus Laser; support a part-time coordinator for a pilot program in the oncology unit; and to provide equipment for Ross Hall and additional equipment for the Himmelfarb Library's microcomputer laboratory.

The new position of executive coordinator for volunteer services in the University Hospital is being partially funded by the board as its latest contribution. The position is held by Mary McIntosh, who was formerly associated with GW Hospital Administration.

LISNER AT NOON

Lisner at Noon presents a performance of Pre-Baroque music this Wednesday by the Washington Camerata at noon in Lisner Auditorium. Bring your lunch and a friend. For more information, call 46800.

ELLIOTT RECEIVES DEGREE FROM AMERICAN UNIVERSITY

An honorary Doctor of Laws degree was conferred on President Lloyd H. Elliott by the American University at its 86th commencement ceremonies Sunday, January 31, in Constitution Hall. American University President Richard Berendzen awarded the degree.

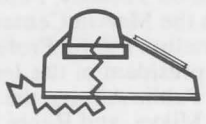
Elliott delivered the commencement address, "Educating Americans: A Personal Responsibility." He expressed grave concern that "we are facing a crisis in the primary and secondary education of our children." Elliott observed that "we have somehow gone from a nation of ambitious, undauntable parents and children . . . to a nation with sagging test scores and a group mentality that often translates 'work' as 'too much trouble.'" He called attention to the current status of the school teacher as often "underappreciated and overlooked."

There are, however, "promising signs" of a reawakening Elliott said, noting that "good minds are at work" on the problems. He cited reports from the National Endowment for the Humanities and the Department of Education recommending changes in secondary school curricula, and pointed out the recent establishment of the National Geographic Society Education Foundation.

"Perhaps too many parents have opted out of taking leading roles in their children's education," he commented, adding that something vital is lost when the responsibility for schooling is separated from direct parental or family support. He emphasized the need for reallocation of time, "time that undoubtedly needs to be spent with our children." Referring to John Curran, who defined the price of liberty as "eternal vigilance," Elliott concluded, "It may well be that the price of an *educated society* also is eternal vigilance. If so, it will be well worth the cost."

UNITED WAY CAMPAIGN TOPS LAST YEAR'S TOTAL

The result of the GW 1987 United Way Campaign is a grand total of $130,077. This is $4,855 more than last year's figure of $125,222. Of this year's total, $66,714 came from the University side and $63,363 from the Medical Center. Director of Personnel Services James E. Clifford and Medical Center Administrator Michael M. Barch were campaign co-chairs.



SPECIAL GW PHONE NUMBER ESTABLISHED

The University now has its own special announcement telephone number -- 994-1234. One of the services the announcement number will be providing is information on the operational status of the University due to inclement weather conditions. By dialing 994-1234, you can have prompt, accurate information as to class schedules, leave policy or delayed opening. You can learn who is expected to report for work if the University remains open during bad weather conditions. As the need arises, you can also keep informed of other University administrative announcements.

CAREER WEEK -- Peggy Simpson of Hearst Newspapers, right, and Ed Meyer of WMAL, standing, talked with students after the panel on Media Careers, February 1.

FINE ARTS FACULTY SHOW IN DIMOCK

Works of full-time fine arts faculty members will be on view in the Dimock Gallery from February 11 through March 10.

The exhibition will include painting, sculpture, photography, watercolor and drawing. Some of the works will be for sale. Many of the faculty members are well-known Washington artists whose works have been exhibited widely in the Washington Metropolitan area.

The full-time faculty members are Constance Costigan, H.I. Gates, Fuller Griffith, Jerry Lake, Samuel Molina, Turker Ozdogan, Arthur Hall Smith, Jeffery Stephanic, Douglas H Teller, William Woodward and Frank Wright.

Gallery hours are: 10 am to 5 pm, Tuesday through Friday; noon to 5 pm Saturday; closed Monday.

BRIEFLY...

"The Hostage," a play by Brendan Behan, will open Thursday, February 18, at 8 pm in the Marvin Center Theatre. The production, directed by Nathan Garner and sponsored by the Department of Theatre and Dance will run through February 20 with a matinee on Sunday, February 21 at 2:00 pm. For ticket information, call 48072.

February is Heart Health Month as designated by the American Heart Association. To honor the month, the Wellness Resource Center is sponsoring a Brown Bag Lecture Series featuring fitness and health tips. The lectures are scheduled for Wednesdays from noon until 1 pm in the Marvin Center. For dates and topics, phone 46927.

Black History Month continues with three events sponsored by the Black People's Union: Tuesday, February 9, a workshop on the migration of black women with Elizabeth Clark-Lewis, Benjamin Banneker Professor of Washington Area Studies; Tuesday, February 16, a workshop with Harry Thomas Jr. of the Young Democrats; and on Thursday, February 18, a panel discussion on black entrepreneurs. All three events are scheduled for 6 pm in Building HH and are open without charge.

The Ethical Condition of the Jewish Community will be the subject of a panel discussion on Tuesday, February 9, at 8:15 pm in the Marvin Center, Room 302. Panelists will be Professor Daniel Elazar, president of the Jerusalem Center for Public Affairs, the Honorable Abner Mikva, and Rabbi Walter S. Wurzburger. The session is open to the community. A discussion will follow.

PROFESSIONAL ACTIVITIES

RUTH BARI, professor of mathematics, is among those who appear in *Women in Mathematics*, a bibliographical sourcebook, edited by Louise S. Grinstein and Paul J. Campbell, (New York: Greenwood Press, 1987).

ELIZABETH CLARK-LEWIS, Benjamin Banneker professor of Washington Area Studies, presented a paper, "'Each Day, Every Day': The Structure of African-American Female Migrants' Work in the District of Columbia, 1890-1930," at a session of the 102nd Annual Meeting of the American Historical Society in Washington, DC, December 28-30.

JONATHAN FIFE, professor of education and director of the Educational Resources Information Center (ERIC) Clearinghouse on Higher Education, was the first recipient of a Service Appreciation Award presented by the Association for the Study of Higher Education. The award was given in recognition of Dr. Fife's decade-long voluntary service as the association's executive secretary-treasurer. For six of those years, he also served as the managing editor of the association's quarterly journal, *The Review of Higher Education*. At the annual Fund for the Improvement of Postsecondary Education Project Directors' Meeting held in Washington, DC, on November 10, Dr. Fife gave two presentations on the topic, "Institutionalizing Innovation: Dissemination Is Both an Art and a Science."

HOWARD GILLETTE, professor of American civilization, presented a paper, "Washington, DC: The Abiding Conflict Between City and Capital," during a session of the 102nd Annual Meeting of the American Historical Society in Washington, DC, December 28-30.

DONALD HAWKINS, professor of travel and tourism and research professor of medicine, participated in the development of an educational video on the future of American travel called "Tourism: A Global Window on Tomorrow." The tape features a discussion between Hawkins and three other travel industry experts.

JAMES C. KING, professor of German, spoke on "Interlibrary Loan Between the Abbeys of Reichenau and St. Gall in the Early Eleventh Century" at a Phi Beta Kappa Association meeting in Washington, DC, on December 10.

ROGER H. LANG, professor of electrical engineering and applied science, has been elected a Fellow of the Institute of Electrical and Electronics Engineers (IEEE). He was cited "For Outstanding Contributions to Remote Sensing."

THE OFFICE OF SAFETY AND SECURITY, was presented with an "Award of Excellence" for its safety newsletter *GW's Alive!* at the Campus Safety Association's 33rd annual national conference in Edmonton, Alberta, Canada. The Campus Safety Association, an adjunct of the National Safety Council, is comprised of safety professionals representing member colleges and universities across the United States and Canada.

RAYMOND L. PICKHOLTZ, professor of electrical engineering and applied science, chaired a session on "Multiple Access Communications" at the Global Telecommunications Conference in Tokyo, in November. He was also the keynote speaker at a special workshop in Osaka where he gave a talk on "Multimedia Communications: The Technical Challenges."

JERROLD M. POST, professor of psychiatry and public policy, has been awarded a two-year research grant by the Harry Frank Guggenheim Foundation to study "Pathways of Terrorism." The grant will permit Dr. Post to continue his ongoing research on the comparative psychology of political terrorists. The principal focus of this research will be on developing models of terrorist behavior and on analyzing the life cycle of political terrorists.

PHILIP REEVES, professor of health services administration, has been appointed to a national task force on integrating information on AIDS into curricula for health services administration degrees. The task force has been funded by the Bureau of Health Professions under the U.S. Department of Health and Human Services.

KATHY L. SIMS, director of the Career Services Center, is serving as chair of the newly-formed Domestic and International Professional Exchange Committee of the Middle Atlantic Placement Association (MAPA). The committee is developing programs to study the typical work day of MAPA members in the U.S. and to explore opportunities for exchanges between MAPA members and their counterparts in other countries.

STEPHEN SMITH, professor of economics, presented a paper on "Explaining Recent Yugoslav Economic Performance: Some Clues from Monetary Policy and the Role of Bills of Exchange as Firm-Created 'Money'" at a conference at the University of Aalborg, Denmark, November 23-27. The paper will be published in a conference volume.

JAMES E. STARRS, professor of law and forensic sciences, delivered a speech on"Fractured Forensic Sciences: The Courts on Trial" to the New York Society of Forensic Sciences at Lehman College on December 9. He also gave a speech entitled, "Science in the Courtroom," to the Graduate Speakers Program at the John Jay College of Criminal Justice on December 10.

PETER THALL, associate professor of statistics, delivered an invited talk, "Two-Stage Designs for Evaluating New Treatments in Comparison to Standard Therapy," at the Cancer Therapy Evaluation Program, Division of Cancer Research, National Cancer Institute on December 1.

STUART A. UMPLEBY, professor of management science, delivered three lectures at the Institute for Systems Studies in Moscow in late November on "A History of Government Regulation of Business in the United States," "Some Recent Developments in Management Thought," and "Large-Scale Social Experiments and their Relevance for Perestroika."

HARRY WACHS, director of vision and cognitive development at the Reading Center, was a participant at the First International Conference of Neurological Dysfunction held in Chester, England, October 3-5.He gave two presentations, the first of which was on the Wachs Analysis of Cognitive Structures which features a clinically based pre-school, non-verbal test to analyze a child's conceptual development and predict school readiness. For his second presentation, Wachs discussed optometric techniques for learning related visual problems as they relate to sensorimotor operational development.

PUBLICATIONS

DAVID BROWN, professor emeritus of management, three articles: "Management: How and Where it Originated," in *The Bureaucrat*, Summer, 1987; "Selection and Development of Senior Administrators for the Public Service," in *Management Development: Senior Administrators*, issued by the Department of Technical Cooperation for Development, United Nations, October 1987; and "How to Make Quality Decisions," in *Topic*, a publication of the U.S. Information Agency, October 1987.

NEAL CHALOFSKY, visiting assistant professor of human resource development, a co-authored article, "HRD in Industry: Lessons for Health Care," in *The Journal of Healthcare Education and Training*, Summer, 1987.

ANTHONY COATES, professor of geology, an article co-authored with Jeremy Jackson of the Smithsonian Tropical Research Institute in Panama, "Clonal Growth, Algal Sybiosis and Reef Formation by Corals," in *Paleobiology*, Vol. 13, No. 4, 1987.

JOSEPH A. GREENBERG, professor of education, a co-authored chapter, in *Key Resources on Higher Education Governance, Management, and Leadership,* (Jossey-Bass, 1988).

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, an article, "Business Education: Precondition for Economic Growth," in *The World Economic Herald*, a leading business and economic journal in China, November 30.

CHRISTOPHER JOYNER, associate professor of political science, an article, "The Antarctic Minerals Negotiating Process," in *The American Journal of International Law*, Vol. 81 (4), October 1987, pp. 888-906. Also, a review essay of *The Palestine Problem in International Law and World Order*, by W. Thomas Mallison and Sally V. Mallison, published in *The George Washington Law Review*, Vol. 55 (3), March 1987, pp. 689-714.

HAROLD LIEBOWITZ, professor of engineering and applied science, a book, *Microcomputer Applications in Education and Training for Developing Countries,* co-authored with fellow members of an ad hoc advisory panel of the Advisory Committee on Technology Innovation, Board on Science and Technology for International Development, Office of International Affairs, National Research Council, (Boulder, Colorado: Westview Press, 1987).

ROY C. LINDHOLM, professor of geology, a chapter, "Sedimentary Rocks, Field Relations," in *The Encyclopedia of Field and General Geology*, (Florence, Kentucky: Van Nostrand Reinhold,1987)

ROBERT H. WALKER, professor of American civilization, an essay, "The Reform Frontier and the American Character," adapted from the first visiting lecture given at a meeting of the Institute of American and Canadian Studies at Sophia University in Tokyo in June 1987. It appears in the first issue of the *Journal of American and Canadian Studies*.

PERSONNEL NOTICES

POSTDOCTORAL/RESEARCH ASSOCIATE, full-time, Department of Pathology. (Individual to study nuclear changes involved in initiation of hepatocarcinogenesis. Should be familiar with cloning/sequencing, RNA work, flow cytometry, photoaffinity labeling, HPLC techniques, and various gels. Will have some supervisory responsibilities in 5-6 person research group.) Contact Dr. Gary Clawson, Department of Pathology, Ross Hall Room 510-511, Washington, DC 20052, 45057.

RESEARCH ASSOCIATE, full-time, Division of Nuclear Medicine. (Radiopharmaceutical Chemistry Section needs individual with a Ph.D. in radio, physicalorganic or organometallic chemistry for research involving synthesis of chelating agents, mechanistic studies on aromatic substitution reactions and chemical modifications of proteins for the preparation of tumor imaging agents. Requires thorough knowledge of reaction mechanism and analytical techniques.) Send resume to Geri Rosen, Grants Manager, GWUMC, Room 708, 2300 Eye Street, NW, Washington, DC 20037.

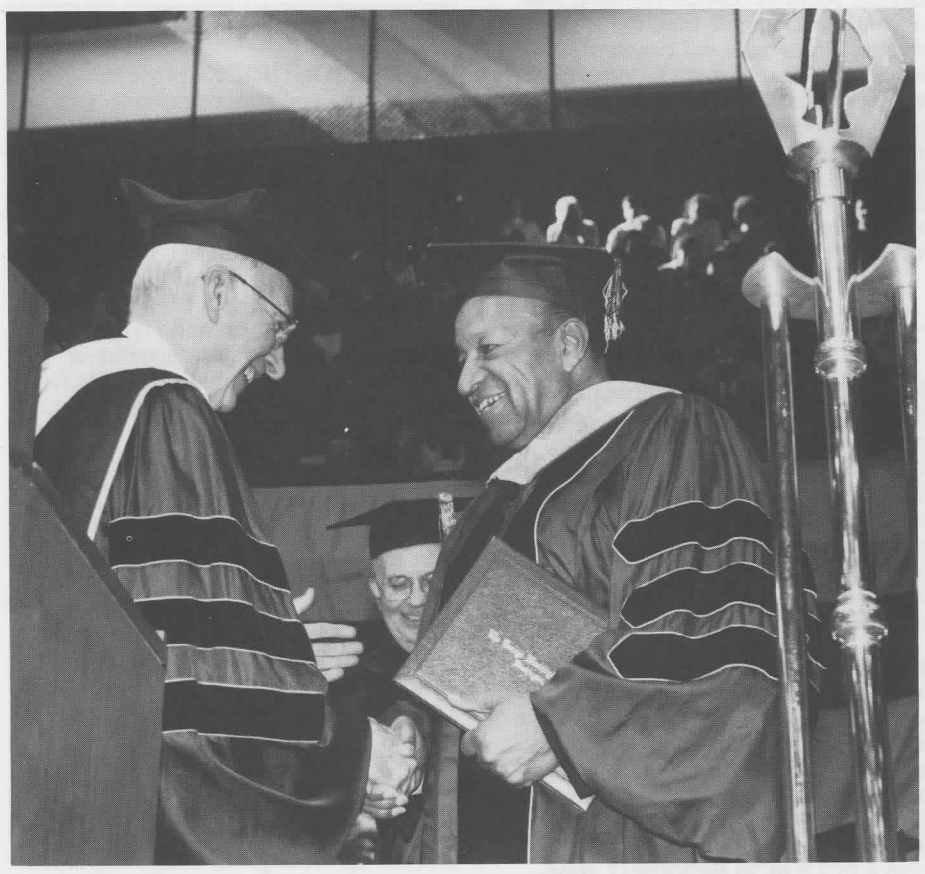
The George Washington University is an equal opportunity/affirmative action employer.

Number 498

GW REPORT

February 22, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY



WINTER CONVOCATION -- President Lloyd H. Elliott, left, congratulates Honorary Trustee John Bonner Duncan after conferring on him the degree of Doctor of Public Service.

ELLIOTT SPEAKS ON UNIVERSITIES AT FEBRUARY 14 WINTER CONVOCATION

President Lloyd H. Elliott, delivering the address at the Winter Convocation, admitted to "a lifelong love affair with schools, colleges and universities" and went on to examine the place of the university in society and to speak of his hopes for George Washington.

Elliott said he had consciously avoided calling George Washington "my university" but that he would, for a few minutes, give a "realistic blueprint" of what he wants "my university" to be.

First offering a "broad definition" of a university, Elliott said it "is a place where students may come together to pursue learning; where teachers may teach; where scholars may pursue scholarship . . . where men and women may study, search, and one hopes, may discover ways to make a better life for all humankind." He said that as he scans society's horizons, he sees the university as "the one institution of all institutions that holds the greatest promise for the advancement of civilization."

The president then gave two principles as guides for George Washington -- first, that it be a haven for what is called in academe "the pursuit of truth," independent, nonsectarian, and nonpartisan; second, that it be a place of academic freedom, of free inquiry. "The spirit of truth and the spirit of freedom are the pillars of my university. . . . Students given the freedom to explore, to dissect, to scrutinize . . to seek truth *wherever* that quest leads them . . . these students develop the habit of an inquiring mind that will serve them well for a lifetime. . . they will form the background of our democratic society and provide intellectual nourishment to civilization."

Elliott expressed confidence in the future of the University if it follows the ideals of truth and freedom. "It will reach greatness and it will stand and serve throughout the ages," he said, concluding, "Your university is the George Washington University, and it is mine. I thank you for this time together and I give thanks for the treasure that we share."

President Elliott received a standing ovation when he was introduced to speak by Board of Trustees Chairman Everett H. Bellows who called him a "successful leader during 23 years filled with accomplishment."

HIGHLIGHTS FROM WINTER CONVOCATION

In conferring the honorary degree of Doctor of Public Service on John Bonner Duncan, President Elliott said, in part, "We celebrate your role in building bridges between university and community. ... Today's students are the beneficiaries of your farsighted work with their predecessors and your legacy of concern for the quality of student life at the University."

Mrs. Elliott was presented a bouquet of red roses on behalf of the University community by Professor John Ziolkowski, chairman of the faculty marshals for the day, following brief remarks of appreciation by University Marshal Robert G. Jones. She received warm applause.

PRIDE DAY -- Raffi Terzian, GWUSA vice president for student affairs, presented a Pride Day T-shirt to Melodie Miller, Columbian College sohpomore, as part of the University's Pride Day activities.

HILLEL MEZUZAH IS DEDICATED

Leaders of the Reform, Conservative and Orthodox Jewish movements participated in a dedication ceremony for a mezuzah at the B'nai B'rith Hillel Foundation building now under construction at the corner of 23rd and H Streets, N.W., on February 10.

A mezuzah is a case containing key Scriptural passages which traditionally adorn the door posts of Jewish homes. The mezuzah placed on the building was dedicated in honor of Dr. and Mrs. Seymour Alpert. Dr. Alpert is professor emertitus of anesthesiology of The George Washington University and former vice president for development of the University.

Taking part in the ceremony were Rabbi Kassel Abelson, president of the Rabbinnical Assembly of America (Conservative); Rabbi Eugene Lipman, president of the Central Conference of American Rabbis (Reform); and Rabbi Milton Polin, president of the Rabbinical Council of America (Orthodox), as well as Rabbi Gerald Serotta, director of GW's Hillel Foundation.

The building is expected to be completed this spring.

WASHINGTON AREA STUDIES FELLOWSHIPS AVAILABLE

The Center for Washington Area Studies announces two fellowships to be awarded to graduate students at GW for the 1988-89 academic year. Students in the humanities and social sciences and in fields concerned with public policy and planning are invited to apply. Applicants should have a vital interest in local issues and concerns related to the Washington area.

The Benjamin Banneker and the Center for Washington Area Studies (CWAS) Fellowships each involve a time commitment of approximately 20 hours per week. Fellows have the opportunity to conduct research, participate in Center conferences, edit manuscripts, and assist in the Center's publications program.

Candidates should be nominated by department chairs, or division directors. The candidate's resume and a letter of support from a faculty member should be sent to Dennis Gale, Director, Center for Washington Area Studies, 515 22nd Street, NW, Room 401, Washington, DC 20052. Selections will be made by the Executive Committee of the Center for Washington Area Studies. For more details, call 41414. The deadline is Tuesday, March 1.

GEORGE WASHINGTON AWARD NOMINATIONS DUE

The Joint Committee of Faculty and Students is seeking nominations for the 12th annual George Washington Awards, to be presented at the spring commencements.

The awards were established in 1976 to give special recognition to individuals whose accomplishments have had a broad impact on fellow members of the GW community, and whose service has been above and beyond that which is usual or expected.

All students, faculty, administrators and staff of the University may submit nominations or be nominated. Guidelines and forms for nominations can be obtained from the Office of the Vice President for Student Affairs, Rice Hall, Room 403.

The deadline for nominations is Monday, February 29, at 5 p.m. Up to 10 awards will be presented. For more information, contact the Office of Student Affairs at 47210.

JULIUS C. GREEN HEADS AUXILIARY SERVICES

Julius C. Green, formerly assistant business manager at Morgan State University in Maryland, became director of auxiliary services here at George Washington on February 1.

Green had been at Morgan State in the Division of Finance and Management since December, 1986. From February to December, 1986, he was assistant legislative auditor of the State of Maryland. He was bookkeeper for the Greater Northwest Community Coalition for two years and served four years in the United States Air Force.

The new director has had broad experience in all aspects of administrative responsibility and financial management related to auxiliary enterprises in a university as well as agency auditing and review, according to Assistant Treasurer for Business and Procurement Don Runyon.

Green's Certificate of Public Accountancy (C.P.A.) was acquired in 1986. He is currently an M.B.A. candidate with a concentration in finance at the University of Baltimore, where he received a Bachelor of Science in Accounting in 1983.

Holder of an Air Force Commendation Medal and a University of Baltimore Distinguished Veteran Award, Green is a member of the National Association of Black Accountants. He succeeds John Harper, who left the University to be come assistant athletic director at Wichita State University.

OPPORTUNITY -- Keith Pettigrew, executive assistant, Office of the Vice President for Academic Affairs, left, talked with Patricia Porter, a graduate of Chamberlain Vocational High School, on Equal Educational Opportunity Day, February 11, when some 75 visitors came to campus to learn about educational possibilities at the University.

MACUHO NAMES AWARD FOR ANN WEBSTER

The Mid-Atlantic Association of College and University Housing Officers (MACUHO) has named its New Professional Award in honor of Ann Webster, director of Housing and Residence Life at the University.

The Ann Webster New Professional Award will be presented annually to a full-time professional who has worked in the field of housing or residence life for less than three years, and is currently a member of the mid-Atlantic region of the association. Selection will be based on significant contributions to the field and the region. Nominations for the first award will be made this spring.

In announcing the establishment of the award at the association's annual conference in January, MACUHO past president Maggie Tripp called Webster "an outstanding role model" and noted the impact she has had both on the profession and on new professionals in the field of housing and residence life. Webster has been associated with the University since 1966.

15th ANNUAL CONFERENCE ON WASHINGTON, D.C.

The Center for Washington Area Studies, together with the D.C. Public Library and the Columbia Historical Society, is sponsoring the 15th Annual Conference on Washington, D.C. Historical Studies, February 26-27, at the Martin Luther King, Jr. Memorial Library.

The conference is part of an ongoing cooperative effort between the three groups to preserve and record the history of the District of Columbia and the vicinity. William H. Becker, Chair of Department of History, will open this year's conference. There will be sessions on music in Washington; migrants, immigrants and refugees; and public health problems in the District; as well as a session on historical editing projects and the impact of Benjamin Banneker and Marion Anderson on Washington's development as an urban center.

The conference is partially funded by the D.C. Community Humanities Council. Sessions are open to all interested persons. No preregistration is required and there are no registration fees. For more information, contact the Columbia Historical Society at 785-2068.

MUSIC FACULTY RECITAL

The Department of Music will present a faculty recital featuring Ann-Myongsook Lee, soprano, Stephen Wellman, baritone, Francis Conlon, pianist, and William Wright, clarinetist, on Monday, February 29, at 8 p.m. in the Marvin Theatre. The program will include works by Purcell, Faure, Cornelius, Mendelssohn, and Spohr.

The box office opens at 6 p.m. Discounted parking and dinner are available to ticket holders. Call 46245 for more information.

NOMINATIONS FOR ALUMNI TRUSTEE DUE

Nominations for Alumni Trustees are due on Wednesday, February 24, and should be forwarded to the Nominating Committee, Alumni House, The George Washington University.

To be eligible for consideration, a candidate for the position of Alumni Trustee must hold an earned degree from the University; should have demonstrated interest in the University or been involved in activities of the General Alumni Association (GAA) or one of its constituent organizations; and should have given distinguished service in either volunteer or professional activities, both as a student and as a graduate. Questions can be directed to John R. Manning, GAA president,at 994-6435. Nomination forms are available from Alumni House, 714 21st Street, N.W.

MEMORIAL SERVICE FOR PROFESSOR OPPENHEIM

There will be a memorial service for the late S. Chesterfield Oppenheim on Friday, February 26, at noon in the Marvin Theatre.

Oppenheim, who died on January 29, at the age of 91, was a member of the faculty of The George Washington University Law School from 1927 to 1952. A professor of law at the University of Michigan from 1952 until 1965, he received emeritus status at the time of his retirement. The S. Chesterfield Oppenheim Antitrust and Trade Regulation Chair in the National Law Center was established in 1976. Oppenheim had been Distinguished Scholar and Adviser in the National Law Center since 1973, the same year he received an honorary Doctor of Laws from George Washington.

Professor Oppenheim specialized in antitrust, patent, trademark and copyright law. He had been chairman of the American Bar Association's Antitrust Law Section. From 1953 to 1955, he served as co-chairman of the Attorney General's National Committee to Study the Antitrust Laws.

Born in New York City, Oppenheim served in the Army in World War I. He held A.B. and A.M. degrees from Columbia University. He taught economics at the University of Michigan while attending its law school, from which he received his J.D. and S.J.D., degrees. A member of Phi Beta Kappa and Order of the Coif, he was a member of the District of Columbia and Michigan Bars.

ANNUAL STUDENT BOOK COLLECTORS' CONTEST

The Friends of the Libraries is sponsoring an Annual Student Book Collectors' Contest to encourage student interest in books, book collecting, and the building of a personal library. A total of $600 in prize money will be awarded at the annual meeting of the Friends in the spring. Winners will have an opportunity to display their personal collections.

The contest is open to all students enrolled at GW in the current academic year. Full-time University staff members and their families are not eligible. Participants should submit a list of 20 of books and include a general description. Judges will look for a unifying theme or interest that qualifies the books as a collection.

Entries should be submitted to the Special Collections Department in Gelman Library, Room 207, by Friday, March 11, at 4 p.m.

FACULTY WOMEN -- Mrs. Lloyd H. Elliott, left, talked with Mrs. Harold Liebowitz, center, and Mrs. Galip Arkilic at a February 12 coffee given in her honor by the Faculty Women's Club at Dacor-Bacon House.

ARTIST Joyce A. Lancaster, right, talked with Patricia Scott, assistant director, Office of Equal Employment Activities at the February 11, reception in the Colonnade Gallery in conjunction with the current exhibition, "Black History in the Making," the works of four black artists working in Washington -Lancaster, Juan L. Smith, Bill Thorne, and D. Omar Wynn. The exhibition runs through February 27.

BRIEFLY...

"How to Write a Good Fellowship Essay," a two-part workshop co-sponsored by GSAS Assistant Dean Avery Andrews, GW national fellowship coordinator, and Kim Moreland, director of the Writing Center, will begin on Friday, February 26, and conclude on Friday, March 4, in Gelman Library, Room 202, from 1 to 2:30 p.m. For more information, call 46455.

Black History Month events this week include a workshop on blacks in business with Martin Chivis, vice president of the Industrial Bank of Washington, on Tuesday, February 23, at 5:30 p.m. in Building HH, Room 208, sponsored by the Black People's Union, and a coffee hour in honor of Black History Month, from 4 to 7 p.m. in Building D, sponsored by the Equal Opportunity Programs and International Student Services.

John Silkin, British poet, essayist and editor of the literary quarterly, Stand Magazine, will read from his works in the Marvin Center Graduate Lounge, Room 405, at 8 p.m. on Thursday, February 25. The Reading is co-sponsored by the Department of English/Jenny McKean Moore Fund for Writers, B'Nai B'rith Hillel Foundation and the District of Columbia Jewish Community Center.

The U.S. Army Woodwind Ensemble will perform in the Lisner at Noon series on Wednesday, February 24, at noon in Lisner Auditorium. The concert is free and listeners are encouraged to bring a lunch.

Gelman Library's Faculty Seminar Series begins with "On-line Searching in the Humanities," on Wednesday, February 24, from 3 to 5 p.m. The seminar is open to GW faculty, and if space permits, to graduate students. For more information, call 46455.

"Schedules and Queues" is the topic of a Department of Operations Research colloquium being offered on Thursday, February 25, in Thompkins Hall, Room 201, from 5 to 6 p.m. Dr. Refael Hassin, Department of Statistics, Tel Aviv University, will be the guest speaker. Call 46084 for details.

INTERVIEWS

JONATHAN D. FIFE, professor of education, was interviewed by Javier Rodriguez of the *San Antonio Current* about the national standards for justifying greater research and doctoral activities at institutions classified under the Carnegie Foundation code as "research universities II."

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed by Carl Hall, senior business editor of the *San Francisco Examiner*, on the impact of Japanese Prime Minister Takashita's recent visit to the United States. The interview appeared on January 11.

YOUNG-KEY KIM-RENAUD, associate professor of Korean language and culture, discussed Korean language in an interview for the National Public Radio news program, "All Things Considered." The piece aired on December 17.

PUBLICATIONS

NIK ALEXANDRIDIS, professor of engineering and applied science, two co-authored conference papers: "Object-Quadtrees: An Efficient Structure for Processing/Transmitting Digital Images," for the International Conference on Digital Signal Processing in Florence, Italy, September 7-10; and "Efficient Transmission of Hierarchically-Structured Images Using Walsh-Hadamard Transform and Data-Flow Architectures," for the International Conference on Communication Technology Technology in Naujing, China, November 8-11. Two articles: "An Encoding Scheme for the Efficient Representation of Hierarchical Image Structures," in *Information Processing Letters*, Vol. 25, 1987, pp. 119-206; and "Microcomputers," in *Encyclopedia on Informatics*, Athens, Greece, 1987.

PETER CAWS, university professor of philosophy, an article, "Too Much Assertion, Too Little Argument," in *GW Forum*, Winter, 1987.

MARVIN S. KATZMAN, associate professor of business administration, and Carolyn I. Landey, U.S. Army Community and Family Support Center, an article, "Strategic Human Resources Management in Action: A Case Study in Public Administration in the U.S. Army," in *Public Administration Review (Lahore)*, January-June, 1987.

KHALID MAHMOOD, professor of engineering, and MUHAMMAD HAQUE, associate professor of engineering and applied science, collaborated with A. Masud Chourdri, Director General of the Alluvial Channels Observation Project, Pakistan, to edit *Mechanics of Alluvial Channels*, (Littleton, Colorado: Water Resources Publications, 1988). Also by Mahmood, a World Bank technical paper, *Reservoir Sedimentation*, No. 71, (Washington, D.C.: The World Bank, 1987).

LEONARD NADLER, professor of human resource development and adult education, a book co-authored with Zeace Nadler, *The Comprehensive Guide to Successful Conferences and Meetings*, (San Francisco: Jossey-Bass, 1987).

RICHARD H. SCHLAGEL, Elton Professor of Philosophy, a review of *A Realistic Theory of Science*, by C.A. Hooker, in *The Review of Metaphysics*, December, 1987, pp. 393-395.

LOIS G. SCHOWERER, professor of history, a book, *Lady Rachel Russell (1637-1723): "One of the Best of Women,"* (Baltimore: Johns Hopkins University Press, 1988).

ROBERT WALKER, professor of American civilization, a lecture published in its full English version, "The Constitution and Social Change: From Liberties to Rights," in *Doshisha American Studies*, a publication of the Doshisha University Center for American American Studies, January 1988; an abridged version, in Japanese, in *Trends*, a bimonthly magazine issued by the U.S. Embassy in Tokyo, December, 1987.

The George Washington University is an equal opportunity/affirmative action employer.

Number 499

GW REPORT

February 29, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

M.K. WU, Department of Physics, University of Alabama, right, talked with Thomas D. Gillespie, senior policy analyst, Office of Science and Technology, Executive Office of the President, following Wu's February 19 presentation.

SUPERCONDUCTIVITY RESEARCH MAY BENEFIT DAILY LIFE

"90-K Superconductivity - After One Year" was the topic addressed by M. K. Wu of the Department of Physics, College of Science, the University of Alabama, at a February 19 seminar sponsored by the SEAS Institute for Technology and Strategic Research.

Wu reviewed activities in high temperature superconductivity during the past 12 months, and discussed the discovery of the first 90-K superconductor, the major results of superconductivity research, advancements in processing techniques and the search for new materials.

In informal conversation following his scientific presentation, Wu mentioned some of the practical applications the current research in superconductivity and superconductive materials may bring.

There is now a device called a "SQUID," a superconductivity quantum interference device, which in everyday life is useful for the detection of termites.

Applied to transportation, superconductivity can make possible a magnetic levitation train, or floating train, which moves above the ground. A model train has been constructed in Japan, but Wu said it would be "maybe 20 years" before such a train would be in general use.

In hospitals, medical imaging devices would benefit from the superconducting effect. Superconductivity is now being used in CAT scans.

In the future, there may be smaller computers using superconducting devices. The problem of overheating will be less or non-existent. With smaller switching devices, these computers will function much more rapidly, Wu said.

URBAN AND REGIONAL PLANNING PROJECT SELECTED FOR NATIONAL AWARD BY AICP

A project completed by a team of graduate students in urban and regional planning, "Parks and Paths for People," has been selected to receive the student project award given annually by the American Institute of Certified Planners (AICP). The award will be presented at the annual meeting of the American Planning Association in San Antonio, Texas, April 30-May 3.

The "Parks and Paths for People" project was begun by a team of 11 candidates for the Master of Urban and Regional Planning degree enrolled in the studio course, U&RP 215, Advanced Planning Problems, during the fall semester of 1986. Five members of the team also worked during the following spring and summer until the project was completed.

Subtitled "Parks, Recreation and Open Space Plan for the City of Annapolis, Maryland," the project was a joint effort of the Institute for Community Research and Development of SGBA, the Departments of Planning and Zoning and of Parks and Recreation, and the Parks and Recreation Advisory Committee of Annapolis, Maryland.

Faculty for the project were Professor of Urban and Regional Planning Dorn C. McGrath Jr., Assistant Professorial Lecturer in Urban and Regional Planning Margaret K. O'Bryon, and Javier Elizalde, a visiting scholar from Spain.

The graduate student team included Terese Bernert (Massachusetts), and Wendy Simmons (Maryland), co-cordinators, and Kerri Canepa (Florida), Michael Hines (Pennsylvania), Michael Jones (California), Helene Kasser (Maryland), Michael La Place (New Jersey), Tom Miller (Michigan), Stephen Morris (Maryland), Keith Robbins (New Jersey), and Beth Weiksnar (Michigan).

Criteria for the award included its innovativeness, transferability, quality, implementation and comprehensiveness. The award recognizes outstanding achievements that contribute to advances in the field of planning by a group of students in an accredited/recognized planning curriculum.

CHERYL NEELY WINS AWARD FOR DESIGNS

GW Student Cheryl Neely has won the Region II Design Award of the American College Theatre Festival (ACTF) for theatrical design excellence in costume design.

Neely, an M.F.A candidate in theatre design, was singled out for her costume work for *A Flea in Her Ear*, a play by Georges Feydeau, presented in the fall of 1987 by the University Theatre. Her entry will be on display at the Kennedy Center during the National ACTF in April, when national winners will be selected in the areas of costume and set design. These winners will receive an all-expense-paid trip to New York City to visit the studios of distinguished designers.

Regional adjudicators remarked on the calibre of Ms. Neely's work, and congratulated her, her instructors and the Department of Theatre and Dance.

SIA LECTURES ON MIDDLE EAST AND CENTRAL AMERICA

The Iran/Iraq War and "Contragate" will be the topics of two upcoming lectures sponsored by the School of International Affairs.

Phoebe Marr, senior defense analyst for the National Defense University, will speak on "The Iran/Iraq War: The Outlook for U.S. Interest" on Tuesday, March 1, at 2 p.m. in the Marvin Center, Room 405. The lecture is sponsored by the Security Policy Studies Program.

On Wednesday, March 2, Peter Kornbluh, information analyst at the National Security Archives, will discuss "The Reagan Administration: Iran-Contragate and Nicaragua" in a session sponsored by the Latin American Studies Program in Funger Hall, Room 310 at 12:30 pm.

Both lectures are open to the University community. For more information, call 46240.

GW FACULTY TRIO PERFORMANCE, MARCH 7

The GW Faculty Trio will perform a program of Mozart, Brahms and Grahn, on Monday, March 7, at 8 p.m. in the Marvin Theatre.

The perfomance will mark the world premiere of the Grahn work, "Nocturne for Piano Trio and Tape." Ulf Grahn is a GW associate professorial lecturer in music.

Trio members are Mary Findley, violinist; Marilyn Garst, pianist; and Keith Fleming, cellist. Tickets will be available at the door. Call 46245 for more information.

STUDENT CERAMICS SHOW

Works of graduate and undergraduate students in ceramics will be on view in the Colonnade Gallery from March 1 through April 16.

The exhibition, titled "GW Ceramics Program Annual Student Show," will include various types of ceramics, both sculpture and pottery.

Students participating in the show are Maureen Butt, Michelle Dunn, Faika Atallah, Leslie Burka, Lucrecia Palza, Beverly Carpenter, Vivian Davis, Andrea Lukowski, Janathel Marie Shaw, Beth Gotfried and Min Xu.

The Colonnade Gallery, in the third floor of the Marvin Center, is open from 10 a.m. to 7 p.m. daily.

"EXCELLENCE IN STUDENT LIFE" AWARDS NOMINATIONS DUE

The Division of Student Affairs is seeking nominations for the third annual "Excellence in Student Life" Awards. This awards program was initiated two years ago to recognize GW organizations and individual students whose efforts have enhanced the quality of campus life. A ceremony is scheduled for Friday, April 22, for the award presentations.

Awards will be given in three categories: Chartered Campus Organizations; Registered Campus Groups; and the Baer Awards for Individual Excellence. The Baer Awards recognize no more than six students whose contibutions to campus life have transcended the activities of any one or more groups with which they have been affiliated.

Nomination forms and further information may be obtained from the Student Activities Office in Room 427 of the Marvin Center. Completed forms must be submitted by, Friday, March 25, at 5 p.m.

FINE ARTS FACULTY members H.I. Gates, left, and Constance Costigan discussed Gates' mixed media "Standing Warrior," right, at the opening of the Dimock Gallery's current exhibition of 43 works by fine arts faculty, which runs through March 10.

EGYPT TO BE SUBJECT OF FIRST WEDNESDAY LECTURE

Mohammed Wahby, minister of press and information of the Embassy of the Arab Republic of Egypt will speak on "Egypt Today" in the First Wednesday Lecture Series on Wednesday, March 2, at 8 p.m. in the Marvin Center third floor ballroom.

Admission is free but those planning to attend should call 46435 to reserve seating. Dinner, for both members and non-members of the GW Club, will be available beginning at 6:30 p.m. Call 46610 for dinner reservations.

BRIEFLY...

International Career Day, an annual event sponsored by the Washington International Trade Association, will be held on Wednesday, March 2, from 8:30 a.m. to 4:00 p.m. Registration material for both students and non-students is available in the Career Services Center, Academic Center T-509. There is a charge. For event location and other details, call 48630.

Lisner at Noon will welcome jazz guitarist Bill Harris, who is known as "Guitar Bill," on Wednesday, March 9, in Lisner Auditorium at noon. The event is free and listeners are invited to bring a lunch.

RIBBON-CUTTING -- University Librarian Sharon J. Rogers, left, and Vice President for Development and University Relations Michael J. Worth, officiated at a February 18 celebration of the complete rebuilding of Gelman Library elevator one.

INTERVIEWS

JERROLD POST, professor of psychiatry and public policy, was interviewed by CBN News on the topic of research in terrorism and public policy, on January 26. He discussed the effects of illness and disability on political leaders, as a guest on a WRC-AM Radio talk show airing February 5.

PHYLLIS PALMER, assistant professor of women's studies and of American civilization, and ROBERTA SPALTER-ROTH, adjunct assistant professor of women's studies, were interviewed on the Mike Cuthbert Show, WAMU-FM, on January 6. They discussed their paper, "Gender Practices and Employment: The Sears Case and the Issue of 'Choice.'"

PROFESSIONAL ACTIVITIES

PETER CAWS, university professor of philosophy, presented a paper on "Choosing Emotions: The Late Sartre and the Early Flaubert" at the Sartre Circle in New York on December 28. In addition, he presented a lecture, "Can There Be a Science of Literature?," at Drexel University in Philadelphia, on January 11.

JONATHAN CHAVES, associate professor of Chinese, presented a lecture, "'No End to Inspiration': Responses to the Fall of the Ming Dynasty in Chinese Poetry," for the Council on East Asian Studies, Yale University, February 16.

GARY CRUM, associate professor of heath services administration, has received a fellowship from the Association of University Programs in Health Administration to study ethical dilemmas in nursing homes and hospices. He spoke on the topic of "Abortion Policy and America's Largest Protestant Denomination" at the American Public Health Association meeting in New Orleans, in October. In addition, he was the chief author of a policy position paper for the Souther Baptist Convention's Christian Life Commission on abortion and euthanasia.

ALF HILTEBEITEL, professor of religion, presented a paper on "The Folklore of Draupadi in her Tamil Cult and Beyond," as part of the Department of South Asia Regional Studies South Asia Seminar on "Knowledge, Performance, and Transmission in Folk Traditions" at the University of Pennsylvania, on February 5. At the American Academy of Religion annual meeting in Boston, December 5-8, he coordinated the six panels of the Religion in South Asia Section as chair of its Steering Committee, and gave a paper titled, "The South Indian Draupadi Cult." At the annual conference on South Asia at Madison, Wisconsin, he also gave a paper titled, "The Folklore of Arjuna in the South Indian Draupadi Cult," on November 6.

JAMES O. HORTON, associate professor of American history and civilization was moderator of the National Museum of American History's symposium, "Black Migration and the American Urban Community," an event sponsored by the Smithsonian Institution in observance of Black History Month, on February 5. On February 15, Dr. Horton presented a lecture and slide show on "The Life and Times of Edward Ambush: A Narrative History of a Freed Slave" at Washington College in Chestertown, Maryland. At a conference sponsored by Crossroads Africa, he lectured on "American Society and Culture in the 20th Century," in Washington, D.C., February 19.

CHRISTOPHER JOYNER, associate professor of political science, presented a paper on "Antarctica and the Common Heritage of Mankind" at the 20th Anniversary Conference of the Common Heritage Institute at Villanova University on December 5. He presented a lecture, "The History of the Law of the Sea," as part of the Ocean Policy Speakers Series of the Science and Society Program at Wesleyan University, on February 4.

JOHN W. KENDRICK, professor of economics, attended meetings of the National Association of Business Economists in New Orleans, on October 6, where he received the Abramson Award for the best article of 1986-87 in the association's journal, *Business Economics*. On October 13, Professor Kendrick conducted a workshop on "Improving Personal Productivity" for GW's Division of Continuing Education. He participated in a Federal Reserve Board-Census Bureau Conference on industrial capacity utilization at the Industrial College of the Armed Forces at Fort McNair, on December 4. On December 28, he presented a paper, "International Comparisons of Productivity Growth," at the Allied Social Services Association meetings in Chicago.

PETER F. KLAREN, professor of history, recently served on the Fulbright-Hays Faculty Research & Doctoral Dissertation Abroad review panel for Latin America. During the month of January, he spoke on the "Political Evolution of the Andean Nations" at the Foreign Service Institute of the Department of State, and keynoted a conference on "The Andean Cosmos," with an address entitled, "With this History, What Hope?," at Hobart and William Smith College in Geneva, New York.

RICHARD LONGSTRETH, associate professor of architectural history, has been appointed a Liaison Member of the American Institute of Architects' Committee on Historic Resources.

LEONARD NADLER, professor of human resource development (HRD) and adult education, was named to the HRD Hall of Fame in an awards ceremony during *Training* Magazine's 11th Annual Conference and Exposition, at the Jacob Javits Convention Center in New York City, on December 9. Professor Nadler, whose career spans four decades, was referred to as a "founding father" of human resource development in the December 1987 issue of *Training*, which commended his contributions as an author, practitioner, professor and thinker.

NADINE NATOV, professor of Russian, participated in the annual meeting of the American Association of Teachers of Slavic & East European Languages (AATSEEL) in San Francisco, December 27-30. Professor Natov read a paper, "The Image of Christ in Aitmatov's Last Novel 'The Executioner's Block,'" during a session on "The Impact of Christianization on Russian Culture." She chaired a session on "The Works of M. Bulgakov," and was a discussant. In addition, she participaed in the North American Dostoevsky Society business meeting.

PHYLLIS PALMER, assistant professor of women's studies and American civilization, chaired and commented on the papers in a session of the American Historical Association's annual meeting, called "New Approaches to Women's Lives." The conference was held in Washington, D.C., on December 30.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, has been elected vice president of the Institute of Electrical and Electronics Engineers (IEEE) Communications Society for the 1988-89 term.

JERROLD POST, professor of psychiatry and public policy, presented a workshop on "The Psychology of Political Leaders and Their Followers" at the 1988 annual meeting of the American Group Psychotherapy Association in New York, February 10.

DAVID SCOTT SMITH, director of the Medical Center's Department of Safety, spoke at a session of the 10th Annual National Institutes of Health Research Safety Symposium, on December 3, on various mechanisms which may be used by institutions to determine, monitor and assure safety in biomedical research involving toxic chemicals, human and animal microbial pathogens and recombinant nucleic acids. DAVID KINGSBURY, adjunct professor of microbiology, and director of GW's Slow-Virus Research Laboratory, served as moderator for the session.

SONYA QUITSLUND, assistant professor of religion, presented a paper, "From Louvain to Chevetogne: Lambert Beauduin and the Beginnings of Roman Catholic Ecumenism," at the American College of the University of Louvain in Louvain, Belgium, on December 13.

JEANNE SNODGRASS, professor of human kinetics and leisure studies, presented a "Take Care of Yourself" program as part of "Young and Old Growing Together: An Intergenerational Conference," sponsored by the State of Maryland Office on Aging, in Baltimore on December 15. She also gave a presentation with HONEY NASHMAN, assistant professor of human kinetics and leisure studies, and PAT SULLIVAN, visiting instructor, on "Wellness in the Educational Workplace," at the Eastern District Association of the American Alliance for Health, Physical Education, Recreation and Dance, on February 18.

CHARLES T. STEWART, professor of economics, spoke on "Labor Supply and Demand and the Mining Industry," at a mineral economics symposium of the American Institute of Mining, Metallurgical and Petroleum Engineers in Washington, D.C., on November 17. He also presented a paper on "Technology Transfer Issues in Pacific Asia" at the 1988 International Symposium on Pacific Asian Business in Honolulu, January 6-9.

PUBLICATIONS

RODERICK S. FRENCH, professor of philosophy, a review of Holmes Rolson's *Philosophy Gone Wild*, entitled "The Environmental Turn," in *Science, Technology and Human Values*, Vol. 12, Issues 3 & 4, pp. 151-153, (Summer/Fall 1987).

CHRISTOPHER JOYNER, associate professor of political science, a chapter, "The Reality and Relevance of International Law," in *The Global Agenda*, (2nd edition, Random House), edited by Charles Kegley and Eugene Wittkopf.

LEONARD NADLER, professor of human resource development and adult education, an article, "Emergence of a Profession -- Human Resource Development" in *STADA NEWS*, June 1987. (STADA is the Singapore Training and Development Association.)

SONYA QUITSLUND, assistant professor of religion, an article, "Resources for Single Catholics," in *A Catholic Bill of Rights*, edited by Leonard Surdler and Herbert O'Brien, (Sheed & Ward, 1988), pp. 146-150.

GW REPORT

March 7, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

GW FORMS AFFILIATION WITH PRINCE GEORGE'S COUNTY CENTRAL HIGH SCHOOL

The University's School of International Affairs has formed an affiliation with the Humanities and International Studies Program at Central High School in Prince George's County.

In a joint announcement February 25, Prince George's County Board of Education Chairman Barbara F. Martin and President Lloyd H. Elliott described the affiliation as a potential national model for using the combined resources of a public school system and a university.

Martin said, "The partnership will offer students one of the area's -- if not the nation's -- most unique and academically challenging programs in preparation for university studies in the humanities and international affairs . . . . The potential of this affiliation is endless." She noted the affiliation will benefit, by extension, students at Andrew Jackson Middle School in Suitland.

Speaking directly to the students, Elliott emphasized that education is a continuous process. He complimented the richness of the program's current curriculum and observed that "the opportunity for teachers and professors to get much closer together in order to benefit . . . students is the real dividend which I see coming out of this kind of collaboration."

SIA Dean Maurice A. East pointed out that the partnership is "one of the nation's very first university-school collaborative arrangements focusing on international studies."

The affiliation will enable the magnet program to offer newly designed courses and college level seminars in international studies, exploration of global political and economic issues, discussion of world social and geographic concerns, and foreign cultures and languages.

GW professors and high school faculty members will share the planning and teaching of selected courses and seminars. Some special classes and seminars will be held on the George Washington campus.

The Humanities and International Studies Program at Central High School is one of 11 magnet programs offered in 39 public schools in Prince George's County. Based on a traditional liberal arts model, students receive intensive instruction in literature, history, art, music, geography, and foreign languages. Students successfully completing the program are said to be well prepared to pursue any field of college studies.

One of the components in the program gives teachers in four different disciplines -- art, music, literature, and history -- the opportunity to coordinate their instruction so that students can complete an interdisciplinary research paper each year. There are also interdisciplinary essay examinations four times yearly.

The program is designed to enable students to graduate with demonstrated mastery of the academic competencies identified by the College Board, including speaking, writing, reading, mathematics and reasoning. Instituted at Central High School in September 1987, the humanities and international studies curriculum now enrolls approximately 250 students.

MICHAEL GREEN RETROSPECTIVE EXHIBITION

A retrospective exhibition of works by Michael Green (1944-1987), including 31 paintings and works on paper, will be on view in the Dimock Gallery from March 17 through March 30.

The works have been chosen as representative of the artist's style and breadth of achievement. Green's color sensibility and rhythmic expressionism have been compared to that of Matisse and Soutine. His figures, landscape compositions and interiors recall quiet moments and travels abroad.

Green was a colorist painter and, administrator of the Phillips Collection. He joined the Phillips in 1977 as a museum assistant, progressing to assistant for administration after one year. He was named administrator in 1982. Green died February 5, 1987, after a short illness.

Born in Brunswick, Georgia, in 1944, Green spent his childhood in suburban New York. He received his B.F.A. degree from Kent State University (1967) and an M.F.A. from The George Washington University (1976).

Dimock Gallery hours are: 10 a.m. to 5 p.m., Tuesday through Friday; noon to 5 p.m., Saturday; closed to the public, Sunday and Monday.

AUTHORS Susan J. Tolchin, professor of public administration, left, and her husband Martin Tolchin, center, of the New York Times *sign copies of their book* Buying Into America *at a recent reception, sponsored by the Department of Public Administration and Timesbooks as James E. Kee, associate professor of public administration, looks on.*

PHONATHON first night callers February 29 were SGBA alumni who raised $22,680 in two and a half hours of calling. Volunteers will be calling on behalf of the 1987-1988 Annual Fund through the end of this month. To sign up for the "George Calling" Phonathon, dial 41481.

TELECONFERENCE TO SHOW NEW TECHNOLOGY

On Wednesday, March 23, GW Television will present, "The Electronic Campus: Technology and Programming," an interactive teleconference designed to give participants an overview of new communications technologies and their specific applications for higher education.

The panelists will include Smith L. Holt, Secretary of Education for the State of Oklahoma, and chair of the Board of the United States Distance Learning Association; E. Marie Oberle, director of the National University Teleconference Network; Jack Calmes, president of the College Satellite Network, and others. Viewers at GW will be able to question panelists by phone.

This program is open to faculty, staff and students. For reservations or further information, call Arlene Polinsky at 48233.

14TH ANNUAL PHOTO SEMINAR AND WORKSHOP

The Greater Washington Council of Camera Clubs (GWCCC), in cooperation with the Art Department, will sponsor an all-day photographic seminar on campus, Saturday, March 19.

Programs on basic 35 mm photography, photo journalism, video, stereo (3-D), still life, composition, solarization, lenses and more will be included in the daytime activities that begin at 9 a.m. in Funger Hall. The presenters will include Ed Clark, a former *Life Magazine* photographer; Carl Kramer of the *Washington Post*, Paul Luebke, past president of the Photographic Society of America; Tex Gathers, photography teacher; and Bonnie Schupp of the *Baltimore Sun*

The evening program, at 8 p.m. in Lisner Auditorium, titled "The World By Sea: A Cruise to Discovery," will be presented by Kodak. This 14-projector, audio-visual extravangaza will take the viewer on a visit to tropical islands in the Caribbean and the South Pacific, to Alaska and Australia, the Pyramids of Egypt and the canals of Venice. Tips for the photographer and world traveler will be offered.

There are charges for the day and evening events, but GW students, faculty and staff are eligible for a 20% discount with proper ID. For ticket information, call Jim Walker at 47203.

MARCH IS WOMEN'S HISTORY MONTH

In observance of March as Women's History Month, there will be a series of film showings and discussions on campus. All the events are open without charge.

Tuesday, March 8, the 76th anniversary of International Women's Day (declared March 8, 1912) two films will be shown under the sponsorship of the Women's Center and Women's Space. "Islam and the Women in Iran," (25 minutes) will be screened at 8 p.m. in Funger Hall, Room 108. Immediately following, producer-director Farideh Fardjam will conduct a question and answer period. The second film of the evening will be "The Global Assembly Line" (58 minutes).

Wednesday, March 9, Adjunct Assistant Professor of Philosophy Jane Uebelhoer will discuss issues of concern to women studying philosophy at a noon event sponsored by Women's Space. Those attending are encouraged to bring a lunch. The location will be posted or call Marguerite at 265-2596.

Wednesday, March 23 the Women's Studies Program and the Lesbian and Gay People's Alliance will sponsor a showing of "Pink Triangles" at 8 p.m. in Funger Hall to be followed by the film "Silent Pioneers: Gay and Lesbian Elders."

Thursday, March 24, Women's Space will present a program of comedy/drama skits and a panel discussion on bulimia, dieting and women's fixation with food and appearance at 8 p.m. in the Marvin Center third floor ballroom. For more information, call Zsuzsanna Gyorky at 46550.

TWO LAW ALUMNI ASSOCIATION EVENTS

D.C. Superior Court Judge Frank E. Schwelb will be the honored guest and speaker at the next District of Columbia Chapter Luncheon of the GW Law Alumni Association. Judge Schwelb, recently nominated to the D.C. Court of Appeals, will discuss "Lying in Court" at noon on Thursday, March 10, at the National Lawyers Club.

The newly created Northern Virginia Chaper announces its kick-off luncheon on Wednesday, March 9, with the Honorable Barnard F. Jennings (J.D., 1950), as the speaker. Judge Jennings is credited with the planning and creation of the Judicial Center in the City of Fairfax, which opened in 1982. The luncheon begins at noon at Tyson's Westpark Hotel, in McLean.

Contact the Law Alumni Office at 46420 for information and reservations.

GELMAN LIBRARY SPRING BREAK HOURS

March 11*	8:30 a.m. - 10:00 p.m.
March 12	10:00 a.m. - 6:00 p.m.
March 13	12:00 p.m. - 6:00 p.m.
March 14-17	8:30 a.m. - 10:00 p.m.
March 18*	8:30 a.m. - 10:00 p.m.
March 19	10:00 a.m. - 6:00 p.m.
March 20	Resume Regular Hours

*On March 11 and 18, the Circulation Desk, Information Desk, Photocopy Center and Reserve Desk close at 8 p.m. Periodicals Desk closes at 9:45 p.m. All other services follow normal Friday service hours.

ACADEMIC REGALIA PURCHASE OPPORTUNITY

A representative from Collegiate Cap & Gown Company will be on campus Wednesday, March 9, to take orders for the purchase of academic regalia. Orders placed at this time will be ready in time for the May ceremonies.

The representative will be available from 10 a.m. to 3 p.m. in the lower lounge of Lisner Auditorium. The University will reimburse full-time faculty members for one half, or up to $100, for a regalia purchase.

Contact the Business Affairs Office at 46400 with any questions concerning the vendor or the reimbursement policy.

"GWU DAY" AT WANG LABORATORIES

The GW WANG Users Group is sponing "GWU DAY," Wednesday, March 16, at WANG Laboratories, Inc., in an effort to better inform the campus community of the useful products now offered by WANG.

Students, staff, and those interested in learning about the latest product line are invited to attend. Updates will be provided on computer based training, imaging, voice, WP Plus, laptops, IBM PC compatibles, new printers and more.

Demonstrations will begin at 9 a.m. at WANG Laboratories, Inc., 1019 19th Street, NW, between 19th and K Streets. For more information, contact Ray Chin at 49173, or Patti Terry at 728-3092.

BRIEFLY...

The Colonnade Gallery will host an opening reception for "The GW Ceramics Program Annual Student Show" on Wednesday, March 9, Marvin Center, third floor, from 5 to 7 p.m. The works of graduate candidates, registered program students and those seeking a major in ceramics, will be on display through April 16. For more information, call 46610.

"The Nuclear Quest in Europe," will be discussed by Rodney Jones, president of Policy Architects International, as part of SIA's Securities Studies Program speakers series, on Tuesday March 8, at 2 p.m. in Stuart Hall, Room 108. Call 46240 for more information.

"Entropy and Uncertainty," a lecture by Athanasios Papoulis, professor of electrical engineering and computer science, New York Polytechnic University, will be presented on Thursday, March 10, in Marvin Center, Room 410. The Department of Electrical Engineering and Computer Science and the IEEE student chapter at GW will sponsor the event. For details, call 676-5103.

"The Catholic Church in Latin America: 1960s - 1980s," will be the topic of a lecture by Ernest Evans, international consultant, sponsored by the Latin American Studies Program of SIA on Monday, March 21, in Funger Hall, Room 310, at 12:30 p.m. For more information, call 46240.

OFFICER OF THE YEAR Keith Cassells stands between Director of Safety and Security Curtis W. Goode, left, and Vice President for Administration and Research Carl J. Lange after receiving his award.

OFFICERS OF THE QUARTER, l to r, Kenneth Shugars, Darrell Johnson, James Johnson, and Donald Snodgrass

SECURITY OFFICERS HONORED WITH AWARDS

In a morning ceremony February 24, five members of the Office of Safety and Security were honored for their superior performances in 1987. Awards were presented by Vice President for Administration and Research Carl J. Lange and Director of Safety and Security Curtis W. Goode Jr.

The officers were selected by a committee of their supervisors as exemplifying initiative, thoroughness in job performance, and in acceptance of responsibility.

The Officer of the Year award went to Keith Cassells, who was called "one of the most observant and conscientious officers in the department." He will complete 10 years with the University this coming November.

Receiving awards as Officers of the Quarter were Darrell Johnson and James Johnson, who both joined the University in 1984; Donald Snodgrass, who came to GW in March, 1987; and Kenneth Shugars, who has been here since August, 1985. Officer Shugars is just completing the requirements for a GW master's degree in forensic sciences.

INTERVIEWS

WILLIAM C. ADAMS, professor of public administration, was interviewed by the *New York Times* for a story on the George Bush-Dan Rather dispute on January 27. He was interviewed about televising debates in the House of Commons for "TV-AM," a British television program, on January 29. Professor Adams was interviewed on February 3 by the *Detroit Free Press* regarding a possible joint operating agreement between the Detroit newspapers. On February 8, he debated a Heritage Foundation spokesperson regarding the merits of the current Presidential nomination system, on Cable News Network's "Daywatch" program.

JONATHAN D. MORENO, associate professor of philosophy and health care sciences, was interviewed by KLBJ-AM on February 24, about artificial reproduction techniques.

PROFESSIONAL ACTIVITIES

CHARLES F. BINGMAN, distinguished visiting professor of public administration, has been elected to two boards of directors. In November, he was elected to a two-year term on the William A. Jump Foundation. In January, he was elected for a three-year term with the Federal Institute Alumni Association. In addition, Professor Bingman was elected last June to the permanent position of Vice Chair for the standing committee on Executive Organizations and Management of the National Academy of Public Administration.

LEONARD NADLER, professor of human resource development and adult education, gave the keynote address with Zeace Nadler, during the "Global Experiences of Adult Educators" program of the 1988 Conference on International Adult Education, at the University of the District of Columbia, on February 24. The topic was "Around the World in 29 Years."

JEFFREY L. STEPHANIC, associate professor of photography, and WILLIAM WOODWARD, associate professor of painting have been chosen to serve as distinguished jurors for two exhibitions of the Westmoreland Art Nationals for 1988. The national exhibitions are sponsored by such groups as the Pennsylvania Council on The Arts, KDKA TV-2 of Pittsburgh, and the Westmoreland Arts & Heritage Festival. They will run June 5-19 at the Westmoreland County Community College, and July 1-4 at the Twin Lakes County Park, both in Westmoreland County, Pennsylvania.

PUBLICATIONS

WILLIAM C. ADAMS, professor of public administration, two citations in editorials using his research on the impact of early election-night projections of presidential race winners, in *The San Diego Union*, on December 17, and *The Los Angeles Times*, on December 19. In addition, a map, drawn in proportion to each state's share of news attention to its caucuses and primaries, in *Harper's*, (December 1987).

PETER CAWS, university professor of philosophy, an essay, "Du subjet chez Sartre et ailleurs," in *L'objet au defi*, Jacqueline Chenieux-Gendron and Marie-Claire Dumas, editors, 1987.

JONATHAN CHAVES, associate professor of Chinese, an article, "The Poetry of Yang Wan-li (1127-1206)," translated into Chinese by Qian Ning, in *Guidan wenxue zhisi* (Knowledge of Classic Literature), a bimonthly Chinese literary journal, Nanjing, No. 6, 1987, pp. 137-144.

SHELLY HELLER, assistant professor of electrical engineering and applied science, an article written with Judith Axler Turner, "Howard B. Owens Science Center," in *Computer Digest*, (January 1988).

JAMES E. KEE, associate professor of public administration, a case study of former Utah Governor Scott M. Matheson's management style, in *Managing the Performance of Gubernatorial Appointees*, (National Governors' Association, Office of State Services, 1988).

JAY SHOTEL, professor of special education, an article written with Terese J. Lilly, "Legal Issues and the Handicapped Infant: From Policy to Reality," in *Journal of the Division for Early Childhood*, Vol. 12, No. 1, 1987, pp. 4-12.

SUSAN J. TOLCHIN, professor of public administration, an excerpt from a book written with Martin Tolchin, *Buying into America: How Foreign Money is Changing the Face of America*, "Foreign Money, U.S. Fears," in *New York Times Magazine* on December 13, 1987, and in the *Congressional Record*, on January 25, 1988. An article, "The Influence Peddlars," in *Japanese Newsweek*, January 21 edition.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Medicine. (B.S. degree and experience in lipid chemistry required for work on experimental diabetes and lipoprotein metabolism study. Applicants should possess expertise in the techniques of lipid analysis, use of isotopes, chromatographic procedures, and handling of animals.) Send inquiries to Dr. P. O'Looney, Program Project Coordinator, Department of Medicine, Ross Hall, Room 409, GWUMC, 2300 Eye St., NW, Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

Ediorial assistant for the *GW Report* is Lisa M. Walker.

GW REPORT

March 21, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

A. JAMES CLARK JOINS GW BOARD OF TRUSTEES

The Board of Trustees, at its March 17 meeting, elected A. James Clark to serve as a charter trustee.

Clark is president and chief executive officer of the George Hyman Construction Company, chairman and president of the Clark Construction Group, Inc., and president of Clark Enterprises, Inc.

Educated as an engineer, Clark has been a prominent benefactor of engineering education as well as of other civic, charitable and educational undertakings. He serves as a regent of the University of Maryland. The A. James Clark Professorship of Engineering in the GW School of Engineering and Applied Science was established in 1987.

After graduating from the University of Maryland with a Bachelor of Science in Civil Engineering, Clark joined the George Hyman Construction Company. He was named vice president and general manager in 1960 and became president and chief executive officer in 1969. During the 1970s, the Hyman Company experienced dramatic growth and expanded geographically, establishing offices in Richmond, Atlanta, and Miami. In response to changing markets, offices were established in Boston (1983) and New York City (1985).

In the same period, Clark began forming new companies under Clark Enterprises, Inc. Today the Clark Construction Company (formerly CEI Construction, Inc.) is the holding company for Clark's growing family of engineering and construction firms, which in addition to the Hyman Company, includes HRW Systems, Inc. and Omni Construction, Inc., both of Maryland; Clark-Morris Company, Inc., Dallas; Clark-Keith, Inc., Atlanta; and Clark-Fitzpatrick, Williston Park, New York.

BOARD NAMES SIA FOR THE ELLIOTTS

The Board of Trustees adopted the following resolution at its March 17 meeting, designating the School of International Affairs as the Evelyn E. and Lloyd H. Elliott School of International Affairs:

WHEREAS, Lloyd Hartman Elliott has served The George Washington University with distinction for twenty-three years;

WHEREAS, the recent restructuring of the School of International Affairs was accomplished under his immediate direction; and

WHEREAS, it is the wish and intent of the Board of Trustees that the growth and development of the School of International Affairs be strengthened and encouraged;

NOW THEREFORE BE IT RESOLVED, that the School of International Affairs is hereby renamed as the Evelyn E. and Lloyd H. Elliott School of International Affairs of The George Washington University.

The formal naming of the school will take place during the SIA Commencement in the spring.

OPERATION IGLOO -- L to R, Russell Hawkins, environmental analyst, D.C. Department of Public Works; Rev. Ernest Gibson, executive director of the Council of Churches of Greater Washington; Lewis Andrews, president of the Glass Packaging Institute; and Alan Zemek, Columbian College junior and GW Student Recycling Initiative co-president, posed following the March 4 opening of the first campus-based Igloo Glass Recycling operation in the country. They are standing in front of igloos to be used for glass collection in the alley off 20th Street, between F and G. The GW igloos are the 16th group in the city. Funds realized by the GW project will be used for GW scholarship aid.

MIDDLE STATES COMMISSION REAFFIRMS GW'S ACCREDITATION

At its February meeting, the Middle States Commission on Higher Education reaffirmed accreditation for The George Washington University. President Elliott has expressed his appreciation to members of the University's Steering Committee for the accreditation review and to members of the four University Self-Study committees for their "conscientious and creative work."

The commission's 10-member Visiting Team was on campus December 8 to 11 and focused primarily on the four areas of the Self-Study, done in preparation for the review: academic computing, general education, policy studies, and research. It also reviewed other selected areas, such as off-campus programs, student concerns, and the financial relationship of the Medical School to the total operation of the University.

With regard to academic computing, the report registers approval of the establishment of the Computer Advisory Council and of the "sound infrastructure investment "represented by the Information Systems Network (ISN) as well as of the creation of the Computer Information and Resource Center (CIRC/US). The report also identifies certain concerns and suggests consideration of strategic planning, to include metropolitan area networking, more integrated information systems and greater recognition of the library as an integral component of the campus information network.

The general education section of the Self-Study is called "thoughtful and thorough." The report observes there is a need for a common identity among students, "who now identify with their school but not generally with the University." There are recommendations on sharing common general education requirements across disciplines, capitalizing on the University's location, and integrating Student Affairs support to complement efforts in non-curricular student life. The report also cites as areas requiring attention academic advisement, the development of a positive and supportive environment for *all* students and the expansion of lines of communication between administration and students.

The report states that "the University should move toward the establishment of a Public Policy Center." It notes that George Washington has the advantages of location that "could make this premier enterprise." The report also suggests that a viable centralized unit be established with priority given to effective leadership, funding, and the recruitment of strong, research-oriented personnel.

In the area of research, the report recognizes the quality work being conducted at GW and points out the need to establish priorities. "In order successfully to implement research goals," it states, "a limited number of areas must be targeted, existing strengths must be maintained, and desirable new strengths must be identified and developed."

The report recognizes many existing strengths and latent opportunities at George Washington, noting, however, that the current degree of decentralization often leads to duplication of effort and of resources. The George Washington University is termed "a mature institution, with a deserved national image." Recognizing that there has been far-reaching emphasis on planning over a period of several years, the report encourages the University to move ahead with implementation. Citing particularly the University's progress in the past two decades, the report observes, "its trajectory of progress manifests its own sound inner perceptions and gives promise for a future of fulfilled aspirations."

Copies of the report by the Visiting Team have been placed on reserve in the Gelman library for reading by all who are interested.

ELLIOTT HONORED BY FACULTY SENATE

At its meeting of Friday, March 11, the Faculty Senate adopted a resolution of appreciation citing President Lloyd H. Elliott for distinguished service.

Introduced by Professor of Art and chairman of the Executive Committee of the Senate, Lilien Robinson, the resolution noted Dr. Elliott's length of service, his contributions as president and chief academic leader, his wisdom, unfailing cooperativeness, receptiveness to faculty concerns, consideration of divergent points of view, and "the diplomacy, congeniality and personal warmth that have marked his relationship with the Faculty Senate and its Executive Committee." The resolution, adopted by acclamation, was signed by former Executive Committee chairmen Howard C. Pierpont, John A. Morgan Jr., Peter P. Hill, and William B. Griffith, as well as Professor Robinson.

The Senate also presented the president with a group picture of the current members, seated for a session.

In responding, President Elliott thanked the Senate for the citation and for "the wonderful feeling of friendship" which he said he would always remember. "I think we have achieved a great deal together to the benefit of this university," he continued, noting, "that has been the objective that has overridden any difficulties we had." He said the faculty, as represented by the Senate, "has, over the years, been on the right side of all the issues facing the institution." The president expressed appreciation for the Senate's guidance, particularly during the late 1960s and early 1970s.

PRESIDENT ELLIOTT opening gift of group photograph from the Faculty Senate

BRIAN M. DWYER HONORED

Brian M. Dwyer, lecturer in travel and tourism, received a meritorious service award from the Department of Human Kinetics and Leisure Studies at the Travel and Tourism Program's spring colloquium on March 7. The award was presented in recognition of Dwyer's longtime personal commitment and professional support of the tourism studies program at the University.

A vice president of U.S. Air, which he joined in 1981, Dwyer served as an adjunct professor at GW for six years. He taught graduate courses including tourism development, tourism marketing and airline operation management. Because of increasing demands at the airline, Dwyer resigned from his teaching post at the end of the Fall '87 semester.

Dwyer was previously director of corporate marketing for the Haley Corporation in San Francisco. His experience also includes serving as professorial lecturer at Golden Gate University.

EGYPTIAN MINISTER Mohammed Wahby, March First Wednesday Lecturer, right, talked with Nahid Khozeimeh, SEAS special assistant for international programs, before his March 2 presentation on "Egypt Today."

HONORS CONVOCATION IS FRIDAY, MARCH 25

On Friday, March 25, the University will host its fourth Honors Convocation in Lisner Auditorium at 3 p.m. Distinguished Scholar Awards will be presented to one student from each of the five GW schools which grant undergraduate degrees -- Columbian College, SGBA, SIA, Engineering and Education. These awards recognize students who have distinguished themselves through exemplary academic achievement and scholarship.

Sophomore, junior and senior students in the top two percent of their schools will receive Outstanding Academic Achievement Citations. Those students who were named to the deans' list in the previous spring and fall semesters will also be recognized.

President Lloyd H. Elliott will give the convocation address. A reception will follow the ceremony in Market Square, the Marvin Center.

The University Marshal's Office invites faculty, administrators and members of the University community to pay tribute to this year's exemplary students. The Academic Procession will be formed on Friday, at 2:40 p.m. in the Dimock Gallery of Lisner Auditorium. Those participating in the procession should bring their academic regalia.

FREDERICK GUTHEIM HONORED BY FRIENDS

Frederick Gutheim, adjunct professor of urban planning and American civilization, who was the first director of the University's Program in Historic Preservation (initiated in 1975), was honored by members of the Friends of Frederick Gutheim, an organization of his former students, on March 3. A crowd of approximately 50 assembled in the Special Collections area of Gelman Library to hear a series of speakers recall their experiences in studying with Professor Gutheim and to recount how they had benefitted from his guidance. The occasion, which included a reception, marked his 80th birthday. Many alumni of the program now occupy responsible positions in the field of historic preservation, particularly in the federal government.

SCHWOERER LECTURES AT COLORADO STATE

Professor of History Lois G. Schwoerer gave the Furniss Lectures in History at Colorado State University on February 24 and 25.

She spoke to students and faculty on "Celebrating the Glorious Revolution of 1688" and "Studying the Glorious Revolution of 1688." On February 25, she gave the Annual Phi Alpha Theta Furniss Awards banquet address. Her topic was "The Revolution of 1688-89 in England--Glorious, Respectable, and Merry?"

In giving the Furniss Lectures, Professor Schwoerer joined a distinguished company of scholars, who, since 1967, have been invited to honor the memory of Norman P. Furniss, a professor and chairman of the History Department at Colorado State.

"FOODFRIGHT," A CABARET ABOUT EATING DISORDERS

"Foodfright," a three-woman musical cabaret that dramatizes obsession with food, weight and body image, will be presented in the Marvin Center Ballroom on March 24, at 8 pm. The event, sponsored by the Counseling Center, the Program Board and several Division of Student Affairs offices, is free and open to the public.

Through a combination of drama, music and comedy, "Foodfright" focuses on the pressure society has placed on women to be thin. The one-hour performance will be followed by a panel discussion focusing on anorexia, bulimia and other eating disorders. Panelists include representatives from the University's Counseling Center, the Center for Nutrituion and Eating Disorders and Overaters Anonymous.

In addition to appearances at high schools, colleges, festivals and conferences, "Foodfright" has received national attention on such television programs as the NBC Nightly News, the Today Show, CNN, and Hour Magazine.

For more information, contact the Counseling Center at 46550.

YACOBSEN FELLOWSHIP GUIDELINES ANNOUNCED

A fellowship for graduate students who have emigrated from the Soviet Union or Eastern Europe since 1980 is available for the first time this year. The fellowship was established by a gift from Helen B. Yakobson, Professor Emeritus of Russian, and her husband, the late Dr. Sergius Yakobson.

The amount of the award is $1,000. The fellowship is renewable for a second year, depending on the grantee's grades and the funds available. Preference will be given to those whose program incorporates course work in Russian or East European Studies. Applicants must apply for the Yakobson Fellowship separately, in addition to applying for admission to the appropriate division of the University. The fellowship will be awarded only after the applicant had been admitted to the University.

Applications and supporting credentials must be received by the Yakobson Fellowship Committee by Thursday, April 1. The award will be announced April 15. For application forms and further information, write to Professor Michael J. Sodaro, Yakobson Fellowship Committee, Institute for Sino-Soviet Studies, The George Washington University, 20052.

BENEFITS FOR SUBSTANCE ABUSE REHABILITATION

The Department of Personnel Services would like to remind all employees who are participants in one of the University's health plans, that coverage for drug or alcohol abuse treatment may be available, depending on the plan in which an employee is enrolled.

Participants in Blue Cross/Blue Shield plans are covered for inpatient detoxification, inpatient rehabilitation and physician visits, and outpatient visits. Coverage is subject to annual and lifetime limits on dollar amounts and on the number of days or visits that will be covered. Charges for drug or alcohol abuse treatment that exceed these limits may be covered by Major Medical Insurance.

All of the Health Maintenance Organizations that are offered through the University provide some coverage for inpatient and outpatient care for drug and alcohol abuse. Please consult the appropriate brochure for detailed information.

Anyone with questions concerning benefits for this type of coverage should call the Records and Benefits office at 44480.

WINE TASTING TO BENEFIT GWUMC CANCER FUND

Two wine tastings, scheduled for Saturday, April 16, at the Madison Hotel, will benefit the Addy Bassin Memorial Cancer Fund, established two years ago in The George Washington University Medical Center.

This is the second year the event has been organized by the Bruce Bassin family wine business to benefit the fund. There will be two wine tasting sessions, one from 2 to 4 p.m. and the other from 7 to 9 p.m. Reservations are required and can be made through McArthur Beverages, telephone 338-1433. The cost is $65 per person and includes an array of hors d'oeuvres.

BRIEFLY...

"Online Searching in Business/Economics," part of the Gelman Library's Faculty Seminar Series, is scheduled for Wednesday, March 23, from 3 to 4:30 p.m. The seminar is open to faculty, and if space permits, to graduate students as well. Call 46455 for details.

James C. King, professor of German, will present a special lecture on Wagner's opera "Parsifal" sponsored by the Columbian College Alumni Association on Thursday, March 24, at 7:30 p.m. in Marvin Center, Room 403. Reservations are not required, but those expecting to attend are asked to call the Columbian College office at 46130, to ensure adequate seating.

The University Club's Annual Spring Dance will be Saturday, March 26, in the Club, on the third floor of the Marvin Center. Dinner begins at 7 p.m., followed by dancing from 8:30 to 11:30 pm. The cost is $19.95 per person. For information and reservations, call 46610.

GW Opera Theater will present "Meanwhile Back at Cinderella's" by composer Dennis Arlan, on Friday, March 25, at 8 p.m., and again on Sunday, March 27, at 2 p.m. For more information, call 46245.

PROFESSIONAL ACTIVITIES

DENNIS HOLMES, professor of education, chaired a session on "Improving Teacher Preparation," at the annual meeting of the Eastern Educational Research Association in Miami, February 24-27. He delivered a paper at that meeting on the "Beginning Teacher Induction Program in the District of Columbia Public Schools." Professor Holmes was recently named to a consultant panel to advise the National Governors' Association (NGA) and the U.S. Department of Education on the implementation of the NGA's "Governors' 1991 Report of Education: *Time for Results*."

LUCRECIA PALZA, ceramics graduate student from Bolivia, right, talked with Mrs. Carlos Delius, left, wife of the newly arrived Bolivian Ambassador, at the Colonnade Gallery's March 9 reception. Her ceramic works are in the case behind them. The exhibition runs through April 16.

APOSTOLOS KAKAES, assistant professor of electrical engineering and applied science, spoke on "Topological Properties and Design of Mult-Hop Packet Radio Networks," at the Institute for Electrical and Electronics Engineers (IEEE) Information Theory Society meeting in Arlington, on February 15.

SUSAN TOLCHIN, professor of public administration, spoke at DeKalb College in Atlanta on February 24, about the book she co-authored with Martin Tolchin, *Buying into America*. She spoke at the National Press Club and at a meeting of the National Semi-Conductor Association on March 1 on the same topic. She also appeared before the Congressional Competitiveness Caucus, on March 3, and the Chicago Council on Foreign Relations on March 4.

PERSONNEL NOTICES

ASSOCIATE DIRECTOR, full-time, Immunogenetics and Immunochemistry Laboratories. (Seeking a Ph.D. immunologist, with 7-8 years of research experience and an active publication record, with an interest in transplantation and histocompatibility typing. Extensive experience and training in immunological techniques is required. These should include: hybridoma technology and experience in the production, characterization, cloning, maintenance and use of both human and mouse monoclonal antibodies; tissue culture experience, EUSA methods, electrophoresis, immunoblotting, and standard protein and immunochemical analysis; basic cellular immunological techniques including mixed lymphocyte reactions, blastorgenesis assays, cytotoxicity assays, interlenkin-2 production and monitoring and T-cell culture and cloning. Experience with human or experimental bone marrow transplant and manipulation is also desirable.) Send resume to Dr. Jorge C. Rios, 2150 Pennsylvania Avenue, NW, Room 407, Washington, DC 20037.

CLINICAL RESEARCH ASSISTANT, part-time, Division of Infectious Diseases. (Work involves drug studies with patient enrollment and follow-up evaluations in the hospital and outpatient clinic.) Send resumes to Aletha Arkie, Division of Infectious Diseases, 2150 Pennsylvania Avenue, NW, Room 4-502, Washington, DC 20037.

RESEARCH ASSISTANT, full-time, Department of Pharmacology. (Ph.D. in pharmacology, biochemistry, or medicine required, with preference given to individual with at least one year's postdoctoral experience in cancer chemotherapy research or AIDS research. Familiarity with advanced instrumental drug anlysis, pharmacokinetic techniques, and laboratory procedures with experimental animals is desirable. Required to work under minimal supervision.) Send resume to Dr. Loo, Department of Pharmacology, 2300 Eye Street, NW, Ross Hall, Room 652, Washington DC 20037, or call 42706.

RESEARCH ASSISTANT, full-time, Department of Radiology. (B.S. or M.S. in biological sciences/biochemistry needed for work in cellular/molecular radiation biology laboratory. Preference given to candidate having experience with standard biochemical techniques including liquid scintillation counting, cell culture, and personal computers.) Submit resume to Dr. T.M. Koval, GWUMC, Ross Hall #102, 2300 Eye Street, NW, Washington, DC 20037.

The George Washington University is an equal opportunity/affirmative action employer.

Editorial Assistant for the *GW Report* is Lisa M. Walker.

GW REPORT

March 28, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

DIMOCK GALLERY -- Mrs. William Green, left, talked with Louise Steffens of the Phillips Collection, at the opening of the exhibition, "Michael Green (1944-1987) A Retrospective Exhibition: In Memoriam," which may be seen in the Dimock Gallery through March 30. Behind them is Green's work "Flowered Kimono," 1976, acrylic on canvas.

GW JOINS *THE WASHINGTON POST* IN INCENTIVE PROGRAM WITH EASTERN HIGH SCHOOL

The University has joined a *Washington Post* partnership with students of Eastern High School designed to reward exceptional academic achievement.

The program, called *The Washington Post*/Eastern High School Incentive Scholarship Program, will make it possible for Eastern High School students to accumulate up to $4,000 in scholarship funds to be used to continue their educations.

The goals of the program, according to Dr. Vincent Reed, vice president/communications, *The Washington Post*, are "to encourage Eastern students to stay in school, to work for solid academic achievements, and to pursue a higher education."

In confirming the University's participation, President Elliott congratulated Dr. Reed and his associates at *The Washington Post* on "the leadership being given to District of Columbia public education with this action."

The program format provides that each semester, any Eastern High School student who gets all A's and/or B's will earn $500 in scholarship funds. A student who maintains those grades for all eight semesters, or four years, can reach the $4,000 figure. Students must graduate and enroll in an accredited institution (a four-year or two-year college or trade school) to receive the funds.

The partnership between participating Eastern students and 16 participating institutions, including George Washington, makes it possible for students to increase the funds available to them. If a student commits to attending a partner institution by the end of Semester 1 of the senior year *and* is accepted, the student will receive a donation from that institution matching the funds already earned in the *Post*/Eastern program. The matching money can only be used for tuition, room, board or books at the donating institution. Students must fulfill their commitments to the specific institution to take full advantage of matching funds. If a student leaves, for any reason, he or she forfeits any remaining matching funds.

Among other institutions that have entered into the partnership are Georgetown, American and Howard Universities, the Catholic University of America, Princeton and Colgate Universities, the University of the District of Columbia, the University of Maryland, both in College Park and on the Eastern Shore, and Towson State University.

'87 MARYLAND TAX EXEMPT STATUS EXPIRES APRIL 30

All 1987 exemptions from tax withholding authorized by Maryland Tax forms MW-507 currently on file in the University Payroll Services Office will expire on April 30 of this year.

Maryland tax form MW-507, item 3, allows certain employees who reside in Maryland to claim exemption from state and county tax withholding by certifying that they "did not owe any Maryland income tax and had a right to a full refund of *all* income tax withheld" for the previous year *and* that they expect a similar situation to exist in the current year.

Employees (usually students), who are eligible to continue their 1987 exemption from tax withholding in 1988, must submit a new form MW-507 by April 30, 1988. *Failure to recertify by that date will result in the withholding of Maryland taxes as though the employee has one withholding allowance.*

Forms MW-507 are available at the Records and Benefits Office of Personnel Services, Building GG, 2125 G Street, NW or at the University Payroll Services Office, first floor, Academic Center.

BENJAMIN NIMER, FIRST WEDNESDAY LECTURER

Benjamin Nimer, professor of political science and international affairs will discuss "The Continuing South African Crisis," at the next First Wednesday Lecture on Wednesday, April 6, at 8 p.m., in the Continental Room, Marvin Center, third floor.

The event is free and open to the public, although reservations are requested. Call 46435, if you plan to attend. If you would like dinner at the GW Club prior to the lecture, call 46610 for reservations. Dinner starts at 6:30 pm.

INTERNATIONAL WEEK STARTS SUNDAY, APRIL 3

International Week planners offer an afternoon escape to the Caribbean on Sunday, April 3, from 1 to 4 p.m., in the Marvin Center Continental Room, with steel band musicians and calypso singers and dancers. Admission is free.

The event is the first of International Week '88, a full program of activities which run through Saturday, April 9.

A Palestinian cultural evening is scheduled for April 3 from 6 to 10 p.m. in Marvin Center's Market Square, tickets are $5. Call 46860.

Donald Woods, journalist known through the movie *Cry Freedom*, which documented Woods' friendship with South Africa martyr Stephen Biko, will give the week's keynote address Monday, April 4, at 7 p.m. in Marvin Center's Continental Room. A reception will follow. There is no charge for admission.

Further International Week information will appear in the April 4 *GW Report*.

LUCY HOFFMAN, NEW TO CAREER SERVICES

Lucy M. Hoffman has been appointed to the position of Assistant Director of the Career Services Center, effective March 1. Among her responsibilities, Ms. Hoffman will serve as liaison to the School of Engineering and Applied Science and the School of Internatinal Affairs.

Most recently, Hoffman was coordinator of career services at Mount Vernon College. She also served as an instructor of career development at the University of Maryland, University College. Ms. Hoffman has a Master of Education in College Counseling/Student Personnel Administration and a Bachelor of Science/Bachelor of Education from the University of Delaware.

100th ANNIVERSARY OF Ph.D. PROGRAMS AT GW

A special symposium examining "Doctoral Education in American Universities" will honor 100 years of doctoral studies at George Washington on Wednesday, March 30. The University awarded its first Ph.D. degrees by a special action of the Board of Trustees in 1888.

The symposium, subtitled "Recent Trends and Future Demands," also pays tribute to President Lloyd H. Elliott, who retires this summer after 23 years of service.

The anniversary event will feature a morning session at 10 a.m. titled "Doctoral Education in Retrospect" and an afternoon program at 2 p.m. on "Doctoral Education in Prospect."

During the morning retrospective session, Roger L. Geiger, associate professor of higher education at Pennsylvania State University, will discuss "The Tensions and Triumphs: Research, Graduate Education, and the Ecology of the American University 1888-1988." Dean Henry Solomon of the Graduate School of Arts and Sciences will follow Geiger with a presentation on "The George Washington University's Doctoral Programs: Post-World War II."

Vice President for Academic Affairs Roderick S. French will moderate the morning session.

Looking into the future of doctoral education, the afternoon will feature a panel discussion with George F. Cahill Jr., vice president for training, Howard Hughes Medical Institute; Phyllis P. Franklin, executive director, Modern Language Association; Alexander MacLachlen, senior vice president for science and technology, the Du Pont Company; and John P. Slaughter, chancellor, University of Maryland. Secretary of the Smithsonian Institution and GW Trustee Robert McC. Adams will serve as moderator. The respondent will be Jules B. Lapidus, president of the Council of Graduate Schools.

Peter Caws, university professor of philosophy, will be the keynote speaker for the symposium luncheon. He will focus on doctoral education, addressing the topic "Differences of Degree."

Symposium sessions will be held in the Marvin Theatre and are open without without charge.

LEES AND ELIASOF HEAD GOVERNMENT CONTRACTS PROGRAM

Frederick J. Lees has been appointed director of the Government Contracts Program in the National Law Center. Lucy Eliasof has been appointed assistant director of the program.

Lees served as chairman and chief administrative judge of the National Aeronautics and Space Administration Board of Contract Appeals from 1974 to 1985. Since then, he has served as assistant director of the Government Contracts Program and as a professorial lecturer at the National Law Center.

Eliasof worked for five years on the legal staff of the Communications Satellite Corporation, and prior to joining George Washington, was in private law practice in Washington, D.C. Eliasof received her juris doctor degree from the National Law Center in 1976.

The Government Contracts Program, founded in 1960, serves as a national center for study, research, writing and teaching in the field of government procurement law.

POH-CHUAN CHUA, senior in SEAS and president of the D.C. Gamma Chapter of Tau Beta Pi, engineering honor society, right, is congratulated by SEAS Dean Harold Liebowitz on the chapter's 25th anniversary and the establishment of the Tau Beta Pi-DC Gamma Fellowship Fund, an endowed fellowship in engineering. They are standing next to a bent, the society symbol, placed by the chapter, on February 16, in Tompkins Hall lobby.

RECENT ACQUISITIONS ON DISPLAY IN GELMAN

"Recent Acquisitions in the Department of Special Collections," a wide-ranging exhibit of new donations and purchases, is currently on view in the Gelman Library, second floor. Materials on display were selected by members of the Special Collections staff to call attention to a variety of resources available for curricular support and research, and to encourage broader interest on the part of the University community in the library's collection efforts.

Recent purchases in the Special Collections Department, made possible through the generous endowment of former University Librarian John Russell Mason, the Friends of the Libraries, the challenge grant program of the National Endowment for the Humanities and departmental funds, have enhanced the strength of Gelman's regional history collection. These include manuscripts and organizational records, such as the Polly Shackelton Papers, the archives of the Greater Washington Board of Trade and of the Jewish Community Council of Greater Washington, the Samuel Shaffer Papers, the Washington Theater Club Collection, and the J.W. Whalen Papers.

Perspectives on the University include the Student Protest Collection, materials on the University Archives and Records Program, and Images of the George Washington University, a collection of 60,000 negatives recording events at GW from 1967-1984.

Several donations encompassing the sciences, the social sciences and the humanities have also been added. One exhibit, containing landmark publications in a number of fields, includes such items as a journal from the second session of the U.S. Senate, a record of the Constitutional Convention of 1787, and an autograph by cartoonist Clifford K. Berryman, originator of the "teddy bear."

"Recent Acquisitions" will run through April. Members of the Special Collections staff will be on hand to answer questions about display items and to help visitors pursue their special interests.

Editorial Assistant for the *GW Report* is **Lisa M. Walker**

BRIEFLY...

A used book sale, sponsored by Sigma Delta Chi, the student chapter of the Society of Professional Journalists, will be held on Tuesday, March 29, on the H Street Platform of the Marvin Center. Hardcover books will be priced at $2 and paperbacks at $1.

Brahms' Hungarian Dances will be performed by "Four Hands: Joseph & Ross Duo," as part of the Lisner at Noon series on Wednesday, March 30, at 12:15 p.m. in Lisner Auditorium. The event is free and listeners are encouraged to bring a lunch.

"The Debt Crisis," will be discussed by Gonzalo Biggs, senior consul, International Development Bank, on Wednesday, March 30, at 12:30 pm in Funger Hall, Room 310. The event is sponsored by the Latin American Studies Program. For more information, call 46240.

Barry Berman, professor of physics, will present "Channeling Radiation and Applications," at a joint Electrical Engineering/Physics colloquium on Thursday, March 31, at 4:15 p.m. in Corcoran Hall, Room 101. The event is sponsored by the Department of Electrical Engineering and Computer Science and the GW student chapter of IEEE. Call 676-5103 for more details.

INTERVIEWS

FREDERICK AMLING, professor of business finance, was interviewed by Philip Albright, for an article appearing in the March issue of *Sylvia Porter's Personal Finance,* entitled "Is a Nondeductible IRA for You?"

MARCUS CUNLIFFE, university professor, discussed the American Presidency on CBS' Nightwatch, on February 8. He was interviewed by *USA Today* about George Washington as an historical figure, on February 15.

LLOYD H. ELLIOTT, professor of higher education, was interviewed by WHWR Radio on February 25, about an agreement reached between Central High School in Prince George's County and the School of International Affairs to collaborate in the area of international studies.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed by Elizabeth Weiner about the newly-elected President of Korea, Roe Tae Woo, for an article appearing in *Business Week* on March 1. On March 4, he was interviewed by Clyde Farnsworth of the *New York Times* on the Korean economic situation and the outlook for 1988.

SAR LEVITAN, research professor of economics, was interviewed on the topic of part-time employment on National Public Radio's news program, "Morning Edition," on March 7. He was interviewed on the same topic by CBS Morning News on March 15, and the *National Journal.*

SUSAN TOLCHIN, professor of public administration, was interviewed on a number of radio and television programs about her book, *Buying into America: How Foreign Money is Changing the Face of Our Nation,* co-authored with Martin Tolchin. They included: the "Today Show" on NBC-TV and National Public Radio's "All Things Considered" on February 25; CNN's "Business Day," the "Alison McGovern Show" on WMAQ Radio in Chicago, and "New York & Co." on WNYC-Radio, all on February 26; "Extension 720 with Milt Rosenberg" WGN-Radio, March 3; and the "Sondra Gair Show" WBEZ-Radio, and "Money Talks" WBBM-TV, on March 4. She was interviewed about the book by the *Northeast International Business Journal* and *Journal of Commerce* on February 25; by *Reuters, The Los Angeles Times,* and *The Toronto Star* on February 26; and *Asabi Shumbun,* on March 2.

PROFESSIONAL ACTIVITIES

WILLARD E. CALDWELL, professor emeritus of psychology, recently joined an international inter-disciplinary group of scientists interested in the behavioral aspects of Sudden Infant Death Syndrome. This group was formed by Dr. Lewis P. Lipsitt, professor of medical science and director of the Child Study Center at Brown University.

JONATHAN CHAVES, associate professor of Chinese, gave a reading of his translations of later Chinese poetry for the International Monetary Fund series, "Poetry from Three Continents," on March 17.

ZSUZSANNA GYORKY, coordinator of clinical services, and GEORGIA M. ROYALTY, training director, both of the University Counseling Center, presented a poster session, "The Use of Self-Help Books in Counseling and Psychotherapy," with Tina E. Stern and Judith A. Marx, at the 95th annual meeting of the American Psychological Association in New York City, in September.

ALAN WADE, associate professor of theatre, is currently appearing in the Washington Stage Guild's March 15 to April 10 production of George Bernard Shaw's "Candida," in the lead role of Reverend James Morell, Candida's husband.

PERSONNEL NOTICES

ASSISTANT UNIVERSITY LIBRARIAN FOR COLLECTIONS, full-time, Gelman Library. (Master of Library Science (M.L.S.) from an American Library Association (ALA)-accredited library school required. Responsibilities include overall administration, direction and coordination of collection development/management, acquisitions, cataloging/systems, preservation/binding, and special collections. Must understand scholarly research needs and methods, and demonstrate strong communications and public relations skills.) Review of applications will begin April 1. Send resume and three references to Andrea Stewart, Executive Coordinator, Gelman Library, The George Washington University, Washington, DC 20052.

COORDINATOR FOR BIBLIOGRAPHIC INSTRUCTION/REFERENCE LIBRARIAN/SUBJECT SPECIALIST, full-time, Gelman Library. (Position includes three main areas of responsibility and service: as coordinator for bibliographic instruction; as a member of the Reference and Instruction Department; and as a subject specialist. Must have an ALA-accredited M.L.S., ability to work effectively with the public and co-workers, and extensive experience in bibliographic instruction. Subject background in education, knowledge of learning theory and applications for adult learning, experience in media design and production, writing and editing skills, and experience or course work in online computer searching are highly desirable.) Review of applications will begin April 1. Send resume and three references to Andrea Stewart, Executive Coordinator, Gelman Library, The George Washington University, Washington, DC 20052.

GASTROENTEROLOGY RESEARCH ASSISTANT, full-time, Department of Medicine. (Individual needed to perform research duties including: small animal care and surgery; data entry, statistical analysis and detailed records; and general laboratory maintenance.) Call Jim Henry at 42922, for more information.

MANUSCRIPTS/PUBLIC SERVICES LIBRARIAN, full time, Gelman Library's Department of Special Collections. (Responsible for planning and supervising the processing of institutional and personal papers, and for coordinating all facets of an active public services operation, including promoting collection use. M.L.S. from an ALA-accredited program, formal archival training and a minimum of two years archival experience required. Must have experience with microcomputer applications for manuscripts processing. Proven ability to work effectively with staff and public, demonstrated supervisory ability, and written and oral communications skills, are also re-quired.) Review of applications will begin April 1. Send resume and three references to Andrea Stewart, Executive Coordinator, Gelman Library, The George Washington University, Washington, DC 20052.

RESEARCH ASSOCIATES/ASSISTANTS, full-time, the Biostatistics Center. (Master's degree in biostatistics or statistics needed for work in clinical trials. Assist in study design, management, data management and analysis for multi-center studies. Two or more years in biomedical research desirable. Good writing skills and experience in using SAS required.) Send resume to P. Gilbert, The George Washington University Biostatistics Center, 6110 Executive Boulevard, Suite 750, Rockville, MD, 20852. No phone calls please.

RESEARCH ASSISTANT, half-time, Division of Hematology-Oncology. (Duties include data coordination and data entry of various AIDS/ARC clinical trials, patient scheduling, collection and compilation of data, and completion of study report forms. Involves close interaction with physicians, nurses, and laboratory technicians. Some travel may be expected. A bachelor's degree is required and related research experience is desirable.) Contact Jeffery Stallings as 44200.

The George Washington University is an equal opportunity/affirmative action employer.

Number 503

GW REPORT

April 4, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

HONORS -- L to R, Vice President for Academic Affairs Roderick S. French, President Lloyd H. Elliott, Distinguished Scholars Beth Ann Hooper, Michel G. Haddad, Eileen N. Reichenberg, Amy J. Strassler, Stephanie Ann Smith, and Board of Trustees Chairman Everett H. Bellows.

PRESIDENT ELLIOTT, DISTINGUISHED SCHOLARS SPEAK AT HONORS CONVOCATION

"Your accomplishments have a great deal of meaning . . . far beyond these ceremonies," President Lloyd H. Elliott told students being recognized at the March 25 Honors Convocation.

"Society desperately needs educated citizens," Elliott said. Referring to the poverty, homelessness, hunger, disease, illiteracy and civil strife in the world today, he observed that "the world needs the best brainpower it can muster to integrate modern science and technology into the fight against age-old problems, for the problems increasingly beleaguer and threaten to overtake us." He told the students that, by their accomplishments, they had made an impressive start and increased their worth to the society in which they live. "We hope and encourage you," he said, "to make this but the first step in a lifelong process of shaping your life creatively and meaningfully."

In their remarks, all five students receiving Distinguished Scholar Awards spoke of the value of their experiences both in the classroom and in outside activities and expressed appreciation to the University, their families and friends.

Stephanie Ann Smith of Columbian College described her research in physical chemistry and her involvement with the American Chemical Society Student Affiliates, as well as her service as a chemistry peer adviser, laboratory teaching assistant and tutor. She said three semesters' piano lessons had enriched her years here and that she enjoyed being an active member of the Student Orientation Staff and Alpha Epsilon Delta, the premedical honor society. She intends to pursue doctoral studies in biophysical chemistry at Cornell University.

The remarks of Michael Haddad, the School of Engineering and Applied Science Distinguished Scholar, gave an insight into the experience of an international student. Coming from Lebanon to George Washington was not easy, he said. He finds himself "the making of many factors and efforts" -- the family he left in Lebanon, the country itself, and the extended family he found at the University. "As we beautify life by the chisel of education," he pointed out, "the true gem in each one of us is exposed." Participation in the SEAS Honors Research Program helped him as did the support of the Hariri Educational Foundation of Lebanon. Haddad spoke of his country as one "that interprets the West to the East and presents the East to the West." He will seek a master's degree in biomedical engineering and declared his intent to use his education to bring the world closer to the concepts of St. Augustine's "City of God" and Plato's "Republic."

Beth Ann Hooper of SEHD looked back over her student years and described her vision for education. The future educational system should have two components -- a child should be educated at his or her present functional level and education should be meaningful to the student. She stated, "Only if education has meaning and is seen as purposeful in the eyes of a student will the student truly apply him or herself to the learning process." Her own future will include working with students with special needs.

Eileen N. Reichenberg, the SGBA scholar, emphasized the benefits to her of campus professional and social organizations, particularly those related to her studies, residential life and new students. She served as a university tour guide and as co-chairperson of the Student Orientation Staff. She spoke of her work with a "big-eight" accounting firm last summer when she researched issues related to the new tax law. She said she had gained a greater sense of satisfaction and a higher self-esteem from her years at GW. She will sit for the Certified Public Accountant examination in May.

In reflecting on her four years at GW, Amy J. Strassler of SIA said, "What strikes me most is the broader perspective I have gained here." She noted her studies and experiences combined "to paint a richer picture of the world" and her role in it; her SIA education had allowed her to see the interdependency in the world today. During her participation last year in GW's program in La Rochelle, France, Strassler was an intern with an audio-visual production company and was able to produce a video about her experience there, which included words of encouragement to other students to take advantage of such an opportunity. Observing that the world is complex and fascinating, she concluded, "Education and experience are the first steps toward understanding the world around us, and understanding leads to action for the betterment of ourselves and our society."

Vice President for Academic Affairs Roderick S. French, in recognizing those on the deans'lists, likened students, parents and faculty to shareholders with a major investment in the community of education.

ELLIOTTS HONORED BY GW UNIVERSITY CLUB

President and Mrs. Lloyd H. Elliott were honored by The George Washington University Club at a tea on March 23. They were presented a silver bowl with openwork decoration, made in Germany in 1880, and were informed that the President's Room of the club will be renamed the Betty and Lloyd Elliott Room.

David Brown Weaver, professor emeritus of law, who was the club's first president, expressed appreciation for Elliott's support of the club and for "the improvement in atmosphere and creation of amenities" that he had brought to the campus. Current GW Club President David Pryor presented the bowl to Mrs. Elliott and the president, who termed it "a memorable gift." Invited to speak, Mrs. Elliott commented, "I do the talking at home. He does the talking away from home. I thank you from the bottom of my heart."

University Trustee Hazel Hanback introduced former club presidents who were present and offered their collective thanks to President and Mrs. Elliott for their activities in behalf of the club.

Vice President and Treasurer Charles E. Diehl spoke for the faculty and staff in commenting on the institution's growth under the president's leadership.

The announcement of the renaming of the President's Room for the Elliotts was made by Alvin E. Jensen, former associate dean of the College of General Studies.

"By any measure, this club has added a tremendous dimension to the unity of the University," the president said in expressing his appreciation, adding that "our time at the University has added up to 23 years of pleasure for Betty and me."

GW CLUB TEA -- Theodore P. Perros, professor of chemistry and of forensic sciences, was one of some 300 members of the University community who came to greet President and Mrs. Lloyd H. Elliott at the March 23 tea in their honor hosted by the GW University Club. David Pryor, club president, is in the center.

APPLE COMPUTER DONATES EQUIPMENT TO GW

During the last semester, the University received three grants of microcomputer equipment from Apple Computer, Incorporated, valued at approximately $100,000, based on retail market value.

The School of Education and Human Development received 11 various models of Apple Macintosh and Apple II-GS computers and associated equipment to establish a laboratory in Funger Hall. The primary focus of this center will be adult literacy learning, according to Michael B. Feldman, professor of engineering and applied science and assistant for academic computing to Vice President for Academic Affairs Roderick S. French. The grant from Apple also includes some funds for support of the laboratory. Associate Professor of Special Education Teresa J. Rosegrant is the principal investigator for this project.

The School of Engineering and Applied Science Computing Facility (SEASCF) has received four Macintosh II computers to be used for engineering workstation development work. Michael P. White, SEASCF manager, is coordinating the use of these computers.

The Computer Information and Resource Center (CIRC/US) has received 13 Macintosh SE computers. CIRC/US, a unit of the Office of the Vice President for Academic Affairs, is located in the Rome Hall University Computer Center (UCC) area. Apple has designated Don Rickert, manager of CIRC/US, and Professor Feldman to be in charge of deployment of these machines. One computer will become part of a new software resource center being formed at CIRC/US. Six will be installed in one of the UCC terminal rooms as public machines; and five will be distributed to faculty members interested in embarking on academic software integration and development. The remaining computer will be held in reserve as a spare and may be available as a short-term "loaner."

ANNUAL AWARDS SHOW TO OPEN IN DIMOCK

Works by seniors and graduate students in fine arts and art history will be on exhibit in the Dimock Gallery from Thursday, April 7, through Thursday, April 28. The exhibition is the gallery's Annual Awards Show, which includes the David Lloyd Kreeger Awards Competition.

Awards will be given for ceramics, sculptural ceramics, drawing, design, painting, photography, printmaking, sculpture, visual communications, and art history/criticism.

Works to be shown were selected by an *ad hoc* committee of faculty members of the Art Department. Jurors from outside the University community designated awards. They were Joshua Smith, independent curator; John Morrell, gallery coordinator, Department of Fine Arts, Georgetown University; and Peter Masters, graphic designer. The juror for the papers in art history and criticism was Lois Fink, curator of research, National Museum of American Art, Smithsonian Institution.

The cash awards and purchase prizes have been provided by David Lloyd Kreeger; Dr. and Mrs. Jerome Canter (Morris M. Aein Memorial Prize in Drawing); Robert N. Alfandre; the late Julian H. Singman, Esq.; and Walter J. Hunt (Cecile R. Hunt Prize).

Gallery hours are 10 a.m. to 5 p.m., Tuesday through Friday; noon to 5 p.m. Saturday; closed to the public on Sunday and Monday.

IT'S INTERNATIONAL WEEK

International Week '88, which continues through Saturday, April 9, is offering the University community a wide variety of events. Highlights include this evening's keynote address by Donald Woods, journalist known through the film *Cry Freedom*; Tuesday's Latin American Festival; Wednesday's International Market Day, with displays from over 25 organizations; Thursday's Program Board-sponsored movie, "Tampoco," a Japanese comedy, and "South Africans Speak," a panel discussion on apartheid; Friday's Reggae Party, by the Program Board, with the band Swamp; and Saturday's International Student Society 56th Annual International Embassy Dinner. For more information, call International Student Services, 46860.

RED CROSS BLOOD DRIVE TUESDAY AND WEDNESDAY

The University's Spring Red Cross Blood Drive is scheduled for Tuesday, April 5, from 8 a.m. to 1 p.m., and Wednesday, April 6, from noon to 5 p.m., in the Marvin Center Ballroom. The event is being sponsored and coordinated by the Student Activities Office.

In order to meet the drive's goal of 120 pints, all members of the University community are encouraged to participate. Donor appointments may be scheduled by calling 46555.

Individuals who are unable to donate blood themselves are invited to assist with planning and donor recruitment. Supervisors are also asked to help by allowing adequate leave time for employees who wish to make a donation. Anyone able to volunteer some time is urged to call Jevera Temsky at 46555 for more information.

Questions regarding donor eligibility should be directed to Stephanie Norrell of the Red Cross Nursing Office at 728-6520.

TEACHER'S INTERVIEWS ON APRIL 18 & 19

Interviews for over 3,000 teaching vacancies will be conducted on April 18 and 19 as part of a Teacher Interviewing Consortium sponsored by the 1988 Mid-Atlantic Association for School, College and University Staffing (MAASCUS), at the University of Maryland, College Park campus.

Representatives from over 50 mid-Atlantic school systems will be on hand to meet and interview graduating students and alumni interested in teaching vacancies anticipated for the upcoming school year. School districts represented will include Montgomery, Fairfax and Arlington counties, the District of Columbia and New York City.

Recruiters are interested in hiring for all areas. A school profile booklet indicating specific personnel needs, and registration material are available in the Career Services Center, Academic Center T509.

BRIEFLY...

The GW University Singers, under the direction of Catherine J. Pickar, will present Gabriel Faure's "Requiem" on Tuesday, April 5, in the Marvin Theater at 8 p.m. The concert is free of charge.

French Duo, Remy Cordier, flutist, and Michel Kirschner, guitarist, will give a program on Wednesday, April 6, at 12:15 pm in Lisner Auditorium, as part of the Lisner at Noon concert series. The event is free, and listeners are invited to bring a lunch.

J.D. Rosendhal, visiting professor of international affairs and former chief scientist, Office of Space Science and Applications, NASA, will discuss "The Science of the Space Program: Astrophysics, Geophysics, and Plasma Physics," at a joint colloquium sponsored by the Physics and Geology Departments and Space Policy Institute, Thursday, April 7, at 4:15 pm in Corcoran Hall, Room 101.

A follow-up to Thurston Hall's Dance-A-Thon for the benefit of the Muscular Dystrophy Association (MDA) will be held on Sunday, April 10, at 8 p.m. at the Comedy Cafe, 1520 K Street, N.W., to ensure that the $20,000 pledged January 30 and 31 becomes a reality. For ticket information, call Karen at MDA, 823-5113.

PROFESSIONAL ACTIVITIES

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, spoke on "Trade and Investment with China and Other Emerging Economies," at a Foreign Students Service Council workshop on international trade and business, on February 27. On March 2, he gave brief remarks at the opening session of the Washington International Trade Association's Annual "Career Day" for Washington area consortium schools. As banquet speaker at the Association of Students in International Business and Economics Eastern Division Regional Conference on March 4, Professor Grub spoke about "The Business Challenge of 1990 and Beyond." The same day, he addressed the Japanese winners of the seventh U.S.- Japan essay contest, and of the 38th Japanese Intercollegiate English debate contest, both sponsored by the U.S.- Japan Culture Center, of which he is a founding director. On March 7, Professor Grub spoke at the opening session of the International Convention of the Association of Collegiate Entrepreneurs at the Grand Hyatt Hotel in Washington.

JIN HAI LIN, visiting assistant professor of international business, presented a paper co-authored with Phillip D. Grub, Aryamehr Professor of Multinational Management, at the third annual Washington Consortium of Schools of Business Forum, at Gallaudet University, on March 5. The paper was entitled, "Open Door or Squeezing Through the Key Hole: U.S. Joint Venture Experience in China."

JOHN M. LOGSDON, professor of public affairs and political science, has recently been named a member of the National Academy of Engineering Committee on Space Policy at the National Academy of Sciences, which has been established to prepare recommendations for the next administration on national space policy. He was elected a fellow of the American Association for the Advancement of Science in February, for "pioneering work in developing the field of science policy studies, particularly in recognition of his educational efforts in training a new generation of policy analysts." Professor Logsdon spoke recently at the Institute of Politics at Harvard University, as well as at the University of Central Florida, the University of Alabama at Huntsville, and the University of Delaware. He was recently named to the Board of Advisors of the Planetary Society.

CLARA M. LOVETT, professor of history, served as consultant to the Research Division of TIAA-CREF, for a book project concerning academic employment relations and practices, on March 12. On March 16, she served on a panel at the Academy for Educational Development for USIA-funded faculty exchanges between U.S. and European universities.

LINDA MAKOWSKI, women's basketball coach, received the Atlantic Ten Conference Coach of the Year award at the Atlantic Ten Conference Tournament banquet held at Rutgers University on March 10. This is the sixth time Makowski has earned coach of the year recognition. She is currently one of five Region III coaches being considered for the 1987-88 Converse Coach of the Year award.

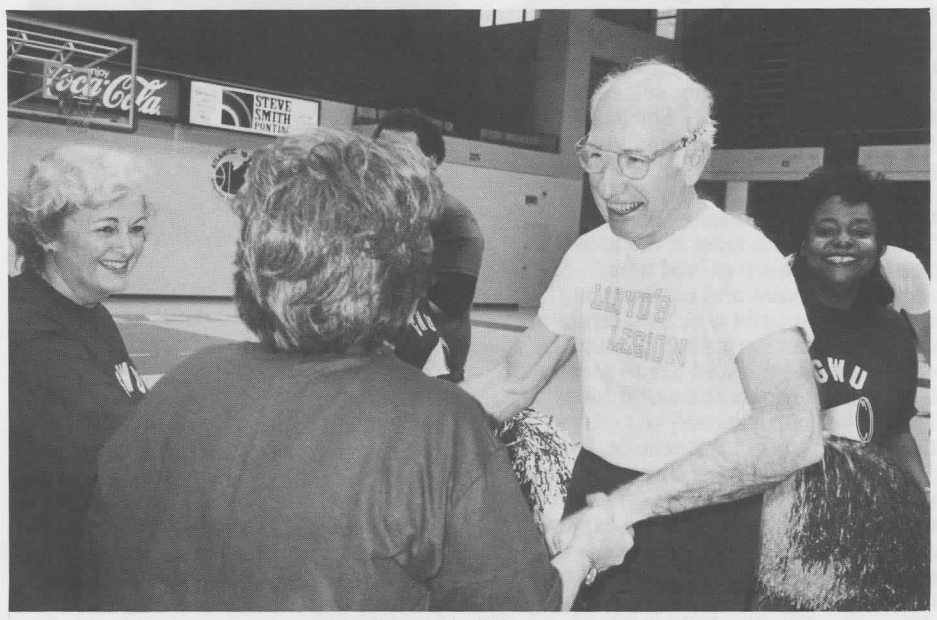
CHRISTINE MELONI, assistant professor of English as a foreign language, presented two papers at the international convention of TESOL, (Teachers of English to Speakers of Other Languages) in Chicago, the week of March 7. The papers were entitled, "Does Higher Education Liberate Japanese and Korean Women?" and "Korean Students Are Not Carbon Copies of Japanese Students."

LEONARD NADLER, professor of human resource development and adult education, was given an award as "Outstanding Adult Educator" by the Metropolitan Washington Chapter of the American Association for Adult and Continuing Education on March 18.

JERROLD M. POST, professor of psychiatry and public policy, has been appointed to a five-year term on the Council on International Affairs of the American Psychiatric Association.

STEPHEN C. SMITH, assistant professor of economics, presented a paper on "Commercially Issued Money in a Developing Country with Financial Repression: Yugoslavia," at the Eastern Economic Association meetings in Boston, March 11.

LeNORMAN J. STRONG, director of the Marvin Center, has had a chapter accepted for publication in a monograph series on leadership training to be published by the Association of College Unions-International. The chapter is entitled, "Race Relations for Personal and Organizational Effectiveness."



AFTER THE GAME -- President Lloyd H. Elliott greeted Lloyd's Legion cheerleaders Harriet A. Little, DCE assistant dean; Yvette Alvarez, senior accountant, Treasurer's Office, back to camera; and Diane E. Smith, executive secretary to the Associate Provost, after the annual student-faculty basketball game between the Legion and Adam's Army, March 29, in the Smith Center, won by the Legion with a 40 to 12 score.

PUBLICATIONS

MARCUS CUNLIFFE, university professor, two articles, "America's Imaginary Wars," in *American Literature in Belgium*, ed. Gilbert Debusscher, (Amsterdam: Rodopi B.V., 1988); and "Leadership, Democracy and the Presidency," in *World & I*, January 1988, pp. 546-48; a review, of the *Columbia Literary History of the United States*, ed. Emory Elliott, in the *Boston Globe*, February 7, p. A-10; and a revised essay, "American Thought," for *The United States: A Companion to American Studies,* ed. Dennis Welland (2nd ed., London: Methuen, 1987), pp. 518-573.

CHRISTOPHER JOYNER, associate professor of political science, an article, "The Evolving Antarctic Minerals Regime," in *Ocean Development and International Law Journal,* Vol. 19:1, (1988), pp. 73-96; and a review of Alves Dora's edited volume, *Economics and Pacific Security: The 1986 Symposium*, published in *Perspective*, Vol. 16:4 (December 1987), pp. 147-48.

JOHN M. LOGSDON, professor of public affairs and political science, an article, "Research Evaluation Activities of 10 Federal Agencies," written with Claire Rubin of the Graduate Program in Science, Technology, and Public Policy, in *Evaluation and Program Planning,* Winter 1988.

CLARA M. LOVETT, professor of history, an article, "The Evolution of Italian Radicalism, 1780-1914: A Historiographical Review," in *International Journal of Social Education,* Spring 1988.

TAPAN K. NAYAK, assistant professor of statistics, an article, "Estimating Population Size by Recapture Sampling," in *Biometrika,* Vol. 75, No. 1, pp. 113-120.

KATHY SIMS, director of the Career Services Center, an article, "Career Resources for International Affairs and International Employment," in the February 1988 issue of *MAPA MONITOR,* the newsletter of the Middle Atlantic Placement Association.

STEPHEN C. SMITH, assistant professor of economics, a paper, "On the Incidence of Profit and Equity Sharing: Theory and an Application to the High Tech Sector," in *Journal of Economic Behavior and Organization*, Vol. 9, No. 1, (1988), pp. 45-58.

RICHARD M. SOLAND, professor of operations research, two articles, "Minimum-Cost Mixtures of Area and Point Defenses Assuming Simultaneous Attack," in *Naval Research Logistics,* Vol. 34, 1987, pp. 337-363; and "Optimal Terminal Defense Tactics When Several Sequential Engagements Are Possible," in *Operations Research*, Vol. 35, 1987, pp. 537-542.

PETER F. THALL, associate professor of statistics, an article, "Mixed Poisson Likelihood Regression Models for Longitudinal Interval Count Data," in *Biometrics,* Vol. 44, No. 1, pp. 197-209.

ROBERT H. WALKER, professor of American civilization, an essay, "Reform and Social Change," the final of 23 essays by contemporary American scholars, in *Making America: The Society and Culture of the United States,* (Washington, D.C.: United States Information Agency, 1987).

ROBERT C. WATERS, professor of engineering administration, an editorial/opinion article, "Death Throes for U.S. Flags?," in the *Journal of Commerce,* March 8, 1988. The article discusses the prospects of the U.S.-flag merchant marine and provides suggestions for public policy.

Editorial Assistant for the *GW Report* is Lisa M. Walker.

GW REPORT

April 11, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

AFGHANISTAN: COMMENTS ON THE CURRENT SITUATION

Eshan Arifi, representative of the Afghan Mujahadeen, said the presence of the Soviet military in Afghanistan has devastated the small country. His April 5 lecture in the Marvin Center was part of International Week '88. Arifi told of incidents of looting, murder and kidnapping that he attributes to Soviet determination "to uproot and annihilate the entire Afghan population." One million people have been killed and some 5 million have fled into Pakistan, Afghanistan's southern neighbor, Arifi said.

He sees little hope in diplomatic overtures currently being made by the Soviets, and contends that the "withdrawal of six regiments in 1986 was clearly a ruse." Those were forces that were not involved in the fighting or had completed their tour in Afghanistan, he added. And, the removal of such a small force, he said, does not lessen the Russian presence in Afghanistan.

Afghanistan, a mountainous country roughly the size of Texas, Arifi said, is populated by approximately 16 million people, 99 percent of whom are Muslim. Soviet troops first entered the country in 1979. The ensuing controversy has captured and continues to receive international attention, he noted.

GW THEATRE STAGES "HOUSE OF BLUE LEAVES"

John Guare's "House of Blue Leaves," a tragi-farcical look at frustrated ambition, will be presented by the Department of Theatre and Dance from Thursday, April 14 through Saturday, April 16, in the Marvin Theatre at 8 p.m. The play, which won a 1971 New York Critics Award as Best American Play, will be directed by James Slaughter.

On Saturday, April 16, at 2 p.m., a special matinee for the hearing-impaired will be staged with the help of two certified comprehensive interpreters from the Gallaudet University Interpreting Service. This performance is sponsored by the Theatre and Dance Department, and the Disabled Student Services Office.

For more information, contact Judy Annis at 48072.

FESTIVAL -- Members of the troupe Sangre Boliviana were among the large number of musicians and dancers who appeared in the April 5 Latin American Festival in the Marvin Center, part of International Week '88.

LATIN - AMERICAN PROSPECTS DISCUSSED

"I think eventually the Sandinistas and the Contras are going to coalesce out of necessity as participants in a peace-time government," said Daniel Masis-Iverson of the University of Costa Rica, speaking on campus April 4.

He made the prediction during the question and answer period following a panel discussion, "Central America: The Prospects for Peace," sponsored by CASA (The Center for Advanced Studies of the Americas) in cooperation with the School of International Affairs and part of International Week '88.

Enrique Pumar, lecturer, Department of Politics, The Catholic University of America, one of three panelists, commented, "The Contras, who are inside making the revolution, want a piece of the pie. Unless there were a military threat, the Sandinistas would not give concessions." He likened the Arias Peace Plan to the United Nations in that it provided a way for the Sandinistas and the Contras to sit down and talk without loosing face.

Masis-Iverson, a CASA visiting scholar, said that once conditions can be established for an electoral contest in Nicaragua, although the Contras may say they were out fighting while those who stayed in the country merely had shortages to face, not bullets, still the two groups will probably both take part in government.

Panelist Mark Everingham, GW master's candidate in political science, expressed the view that once civic and economic leaders like former civilian Contra figure Alfonso Robelo return to Nicaragua or continue to plague the Sandinistas, "that's where the Sandinistas will be able to offer concessions."

Moderator and commentator for the panel was Cynthia McClintock, associate professor of political science. She discussed U.S. policy towards Latin American revolutions and differences between the Cuban and Nicaraguan revolutions, which were key topics of the panelists' papers. The panel was the second half of a CASA-sponsored conference on conflict and cooperation in the Americas.

PHI BETA KAPPA AT GW TO OBSERVE 50TH YEAR

In honor of the 50th anniversary of the founding of Alpha Chapter of Phi Beta Kappa in the District of Columbia (The George Washington University chapter), there will be a banquet on Saturday, April 23, at 7:30 p.m. at the Washington Marriott Hotel. University Professor of English Alex Zwerdling will be the banquet speaker. The event is sponsored by the chapter officers and the Columbian College Alumni Association. For further information, call 46130.

ANNUAL ELTON LECTURE IN PHILOSOPHY, APRIL 13

Paul M. Churchland, author and professor of philosophy at the University of California, San Diego, will present "Reductionism, Connectionism, and the Plasticity of Human Consciousness," in this year's Elton Lecture in Philosophy on Wednesday, April 13, at 4 p.m. in the Smith Hall of Art, Room A-114.

Author of *Scientific Realism and the Plasticity of Mind* and *Matter and Consciousness*, Churchland is considered a vanguard philosopher for his criticism of traditional empiricistic foundationalism. The event is being sponsored by the Department of Philosophy. For more information, call 4-6465.

CONVERSATION -- L to R, President Lloyd H. Elliott, GSAS Dean Henry Solomon, and President John S. Toll of the University of Maryland, shared a light moment during the March 30 symposium.

100th YEAR OF DOCTORAL STUDIES NOTED AT SYMPOSIUM

A wide range of ideas was presented regarding the future of the Ph.D. degree at the afternoon panel session of the March 30 symposium organized to observe the centennial of the doctorate at The George Washington University. The symposium also honored President Lloyd H. Elliott in the final year of his presidency.

University Trustee Robert McC. Adams, secretary of the Smithsonian Institution, served as moderator of the session, titled "Doctoral Education in Prospect." Panel members were George F. Cahill Jr., vice president for training, Howard Hughes Medical Institute; Phyllis P. Franklin, executive director, Modern Language Association; Alexander MacLachlen, senior vice president for science and technology, the Du Pont Company; and John B. Slaughter, chancellor, the University of Maryland. Respondent was Julius P. Lapidus, president of the Council of Graduate Schools.

The ideas which emerged indicated changes in the fields of education, science and technology, and in the scholarly community as a whole.

In education, several panelists noted the need for greatly increased support for blacks, Hispanics and native Americans to be able to complete work toward the doctorate and to be given opportunity to advance as teachers at the graduate level. The trend, in many institutions, toward preparing doctoral candidates for teaching was noted.

In the fields of science and technology, those attending learned that flexibility will be increasingly prized in the corporate world. Further, it was stated that Ph.D. holders working in industry must be problem definers as well as problem solvers and have demonstrated ability to move themselves in new directions.

With regard to research, it was pointed out that in the future, more research will be done in teams. The genius of the individual was still percieved as the real key to progress but team work was regarded as essential. The increasing internationalization of the nature of scholarship and research was highlighted, as well as a growing interdependence among scholars all over the world.

One responsibility of every citizen was defined as that of trying to understand complex and technical issues since alarms and mistrust can make it difficult for research institutions to accomplish their work. As a corollary, it was stated that risks in today's world cannot be eliminated, but they can be controlled.

A question was introduced as to whether the current divisions of scholarship are becoming outdated. This question was seen as possibly one of the most divisive facing the community of scholars today. There appeared to be agreement that the scholarly community needs to respond to such questions and to retain some kind of responsibility for long-range scholarship and research.

OPEN DISCUSSION ON NUCLEAR POLICY

"Scientific Impacts on Nuclear Strategic Policy: Dangers and Opportunities" will be the subject of an open discussion on recent technological advances and how they affect nuclear strategic policy and arms control verification, on Sunday, April 17, in Funger Hall, Room 103, from 7:30 to 10 p.m.

The session will serve as the culmination of a two-day short course on "Nuclear Arms Race Technologies: The 1990's." The speakers include Spurgion Kenney Jr., president of the Arms Control Association, and former deputy director of the Arms Control and Disarmament Agency; Edwin Luttwak, chair in strategy of the Center for Strategic International Studies; and John Logsdon, professor of public affairs and political science, from the Graduate Program in Science, Technology, and Public Policy, who will chair the discussion.

The event is being sponsored by the Physics Department and GW's Graduate Program in Science, Technology, and Public Policy, as well as the Forum on Physics and Society of the American Physical Society, and the American Association of Physics Teachers.

Call 47192 for further information.

ELYCE ZENOFF DIES

Elyce Zenoff, professor of law, died March 24 at her home in Washington, D.C. She was 58.

Professor Zenoff joined the faculty of the National Law Center in 1966 and became a full professor in 1969.

Born in Milwaukee, she graduated from the University of Wisconsin and earned a Juris Doctor degree at Northwestern University. She worked in Chicago for the American Bar Association and the American Medical Association in the 1950s.

Moving to Washington in 1961, she became counsel to the Senate Subcommittee on Constitutional Rights, where she helped draft model legislation on the rights of the mentally ill. She was later a staff attorney with the U.S. Commission on Civil Rights.

At the University, she conducted a series of studies, including "The Mentally Retarded and the Law" and "Juvenile Offenders and the Law."

A member of the Association of American Law Schools, she was a consultant to the Commission on Marijuana and Dangerous Drugs, the D.C. Office of Forensic Psychiatry and the American Bar Association Project on Mentally Disabled Offenders Standards.

GW WILL HOST FIRST CHERRY BLOSSOM REGATTA

GW will host the First Annual Cherry Blossom Invitational Crew Classic, on Saturday, April 16, with preliminary races beginning at 9 a.m., and the finals for 13 scheduled events starting at 2 p.m.

Nine squads are scheduled to compete, including Purdue, Temple, Georgetown, Virginia, George Mason, Navy women, LaSalle, and Trinity College, in addition to GW. The races will be held on the Potomac River on a 2000-meter course, with the finish at 30th Street, NW, just off the boardwalk of the Washington Harbour complex.

According to GW crew coach Paul Wilkins, this event will be the largest collegiate regatta in Washington with competitors from some of the nation's top crew programs. Members of the University community are invited to show their support for GW athletes.

BRIEFLY...

The next GW Club Breakfast will feature Jacob A. Stein, Esq., of the law firm of Stein, Mitchell and Mezines, who will discuss "Forty Years In and Out of Court: Some Reflections on What the Practice of Law Reveals About Human Nature," on Wednesday, April 13, at 8 a.m., Marvin Center, third floor. To make a reservation, call 46610.

Lisner at Noon will present a "Dance Preview" of up-coming performances to be given by the GW Dancers, on Wednesday, April 13, at 12:15 p.m., in Lisner Auditorium. The event is free.

Lynn Freed, author of *Home Ground*, will give a reading on Thursday, April 14, in Marvin Center, Room 405, at 8 p.m., as part of the Spring Evening Reading Series, sponsored by the Department of English and the Jenny McKean Moore Fund for Writers. Admission is free and a reception will follow.

E.P. Harper, associate professor of physics, will speak on "Photodisintegration of the Deuteron," at a colloquium sponsored by the Department of Physics, on Thursday, April 14, in Corcoran Hall, Room 101, at 4:15 p.m.

Hilary Weiner will give a Master's Piano Recital on Friday, April 15, in the Marvin Theatre at 8 p.m. The performance is free and open to the public.

PRO ARTE QUARTET TO PRESENT WORKSHOP

The internationally known Pro Arte Quartet will present a special "master class" style workshop on "Rehearsal Techniques for Chamber Musicians" on Saturday, April 16, in the Academic Center, Room B-120, from 1:30 to 3:30 p.m.

The workshop will include performances by the Quartet and other local chamber music groups, followed by a discussion of rehearsal techniques. After the session, guests are invited to a reception to meet and talk with quartet members.

There is a $5 general admission fee, payable at the door, but students with ID will be admitted free. For more information, call the Music Department at 46245.

SPRING FUN RUN SET FOR SATURDAY, APRIL 16

The Second Annual Cherry Tree Trot Fun Run, co-sponsored by the Wellness Resource Center and the Smith Center, will begin on Saturday, April 16, in the Tidal Basin at 9 a.m. Prizes, including a pair of running shoes, gift certificates and restaurant coupons, will be awarded to the top three male and female finishers. The first 130 registrants will also receive a commemorative T-shirt.

There will be no registration on the day of the race. Participants must register in Room 103 of the Smith Center before April 13 at 5 p.m. There is a fee. For more information, call the Wellness Resource Center at 46927, or Recreation Sports at 46251.

PROFESSIONAL ACTIVITIES

NIK A. ALEXANDRIDIS, professor of engineering and applied science, has been elected a senior member of the Institute of Electrical and Electronics Engineers, Inc. (IEEE). On November 20, Professor Alexandridis attended a meeting on Capitol Hill regarding a proposal on National Strategy for High Performance Computing to be presented to the Congressional Committee on Science and Technology.

DAVID S. BROWN, professor emeritus of management, has donated his professional papers to the University, along with funds to support Gelman Library's processing of the collection. The materials include lecture notes, training materials, scrapbooks, correspondence, as well as published and unpublished works -- all providing a full record of Professor Brown's principal interest in public management. Brown played a major role in the establishment of the master's degree program in association management (the first in the country). The David S. Brown Papers will be housed in the University Archives in Gelman Library's Department of Special Collections.

HARVEY BRASSE, director of graphics and printing, and EMILY GLEASON, graphics specialist, received commendation from the S. D. Warren Idea Exchange Library for their design of the "Summer Study in Faraway Places" poster. A representative of the company referred to the artwork as a "spectacular combination of fine design and printing [that] makes for an eye-catching and memorable piece."

ALI BULENT CAMBEL, professor of engineering and applied science, presented an invited address on "Impacts of Superconductivity on Carbon Dioxide Emissions," at the First Climate Institute Conference in 1987. He gave the keynote address at the 8th Miami International Alternative Energy Conference in December, 1987. In October, 1987, Professor Cambel presented a paper on "An Overview of Self-Organization in Social Structures," at the University of Mannheim (Federal Republic of Germany) Workshop on Dissipative Structures in Integrated Systems. (Cambel is the U.S. Organizer of the Workshop which is cosponsored by the Federal Republic of Germany, Switzerland and the United States.) He presented a Liberty Fund Colloquium on "Spontaneous Change in Human Systems," in Welches, Oregon, also in October. Professor Cambel is a contributor to Sigma Xi, a study on interdisciplinary research. He is also a member of the organizing committee of the International Symposium on Thermodynamic Analysis and Improvement of Energy Systems, Beijing, Peoples' Republic of China.

EASTER BASKETS -- Audrey Bowe, left, principal accounts clerk, Office of Student Financial Aid, and Veronica Harvey, loan counselor, examine some of the 13 Easter baskets created by members of the office in a contest initiated by Ms. Bowe. Harvey's winning basket was chosen by secret office ballot. The baskets were created to be given to needy geriatric patients in the University Hospital. Contents included fruit, balloons, toiletries, flowers and playing cards.

ALF HILTEBEITEL, professor of religion, was guest lecturer for a two-week seminar on "New Methodologies in the Study of South Asian Religions" at the University of Wisconsin, Madison, sponsored by its Program in South Asian Studies, February 29 through March 11. He gave six lectures and four discussion classes on "Indian Regional Folk Epics, the Goddess, and the *Mahabharata*." He also served as program chair for the South Asia panels at the Association of Asian Studies annual meeting in San Francisco, March 24-27.

DOROTHY A. MOORE, professor of education, was invited in her capacity as director of the SEHD Office of International Activities, to present a paper on "Educational Reforms in China" at the Organization of American States Departamento De Asuntos Educativos Programs Viernes Culturales, in March.

FREDERIC R. SIEGEL, professor of geochemistry, presented two papers at the annual meeting of the American Association of Petroleum Geologists, in Houston, Texas, March 20-23. The first paper, "Buried TLDs in Oil Exploration, Shengping, China," was written with Hu Decheng and Wang Zaiming from the People's Republic of China. The second paper, "Geochemical Relations in Cores from the Nile Delta, Egypt," was written with Christopher Gerber and Neeraj Gupta (M.S. candidates in geochemistry), and Daniel Stanley of the Smithsonian Institution's Museum of Natural History.

ROBERT C. WATERS, professor of engineering administration, chaired a session on "Macro Environment" at the American Association of Port Authorities' Strategic Planning Seminar in Miami, March 16-18. He is currently a visiting professor at the University of California, Los Angeles.

PUBLICATIONS

ALI BULENT CAMBEL, professor of engineering and applied science, three articles: "Scarce Energy Resource Allocations: A Generalized, Non-Equilibrium Thermodynamics Approach," in the *Journal of Nonequilibrium Thermodynamics*, (with A.A. Oni), Spring 1987; "An Examination of the Engineer's Faustian Pact," in *Societal Issues, Scientific Viewpoints*, (with S.A. Schuh), ed. M. Strom, (American Institute of Physics, Washington, D.C., 1987); and "Socio-Economics of Renewable Energy Sources," in *Proceedings of the 1986 International Congress on Renewable Energy Sources,* (Madrid, Spain, 1987).

STEVEN R. EASTAUGH, associate professor of health services administration, a textbook, *Financing Health Care*, (Boston: Auburn House, 1988).

ROBERT S. FORTNER, associate professor of communication, an article, "The System of Relevances and the Politics of Language in Canadian Public Policy Formation: The Case of Broadcasting," in the *Canadian Journal of Communication*, 12 (1986), appearing in February 1988.

JONATHAN D. MORENO, associate professor of philosophy, of health care sciences, and of child health and development, a commentary, "AIDS and the Caregiver: The Meaning of Professionalism," in the *American Journal of Hospital Pharmacy*, Vol. 45, No. 642, March 1988.

Editorial Assistant for the *GW Report* is Lisa M. Walker

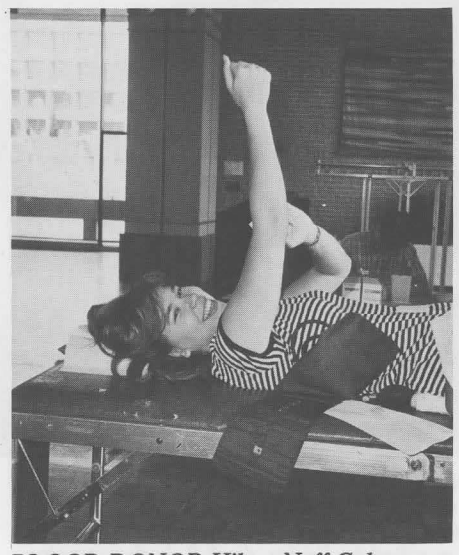
GW REPORT

April 18, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY



BLOOD DONOR Hilary Neff, Columbian College freshman, was one of 119 individuals who donated blood during the April 5 and 6 GW Red Cross Blood Drive.

NORMA MAINE LOESER IS SGBA ALUMNA OF THE YEAR

Norma Maine Loeser, (D.B.A. 1971), dean of the School of Government and Business Administration, has been selected by the SGBA Alumni Association as 1988 Alumna of the Year. Her achievements in government and academic administration are seen as complemented by her service to civic organizations.

When Loeser became dean in 1978, she was the first woman to head a major school of business in the United States. Prior to her appointment, she had been managing director of the Civil Aeronautics Board and a commissioner on the Defense Manpower Commission. Her current board memberships include the American Red Cross Endowment Fund.

She has been an SGBA faculty member since 1966 when she became a university fellow in business administration following her retirement from active duty as a lieutenant colonel in the United States Air Force. During her military career, she rose to become deputy director of women in the Air Force, developing military personnel programs for women which were instituted throughout the service.

As a professor of business administration, Loeser is particularly interested in the subjects of contemporary personnel management and top executive leadership in large organizations. In addition to the doctorate, she holds B.A. (1958) and M.B.A. (1967) degrees from the University. She will return to full-time teaching next year.

A reception and dinner on Friday, April 22, have been planned at the Park Hyatt Hotel by the SGBA Alumni Association in honor of Dean Loeser as Alumna of the Year and also in appreciation for her 10 years of service as dean. For more information, call 48157.

GW TROUBADOURS IN CONCERT

The GW Troubadours, under the direction of Catherine J. Pickar, will present a program of "Vocal Jazz" and other *a cappella* favorites on Saturday, April 23, at 8 p.m. in the Marvin Theatre.

The singers will be presenting some of the same music that met with a favorable response on their March 12 to 19 tour of the West Coast. The group traveled to San Diego, Los Angeles and San Francisco performing for alumni, prospective students and friends of the University. For further details, call 46245.

AMERICAN STUDIES 50th ANNIVERSARY CELEBRATED

GW's American Studies Program, one of the oldest programs of its kind, will celebrate its 50th Anniversary with a conference and convocation Friday and Saturday, April 22 and 23. Scholars from across the nation are expected to participate.

Kicking off with a 6 p.m. opening reception on Friday, April 22, in the Marvin Center, the schedule of events will include panel discussions on such topics as "American Studies in a World Context," "The Impact of American Studies on Other Disciplines," and "Teaching Strategies in American Studies."

Harold Skramstad, president of the Henry Ford Museum and Greenfield Village, will serve as the keynote speaker at the anniversary luncheon on April 23. He will discuss a new exhibit featuring the impact of the automobile on American culture.

Howard Gillette, chair of the American Studies Program, believes the convocation will demonstrates that there is much more to American studies than teaching grade school children about the Revolutionary War. According to Gillette, the program reaches beyond the study of history. It has developed into an interdepartmental study which also examines literature, the arts and the social sciences for their contributions toward shaping our nation.

For more information, call 46070.

SIA SENIOR Veronica Angulo, left, was congratulated by Faculty Women's Club President Guity Ghaemi, center, and club scholarship chairman Margaret Montzka on receiving a prize of $100 for outstanding performance in Latin American studies, given April 8 by the club in memory of the late Frances Donaldson, founder and first president.

"EXCELLENCE IN STUDENT LIFE" AWARDS CEREMONY

On Friday, April 22, the Division of Student Affairs is sponsoring the third annual "Excellence in Student Life" awards ceremony at 4 p.m., in the Marvin Theatre. The awards program was initiated two years ago to recognize GW organizations and students whose efforts have enhanced the quality of student life.

Awards will be given to chartered campus organizations, to registered campus groups and to those who have been chosen to receive the Baer Awards for Individual Excellence. All members of the University community are invited to attend the ceremony and the reception reception following.

JOIN THE FUN AT THE 8th ANNUAL "CHALK-IN"

Tomorrow, Tuesday, April 19, the Counseling Center and Residential Life Task Force on Artbreak and Stress Reduction will stage the eighth annual "Chalk-In," a spring tradition at GW.

Designed to ease the tension and anxiety associated with final exams and the end of the school year, the "chalk-in" offers students and passers-by an opportunity to express their feelings with colored chalks on the courtyard pavement next to Gelman Library. It also presents students with a chance to meet Counseling Center staff on an informal basis. There will be balloons, music and refreshments to add to the festivities. Everyone is invited.

EMERITUS, 25-YEAR FACULTY TO BE HONORED APRIL 28

Members of the faculty who will receive emeritus status at the Spring Commencements and those who have completed 25 years of service to the University will be honored at a luncheon, sponsored by the Faculty Senate, on Thursday, April 28, at noon in the George Washington University Club.

Faculty who are to become emeritus number 19. They are:

Ruth A. Bari, professor of mathematics;
Lee S. Bielski, professor of speech communication;
Guy Black, professor of business economics;
Ali B. Cambel, professor of engineering and applied science;
William H. Cooper, professor of clinical obstetrics and gynecology;
Abraham W. Danish, professor of clinical medicine;
Roy B. Eastin, professor of business administration;
Henry D. Ecker, professor of clinical medicine;
Lloyd H. Elliott, professor of higher education;
Marvin P. Footer, professor of clinical obstetrics and gynecology;
Lyndale H. George, associate professor of human kinetics and leisure studies;
Samuel W. Greenhouse, professor of statistics;
John W. Kendrick; professor of economics;
Edward A. Potts, professor of law;
Howard C. Pierpont, associate professor of surgery;
James W. Robb, professor of Romance languages;
Richard S. Snell, professor of anatomy and of orthopaedic surgery;
Loretta M. Stallings, professor of human kinetics and leisure studies; and
George Steiner, professor of music.

There are 35 faculty members who will be recognized for 25 years of service at the luncheon. They are:

Samuel M. Belinsky, clinical professor of obstetrics and gynecology;
Frederick B. Brandt, clinical professor of surgery;
Robert G. Brown, professor of sociology;
Marie M. Cassidy, professor of physiology;
John Cibinic Jr., professor of law;
Leon Cytryn, clinical professor of psychiatry and behavioral sciences and of child health and development;
Richard V. Erkenbeck, assistant clinical professor of obstetrics and gynecology;
Leslie H. Fenton, assistant clinical professor of medicine;
Nicolae Filipescu, professor of chemistry, special lecturer in obstetrics and gynecology;
Ben S. Fine, associate professor of opthalmology;
Edward E. Gahres, associate clinical professor of obstetrics and gynecology;
Fred George Hilkert, associate clinical professor of psychiatry and behavioral sciences;
Mary A. Holman, professor of economics;
Frank S. Janotta, associate professor of pathology;
Richard M. Kaufman, associate clinical professor of medicine;
Peter Kenmore, adjunct professor of orthopaedic surgery;
Hans J. Klapproth, clinical professor of urology;
Frederick Meyers, assistant clinical professor of medicine;
Nadine N. Natov, professor of Russian;
Karin B. Nelson, associate clinical professor of neurology and of child health and development;
Stephen S. Pappas, assistant clinical professor of opthalmology;
Lowell W. Perry, clinical professor of child health and development;
Jesse G. Rubin, clinical professor of psychiatry and behavioral sciences;
Josiah Sacks, clinical professor of obstetrics and gynecology;
Raymond Scalettar, clinical professor of medicine;
Richard Schoenfeld, assistant clinical professor of medicine;
Agnes E. Schweitzer, assistant clinical professor of child health and development;
Paul E. Shorb, professor of surgery;
Douglas H Teller, professor of design and graphics;
Neofytos T. Tsangaris, professor of surgery;
Dewey D. Wallace, professor of religion;
Robert E. Ware, assistant clinical professor of urology;

(Continued on back . . .)

EMERITUS, 25-YEAR (cont.)

Marjorie J. Williams, clinical professor of pathology;
Harry E. Yeide Jr., professor of religion; and
Artley J. Zuchelli Jr., professor of physics.

To make reservations for the luncheon, call the Faculty Senate Office, 47198.

HELEN SPENCER, NEW DIRECTOR OF OSR

Helen Spencer was appointed director of the Office of Sponsored Research (OSR), effective April 1. She succeeds Irvin C. Mohler, director since 1987, who recently retired.

Spencer had served as assistant director of the Sponsored Research Office since 1984. Prior to joining the OSR staff, she worked at the Biostatistics Center where she was responsible for administrative support in contract management and in preparing proposals. In the Treasurer's Office, from 1974 to 1982, she worked in grants and contract administration. A graduate of The George Washington University (B.A., Columbian College, 1974, with a major in mathematics) she is currently pursuing a doctoral degree in education and policy studies.

At the time of his March 30 retirement, Mohler had completed 21 years service with the University. Before being named director of OSR, he had worked for 11 years in the Science Communication Division of the Medical Center.

The Office of Sponsored Research, the central administrative office for all research and programs supported by external funds in the schools and academic departments of the University, is located in Rice Hall, sixth floor.

GW DANCE COMPANY SPRING DANCE CONCERT

The GW Dance Company, under the direction of Maida Withers, will present its Spring Dance Concert on Thursday, April 21, and Friday, April 22 at 8 p.m., in the Marvin Theatre.

The student troupe will be performing a reconstruction of "Batucada," a type of Brazilian Samba, adapted by Mary Williford of the GW dance faculty from the original choreography of Mark Taylor, director of the New York based dance company, Mark Taylor & Friends.

The program will also include a modern piece for six women, entitled "Dolls," choreographed to the music of George Winston by Lucy Bowen of the dance faculty. Classical ballet will also be on the program, as choreographed by GW graduate teaching assistant Jane Bonbright.

Tickets for the concert, sponsored by the Department of Theatre and Dance, are on sale now at the Marvin Theatre box office. For more information, call Judy Annis, at 48072.

AWARD WINNER Beni Chibber, graduate student in art, second from left, shows her father Baldev K. Chibber her poster on paper, "Set of Indian Stamp Designs," one of 65 pieces of artwork in the Dimock Gallery's Annual Awards Show. She received the David Lloyd Kreeger Prize in Visual Communications.

Editorial Assistant for the *GW Report* is Lisa M. Walker.

HOWARD C. PIERPONT HONORED BY SENATE

Associate Professor of Surgery Howard C. Pierpont was cited by the Faculty Senate for distinguished service at its meeting of April 8. The resolution was introduced by President Lloyd H. Elliott and was adopted by acclamation.

The resolution noted Dr. Pierpont's 36 years of service as a faculty member and his 17 years on the Faculty Senate, eight of them as a member of the Senate's Executive Committee and one year as committee chairman. Further, it recognized his "unfailing good humor, marked by a wit as sharp as his scalpel, coupled with a tongue dedicated to healing without cutting."

CCEW BROCHURE WINS RECOGNITION

The Center for Career Education and Workshops (CCEW) Fall 1987 Schedule of Classes brochure has been selected for recognition by the National University Continuing Education Association (NUCEA) in its annual Division of Marketing and Promotion Awards Competition.

The brochure will receive NUCEA's Honorable Mention Award of Excellence in Category 4 (Catalog), today, April 18, at the associations's annual convention in Philadelphia. Accepting the award will be Stephen A. Saft, manager of Promotional Services for the Division of Continuing Education (DCE).

Katherine Thompson of the Division's Promotional Services Office served as editor of the publication. Design and production coordination were handled by the University's Graphics and Printing Office.

In informing DCE of the award, David Dawes, chair, NUCEA Division of Marketing and Promotion, said that the judges were impressed with the consistent quality of the entries promoting continuing education programs, and noted that a record number of 450 entries were submitted by 70 institutions in the 27 award categories.

PROFESSIONAL ACTIVITIES

MURLI GUPTA, associate professor of mathematics, has been selected to serve as a judge for the National MATHCOUNTS Competition in Washington, D.C., for the fifth year in a row. For his coming participation in the competition scheduled for May, Professor Gupta has received a letter of commendation from the Secretary of Education, William J. Bennett, praising his mathematical expertise and on-going commitment to educate the nation's youth.

DONALD E. HAWKINS, professor of travel and tourism, presented five lectures at a seminar on "Rural Areas and New Demands in the Tourist Market," in Valencia, Spain, March 21-22. The event was co-sponsored by the Institute for Tourism in Valencia, the European Center on the Environment and Tourism in collaboration with the Council of Europe, and the European Association for Rural Areas.

ARTHUR D. KIRSCH, professor of statistics and psychology, gave a paper with Virginia Hodgkinson and Murray Weitzman on "Demographic Trends in Religious Institutions: Preliminary Findings," at the Spring Research Forum of the Independent Sector, in St. Louis, Missouri, March 17-18. The forum was sponsored by the Lilly Endowment, Inc. and the Pew Charitable Trusts.

THE WINNER -- Desiree James, data examination specialist, Development Office, received a key to the University and a report of the Commission for the Year 2000 from James W. Asp, II, director of development administration, after guessing the exact amount, $50,305,929, which had been reached by Friday April 8, in the ongoing Campaign for George Washington.

BRIEFLY...

An Open House, sponsored by the Department of Education and Human Development, will be held tonight, Monday, April 18, from 6 to 7:30 pm, on the first floor of Funger Hall. Faculty representatives will be available to advise prospective graduate students about a variety of teaching and related career opportunities. Financial aid and graduate fellowships will also be discussed. For more information, call 46160.

"La Violencia in Colombia: Past and Present," will be discussed by Daniel Pecaut, director of the Center for the Study of Social Movements at the Ecole des Hautes Etudes en Sciences Sociales, Paris, on Tuesday, April 19, in Monroe Hall, Room 307, at 11 a.m. The event is being sponsored by SIA's Latin American Studies Program.

Law alumni will hear David S. Ruder, chair of the Securities and Exchange Commission (SEC), who will be the honored guest and speaker at the Law Alumni Association's D.C. Chapter luncheon on Wednesday, April 20, at the Capital Hilton, 16th and K Streets, NW, beginning with a reception at noon. To make a reservation, or to sponsor a law student's attendance, call 46240.

In the next GW Club Round Table Dinner Discussion, Howard Gillette, professor of American civilization, will discuss urban development in Washington, D.C., on Wednesday, April 20, at 5:30 p.m., in Marvin Center, third floor. Call 46610 for reservations.

Gelman Library's Faculty Seminar Series concludes with "Medline for Non-Physicians," on Friday, April 22, from 1 to 4 p.m. The seminar is open to GW faculty, and space permitting, to graduate students. For information and location, call 46455.

A Jhoon Rhee Martial Arts Show, sponsored by the University's Korean Language and Culture Program, will be presented in Lisner Auditorium, Saturday, April 23, at 7:30 p.m. The performance will benefit the Korean Language and Culture Fund of the University. For more information, call 47107.

GW's 30th Annual Sports Dinner will be held on Monday, April 25, at the Hyatt Arlington Hotel at 7:30 p.m. with a reception beforehand at 6:30. For reservations, call 46650 during office hours. Reservations deadline is Friday, April 22.

Ex-smokers are needed to serve as "quit smoking" group leaders for the Wellness Resource Center in its latest drive to help others "kick the habit." To volunteer or for more information, contact Sue Lewis at 46927.

Applications for GW Basketball Day Camp, for boys ages 8 to 18, are now available. The camp runs for two sessions in the summer: from June 27 to July 1; and from August 1 to August 5. Special reduced rates are available if applicants register before May 1, and for groups of 10 or more. For more information, contact Larry Mangino, assistant basketball coach, at 48508.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, ICU Research Unit. (Responsible for management of complex data base containing both demographic and physiologic information. Requires bachelor's degree, plus strong long-term computer skills, and intimate working knowledge of SAS and CMS. Position available immediately.) Contact the ICU Research Unit, The George Washington University, 2300 K St., NW, Washington, D.C., 20037, or call 42611.

RESEARCH ASSOCIATE, full-time, ICU Research Unit. (Master's degree required for work on large-scale national study aimed at improving the scientific basis of prognosis and assessing the ability of this information to enhance hospital care. Experience conducting standardized interviews with patients/physicians; developing pre-test eligibility criteria and survey questionnaires; and dealing with acutely ill or hospitalized patients is also required.) Contact the ICU Research Unit, The George Washington University, 2300 K St., NW, Washington, D.C., 20037, or call 42611.

RESEARCH ASSISTANT, full-time, Department of Pharmacology. (Neuropharmacology laboratory technician needed immediately to assist with receptor binding, autoradiography, cell culture and other biochemical assays, and for work with animals and radioisotopes. B.A. or B.S. required.) Contact Dr. D. Perry, Department of Pharmacology, The George Washington University, 2300 I Street, NW, Washington, D.C., 20037.

The George Washington University is an equal opportunity/affirmative action employer.

Number 506

GW REPORT

April 25, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

GEORGE WASHINGTON AWARDS FOR 10 THIS YEAR

The George Washington Awards, established in 1976, recognize those whose service to the University has had a broad impact. At the Spring Commencements, 10 individuals, including President Lloyd H. Elliott, four students, three faculty members and two members of the administrative staff will receive awards.

President Elliott's award is in recognition of his leadership, his work to strengthen academic programs and enhance University resources, his maintaining the University's independence from political cross-currents and fostering an environment where diverse perspectives have thrived.

Suzanne Cavanaugh, SGBA senior, receives the award for leadership, scholastic excellence, work with the Student Orientation Staff, service as an organizer and attention to the concerns of international students.

Adam Freedman, Columbian College senior, and two-term president of the GW Student Association, is recognized for his leadership role in the Interfraternity Forum, for effectively communicating student opinion to the University administration and for dedicated promotion of student programs and activities.

David A. Goldstein, senior in Columbian College, receives the award for renewing a commitment to social service and activism on campus, participation in interfaith activities, and work with organizations concerned with the homeless and victims of apartheid.

Sung Hwan Park from Korea, also a Columbian College senior, was chosen for his leadership in student organizations, as a spokesman for GW's international students and for promoting active involvement of international students in campus life.

Chairman and Professor of Art Lilien F. Robinson, who is also chairman of the Executive Committee of the Faculty Senate, will be recognized for outstanding teaching and administrative leadership and dedication in promoting excellence in University programs.

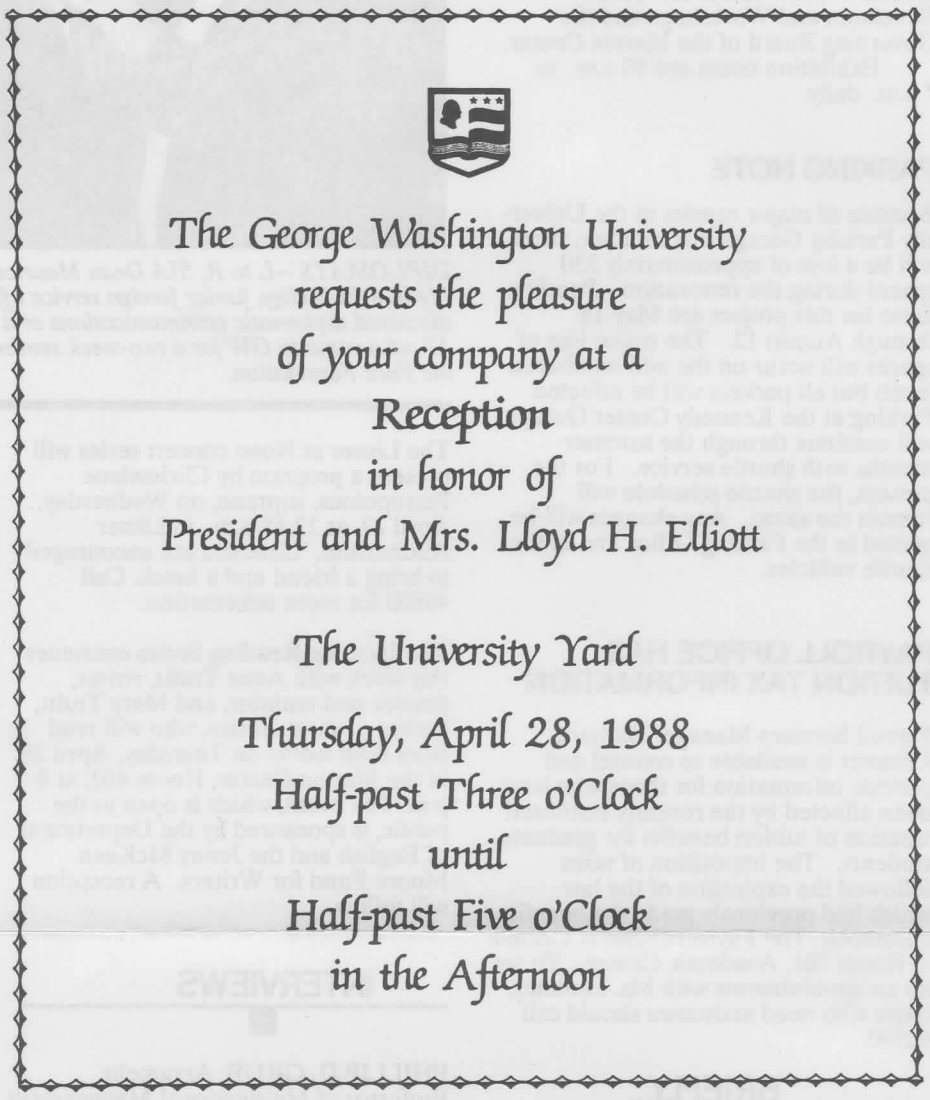
Professor of History Lois G. Schwoerer was chosen for her excellence in teaching, scholarly research, innovative course design, her early leadership on the University's Commission on Equal Opportunity leading to the GW Affirmative Action Program and her role in the establishment of GW Women's Studies.

Margaret L. Vann, director of the Office of Career Planning and Graduation in SGBA, will be honored for her roles as friend, advocate and mentor of students, her concern for black students, as an adviser to the Black Peoples' Union and her support for women's athletics.

Professor of Pharmacology Victor H. Cohn Jr. will receive the award for his gifted teaching, service as adviser and mentor to medical students, and his participation in University committees and administration.

Jeffrey L. Roames, director of student services, School of Medicine and Health Sciences, was chosen for his work in developing and implementing programs for the benefit of Medical School students, as adviser for yearbook production and Medical School Follies, his role in improving registration and in the development of Senior Awards Night.

The selection of recipients was made by an *ad hoc* committee of students, faculty and staff formed for the purpose.



FRENCH HEADS NATIONAL HUMANITIES ALLIANCE

Roderick S. French, vice president for academic affairs, was elected president of the National Humanities Alliance (NHA) at its recent annual meeting in New York City. The alliance is the only organization that represents the whole spectrum of humanities constituencies, French says. Its 60 member organizations include the major scholarly societies in the humanities, national museum and library associations, higher education organizations, historical societies, and state humanities councils. The purpose of NHA is to advance the cause of the humanities by promoting the common interests of its members with regard to national policy, programs and legislation that affect the National Endowment for the Humanities and other federal agencies related to the humanities.

EDUCATORS -- University Trustee and Superintendent of D.C. Public Schools Floretta D. McKenzie, left, and President Lloyd H. Elliott were both honored for distinguished contributions to the field of education at an April 14 dinner sponsored by the Association for Practitioners in Educational Administration.

RECORDS MANAGEMENT PROGRAM UNDER WAY

As of this year, a Records Management Program has been set up as an expansion of the University Archives practice of collecting printed works produced in any part of the University.

The Records Management Program, supported by a two-year grant from the National Historical Publications and Records Commission, will conduct a records survey for each unit in the University. Based on this survey, a retention and disposition schedule will be developed for each unit.

The program will operate under the following guidelines:

1) The records created by University administrators and faculty members in performance of assigned administrative duties are the property of The George Washington University.

2) These records are to be handled in accordance with the retention and disposition schedule developed from the records survey.

3) The University Archives is to be the official depository for records of enduring administrative and/or historical significance. Exceptions to this provision may be negotiated during the records survey.

4) The University Archivist has the responsibility for the identification and systematic transfer of inactive records from the individual offices to the University Archives.

Requests for confidentiality for internal documents will be strictly honored. David Anderson, the University Archivist, will contact each unit with records survey information in the near future.

President Lloyd H. Elliott has said that he hopes all units will give Anderson "full support in this important undertaking."

HILLEL GEWIRZ CENTER IS DEDICATED APRIL 17

The Gewirz Center of the Washington B'nai B'rith Hillel Foundation at The George Washington University was dedicated in a 6 p.m. ceremony on Sunday, April 17.

Carl Gewirz, president of the Washington B'nai B'rith Board of Governors, who officiated at the dedication, noted that the center was opening almost exactly 40 years from the day of its founding at GW and that it had taken 40 months to build it. He said it is "the best space ship in the Hillel galaxy." The center is called the Gewirz Center in recognition of the continuing interest of members of the Gewirz family in Hillel at George Washington.

Vice President for Student Affairs William P. Smith conveyed the congratulations of the University to Hillel as well as good wishes for the future.

Special guest Robert Clary, Holocaust survivor and actor, known for his appearances in "Hogan's Heroes" and "Days of our Lives," called the center "magnificent." He added, "What you have to do is see that the young students come here and get involved."

Leonard Fine, author and editor of *Moment* magazine, in brief remarks, commented on the increase in programs of Jewish studies in American colleges and universities since the 1950s. Of Hillel, he said, "At its best, Hillel is a presence that lays open to our young people not only what we have experienced but what we have dreamed. Today, it is perhaps doubly important to focus on Hillel's own possibilities."

Mrs. Frances Gewirz, Hillel founding member, presented the key to the building to Evan Schweitzer, president of the Hillel Student Board. She called it "a symbol of worth, friendliness and happiness."

In his closing prayer, GW Hillel Director Rabbi Gerald Serotta said in part, "We have gathered to dedicate the Gewirz Center to further our Jewish heritage and for the benefit of our fellow human beings."

The Gewirz Center, adjacent to the GW campus at 23rd and H Streets, N.W., designed by the architectural firm of Imas Gruner A.I.A. and Associates and constructed by Volpe Construction Company, is intended to serve the cultural, religious, academic and community needs of the nearly 5,000 Jewish students at George Washington. The center will also offer many activities and resources to the community at large.

HILLEL -- Mrs. Frances Gewirz, right, presented the key to the Gewirz Center to Hillel Student Board President Evan Schweitzer during dedication ceremonies for the building April 17.

SYMPOSIUM FOCUSES ON CONFLICT IN THE ANDES

The GW Seminar on Andean Culture and Politics and the Washington Office on Latin America (WOLA) will present a symposium on "Social & Political Conflict in the Andes," Friday, April 29, in the Marvin Center, Room 406, from 9 a.m. to 5:30 p.m.

Through a series of panel discussions, the symposium will bring together an interdisciplinary group of scholars who will explore some of the sources, manifestations and consequences of conflict in the Andean nations of South America that have produced recurring cycles of violence. Topics include: "Community, State and Resistance Movements"; "Political Parties, the State and Institutionalized Violence"; "Culture and Religious Conflict in Post-Conquest Peru"; and "Human Rights: A View from the Andes."

The symposium is open to the public free of charge. Further information is available by calling Peter Klaren at 46233.

TWO RECEIVE AWARDS FOR SERVICE TO DISABLED

Two members of the GW Community, Michael Sullivan and Don Dayhoff, were selected by the Nation's Capital Area Disabled Student Services Coalition to receive honors at its triennial awards ceremony on April 14.

Michael Sullivan, an SGBA senior, received the "Outstanding Disabled Student In a Postsecondary Setting" award for his commitment to creating greater campus awareness of the needs of disabled students.

Don Dayhoff, a staff interpreter in the Office of Disabled Student Services, was presented with an award for "Outstanding Contribution by a Disabled Student Services Support Staff Member." He was nominated for his conscientious regard for interpreter ethics and his sensitivity.

Both recipients were cited for their willingness to give their time in a way that has enhanced the lives and opportunities of persons with disabilities.

DON RUNYON FIGURES IN FLORIDA SEA RESCUE

While he was on a short family vacation in March, Don Runyon, assistant treasurer for business affairs, saved the lives of two swimmers in the Gulf of Mexico.

He and his brother-in-law were sailing off Marco Island when they saw two men out in the water, between the Florida shore and a small island. One of them called faintly for help. Runyon and his companion turned the sailboat to try to assist them and found they were too weak to climb in the boat. Runyon dived into the gulf with the life jackets he and his brother-in-law had been wearing, assisted the swimmers in putting them on and slowly swam in to shore with them.

The whole rescue operation took about 30 minutes. "They were in serious trouble. The tide was strong and the water was well over their heads. It was hard work pulling them in," recalls Runyon, who was a member of his high school swimming team in Midland, Michigan. He said the two men thanked him in both Spanish and English.

GELMAN LIBRARY REMINDER FOR READING/EXAM WEEK

During the period of April 23 through May 6, only GW and Consortium faculty, students and staff may enter the Gelman Library on weekends or after 6 p.m. on weekdays. Be sure to have your ID. No other identification will be accepted. Special hours are also in effect.

LANDSCAPE DESIGN AND PUBLICATIONS EXHIBIT

Classwork by students in the University's Publication Specialist and Landscape Design Programs is on view in an exhibition in the Colonnade Gallery through May 26. The show is focused on design in the two professions. Some faculty work is included.

The exhibition is sponsored by the University's Division of Continuing Education, the Center for Career Education and Workshops and the Governing Board of the Marvin Center.

Exhibition hours are 10 a.m. to 7 p.m. daily.

PARKING NOTE

Because of major repairs in the University Parking Garage this summer, there will be a loss of approximately 330 spaces during the renovation. Pending dates for this project are May 16 through August 12. The major loss of spaces will occur on the odd numbered levels but all parkers will be affected. Parking at the Kennedy Center Garage will continue through the summer months with shuttle service. For the present, the shuttle schedule will remain the same. Any changes will be posted in the Parking Office and in the shuttle vehicles.

PAYROLL OFFICE HAS TUITION TAX INFORMATION

Payroll Services Manager Barbara Lemmer is available to counsel and provide information for those who have been affected by the recently instituted taxation of tuition benefits for graduate students. The imposition of taxes followed the expiration of the law which had previously made the benefits untaxable. The Payroll Office is located in Room 701, Academic Center. To set up an appointments with Ms. Lemmer, those who need assistance should call 48590.

BRIEFLY...

The "Chalk-In" has been rescheduled for Tuesday, April 26, in the Gelman Library courtyard. Everyone is invited to participate. There will be artists at work, balloons, music and refreshments. Call Tally Tripp for more information at 46550.

The Colonade Gallery will host a reception in conjunction with the exhibition, "Focus on Design in Two Professions: Publication and Landscape Design," tomorrow, Tuesday, April 26, from 5 to 7 p.m., on the third floor of the Marvin Center. For details call 46610.

ARCS SCHOLARS -- L to R, Mrs. William V. Meyers, vice president for scholarship and education, Achievement Rewards for College Scientists (ARCS); Erik Kass, first-year medical student; Becky Vonakis, Ph.D. candidate in biochemistry; and Christopher White, M.S. candidate in engineering, met recently on campus. The three students are receiving scholarship aid from ARCS.

Editorial Assistant for the *GW Report* is Lisa M. Walker

DIPLOMATS --L to R, SIA Dean Maurice A. East, Hisham Khalil, Khaled Rizik, and Medhat El-Meligy, junior foreign service officers from the Arab Republic of Egypt, discussed diplomatic communications at a recent session. They are part of a group of 13 who came to GW for a two-week seminar on American foreign policy, funded by the Ford Foundation.

The Lisner at Noon concert series will present a program by Chrisselene Petropolous, soprano, on Wednesday, April 27, at 12:15 p.m., in Lisner Auditorium. Listeners are encouraged to bring a friend and a lunch. Call 46800 for more information.

The Evening Reading Series continues this week with Anne Truitt, writer, painter and sculptor, and Mary Truitt, author of short stories, who will read from their works on Thursday, April 28, in the Marvin Center, Room 403, at 8 p.m. The event, which is open to the public, is sponsored by the Department of English and the Jenny McKean Moore Fund for Writers. A reception will follow.

INTERVIEWS

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was featured in an *Industry Week* article entitled "Playing the China Card," on March 21. He was also quoted in *Business Week* in an article on "Korea's Roh: Man on the Tightrope," on March 14.

DORN C. McGRATH JR., professor of urban and regional planning, was interviewed on March 18 by former NBC newsperson Jack Reynolds for the Japanese national television news network, NTV. The interview addressed a range of issues related to planning national capitals, and will be included in an hour-long program that airs weekly on Sunday evenings throughout Japan.

PROFESSIONAL ACTIVITIES

STEVEN R. EASTAUGH, associate professor of health services administration, presented the results of a five-year study on proprietary hospitals at the Eastern Finance Association meeting in Bal Harbour, Florida, on April 22.

JONATHAN D. FIFE, professor of education and director of the ERIC Clearinghouse on Higher Education, has been elected to the Council on ERIC Directors Executive Committee and has become the committee's chair-elect. (ERIC is the Educational Resources Information Center.)

LISA E. OSTERMAN, assistant professor of geology, presented an invited lecture on "Paleoceanography and Evolution of Foraminifera in the Norwegian Sea: Cause and Effect?," at the Smithsonian Institution's Museum of Natural History, on March 30.

PUBLICATIONS

JOSEPH L. GASTWIRTH, professor of statistics and economics, a paper written with Jane-Ling Wang of the University of California at Davis, "Control Percentile Test Procedures for Censored Data," in *Journal of Statistical Planning and Inference,* 18, (1988), pp. 267-276.

DONALD HAWKINS, professor of travel and tourism, a chapter, "Esquema de planificacion para el desarralo del turismo en el espacio rural" (A Planning Framework for Developing Tourism in Rural Areas), in *Especio Rural y Nuevas Demandas en el Mercado Turistico*, a book to be published by the Generalitat Valencia, Department of Industry Trade and Tourism, Spain, 1988.

RICHARD LONGSTRETH, associate professor of architectural history, a chapter, "Richardsonian Architecture in Kansas," in *The Spirit of H. H. Richardson on the Midland Prairies, Regional Transformations of an Architectural Style,* Paul Larson, ed., (Minneapolis: University of Minnesota Art Museum, 1988), pp. 66-85, 143-149.

ANN ROMINES, assistant professor of English, an essay, "Domestic Troubles," in *Colby Library Quarterly,* March 1988.

PERSONNEL NOTICES

POSTDOCTORAL/RESEARCH ASSOCIATE, full-time, Department of Pathology. (Position to study nuclear changes involved in initiation of hepatocarcinogenesis. Should be familiar with cloning/sequencing, RNA work, flow cytometry, photoaffinity labeling, HPLC techniques, and various gels. Will have some supervisory responsibilities in 5-6 person research group.) Contact Gary Clawson, Department of Pathology, Ross Hall, Rooms 510-511, Washington, D.C., 20037, or call 45057.

RESEARCH ASSISTANT, full-time, Department of Pathology. (Individual with a bachelor's degree needed to study immunohistochemical localization of receptor and/or enzyme proteins in various organs. Should have a background in histology and pathology.) Contact Dr. Herschel Sidransky, Department of Pathology, Ross Hall, Room 502, Washington, D.C., 20037, or call 43391. Dr. Rabinder Kurl, at 43276, is also a contact for the position.

The George Washington University is an equal opportunity/affirmative action employer.

GW REPORT

May 2, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

SOME 2,000 TO RECEIVE DEGREES AT COMMENCEMENT CEREMONIES ON SUNDAY, MAY 8

The George Washington University will confer approximately 2,000 degrees in the six separate commencement ceremonies scheduled for Sunday, May 8.

The day's speakers include industrialist T. Boone Pickens; the chairman of the Joint Chiefs of Staff, Admiral William J. Crowe Jr., USN; National Science Foundation officer Bassam Shakhashiri; former U.S. ambassador, The Honorable George Walter Landau; physicist Edward Teller; and physicist Hermann Grunder.

T. Boone Pickens, founder and general partner in Mesa Limited Partnership, a multimillion-dollar petroleum exploration company, will address School of Government and Business Administration graduates in a 10 a.m. ceremony in the Charles E. Smith Center. PIckens will receive the honorary degree of Doctor of Public Service as will Kaval Gulhati, president of the Centre for Development and Population Activities, an international development organization, and Woo-Choong Kim, chairman of the Daewoo Group, an international corporation.

Admiral Crowe will speak to graduates of the School of Public and International Affairs at the school's 11 a.m. commencement in Lisner Auditorium. He will receive an honorary Doctor of Laws. At the SIA ceremony, the school will be officially renamed the Evelyn E. and Lloyd H. Elliott School of International Affairs.

Bassam Shakhashiri, assistant director of the National Science Foundation for Science and Engineering Education, will address degree recipients of the School of Education and Human Development at a 1:30 p.m. ceremony in Lisner Auditorium. He will receive an honorary Doctor of Public Service degree. At the SEHD commencement, the Dean's Special Achievement Award will be presented to Harry Pitt, superintendent of Montgomery County Public Schools and a George Washington alumnus (Ed.D. 1965).

The Honorable George Walter Landau, president of the Americas Society and a GW alumnus (A.A. 1969, Columbian College) will deliver the principal address to Columbian College of Arts and Science graduates at the college's 3 p.m. commencement in the Smith Center. Ambassador Landau will receive an honorary Doctor of Public Service. This year's George Washington Awards will be presented at the Columbian College exercises.

Dr. Edward Teller, nuclear physicist, honorary director of GW's Institute for Technology and Strategic Research, senior research fellow of the Hoover Institution and associate director emeritus of Lawrence Livermore National Laboratory, will be the speaker at the 4:30 p.m. commencement of the School of Engineering and Applied Science in Lisner Auditorium.

Hermann Grunder, director of the Continuous Electron Beam Accelerator Facility (CEBAF), Newport News, Virginia, will speak to graduates of the Graduate School of Arts and Sciences in a 7:30 p.m. ceremony in Lisner Auditorium. The honorary degree of Doctor of Public Service will be conferred on him.

President Lloyd H. Elliott will confer honorary degrees and degrees in course at the May 8 ceremonies.

SCHOLARSHIPS NAMED FOR THE ELLIOTTS

The Honor Scholarships in the School of Engineering and Applied Science will henceforth be called the Evelyn Elder and Lloyd Hartman Elliott Scholarships. SEAS Dean Harold Liebowitz announced the naming of the awards during ceremonies at the April 19 Dean's Alumni Reception and Dinner at the Embassy of France on Reservoir Road.

There are two ways the scholarship awards can be presented. One award is for entering freshmen and provides half tuition for four years of study leading to a bachelor's degree. This can be extended for one year of graduate study. The scholarships are also awarded to transfer students who normally come to SEAS at the beginning of their junior year. These students are provided with half tuition plus the same support for one additionnal year of graduate study. The awarding of these scholarships is based solely on merit. SAT scores, class rank and grade point averages in mathematics and science are the criteria. The 20 scholarships were first established in 1979.

In making the announcement, Dean Liebowitz presented President and Mrs. Elliott with a certificate of appreciation for their valuable services and significant contributions to SEAS.

COMMISSIONING OF FIRST CLASS OF GW MIDSHIPMEN

Thirty graduating seniors in the The George Washington University Naval ROTC unit will be commissioned at 2 p.m., Saturday, May 7, at the U.S. Navy Memorial.

The unit was established in 1984. The 1988 senior class will be the first class to complete all four years of training at the unit. The ceremony will also be the first formal event held at the Navy Memorial since its dedication in October 1987.

Vice Admiral Joseph Metcalf, USN (Retd.), and President Lloyd H. Elliott, will speak at the ceremony.

GW has the only Navy ROTC unit in the Washington area.

PHI BETA KAPPAS -- L to R, Board of Trustees Chairman Everett H. Bellows, 1938 initiate; Padmavathi Rao Sahib, 1988 initiate and Columbian College senior with a double major in economics and statistics; and Marjorie M. Foote, 1942 initiate who came from Carmel Valley, California, for the 50th anniversary of the University's Phi Beta Kappa chapter, visited before the April 23 banquet when University Professor of English Alex Zwerdling gave the address.

FRIEDENTHAL NAMED DEAN OF NATIONAL LAW CENTER

Jack H. Friedenthal, George E. Osborne Professor of Law at Stanford University, has been named dean of The George Washington University National Law Center. Friedenthal will assume the post later this summer.

In announcing the appointment, Vice President for Academic Affairs Roderick S. French praised Friedenthal as "a legal scholar of national reputation, an experienced educator, as well as a man widely liked and widely respected by his students and colleagues at Stanford. I look forward to having him as a colleague in the academic leadership of our institution. I think he is exactly the right person to lead a great law school as it responds to the highest demands of legal education in the next decade."

Friedenthal said, "I am very excited about the opportunities at George Washington. With the support of the faculty, students, alumni and others interested in legal scholarship, I'll do my very best to maintain the outstanding reputation of GW's National Law Center."

President Elliott and President-designate Trachtenberg both spoke highly of Friedenthal.

Elliott noted it has been extremely gratifying "to observe the steady growth in the stature of the National Law Center over the last 23 years." He stated, "It is very reassuring to me, on the eve of my retirement, to know that the fortunes of that great school will be in the hands of a leader of the stature of Professor Friedenthal."

Trachtenberg said he is "delighted that somebody of this caliber will be the first person to join my team." He continued, "I'm grateful to President Elliott, Rod French and the National Law Center Search Committee for all their hard work and good judgement in helping to bring Jack Friedenthal to the University."

Friedenthal has been associated with the Stanford Law School for 30 years and has served in many capacities, including that of associate dean for academic affairs.

Well known for his work on civil procedure, Friedenthal is co-author of several legal texts, including *Civil Procedure,* Fourth Edition (West Publishing, 1985), *Introduction to Evidence* (Foundation Press, 1985) and *Pleading, Joinder, Discovery* (West Publishing, 1968). He has also written chapters in the books *Problems of Law* and *California Law Trends and Developments.*

Jack H. Friedenthal

His articles and book reviews have appeared in such publications as the *Stanford Law Review, Washington University Law Quarterly* and *American Association of University Professors (AAUP) Bulletin.*

His legal experience includes service as consultant to the California Law Revision Commission, consultant to the government of the Marshall Islands, judge in Small Claims Court in Santa Clara County, acting Deputy District Attorney for Ventura County and bar review lecturer for the Los Angeles Bar Review. He also is a board member of the San Francisco Neighborhood Legal Foundation.

Friedenthal, 56, is a 1953 Phi Beta Kappa graduate of Stanford University and earned his law degree in 1958 at Harvard University, magna cum laude. He is married to Jo Anne Marder Friedenthal, and the couple has three children.

Friedenthal succeeds Dean Jerome A. Barron, who has served since July 1, 1979. Barron will continue to teach at the National Law Center.

MFA THESIS CANDIDATE SHOW IN DIMOCK GALLERY

Works by students who are candidates for the Master of Fine Arts degree will be on view in the Dimock Gallery from May 5 through May 27.

The exhibition will include design, painting, photography, and visual communications. The seven artists whose works will be shown are Kathleen M. Buckalew, Lorraine Chiorazzi-Crain, Emily M. Gleason, Karen Margo Lee, Victoria Eve Macintyre, Robert "Nip" Rogers, and Chyi-Miin Wang.

WILLIAM BECKER IS 1ST WEDNESDAY LECTURER

William H. Becker, professor of history, will discuss "Merger Mania" at the next First Wednesday Lecture, on May 4, beginning at 8 p.m. in the Continental Room, third floor, Marvin Center. The lecture, sponsored by Alumni Relations, will be preceded by dinner at the University Club, at 6:30 p.m. Those planning to attend are asked to make a reservation for the lecture, at 46435, and/or for dinner at 46610.

EXCELLENCE -- L to R, Adam Freedman, Baer award recipient, talked with Mrs. David A. Baer, and her daughters, Mrs. S. Greenhoot Fischer and Mrs. Wallace Luchs following the April 22 awards ceremony.

BAER AWARDS GO TO SIX

Baer Awards for Individual Excellence in Student Life went to six GW undergraduates at the Excellence in Student Life Awards Ceremony April 22.

The recipients were Suzanne Cavanaugh, Adam Freedman, Amy Mitchell, Sung Hwan Park, Toni Jackson and Jerlys Thompson.

Suzanne Cavanaugh, SGBA senior in accounting, has worked with the Student Orientation Staff, as an organizer and with international students.

Freedman, a two-term Student Association president, has introduced a book exchange, a Town Meeting program and promoted GW Pride Day. He is a Columbian College senior in political science.

Toni Jackson, an SGBA senior and GW's 1988 Martin Luther King Jr. medalist, serves as a tutor and mentor to freshman students and does volunteer work for disadvantaged youth in the Washington community.

Amy Mitchell, an SIA senior in international affairs, has worked in student government, in the Greek system, and as co-captain of GW's Varsity Cheerleaders. She is seen as having contributed to a sense of campus community.

Sung Hwan Park, president of the International Student Society (ISS), has made great efforts to improve communications between international and American students. He is a Columbian College senior in economics.

Jerlys Thompson, a Columbian College junior in English literature, is president of the Black People's Union. She has served as Student Association vice president for minority affairs and on the Educational Opportunity Advisory Committee. Off-campus, she has served four years on the D.C. Department of Recreation Advisory Committee.

The Baer Awards are given in memory of David A. Baer (A.B. 1910, LL.B. 1912), who was broadly active in campus cocurricular life.

BRIEFLY...

"The Feminine in Public Administration and Policy," a conference sponsored by the Department of Public Administration and the Virginia Polytechnic Institute and State University, will be held at the Ramada Renaissance Hotel (near Dulles Airport) on Saturday, May 7, from 9 a.m. to 5 p.m. The conference will focus on applying Jungian theory to women in organizational and social life, and will feature Cynthia J. McSwain, associate professor of public administration, as one of its speakers. For more information, call (703) 698-6084.

The Woodrow Wilson Resource Series will present a session on "Integrated Mathematics & Science," on Wednesday, May 11, in Funger Hall, Room 207, from 5:30 to 8 p.m. The presentation will be aimed at providing math and science teachers with techniques to improve students' analytical and problem solving powers. Reservations must be made by May 6, by calling 41449.

The Gelman Library will be open on Commencement Day, Sunday, May 8, from 12:30 to 4 p.m. Visitors are invited to enjoy demonstrations of the compact disc catalog, explore recent renovations and view exhibits about academic library services. Although the building will be open for independent research and study, the service desks will not be staffed. For more information, call Jayne Rores at 46455.

SUMMER TRAINING CLASSES AT PERSONNEL

The Training Division of Personnel Services has announced its schedule of summer training classes for University staff. The programs, which will run from May through August, have been designed to target specific work-related needs, and to help employees improve or develop critical job skills.

Sessions offered include: advanced supervisory sessions on absenteeism, tardiness and university policy, and "I-9" employment eligibility; AIDS information; career discussion; delegation skills; discipline in the work environment; effective meetings; effective writing; employment interviewing; medical terminology; office skills; performance analysis and appraisal; skills for employees in lead positions; strategies for supervision; telephone techniques; and time management.

Consult your supervisor or call the Training Division at 44890 for details, for details regarding the classes.

PROFESSIONAL ACTIVITIES

WILLIAM C. ADAMS, professor of public administration, participated in a conference round-table panel on "Parameters of Responsible Campaign Coverage" at the annual conference of the Midwest Political Science Association in Chicago, on April 15.

STEVEN J. HIRSH, doctoral candidate in history, has been awarded a Fulbright grant for doctoral research in Lima, Peru beginning in the fall 1988. His study topic will be "Populism, Labor, and Political Change in Peru, 1931-1938." Hirsh also received the Albert J. Beverage grant for summer research in the history of the Western Hemisphere, given by American Historical Association.

MARIE MALARO, director of the Graduate Program in Museum Studies, chaired three sessions of the annual American Bar Association seminar on the "Legal Problems of Museum Administration," in St. Louis, Missouri, March 23-25. The sessions concerned the international movement of cultural property, the removal of objects from museum collections, and the acquisition and management of public art. On March 28, Malaro conducted a seminar at the University of Arizona, Tucson, on legal issues relating to ethnographic collections, with particular emphasis on Indian claims. At the invitation of the American Association of Museums, she is currently assisting in a revision of "Museum Ethics," a code of conduct promulgated by the association.

BERNARD MERGEN, professor of American Civilization, presented a paper on "The History of Snow Research and Its Implications for Environmental Policy," at the annual meeting of the Organization of American Historians, in Reno, Nevada, on March 26.

LEONARD NADLER, professor of human resource development and adult education, has been chosen as the speaker for the June 5 convocation ceremony at the National College of Education.

SEYYED HOSSEIN NASR, professor of Islamic studies, lectured on "Sacred Tradition in the Modern World," at the Centre of Middle East Studies, University of Cambridge, at Cambridge, England, on Monday, February 29. He presented a series of lectures on "Islamic Thought -- A Living Tradition" at the Oxford Centre for Islamic Studies, St. Cross College, at Oxford, England, between February 23 and March 8. These lectures included: "Theological, Legal and Social Thought"; "Sufism and the Spiritual Life"; "Philosophical and Scientific Thought"; "Art and Literature"; and "Education and the Future of Islamic Thought." On March 7, Professor Nasr spoke on "Islam's Quest for Unity" in the Fourth Salman Zaidi Memorial Lecture of the School of Oriental and African Studies, University of London.

GAIL PASTER, professor of English, recently presented two papers at scholarly conferences: "To Dwell in the Suburbs of Good Pleasure: The Psycho-Social Geography of Jacobean London," at the annual meeting of the Renaissance Society of America, at Columbia University, March 17-19; and "'In the spirit of men there is no blood': Blood as Trope of Gender in Shakespeare," at the annual meeting of the Shakespeare Society of America, March 31 through April 2.

PATRICIA SULLIVAN, visiting instructor in human kinetics and leisure studies, gave a presentation, "Lifestyles of the Career Professional: Women Who Wouldn't Have It Any Other Way," at the national convention of the American Alliance for Health, Physical Education, Recreation, and Dance, on April 8.

STUART A. UMPLEBY, professor of management science, delivered a tutorial on "Management Cybernetics" at the European Conference on Cybernetics and Systems Research, held in Vienna, Austria, April 4-8. At the conference, he chaired a panel on "Cybernetics in Government," and delivered a paper entitled, "Toward an Axiomatic Theory of Constitutional Government." Panel members also included WILLIAM E. HALAL, professor of management science, who presented a paper on "Economic Systems in an Information Age: The Convergence of a 'New Capitalism' and a 'New Socialism'"; and WILLIAM H. BECKER, professor of history, who gave a paper on "Cybernetics, Government, and Industry in Historical Perspective: Different Approaches to Systems Analysis in Government and Industry During and After World War II."

PUBLICATIONS

MARCUS CUNLIFFE, university professor, an article, "The Uses and Dangers of the Past," in *The Augustan Age: Occasional Papers,* No. 1, (1987), pp. 87-95.

ELIZABETH A. FISHER, associate professor of classics, an article, "Epic Parrot/Parrot Epic: The Parrodyssey," with illustrations by ROBERT A. HADLEY, associate professor of history, in *The Classical Outlook,* (March/April, 1988), pp. 77-80.

NADINE NATOV, professor of Russian, two articles: "'L'Antchar' de Pouschkine et 'les Eaux Tranquilles' de Tourgueniev" in *Cahiers Ivan Tourgueniev, Pauline Viardot, Maria Malibran*, Paris, France, No. 11, (1987), pp. 16-28; and "The Ethical and Structural Significance of the Three Temptations in *The Brothers Karamazov,"* in *Dostoevsky Studies,* Journal of the International Dostoevsky Society, Klagenfurt, Austria, No. 8, (1987), pp. 3-44.

SONYA A. QUITSLUND, assistant professor of religion, an article, "The Alien Among You," in *Bible Today,* March 1988, pp. 80-86.

STEPHEN C. SMITH, assistant professor of economics, a paper, "Programs for Codetermination and Employee Stock Ownership in India," in *Economic and Industrial Democracy: An International Journal*, 9(1), (1988), pp. 121-128.

MARGARET SOLTAN, assistant professor of English, two articles: "Architectural Follies," in *Raritan,* Winter 1988; and "Night Errantry: The Epistemology of the Wandering Woman," in *New Formations,* Spring 1988.

ROBERT WATERS, professor of engineering administration, an opinion-editorial piece, "Clearing the Water on U.S.- Flag Vessels," in *Journal of Commerce,* April 8, 1988.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Institute for Disease Prevention. (Position involves library research, monitoring laboratory supplies, data management, and routine administration. A bachelor's degree is required.) Send resume to Dr. Oliver Alabaster, 412 Ross Hall, 2300 Eye Street, N.W., Washington, D.C., 20037

RESEARCH ASSISTANT, full-time, Department of Pathology. (Individual with undergraduate or master's degree in genetics, microbiology, biology or medical technology needed to work on project involving use of DNA techniques in medical diagnosis.) Submit resume to Dr. C. Garrett, Department of Pathology, GWUMC, 2300 Eye Street, N.W., Washington, D.C., 20037, phone 43825.

RESEARCH ASSOCIATE, full-time, Division of Renal Diseases. (Must have master's degree or equivalent in biological or chemical sciences to perform duties that include daily animal care such as feeding, weighing and surgery. Duties also include spectrophotometric, atomic absorption and chemical analysis of trace metals and biochemicals. Acquaintance with computer programs and statistical analysis is also helpful.) Contact Paul L. Kimmel, M.D., at 44243.

The George Washington University is an equal opportunity/affirmative action employer.

Editorial Assistant for the *GW Report* is Lisa M. Walker.

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

SCHOLARS DISCUSS VIOLENCE IN THE ANDES

In a day-long symposium on violence in the Andes, held on campus April 29, over 75 Andean specialists and graduate students examined causes and currents of unrest.

One of the principal conclusions to emerge was that the encounter between Western and Andean worlds, dating back to the 16th century Spanish invasion, has continued to fuel a protracted political and ideological struggle for control over the material basis of society down to the present day.

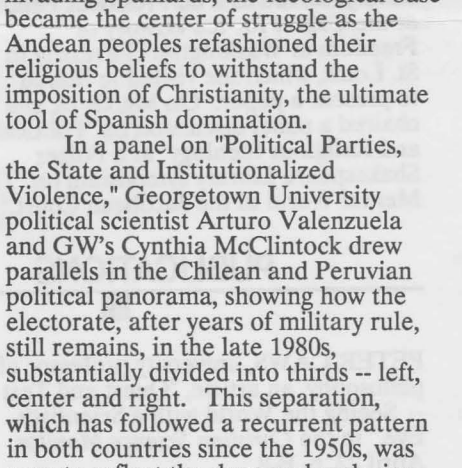
The symposium, sponsored by the School of International Affairs, the Washington Office on Latin America, and the Office of the Vice President for Academic Affairs, was organized by Professor of History Peter F. Klaren, director of the Latin American Studies Program.

In a discussion of culture and religious conflict, Wilson Center Fellow Max Hernandez noted that because of the complexity of the confrontation between the two worlds, it is necessary to take into account the constant contradictions of the historical situation. Sara Castro-Klaren of the Johns Hopkins University pointed out that once the material base of Andean society was rent asunder by the invading Spaniards, the ideological base became the center of struggle as the Andean peoples refashioned their religious beliefs to withstand the imposition of Christianity, the ultimate tool of Spanish domination.

In a panel on "Political Parties, the State and Institutionalized Violence," Georgetown University political scientist Arturo Valenzuela and GW's Cynthia McClintock drew parallels in the Chilean and Peruvian political panorama, showing how the electorate, after years of military rule, still remains, in the late 1980s, substantially divided into thirds -- left, center and right. This separation, which has followed a recurrent pattern in both countries since the 1950s, was seen to reflect the deep and enduring cultural, economic and political divisions that have plagued Andean society over the centuries.

A concluding panel on "Human Rights," headed by Alexander Wilde of the Washington Office on Latin America, closed the symposium on a somber note, tracing the continuing pattern of human rights abuses throughout the region.

The symposium marked the second year of the George Washington University Seminar on Andean Culture and Politics, which regularly convenes an interdisciplinary group of Andean scholars in the Washington area.



RECEPTION -- L to R, Ari Brose, second year law student, Honorary Trustee Jacob Burns and Mrs. Burns greet President Elliott at the April 28 event.

UNVEILING -- L to R, University Marshal Robert G. Jones, President Elliott, Board of Trustees Chairman Everett H. Bellows and Mrs. Elliott at the unveiling of the president's portrait.

LLOYD H. ELLIOTT DAY PROCLAIMED APRIL 28

Thursday, April 28, was Lloyd H. Elliott Day on the campus and in the City of Washington.

At a Faculty Senate-sponsored luncheon, Elliott was recognized by the School of Education and Human Development as one of the 19 faculty members who will receive emeritus status at the Spring Commencements. He was presented with a volume titled *An Independent Institution in a Free Society: Essays in Honor of Lloyd H. Elliott*, a collection of 13 faculty authored essays edited by Vice President for Academic Affairs Roderick S. French. President and Mrs. Elliott were also given a Baccarat crystal jaguar by the faculty. In presenting the gift, Faculty Senate Executive Committee Chairman Professor of Art Lilien F. Robinson said it is meant to symbolize "adventures and great success."

At an afternoon all-campus reception, Vice President and Treasurer Charles E. Diehl read a resolution, passed by the Council of the District of Columbia proclaiming April 28 Lloyd H. Elliott Day.

The resolution called Elliott "a major force in the educational community" and noted the growth of the University under his tenure, his encouragement of cooperation between George Washington and D.C. Public Schools through the Equal Opportunity Program, the development of the University into D.C.'s largest private employer, his support of the United Way and the University's provision of medical and legal assistance to those who could not otherwise afford it, as well as the cultural and educational opportunities provided for D.C. residents. The resolution also highlighted ties between the University and the District, such as the GW Center for Washington Area Studies and the Board of Trade Archives in Gelman Library. It was further stated that "Lloyd H. Elliott has been faithful to the vision of a private, nonsectarian university responsive to the needs of the community."

A highlight of the program was the unveiling of a portrait of President Elliott, a gift from the Board of Trustees, done by artist Ned Bittinger, a GW alumnus (M.F.A. 1983). Board Chairman Everett H. Bellows remarked that the portrait will remain at the University "for ages to come."

Provost William D. Johnson, in brief remarks, thanked President Elliott for "quiet, dedicated, rational and persistent leadership."

In responding to the tributes, Elliott said he thanked "both the University and the city." He continued, "I want to thank Adam Freedman and, through him, the students who have responded to the needs of the city." Elliott told the more than 300 guests crowding the Marvin Center ballroom, "You know that I am not immodest in my ambitions for this University. . . . This University must be and will be one of the greatest institutions of learning in the world and I thank you for what you have done in helping it on its way."

GALLUP JOINS RECORDS MANAGEMENT PROGRAM

Marie Gallup, a former curator in the Archives and Documentation Division of the French Ministry of Foreign Affairs, has been named project archivist and records manager for the Records Management Program now in progress. Supported by a grant from the National Historical Publications and Records Commission, the program is expected to take two years to complete.

Gallup served twice at the French Ministry of Foreign Affairs, from 1970 to 1977 and again, from 1984 to 1986. Her responsibilities included processing diplomatic archives and manuscript collections, and serving as archival envoy to French diplomatic missions in Cairo, Prague, Washington, Los Angeles and San Francisco. As an attache at the French Embassy in Washington in 1975-76, she played a primary role in managing French participation in the American Bicentennial celebrations.

As project archivist at the New York Academy of Medicine in New York City (1986-87), she appraised and organized the 1938 to 1976 archives of the Health and Hospital Council of Southern New York.

Gallup has served as archivist with the Mississippi State Department of Archives and History, Millsaps College and the Getty Center for the History of Art and the Humanities in Los Angeles. She completed her undergraduate studies at the University of Paris-Sorbonne, and her graduate studies at the Ecole National des Chartres, Paris. Her publications include *Lafayette, French Documents,* "Diplomatic Archives," co-authored with C. de Tourtier Bonazzi, Archives Nationales, Paris, 1976, and *Guide to Canadian Historical Sources: Archives of the French Foreign Ministry,* Archives du Quebec, Quebec, 1981.

AGREEMENT -- President Lloyd H. Elliott, left, shook hands with Deputy Chairman Lin Ke of the Fudan University Council, People's Republic of China, after the April 27 signing of an agreement for exchange of students and faculty between the two universities.

CHALK-IN -- Hussam Badawi, SGBA junior from Jordan, was a serious participant in the April 26 Chalk-In.

FRIENDS OF LIBRARIES TO MEET ON MAY 11

The annual meeting of the Friends of the Libraries, to include election of officers, will be held Wednesday, May 11 at 6 p.m. in Room 202 of the Gelman Library. The Friends' annual dinner is scheduled for 6:45 p.m. in the GW Club. Jill Kasle, associate professor of public administration, will speak on "Breaking Up is Hard to Do: The Divestiture of AT&T." For more information, call 46455.

LIBRARY SEMINAR ON COPYRIGHT ISSUES

"The Copyright Challenge: Protecting Intellectual Property in a Multimedia Era," will be the topic of a one-day seminar sponsored by the Gelman Library and the Division of Continuing Education, on Thursday, May 12, from 9 a.m. to 3:30 p.m., in the Marvin Center, Room 402.

The program is designed to address the many challenges faced by university faculty in such areas as: protecting original work; obtaining permission to copy materials for classroom or reserve room use; fair use of scholarly publications; and obtaining permission to copy computer software, video or audio tapes.

Registration for the seminar may be done by calling 47020. There is a fee. For more information, call Lu Kleppinger at 40723.

BRIEFLY...

Wolf Trap ticket discounts are available to GW employees for certain performances during the summer of 1988. To order one or a pair of tickets, patrons may use a special mail order coupon or purchase tickets directly from the Filene Center Box Office with proper GW ID. Coupons and a listing of performances included in the discount program are available at Personnel Services, 2114 G Street, Building BB, third floor. For more information, call 255-1868.

A Relaxation Workshop Series, sponsored by the Wellness Resource Center, will be conducted throughout the month of May. The series includes four free workshops designed to teach a variety of relaxation skills aimed at reducing stress. The workshops are scheduled for May 17, 19, 24 and 26, from noon to 1 p.m. in Building K, Room 105. For a list of facilitators and topics, call 46927.

INTERVIEWS

WILLIAM C. ADAMS, professor of public administration, was interviewed on media coverage of the presidential primaries for articles appearing in the *International Herald Tribune* on January 28, and in the *St. Petersburg Times* on February 12.

Editorial Assistant for the *GW Report* is Lisa M. Walker

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was quoted in an article by Clyde Farnsworth on "International Report: U.S. Pressing Koreans on Trade," which appeared in the *New York Times* on March 7. On March 8, he appeared on Italian national television in an interview about the outlook for global trade and investment, with an emphasis on the Pacific Rim. In Italy, he was interviewed by TV Lecco and UNITA of Milan. He also gave newspaper interviews which were carried in *Italia Orggi* and *Avenira*. Grub was interviewed on the subject of U.S. trade and the current trade bill before Congress for an article which appeared in the *Herald Tribune* of Sarasota, Florida, and the Port Charlotte Sun Newspapers on March 16.

FREDERIC R. SIEGEL, professor of geochemistry, was interviewed by Matt Kaye of the Alaskan Public Radio Network on April 19, about research he is doing on exploration for petroleum and natural gas using thermoluminescence dosimeter chips. The exploration technique is for reconnaissance (large scale) exploration and is based on measurements of the earth's natural radioactivity and defines small areas in a large prospect that may have greater probability for containing petroleum.

PROFESSIONAL ACTIVITIES

MICHAEL D. BRADLEY, associate professor of economics, presented an invited seminar on the "Informational Implications of Money, Interest Rate and Price Rules," at Texas A & M University, College Station, Texas, on April 8.

PETER CAWS, university professor of philosophy, has been elected president of the Washington Philosophy Club for 1988-89.

ANTHONY G. COATES, professor of geology, has been awarded a research grant by the National Geographic Society to study the evolutionary and ecological consequences to marine tropical animals of the uplift of the isthmus of Panama 3.1 million years ago. The project is funded for two years and will include support for four field trip expeditions to Costa Rica and Panama, two graduate students and a full-time laboratory technician in Panama. The project is directed by Professor Coates and Jeremy Jackson, marine coordinator at the Smithsonian Tropical Research Institute (STRI).

REYNOLDS FERRANTE, professor of education, and C. DIANE MARTIN, assistant professor of engineering and applied science, were honored for exemplary achievements in educational computing by the International Association for Computing in Education (IACE), at its annual conference. Professor Ferrante received the Outstanding Computer Educator Award in the Area of Higher Education/Research. Professor Martin was the recipient of the association's Distinguished Service Award.

ROBERT S. FORTNER, associate professor of communication, presented a Washington perspective at a seminar on "The Politics of Communication Research," sponsored by the Department of Communication and the Internship Program at the University of Massachusetts, Amherst, on March 9. The Academic Affairs branch of the Canadian Embassy has approved a grant to allow him to complete research on a book that will present a comparative history of communication deregulation in Canada and the United States.

MAXINE FREUND, associate professor of special education, gave a presentation on "Utilizing the Family Focus in Service Delivery and Intervention: Reality of Stage Theory and Family Acceptance and Adaptation," at the State Conference on Innovative Practices in Special Education, sponsored by the Iowa State Department of Education in Cedar Rapids, Iowa, on March 15.

DONALD GROSS, professor of operations research, has become president-elect of the Operations Research Society of America. He will take office in 1989.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was the keynote speaker at a conference on "Entrepreneurial Excellence in a Changing World: Lessons from the Pacific Rim," sponsored by the Centro Studi d'Impresa in Lecco, Italy, on March 18. His topic was "Economic Growth, Trade, and Development of the Pacific Rim: Outlook for the Year 2000." At the conference, he also participated in a panel on the People's Republic of China and spoke on "Foreign Joint Venture Experience in the People's Republic of China: Guidelines for Investment." On March 14, Professor Grub addressed the Charlotte County Adult and Community Education Program in Port Charlotte, Florida, on "U.S. Economic and International Trade Policies: Request for Competitiveness."

DONALD E. HAWKINS, professor of travel and tourism, in his capacity as chairman of the Association of Travel Marketing Executives International, chaired the Conference on Travel Marketing and First Annual Meeting of the Association of Travel Marketing Executives, April 15-16, in Dallas, Texas. He also presented a paper on "Professional Education for Travel and Tourism Marketing."

HERMAN H. HOBBS, professor of physics, presented a paper, "A New Mechanism for the Genesis of Metal Whiskers," at a recent meeting of the American Physical Society in Baltimore. His research on metal whiskers, extra strong single crystals of metals, was carried out under a grant from NASA.

CHRISTOPHER JOYNER, associate professor of political science, delivered a paper on "Cooperative Diplomacy: The Case of the United States and Soviet Union in Antarctica" at the 29th annual International Studies Association Convention meeting in St. Louis, Missouri, on April 1. At the conference, he chaired a panel on "The Gulf War in International Law." He presented a paper on "Japan and the Antarctic Treaty System" and lectured on "Environmental Law, Antarctica and the Southern Ocean" at the Sho Sato Conference on "Japan, the U.S. and Pacific Resources," held at the School of Law, University of California at Berkeley, on April 5. Papers given at this conference will be published in a special symposium issue of *The Ecology Law Quarterly.*

HEWITT KENYON, professor of mathematics, received a word of appreciation in Bob Levey's "Washington" column in the *Washington Post* April 15, for his 15 years of voluntary public service clearing the Rock Creek Park bicycle path. Referring to Kenyon as "Our Angel of the Bike Path," Levey said, "Hewitt does whatever needs doing every Sunday of the year, come rain, shine, locusts, tourists, whatever."

RICHARD LONGSTRETH, associate professor of architectural history and director of the graduate program in historic preservation, spoke at the opening session of the National Conference of State Historic Preservation Officers' annual meeting in Washington, D.C., on March 20. He also chaired a session at the Buell Talks on Architecture, at Columbia University, New York City, March 26. On April 14, Professor Longstreth chaired a panel discussion on the future of preservation education at the annual meeting of the Society of Architectural Historians in Chicago. He recently presented three papers: "The Perils of a Parkless Town," given at a symposium on "The Car and the City: The Automobile, Urbanism and Life in Los Angeles," at the University of California, Los Angeles, on April 9; "Why Save This Building?" presented at a colloquium sponsored by the Illinois Historic Preservation Agency on "Issues in Urban Preservation," in Chicago, April 14; and "At Last, a Place to Park," given at the Society of Architectural Historians meeting on April 16. Longstreth has also been named to the board of directors of the National Building Museum in Washington, D.C.

JERROLD M. POST, professor of psychiatry and public policy, was selected to be a participant in a small group of international scholars who met with the Nieman Journalism Fellows of Harvard University to discuss "Terrorism and the Media," in Boston, on April 19. After the meeting, conducted under the auspices of the Harry Frank Guggenheim Foundation, Post and his colleagues met with a group of editors, including the national editor of the *Christian Science Monitor*, the editor-in-chief and the editorial page editor of the *Boston Globe,* and the director of WGBH-TV, Boston's public television station.

LOIS G. SCHWOERER, professor of history, served as a non-resident Fellow at the Center for the History of Freedom at Washington University in St. Louis, which she visited in March to present a paper. On March 18, she chaired a panel discussion on "Political and Religious Ideology" at a Folger Shakespeare Library symposium on "The Mental World of the Jacobean Court."

PUBLICATIONS

PETER CAWS, university professor of philosophy, an article, "Quest and Test -- Seeing the World with a Scientist's Eye," in the *Christian Science Monitor*, April 22, p. B-8.

JOHN A. FREY, professor of Romance languages, a book, *Les Contemplations of Victor Hugo: The Ash Wednesday Liturgy*, (Charlottesville: The University Press of Virgina), 1988.

ANN ROMINES, assistant professor of English, an essay, "After the Christmas Tree: Willa Cather and Domestic Ritual," in *American Literature*, 60, (March 1988), pp. 61-82.

PERSONNEL NOTICES

RESEARCH ASSISTANT, part-time, The Biostatistics Center. (Individual with master's degree in statistics needed to assist in a program of research into statistical theory and methods. Proficiency in mathematical and statistical computing required.) Send resume to Charles Harris, The Biostatistics Center, 6110 Executive Boulevard, Suite 750, Rockville, Md., 20852. No phone calls please.

The George Washington University is an equal opportunity/affirmative action employer.

GW REPORT

May 19, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

ARCS SCHOLAR Jim Templeman, center, with ARCS Foundation, Inc. national president Mrs. George Mueller, right, and Washington Metropolitan Chapter president Mrs. David Wilkinson

JAMES N. TEMPLEMAN IS ARCS SCHOLAR OF THE YEAR

James N. (Jim) Templeman, a doctoral candidate in the School of Engineering and Applied Science, was named ARCS Scholar of the Year by the national organization Achievement Rewards for College Scientists (ARCS) on May 5. Templeman was honored during the organization's national convention in Washington. Following award ceremonies, he met with William R. Graham, President Reagan's science adviser.

Mrs. George Mueller, national ARCS Foundation president said Templeman was selected because of his "dedication to study, teaching and research in [a] highly technical field" which makes him "a model for students in the sciences nationwide."

In informal remarks at the convention, Templeman said he feels it is "important to let young people know there is a lot of research still out there to be done."

SEAS Dean Harold Liebowitz, speaking to the 300 ARCS delegates, said of Templeman, "He is quite simply one of the most brilliant students we have ever had. He has had a 4.0 average. You have to be a near-genius. Not all those geniuses are that socially adjusted, but Jim is."

Now entering the research phase of his doctoral program, Templeman is studying the human visual system, in particular, the visual cortex with the primary goal of gaining an understanding of how it works and of how the eye sees. His minor areas of study in the doctoral program include neurobiology and psychology. He taught two graduate courses in Spring Semester, 1988: Advanced Programming Languages and Special Topics in Computer Science -- Neurophysiology and Artificial Intelligence.

Templeman, who was born without arms, drives a specially constructed car and operates his computers with his feet. He attended public school classes in the District of Columbia and later in Springfield, Virginia, where he moved with his parents at age 7. He is a 1973 graduate of West Springfield High School and holds two GW degrees: B.S. (E.E.) with distinction, 1977 and M.S. in computer science, 1978.

After receiving his undergraduate degree, Templeman formed a computer graphics firm, Iconographics, with a partner in Falls Church, Virginia. The firm was dissolved after a few years when his partner decided to bring up a family and Templeman became more interested in research.

Templeman received scholarship aid from the Washington Metropolitan chapter of the ARCS Foundation, Inc. in the 1987-88 academic year. He was chosen ARCS scholar of the year from 13 nominees presented by the ARCS chapters to the organization's national executive board. The selection was solely on merit.

ARCS was founded in California in 1958 to support science studies after the Soviets launched Sputnik, the first manmade space satellite. Since then, ARCS has awarded approximately 3,200 scholarships worth a total of $10.2 million, including 279 scholarships worth $1.2 million this year. Since 1970, 47 ARCS scholarship awards totaling $159,754 have been made to GW students.

LAW, MEDICAL GRADUATES TO HEAR UDALL AND THIER

United States Representative Morris K. Udall (D-AZ) and President Samuel O. Thier of the Institute of Medicine, National Academy of Sciences will address law and medical graduates respectively in commencement ceremonies on Sunday, May 22, and Friday, May 27. President Lloyd H. Elliott will confer honorary degrees and degrees in course at both events.

The National Law Center commencement is scheduled for 1:30 p.m. in the Charles E. Smith Center. Udall, chairman of the House Interior and Insular Affairs Committee, will receive an honorary degree of Doctor of Laws. Some 500 degrees in course will be awarded.

The School of Medicine and Health Sciences ceremony will take place at 11 a.m. in Lisner Auditorium. President Thier will receive an honorary degree of Doctor of Science, *honoris causa.* Degrees in course will be conferred on approximately 143 new doctors. Bachelor of Science degrees will go to five Allied Health professionals.

MAY 8 GRADUATES RECEIVE VARIED COUNSEL

The some 1,800 graduates at the six commencement ceremonies held May 8 shared the benefit of the diverse experiences of the day's speakers.

Industrialist T. Boone Pickens told SGBA graduates that the most important quality in a good leader is willingness to make decisions. Noting that there is no substitute for good research, Pickens also stressed patience, moderation and good organization as criteria for success. He commented, "What I see with today's young people is a new entrepreneurial spirit and a return to free market principles. Frankly, what I see excites me for our country's future."

Admiral William J. Crowe Jr., USN, Chairman of the Joint Chiefs of Staff, noted that the need for American statesmen is the most urgent problem in government today and offered "some home-cooked advice" for those entering government service. He said, "Early in your career, identify the front-runners in your organization who can make the necessary possible -- study their experience, make their techniques your own, and absorb both their knowledge and their wisdom." Crowe noted the importance of a sense of humor, commenting, "Laughter is an essential part of remaining humble, relaxed and in touch with reality."

Bassam Z. Shakhashiri, assistant director of the National Science Foundation for Science and Engineering Education, assured graduates of the School of Education and Human Development that "the immediate future of this nation is very bright." He noted that the country's future is intricately tied to the "need for a good supply of scientists, mathematicians and engineers." Emphasizing the need for the public to become scientifically literate, he charged the graduates to participate actively in society and to consider careers in public service.

George Walter Landau, a former U.S. Ambassador, now president of the Americas Society, used his own life story to illustrate his points. He encouraged graduates of Columbian College of Arts and Sciences to "think about what you want to get out of life. One strand which is always woven into anyone's thought of happiness is *success* -- a goal best reached through persistence and determination."

Nuclear physicist Edward Teller, speaking to engineering graduates at the SEAS commencement, called the 20th century the "Century of Technology." He speculated that electronics with its effects on communication and the development of modern computers may have been the century's most important achievement. Teller, who recalled that he came to the United States in 1935 as a young professor of physics at The George Washington University, said he never thought, that half a century later, he would be speaking to a graduating class. He charged the new graduates "to explain the achievements of 20th century technology, so that the wider human community can absorb the new ideas and put them to proper use."

Hermann A. Grunder, a world-known accelerator physicist, told Graduate School of Arts and Sciences degree recipients, "To accomplish something within society, you will have to set priorities, build consensus and follow through." He pointed out that, as a society, we have great difficulties with these three simple steps, partly because of enormous budget deficits and partly because of conflicts in decision-making. "The size and complexity of the issues a society is willing to tackle will set the scale for the rewards," he commented, adding that "frontier science, brilliantly executed by vigorous young minds, is worth the resources it requires."

GRADUATES of SGBA at the May 8 Commencement had two thoughts -- jobs and Mother's Day.

DAVID CANFIELD NAMED TO DEVLOPMENT POST

David Canfield has been appointed executive director of medical center development for The George Washington University, effective July 1.

Canfield will serve as a senior member of the staff of Vice President for Development and University Relations Michael J. Worth and will be assigned to the Medical Center. He will work closely with Acting Vice President for Medical Affairs L. Thompson Bowles, Medical center deans, department chairs and faculty members in the development of financial support to meet Medical Center needs.

Canfield comes to George Washington from the Johns Hopkins Institutions, where he has served for 13 years. He first served as director of development and alumni affairs for the School of Medicine. Later he was named executive director of the Fund for Johns Hopkins Medicine, with responsibility for directing the fund-raising programs of the Johns Hopkins Hospital and the Johns Hopkins University Schools of Medicine and Nursing.

Previously he served as director of planning and development with the National Center for Voluntary Action and has been consultant to a number of educational, cultural, religious, health and social welfare institutions and agencies.

Canfield also has served as an officer and trustee of the National Society of Fund Raising Executives, a member of the Goucher College Center for Continuing Studies faculty and as a columnist for *Fund Raising Management* magazine.

A native of Boston, Canfield is a 1959 graduate of Williams College.

NEW OFFICERS were sworn in May 7 at the U.S. Naval Memorial during the commissioning ceremony of the NROTC unit at GW.

ADMIRAL METCALF SPEAKS TO NEW OFFICERS MAY 7

"You are special people," Vice Admiral Joseph Metcalf III, USN (Ret.), told 30 midshipmen waiting to be commissioned in a May 7 ceremony at the Navy Memorial. He was addressing the class of 1988 in the Naval ROTC unit at The George Washington University.

Metcalf emphasized to them the importance of their developing into thorough professionals, of their responsibilities and of holding on to moral principles and values. He also pointed out that they would become "part of the peace equation."

Declaring that the function of the U.S. Navy is deterrence, the admiral told the group, "You are all part of the chain of deterrence." Metcalf commented he had seen a banner in Lafayette Park which read, "Blessed are the peace makers." He said to the class, "You are the peace makers."

President Lloyd H. Elliott, in brief remarks, told the graduates, "Your country and your University ask two things of you -- that you increase your skills, adding to your understanding of the world and that you make the most of your abilities and talents."

The new officers, 29 commissioned in the Navy and one in the Marine Corps, are going to assignments in all parts of the United States. In addition, one will go to Japan and one to Spain.

LEE HUNTER TO RETIRE

Lee Hunter, who has served as director of GW Television since 1982, has announced his intention to retire June 30.

Prior to joining the University, Hunter had an extended professional career in television, both with commercial networks and universities. He was vice president for engineering and production at WMAL-TV (now WJLA-TV) and helped in the development of unique and innovative television and communications facilities at Gallaudet College.

President Lloyd H. Elliott, on hearing of Hunter's plans, expressed the appreciation of the entire University to him for his pioneering work here. "Lee Hunter has directed the construction of an instructional television facility that is a model among University facilities," he said. Elliott further noted that in the last couple of years, he has perfected the art of educational tele-conferencing and made the operation increasingly useful to education programs throughout the campus. The president commented, "Hunter has served this University faithfully and well, and we wish him all good fortune in his retirement."

Editorial Assistant for the *GW Report* is Lisa M. Walker.

BRIEFLY...

GW Reunion Weekend, welcoming the Classes of 1938 and 1963 and former *GW Hatchet* staff members, will be celebrated with a host of activities on Friday and Saturday, June 10 and 11. Events planned include receptions, campus and city tours, luncheons, dinners, theatre evenings and a Potomac River cruise. Alumni who wish to participate must register with the Alumni Relations Office by May 31. For more information, call 46435.

The Lisner at Noon concert series continues with the music of "Second Story," a folk rock group, on Wednesday, May 25. On June 1, the Levine Chamber Orchestra of the Levine School of Music, will present a program of Mendelssohn, Strauss, Prokofiev, Mozart and Kabalevsky. Series concerts are held at 12:15 p.m. in Lisner Auditorium. They are free and listeners are invited to bring a lunch.

The Tenth Symposium on Mathematical Programming with Data Perturbations, a conference sponsored by the Department of Operations Research and the Institute for Management Science and Engineering, is scheduled for Thursday and Friday, May 26-27, in the Marvin Center, Room 405. Conference sessions will run from 9 a.m. to 5 p.m. on both days. On Thursday, there will be a wine and cheese social from 6 to 7:30 p.m., also in Marvin 405, to welcome participants and interested members of the University community. For a complete conference schedule, call Anthony Fiacco at 47511.

INTERVIEWS

JONATHAN D. FIFE, professor of education and director of the ERIC Clearinghouse on Higher Education, was interviewed by Peter Struck of *U.S. News and World Report* for an annual article on the best higher education institutions in the country. Discussion topics included core curriculum, exceptional efforts in teaching nontraditional students, best buys, best teaching, most significant improvements and student quality of life.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed Rose Bradley of *Business Week* on U.S.- Korean trade friction and the probability of increasing U.S. exports in Korean markets. On May 5, he was interviewed by Josh Goldstein of the *Journal of Commerce* about the promotion activities of U.S. Trade offices, and the effectiveness of U.S. Trade representatives overseas in promoting American exports. He was also interviewed by *Business International* on U.S.- Saudi Arabian relations in view of the changing nature of events in the Middle East.

FREDERIC R. SIEGEL, professor of geochemistry, was interviewed by the Voice of America on May 6, regarding research he is doing jointly with the People's Republic of China aimed at lowering petroleum and natural gas exploration costs, and at aiding in defining drilling sites for extensions of existing oil fields. J. Eduardo Vaz, a GW alumnus (Ph.D., 1969, in Geochemistry) is working with Siegel on this research.

PROFESSIONAL ACTIVITIES

LAURA DONNELLY, associate director of Student Financial Aid, served as co-presenter of a session entitled, "Perspectives on Verification," at the Eastern Association of Student Financial Aid Administrators' annual conference in Hartford, Connecticut, on May 3.

RODERIC S. FRENCH, professor of philosophy, presented a paper, "The Humanities in the University: Strategies for the 1990s," at the 69th Annual Meeting of the American Council of Learned Societies in New York City, April 14-15.

LEONARD NADLER, professor of human resource development and adult education discussed "Developing Organizational Commitment," at the 1988 Professional Development Institute conference in Madison, Wisconsin, April 27-28.

SEYYED H. NASR, university professor of Islamic studies, presented a plenary lecture on "Shi'ism: Doctrine, Practice, History," at a conference co-sponsored by Trinity College and the Hartford Seminary on "*Ta'ziya*: The Cultural Legacy of Shi'ism, A Comparative Islamic Inquiry," in Hartford, Connecticut, on May 1.

LEO P. RIBUFFO, professor of history, delivered a lecture on "American Fundamentalism: A Guide for New Yorkers" at a conference on World Fundamentalism at the City College of New York on May 5.

The George Washington University is an equal opportunity/affirmative action employer.

PUBLICATIONS

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, an article, "Como Hacer Negocios en China," in *Gerente* (a Latin American publication similar to *Fortune Magazine*), April 1988. The article focused on investment opportunities in China, how to negotiate with the Chinese, and on tips for business executives wishing to establish contact and do business with the People's Republic of China.

RUTH A. WALLACE, professor of sociology, an article, "Catholic Women and the Creation of a New Social Reality," in *Gender and Society,* Vol. 2, No. 1, (March 1988), pp. 24-38.

PERSONNEL NOTICES

STAFF PSYCHOLOGIST, full-time, University Counseling Center. (Doctorate in clinical/counseling psychology plus one year of post-doctoral clinical experience required for position involving short-term individual and group therapy, consultation/out-reach programming for multi-cultural student groups, and supervision of doctoral-level interns in a university counseling center. Prefer eligibility for D.C. licensure, counseling center experience, and cross-cultural training/experience.) Send letter, resume, salary expectations and three letters of recommendation to Dr. Diane DePalma, Director, University Counseling Center, The George Washington University, Washington, D.C., 20052.

COORDINATOR OF CLINICAL SERVICES, full-time, University Counseling Center. (Doctorate in clinical/counseling psychology plus two years of post-doctoral clinical experience required for position involving short-term individual and group therapy, consultation/outreach programming for multi-cultural student groups, and supervision of doctoral-level interns in a university counseling center. Responsible for managing and evaluating delivery of direct services, including intake, therapy and referral. Prefer eligibility for D.C. licensure, counseling center experience, and cross-cultural training/experience.) Send letter, resume, salary expectations, and three letters of recommendation to Dr. Diane DePalma, Director, University Counseling Center, The George Washington University, Washington, D.C., 20052.

MFA CANDIDATE Robert "Nip" Rogers, right, talked with Antonio Palmiero, adjunct instructor in Spanish, at the May 4 opening of Dimock Gallery's MFA Thesis Candidate Show which runs through May 27. Behind them is Rogers's "Robotic Rhythms," 1988, acrylic on canvas, 58" x 180".

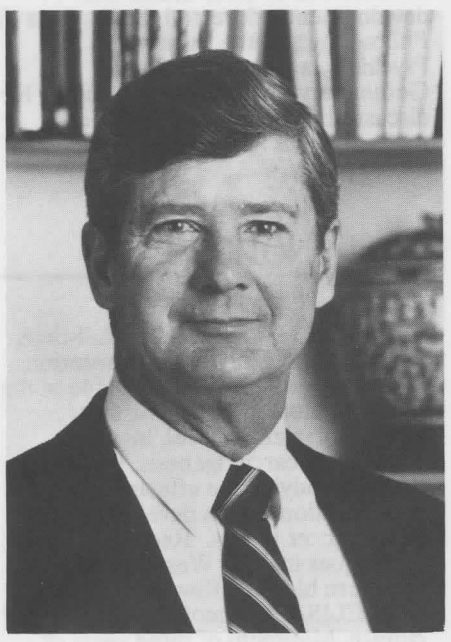
GW REPORT

May 27, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

BOARD OF TRUSTEES ELECTS NEW CHAIRMAN, NEW MEMBERS



Oliver T. Carr, Jr.

The Board of Trustees elected a new chairman and two new members at its May 19 meeting. Oliver T. Carr, Jr. was elected chairman. Steven L. Frick and John R. Manning were elected to the Board.

Carr will succeed Chairman Everett H. Bellows on July 1. Bellows has served since 1985. Carr, a fourth-generation Washingtonian, is chairman of the Oliver Carr Company. He joined the GW Board in 1984. Currently a member of the Board's Executive Committee, he is chairman of the ongoing Campaign for George Washington. He actively supports the fellowship program in the University's Department of Urban and Regional Planning and is a visiting lecturer in the department.

Chairman of Mayor Barry's Homeless Coordinating Council, Carr is also an honorary trustee of Independent Living for the Handicapped. Through 1985, he served as co-chairman of the District of Columbia Downtown Partnership (DCDP) and continues on its executive committee. Carr serves as a Washington trustee of the Federal City Council and on the board of the Chesapeake Bay Foundation.

A former Washingtonian of the Year, he was selected by the Greater Washington Board of Trade as the 1987 Man of the Years. He was Board of Trade president in 1979. Carr is a member of the boards of American Security Bank, MNC Financial, Inc. and the National Corporation for Housing Partnerships as well as being chairman of the Greater Washington Research Center.

Steven L. Frick is a 1987 graduate of Columbian College of Arts and Sciences (B.S. zoology). He is now a medical student at the Medical University of South Carolina in Charleston and expects to graduate in 1991. As a GW undergraduate, he was elected to both Phi Beta Kappa and Omicron Delta Kappa, a national leadership honor society. Frick was captain of the Men's Varsity Basketball Team and was selected a first-team Academic All-American in basketball in 1986 and second-team All-American in 1987. He served on the board of Friends of the Libraries and on the Faculty Senate Committee on Athletics. In 1986, he received a Baer Award for individual excellence in student life.

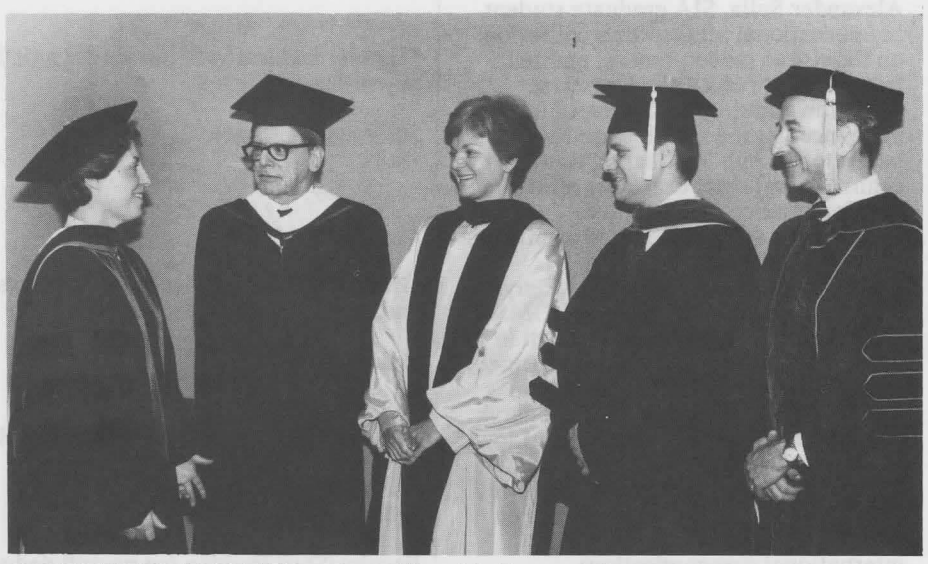
John R. Manning, director of the Patent Prosecution and Water Division, Office of the General Counsel, National Aeronautics and Space Administration (NASA) since 1965, is a double alumnus of George Washington. He received a Bachelor of Science in Engineering in 1957 and a Juris Doctor in 1961.

Manning was an engineer and patent attorney with the Burroughs Corporation and the Sperry Corporation between 1954 and 1964. He then engaged in private law practice for a year before joining NASA.

Active in GW alumni affairs, he has been president of the General Alumni Association (GAA) since 1984. Manning served twice as president of GW Engineer Alumni Association and was co-founder of the Boston chapter of the Law Alumni Association. Service awards have come to him from both the engineer alumni and the GAA.

In 1981, he received a Spaceship Earth Award for "betterment of life" from NASA. Manning is a member of the Boy Scouts of America District Committee and belongs to a number of legal and engineering professional societies.

SIGNING -- President Ding Shisun of Beijing University, Beijing, People's Republic of China, third from left, and President Lloyd H. Elliott, next to him, signed an agreement for exchange of students and faculty on May 16. Witnesses were Vice Provost Hua Wenting and Zhou Jinfu, deputy director, Office of Foreign Affairs, of Beijing University, left, and SIA Assistant Dean Gregory Ludlow and SIA Dean Maurice A. East, right.



COLUMBIAN COLLEGE -- Dean Clara M. Lovett, left, congratulates, l to r, Professors Parris, Robinson, Robin and Berman on their Distinguished Faculty Awards.

COLUMBIAN COLLEGE HONORS FOUR FACULTY

Distinguished Faculty Awards in Columbian College of Arts and Sciences went to four on May 8. Dean Clara M. Lovett made the presentations.

Barry L. Berman, professor of physics, was honored for distinguished contributions to research in nuclear physics and for enthusiasm and dedication in promoting an understanding of scientific research among students and colleagues.

Robert Parris, professor of music, was recognized for original musical compositions that have been performed by the National Symphony Orchestra and other distinguished orchestras in this country and abroad.

Richard M. Robin, assistant professor of Russian, was singled out for his energetic efforts to bring innovative concepts and methods to the practice of foreign language teaching.

Lilien F. Robinson, professor of art, was honored for her commitment to a strong liberal arts curriculum and to the highest standards of instruction in the classroom, studio or laboratory. May 8 was also the day Robinson received a GW Award at the Columbian College ceremony.

BOARD NAMES ELLIOTT PRESIDENT EMERITUS

In executive session at its May 19 meeting, the Board of Trustees awarded the status of president emeritus to President Lloyd H. Elliott. Elliott was informed of the Board's action at a dinner given by the Board at the Willard Hotel in the evening of the same day. He had received the status of professor emeritus of higher education at the May 8 commencement ceremony of the School of Education and Human Development.

ALPERT MADE VICE PRESIDENT EMERITUS

Seymour Alpert, who served as vice president for development from 1969 to 1983, was named vice president for development emeritus by the Board at its May meeting. Alpert had already become professor emeritus of anesthesiology at the May 1983 commencement of the School of Medicine and Health Sciences. He was a member of the Department of Anesthesiology for 35 years, serving 20 years of that time as associate department chairman.

FOUR TRUSTEES TO BECOME HONORARY

Four current members of the Board of Trustees will become Honorary Trustees on July 1.

They are: Marcella Brenner, who has served for four years; Melvin R. Laird, who served for 13 years; John T. Sapienza, who was a Board member for 10 years: and James O. Wright, who has served the University longer than any other trustees currently serving, for a period of 25 years.

Resolutions in appreciation of their service, counsel and support were adopted for each one of them at the Board's May 19 meeting.

LIBRARIES' FRIENDS HOLD ANNUAL MEETING

At a May 11 annual meeting, the Friends of the Libraries elected new officers, presented an annual gift, congratulated Student Book Collectors Contest winners, learned of important additions to Gelman Library and heard an analysis of the AT&T divestiture.

New officers are: president, Philip Levy, owner of Bridge Street Books of Georgetown; vice president, Lucia Rather, director of cataloging processing services, Library of Congress; secretary, Ann Webster, director of GW housing and residence life; and directors -- Jean Preer, assistant professor of library and information services, the Catholic University of America; Frances Reid, assistant director, GW English for International Students; and Carolyn Sung, executive director of research services, Library of Congress.

The Friends' annual gift to the collections is a book by Charles Whitworth, *An Account of Russia as it was in the Year 1710*, printed at Strawberry Hill (near Twickenham, England) 1758. Whitworth was a career diplomat who served as British envoy-extraordinary to Russia between 1704 and 1710. He was an observer of part of the reign of Peter the Great with its many changes and innovations. Of the large quantity of official correspondence, notes and memoranda, he left in manuscript, the book is the only published material. Whitworth's book was among a number of works, now all rare, printed on a famous private press established in 1757 by Horace Walpole.

The Student Book Collectors Contest winners were: Charles Trew,

(contd. on back . . .)

LIBRARIES' FRIENDS. . .

SIA graduate student in Russian and East European Studies, for a collection of works documenting the first-hand accounts of Soviet and communist bloc defectors; Juliet Sky Capeiletti, a GSAS student in musical composition, for a collection she considers essential to work in music composition, including books on the history of music, music theory and orchestration; and Alexander Sulla, SIA graduate student in international affairs, for a collection on the rise to power, tenure, and fall from power of Nikita S. Kruschev.

The additions to Gelman Library announced at the meeting are the papers of Joseph V. Charyk, former chairman and chief executive officer of the Communications Satellite Corporation (COMSAT) and a software system called Supermap.

The papers of Joseph V. Charyk document the development of COMSAT from the time he became president in 1963, when the corporation was formed, until his retirement as chairman and chief executive officer in 1985. Charyk presented the papers to President Lloyd H. Elliott, who accepted them for the University. Elliott noted that "they will be extremely valuable for research on the establishment of COMSAT's international communications satellite system."

Supermap, named in honor of President Lloyd H. Elliott, allows researchers to call up census and mapping data. Data from the 1980 U.S. census and matching digital maps in color are immediately available.

Jill F. Kasle, associate professor of public administration, spoke on "Breaking Up is Hard to Do: The Divestiture of AT&T" at a dinner following the meeting.

Editorial Assistant for the *GW Report* is Lisa M. Walker

NEW PARKING RATES FOR 1988-89

New parking rates will go into effect this coming July 1 for fiscal year 1988-89.

The new fees are:

Faculty/Staff	
Daily before 5 p.m.	$ 3.83 ($4.30 with tax)
Daily after 5 p.m.	2.85 ($3.20 with tax)
Monthly	61.38 ($68.74 with tax)
*Annually	736.56 ($824.94 with tax)

*Faculty and staff will have their monthly deductions adjusted according to their pay scales.

Students	
Daily:	$ 2.85 per period ($3.20 with tax) $ 2.23 over-time fee ($2.49 with tax)
Monthly:	$ 88.40 ($99.00 with tax)
Graduate Teaching Assistants/Fellows and Jr./Sr. Medical Students:	
Daily	$2.85 ($3.20 with tax) Monthly fee pro-rated by the day
Faculty/Staff/Student Motorcycle parking:	
Outdoor, per semester	$7.06 ($7.90 with tax)
Indoor, monthly	$7.06 ($7.90 with tax

Faculty/Staff Parking fee payroll deductions will be adjusted automatically on July 1, 1988, to reflect the 1988-89 fees noted unless prior cancellation is made. If any parker does not wish to have payroll deductions, parking privileges should be cancelled as outlined in the Parking Brochure for Faculty/Staff. Parking can be canceled at any time. *It is necessary to sign forms to stop payroll deductions.*

Kennedy Center Staff alternate parking rates will change July 1, 1988, with staff tickets paid daily in the amount of $3.13 per ticket ($3.50 with tax).

Visitor Parking fees will also increase July 1 and will be as follows: (Fees noted include tax.)

1st hour $3.00
2nd hour $6.00
3rd hour $8.25
Maximum 4 to 10 hours $9.00
Maximum over 10 hours $9.50
After 5 p.m., $3.00 for the first hour, maximum $3.20.

PROFESSIONAL ACTIVITIES

JONATHAN CHAVES, associate professor of Chinese, presented a lecture on "The Fall of the Ming Dynasty Through Chinese Poets' Eyes" at the Sackler Gallery of Asian Art on May 12.

JONATHAN D. MORENO, associate professor of philosophy, of health care sciences and of child health and development, addressed the Institute of Philosophy and the Institute of Psychiatry at the University of Gothenberg, Sweden, May 4 and 5. He discussed contemporary American medical ethics and American mental health policy.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, The Institute for Disease Prevention. (Post-doctoral position available at the junior/senior research assistant/ associate/scientist level, involving research in carcinogenesis. Duties include studying the effects of dietary manipulation on the development of colon cancer in rats. Required techniques include Western and Northern blotting, flow cytometry, RIA, ELISA, enzymology and primary culture. Minimum of three years of relevant laboratory experience required.) Send curriculum vita and three letters of recommendation to Oliver Alabaster, M.D., Director, Institute for Disease Prevention, GWUMC, Suite 421, Ross Hall, Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

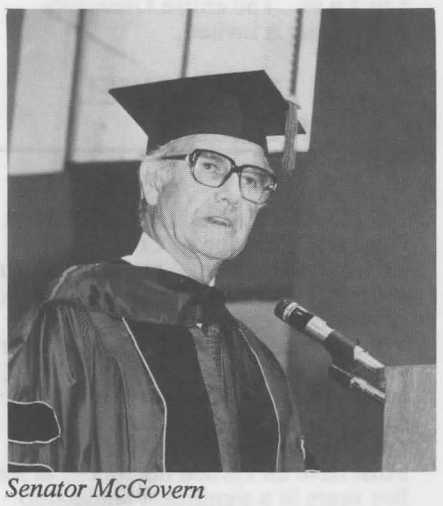
JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

LAW, MEDICAL GRADUATES RECEIVE SERIOUS ADVICE



Senator McGovern

Graduates of the National Law Center and the School of Medicine and Health Sciences received serious counsel from former U.S. Senator George McGovern and Dr. Samuel O. Thier, president of the Institute of Medicine, National Academy of Sciences, at their respective commencements.

Senator McGovern, speaking to law graduates in the Charles E. Smith Center May 22, addressed the topic "Wanted: A President Who will honor the Constitution." He traced the difficulties the United States has encountered from Korea and the Bay of Pigs to Vietnam, Watergate, Iran and the covert war in Nicaragua, stating that "presidents have weakened the nation and their own credibility by dishonoring the Constitution." The former senator and presidential candidate said his hope is that the president elected this year will pursue his policies and priorities within the framework of the Constitution. "America does not need another imperial presidency," he stated, "we do urgently need a constitutional presidency." Declaring our constitutional system to be the greatest in the world, McGovern concluded, "The most important contribution we can make is to elect a president in 1988 who will truly honor the Constitution of the United States that he has sworn to uphold."

FAMILY SUPPORT -- This young man, accompanied by his mother, had no doubt that his daddy was best at the NLC commencement May 22.

President Thier of the Institute of Medicine, delivering the address to medical graduates in Lisner Auditorium May 27, encouraged them to "uphold the responsibilities of a learned profession." He said the Class of 1988 is "the best trained generation of graduates" and that they should maintain the body of knowledge they have acquired and "advance that knowledge to the next generation."

VICE PRESIDENT SMITH TO RETIRE IN JULY

William P. Smith Jr., vice president for student affairs, will retire on July 31 and return to the classroom as a full-time student at the University. He plans to complete the requirements for an Ed.D. in higher education, a program that was interrupted some years ago.

A George Washington alumnus, Smith has had a 33-year association with the institution. Appointed vice president in 1968, he terms his 20 years in the post "a long and satisfying assignment." Joining the University in 1955 as director of personnel services, he served until 1963 when he was appointed assistant to the dean of faculties for academic planning. In 1964-65, he served as executive assistant to Acting President Oswald S. Colclough. He continued in that capacity with President Lloyd H. Elliott from 1965 until he was named vice president for student affairs, the first person to hold this position at GW.

Smith holds three degrees from George Washington, a B.A. in business administration, an M.B.A. and an M.A. in education. He holds membership in the American Educational Research Association, National Association of Student Personnel Administrators, the Society for the Advancement of Management, and the governing board of the SEHD Alumni Association, as well as Omicron Delta Kappa and the education honorary, Phi Delta Kappa.

By action of the Board of Trustees at its May 19 meeting, Smith will become vice president for student affairs emeritus upon his retirement.

CLARK RECEIVES LAW AWARD MAY 22

Barkley Clark, professor of law, received the Distinguished Faculty Service Award of the National Law Center at the center's commencement May 22. The award was presented by Dennis J. Quinn, 1987-88 president of the Student Bar Association. This is the second year in succession that Clark has received the award.

Clark, in expressing his appreciation, commented that nothing nicer can happen to a teacher than to receive such an award. He said, "I feel as if I'm representing the whole faculty since we keep teaching at the very core of our mission."

GW STUDENT NAMED 1988 TRUMAN SCHOLAR

Alisa D. Lewis, a junior in the School of International Affairs, has been selected a 1988 Truman Scholar by the Harry S. Truman Scholarship Foundation, the congressionally authorized federal memorial to the 33rd U.S. president.

Lewis, a resident of Washington, D.C. was one of approximately 200 scholars honored at the Truman Library in Independence, Missouri, on May 8.

The Truman Scholarship is awarded on a merit basis each year to college juniors who show potential for leadership, academic ability and an outstanding potential for a career in public service. The scholarship carries a maximum annual award of up to $7,000 for tuition, fees, books and room and board.

PROGRAM NAMED FOR MALCOLM L. MELTZER

The George Washington University Department of Psychology has honored the late Malcolm M. Meltzer by naming its Psychological Services Center the Malcolm M. Meltzer Psychological Services Center. Meltzer, a member of the department's faculty for 20 years, was founder and first director of the center.

David Silber, current director of the center, says, "We are very pleased that the University recognized the work of Dr. Meltzer in founding and directing the center. He was a valued colleague and we hope to continue the work he started." The center will be expanding its training opportunities and offering a variety of mental health services, Silber says.

Meltzer founded the Psychological Services Center in 1981 to provide low-cost mental health services for the disadvantaged and training for doctoral degree students in clinical psychology.

Before joining the George Washington faculty in 1967, Meltzer served as director of training and research and coordinator of psychology for the Area C Mental Health Center in Washington, D.C. He also served as chief psychologist for the V.A. Hospital in Durham, N.C., chief psychologist for the D.C. General Hospital and child psychologist for the Catholic University Children's Center.

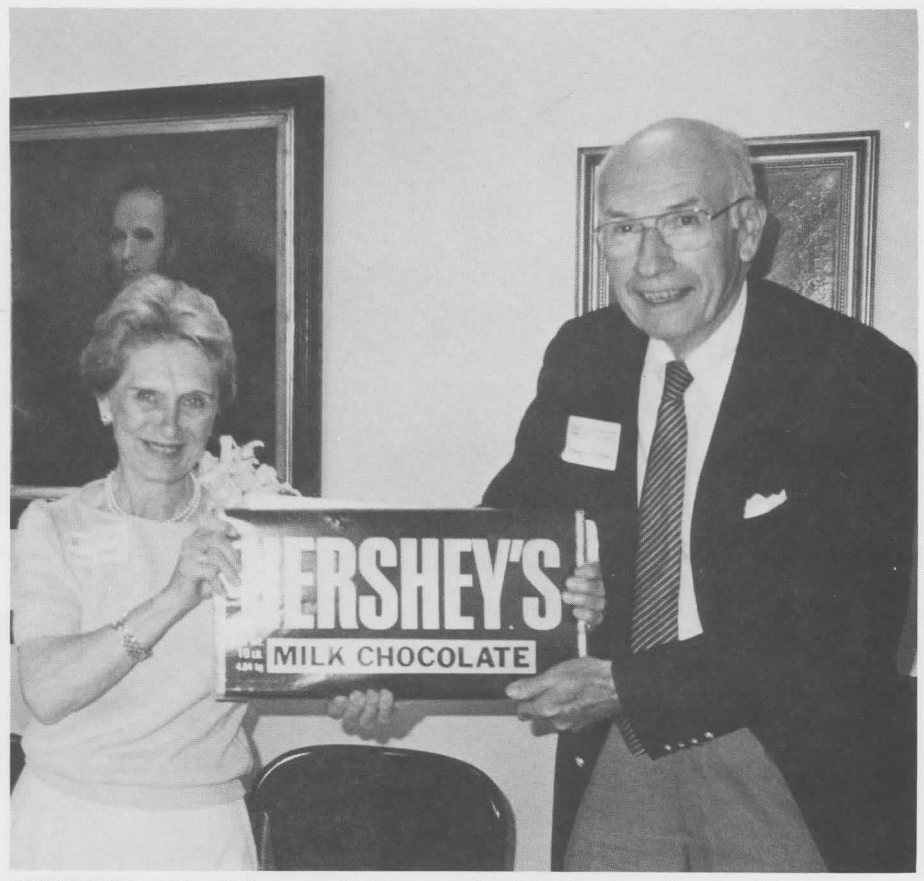
Meltzer held leadership roles in a number of professional and scholarly associations. He served as president of Division 13 of the American Psychological Association, president of the District of Columbia Psychological Association and as vice chairman of the D.C. Board of Psychologist Examiners.

A native of Baltimore, he earned the B.A. degree from Western Maryland College and an M.A. and Ph.D. from the Catholic University of America.

The Meltzer family has established the Meltzer Psychological Services Center Fund at George Washington to support and continue the original purposes and functions of the program. The address is Meltzer Psychological Services Fund, c/o Dr. David E. Silber, Director, Meltzer Psychological Services Center, The George Washington University, 2125 G Street, N.W., Washington, D.C. 20052.

ATTENTION GW FULBRIGHTERS

A directory of Fulbright alumni will be published next winter under the sponsorship of the Fulbright Alumni Association. If you are a former Fulbright award recipient, please send your name, address, Fulbright country and year to Fulbright Alumni Association, 1307 New Hampshire Avenue, N.W., Washington, D.C., 20036 or call (202) 331-1590.



SURPRISE -- The Elliotts received an oversized Hershey bar, the gift of former Registrar Frederick R. Houser, at the May 20 luncheon in their honor sponsored by the Society of the Emeriti and attended by more than 70 people. They were also presented a television set by the group.

ALUMNI TO GATHER ON CAMPUS THIS WEEKEND

Reunions of members of the classes c 1938 and 1963 and former *Hatchet* staff members will highlight Reunion Weekend 1988 this coming Friday and Saturday, June 10 and 11.

Friday's program includes a 10 a.m. coffee for members of the law class of 1938, bus tours of the campus, a reception and 50-year luncheon, class photos, a happy hour at Marrocco's for the class of 1963, a dinner-dance at the Wyndham Bristol Hotel for the 1938 class and a Potomac River cruise on the Spirit of Washington for the 1963 class.

Saturday's activities will begin with a morning bus tour, "Washington Old and New." Members of past *Hatchet* staffs will meet for breakfast. A Foggy Bottom architectural walking tour is planned from 10 a.m. to noon and the famous Engineers Egg Drop Contest will begin at 10:30 a.m.

A noontime farewell to the Elliotts is scheduled for 12:30 to 2 p.m. in the University Yard. A Gelman Library/SEHD Apple Computer Lab Tour is offered from 2:30 to 3:30 p.m. There are still spaces for tea at an embassy from 3 to 4:30 p.m. An Education Alumni Association reception will take place at 3:30 p.m. in the Morris Room of the Marvin Center. The Alumni Service Awards dinner, with President and Mrs. Elliott as special guests, will be from 5 to 8 p.m. in the GW Club.

Saturday evening, the Department of Theatre and Dance will present Gilbert and Sullivan's *The Pirates of Penzance* at 8:30 p.m. An opening night reception will follow in Market Square, Marvin Center, first floor.

For information on reservations, visit Alumni House at 714 21st Street, N.W., or call 46435.

NOTE, INVITATION TO GW HANDICAPPED

The federal government, under regulations implementing Section 503 of the Rehabilitation Act of 1973, requires the University to invite employees to identify themselves as handicapped and requires the University to take affirmative action to employ and advance in employment qualified handicapped individuals.

The Rehabilitation Act defines a handicapped individual "as any person who has a physical or mental impairment which substantially limits one or more of such person's major life activities, has a record of such impairment, or is regarded as having such an impairment."

If you have such a handicap and would like to be considered under the affirmative action program, please inform the Equal Employment Activities Office. Submission of this information is voluntary and refusal to provide it will not subject you to any adverse treatment. Information obtained will be kept confidential, except that supervisors may be informed regarding restrictions on the work or duties of handicapped individuals, and regarding necessary accommodations.

Employees who wish to identify themselves or who have questions, are asked to contact the Equal Employment Activities Office, Rice Hall, Room 503, Ext. 47402

BRIEFLY . . .

GW Basketball Day Camp, for boys ages 8 to 18, will run for two sessions this summer. The dates are June 27 to July 1 and August 1 to 5. Reduced rates are available for groups of 10 or more. For further information, call Larry Mangino, assistant basketball coach at 48508.

Lisner at Noon will present Rosa Lamoreaux, soprano, on Wednesday, June 8, and Maida Withers Dance Construction Company on Wednesday June 15. Both performances are free and will begin at 12:15 p.m. Those attending are invited to bring a lunch.

APPRECIATION -- Marina Keet, founder and artistic director of the Spanish Dance Society at GW, left, presented a certificate of appreciation from the society to James Zimmerman of the D.C. Commission on the Arts and Humanities in recognition of the commission's support at a reception following an appearance by the society as part of City Dance '88 in the Kennedy Center.

PROFESSIONAL ACTIVITIES

LYNN BARNETT, assistant director of the ERIC Clearinghouse on Higher Education, has been appointed to a second consecutive three-year term as chair of the ERIC Technical Steering Committee by the Office of Educational Research & Improvement, U.S. Department of Education.

SANDY HOLLAND, manager of publications, Office of University Relations, served as host coordinator and as a judge for the "Covers and Nameplate Designs" category of the 1988 Recognition Program sponsored by CASE (Council for Advancement and Support of Education) on April 20, in the Marvin Center.

JON A. QUITSLUND, professor of English, chaired a session on the writings of Sir Philip Sidney, and presented a paper on the poetry of Edmund Spenser entitled, "Hierarchical and Dynamic Principles in *The Faerie Queene,*" at the 23rd International Congress on Medieval Studies in Kalamazoo, Michigan, May 5-8.

COLONNADE TO SHOW LISNER MEMENTOS

An exhibit featuring posters, programs, pictures and memorabilia of the history of 42 years of Lisner Auditorium is being presented by the Colonnade Gallery through July 8. The exhibition is sponsored by Lisner Auditorium and the Governing Board of the Cloyd H. Marvin Center. The third floor gallery hours are 10 a.m. to 7 p.m. daily.

An opening reception is planned tomorrow, Tuesday, June 7, from 5 to 7 p.m. The entire University community is invited.

PERSONNEL NOTICES

ASSISTANT DEAN for Off-Campus Programs, Division of Continuing Education (individual to manage a staff of 18 securing education contracts with government agencies, business and industry, and the military; administer the graduate degree programs and credit courses of the University in the extended Washington area; supervise the Crystal City education center. Must have an earned doctorate, at least five years in a significant leadership role in continuing education working with faculty and deans with demonstrated program success as well as experience in marketing and negotiating contracts in both the private and public sectors, including the military.) Contact Harriet Little, Assistant Dean, Division of Continuing Education, at 994-7044.

RESEARCH ASSOCIATE, Department of Medicine. (Individual to work in Occupational Medicine program. Responsibilities include clinical examinations and screening of workers for occupational related diseases, maintenance of clinical data base, and assistance in the development of clinical research protocols. R.N. required, nurse practitioner preferred.) Call ILana Boin at 994-1734.

The George Washington University is an equal opportunity/affirmative action employer.

EXHIBIT ON ELLIOTT PRESIDENCY IN GELMAN

An exhibition, The Presidency of Lloyd H. Elliott, will be on view in Gelman Library's Special Collections Department through July 29.

The exhibition includes a series of historical photographs and publications as well as objects presented to the president in recent weeks. Visitors can read the testimony of Lloyd H. Elliott before the U.S. House of Representatives Committee on Internal Security July 22, 1969, which was part of the committees' investigation of Students for A Democratic Society, a major national student group of that period. Also on display is a photograph taken in the White House at a June 22, 1970, meeting between former President Richard M. Nixon and 17 college and university presidents on the subject of campus unrest. President Elliott can be seen at the center of the oval conference table, seated across from President Nixon.

The establishment of the University's Equal Opportunity Program (1969), along with Elliott's part in it, is documented. The growth of the National Law Center in the 23 years of Elliott's tenure is traced. The sequence of the Commission for the Year 2000, appointed in 1984, is presented as well.

Recent gifts to the president on exhibition include the honorary Master of Business Administration degree and the large photograph showing him holding a "We mean business" T-shirt presented at the SGBA May 8 Commencement. A cartoon study of Elliott signed by those who attended an April 14 dinner, sponsored by the Association for Practitioners in Educational Administration can be seen. A plaque presented to Elliott for his service to the Consortium of Universities of the Washington Metropolitan Area, bearing the names of the Consortium college and university presidents from 1966 to 1988 is shown.

The increased financial strength of the University during the Elliott years is also highlighted.

Special Collections' hours are 8:30 a.m. to 5 p.m., Monday through Friday.

ORAL HISTORY OF ELLIOTT PRESIDENCY

An oral history of Lloyd H. Elliott's presidency has been completed by interviewer John V. Reid. The interviews for the oral history took place between July 27 and August 13, 1987.

The oral history was the joint brainchild of Vice President for Academic Affairs Roderick S. French and Vice President for Development and University Relations Michael J. Worth. The oral history is intended to complement traditional sources and records.

The taped oral history and transcript will be released for research later this summer. Any questions should be addressed to the University Archivist.

MODEL -- The Elliotts stand beside a campus model made of popcorn-filled paper bags representing University buildings, a highlight of a recent reception for them given by the Education Alumni Association which featured the showing of a videotape, "The Elliott Years," a historical appreciation.

BURDETSKY, HARMON NAMED ACTING DEANS IN SGBA

Ben Burdetsky, professor of personnel and labor relations, and Michael M. Harmon, professor of public administration, have been selected to serve as acting dean and associate acting dean respectively in the School of Government and Business Administration until a successor to Dean Norma Maine Loeser is chosen.

Commenting on the appointment of Burdetsky, Vice President for Academic Affairs Roderick S. French, said, "Once the decision was made for a period of interim leadership, Ben Burdetsky was the obvious choice since he is a former associate dean with a broad understanding of the workings of the school and the University." He noted further that Professors Burdetsky and Harmon "constitute a powerful team" as two experienced, respected faculty members.

Burdetsky joined the full-time faculty in 1977 after serving 25 years in the federal government. He had taught part-time at GW beginning in 1962 in the areas of industrial relations and personnel and manpower management. Burdetsky served as chairman of the Department of Business Administration from 1980 to 1984 when he was appointed SGBA associate dean. He held that post until 1987 when he returned to full-time teaching.

During 25 years with the U.S. Department of Labor, Burdetsky had major responsibilities as deputy assistant secretary of labor for employment and training, as deputy commissioner of the Bureau of Labor Statistics, and as chief, Data Systems Staff and deputy director, Office of Financial Management and Data Systems in the Office of the Secretary. A frequent speaker at meetings of businessmen, labor leaders and academicians, he is also the author of articles in his areas of expertise.

Michael H. Harmon joined the Department of Public Administration in 1970. For the 1969-70 year, he was an organization development specialist at the United States Agency for International Development. Prior to that, he taught at the University of Southern California and the Federal Executive Institute in Charlottesville, Virginia. Harmon served as chairman of the Department of Public Administration from 1975 to 1977.

Since coming to GW he has been a visiting professor at the School of Public Administration, Carleton University, Ottawa, Canada (1979) and at the University of International Business and Economics, Beijing, People's Republic of China (fall, 1985). In the spring of 1986, he was a visiting fellow at Kuring-gai College in Sydney, Australia.

Harmon has served as organization development consultant and management trainer for numerous U.S government agencies among them, the Departments of Housing and Urban Development and Interior, the Consumer Product Safety Commission, National Park Service, Executive Seminar Centers, the Office of Personnel Management and the Smithsonian Institution.

His writings include two books, *Action Theory for Public Administration*, (New York: Longman, Inc. 1981), and *Organization Theory for Public Administration*, with Richard T. Mayer (Boston: Little, Brown and Co., 1986). He is the author of numerous articles in his field and is a frequent speaker at professional conferences.

GASTON SIGUR TO RETURN TO GW

U.S. Assistant Secretary of State for East Asian and Pacific Affairs Gaston J. Sigur plans to rejoin The George Washington University as distinguished professor of East Asian studies following his government service, SIA Dean Maurice A. East has announced.

East praised Sigur's "far reaching achievements in public life and his contributions to the University. His affiliation means a great deal to the Elliott School and we look forward to sharing his world experiences and academic leadership," he said.

Commenting on the prospective appointment, Sigur noted, " I have spent man happy and productive years at George Washington and I look forward to returning to the University."

Sigur's association with the GW began in 1972. Upon returning, he plans to pursue various writing projects and teaching opportunities focusing on his expertise in international relations, especially in the field of U.S. policies toward Asia. He will also be a member of the Institute for Sino-Soviet Studies and the East Asian Studies Program.

Prior to being sworn in as U.S. Assistant Secretary of State in March 1986, Sigur was senior director of Asian affairs for the National Security Council in 1982, and later was appointed a special assistant to the president for national security affairs in 1983. From October 1984 until March 1986, he served as a consultant to the National Security Council, and simultaneously served as full-time director of George Washington's Sino-Soviet Institute and as professor of international affairs.

Sigur holds M.A. and Ph. D. degrees in Asian history from the University of Michigan, Ann Arbor. A prolific writer, he is the author of numerous articles and monographs on international relations. His book, *Japanese and U.S. Policy in Asia* (Praeger, 1982) was edited with GW Professor of Political Science and International Affairs Young C. Kim.

PATRICK HAYES, left, managing director emeritus of the Washington Performing Arts Society, congratulated Gerry Archer, curator of the Colonnade Gallery show on Lisner Auditorium's history at the June 7 opening of the exhibition which runs through July 8.

SEVER, VICE PRESIDENT AT CHILDREN'S HOSPITAL

John L. Sever, M.D., Ph.D., has been appointed senior vice president for medical and academic affairs, Children's Hospital National Medical Center and professor and chairman of the Department of Child Health and Development, The George Washington University Medical Center (GWUMC). Dr. Sever, who is currently chief of intramural research in infectious diseases at the National Institute of Neurological and Communicative Disorders and Stroke of the National Institutes of Health (NIH), will assume his new duties this summer.

Children's Hospital National Medical Center, a private, non-profit pediatric hospital, has been the clinical site for The George Washington University Medical School's Department of Child Health and Development since 1968. The full-time clinical and research physicians at Children's Hospital are regular faculty members of GWUMC.

In discussing his new role, Dr. Sever said his initiatives will include the expansion of clinical care, teaching and research. Dr. Sever comes to both institutions with an international reputation for his work in virology and chronic neurological disease in children.

Sever has been a professorial lecturer in child health and development and in obstetrics and gynecology at The George Washington University Medical School since 1976, and a member of the research and clinical staff at Children's Hospital since 1962.

A native of Chicago, Dr. Sever received his undergraduate degree from the University of Chicago and his graduate and medical degrees from Northwestern University. A member of numerous professional societies, he is an editor and published author. He is currently editor of the *American Journal of Reproductive Immunology and Microbiology*.

SARP IS NEAR

SARP, the University's Summer Advance Registration Program, will begin next week and continue in two-day sessions through mid-July.

Members of the faculty and staff are invited to attend informal receptions for the new members of the class of 1992 and their families as part of the SARP program. The receptions, called "Informal Fair/Reception," are scheduled for 4 to 5:30 p.m. on Monday, June 27; Thursday, June 30; Thursday, July 7; and Thursday, July 14. All the receptions will be held in the Marvin Center, Continental Room, third floor. There will be tables available where faculty and staff may place promotional materials related to University events, services or programs.

ICE CREAM BASH -- Mariam Mani of Marriott, left, served a visiting forest ranger at a recent ice cream bash, sponsored by the Student Activities Office on the H Street Terrace of Marvin Center. The event was one of a series. Upcoming bashes will be June 28, July 12 and 26, and August 2 from noon to 1:15 p.m. on the terrace.

FISHER TO BE DIRECTOR OF MANAGEMENT PROGRAM

Dick Fisher, CAE, has been appointed executive director of the University's Master of Association Management Degree Program.

A senior level association executive for 29 years, Fisher served 14 years as vice president for the National Federation of Independent Business. Most recently,he has been an association consultant to organizations such as the American Society of Association Executives and the National Association of Chain Drug Stores.

Fisher became a Certified Association Executive (CAE) in 1974 and was awarded Charter Class Fellow recognition in 1986. He is a past president of the Northern California Society of Association Executives and served as vice chairman of the American Society of Association Executives' board of directors.

A graduate of the University of San Francisco (B.S.), Fisher is currently a candidate for the master of association management degree from SGBA. He succeeds Mark Keane, who will continue to serve as visiting professor of public administration and association management and as faculty advisor for the program.

BRIEFLY...

Lisner at Noon will present pianist Randy Sheets of the Levine School of Music on Wednesday, June 29, and pianist Peggy Atwell in a concert of French music on Wednesday July 6. Both free events will be at 12:15 p.m. in Lisner Auditorium.

Low Impact Aerobics Classes are now meeting Monday through Friday from 1:10 to 2 p.m. in Building K, sponsored by the Wellness Resource Center. The free classes are open to all University employees and students.

A Quit Smoking Workshop will be offered in July by the Wellness Resource Center and The George Washington University Medical Center. The two-week workshop will begin Monday, July 11, and meet twice weekly. Based on the American Cancer Society's Freshstart program, the workshop will be conducted by trained facilitators. The sessions are open to all GW faculty, staff and students. Pre-registration is required. Call 46927.

MARYLAND INCOME TAX WITHHOLDINGS CHANGE

Effective July 1, 1988, the following withholding tax changes take effect for Maryland residents, reflecting the amendments to the Maryland Income Tax Law enacted by the 1987 Maryland General Assembly:

Personal Exemption amount - increases to $1,000 for one withholding for 1988 and $1,100 for 1989 and after.

Standard Deduction - increases to 15 percent of gross income with a minimum of $1,000 and a maximum of $2,000 for each taxpayer.

Appropriate changes will be made to the Maryland tax withholding formula to reflect these new figures. All payroll checks issued on or after July 1, 1988, will be computed taking the changes into account.

PERSONNEL NOTICES

COLLECTION MANAGEMENT LIBRARIAN, Jacob Burns Law Library. (Individual to participate in information services, supervise reserve materials, circulation functions, and maintenance of the collection. Evening or weekend work may be required. M.L.S. from accredited library school, demonstrated supervisory skills, ability to communicate and work effectively with faculty, students and staff required. J.D. from accredited law school, previous experience in large academic law library and experience with INNOVACQ-INNOPAC or other online systems preferred. Position available immediately.) Contact Professor Anita K. Head, Jacob Burns Law Library, The George Washington University, Washington, D.C. 20052.

DEPUTY DIRECTOR, Robert Wood Johnson Grant Program. (Individual with a minimum of 10 years experience in the health care field to include research, grant review, budget review of health providers, health service delivery programs. Requires experience in site visiting health care providers and service delivery systems. Computer skills essential. Minorities and women are encouraged to apply.)

EXECUTIVE COORDINATOR, Robert Wood Johnson Grant Program. (Individual with experience in establishing computer grant files, maintaining files, arranging site visits, grant review conferences and keeping minutes of conferences. Will draft correspondence to foundations and grantees, respond to requests for information from foundations, potential and actual grantees. Minorities and women are encouraged to apply.)

For more information on both positions, contact Ruth S. Hanft, Principal Investigator, Department of Health Services Administration, 600 - 21st Street, N.W., The George Washington University, Washington, D,C. 20052 (202) 994-5737. Resume required. Application deadline, June 30, 1988.

The George Washington University is an equal opportunity/affirmative action employer.

PROFESSIONAL ACTIVITIES

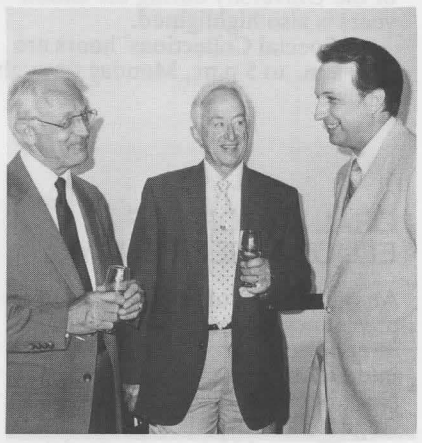
SIMON BERKOVICH, professor of engineering and applied science, gave a presentation, "Spacetime and Matter in Cellular Automaton Framework," at the International Symposium on Spacetime Symmetries, honoring Professor Eugene P. Wigner, at the University of Maryland, College Park, May 24-28.

NELSON L. BOMBA, assistant director, Procurement and Supply Department, received commendation for his work on the planning of a regional meeting for Maryland, Virginia and the District of Columbia of the National Association of Educational Buyers at the national association's recent annual meeting.

R. PAUL CHURCHILL, associate professor of philosophy, presented a paper, "Personality Types and Learning Logic," at a plenary session of a conference on "Teaching Informal Logic and Critical Thinking at Colleges and Universities" at McMaster University, Hamilton, Ontario, Canada, May 6 to 8.

On May 2 and 3, DINA DORICH, assistant vice president for university relations, was a faculty member of the 1988 Forum for Women Institutional Advancement Officers, sponsored annually by the Council for Advancement and Support of Education (CASE). She has been appointed to a three-year term on the CASE Commission on Institutional Relations. The commission's role is to help CASE plan and evaluate programming in institutional relations, to identify speakers for its Annual Assembly, to advise on CASE professional development activities and to recommend to the CASE board potential nominees for office within the organization.

SHARON J. ROGERS, university librarian, has become president-elect of the OCLC (Online Computer Library Center) Users Council. She has been the representative of CAPCON (Capital Consortium Network) to the council since 1986 and was recently elected for another term as representative to serve through 1991. The OCLC Users Council is comprised of 60 delegates from the 18 regional OCLC affiliate netorks. Rogers will serve on the User Council executive committee during the coming year and will assume the responsibilities of president for one year in the spring of 1989.



GWTV Chief Engineer Ernest S. Teutschbein, left, and General Manager W. Lee Hunter, center, talked with Assistant Vice President for Television Ted J. Christensen at a May 31 reception honoring them before their June 30 retirements.

GW REPORT

June 29, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

PREP -- Nematolah Taghavi of the Mathematics Department, right, assigned calculus sections to students in the University's Precollege Review and Enrichment Program (PREP) following a June 13 opening session.

YIDDISH BOOKS ACQUIRED BY GELMAN

The Gelman Library has acquired a collection of Yiddish books from the National Yiddish Book Center in Amherst, Massachusetts.

Jonathan Sunshine, Washington representative of the center, speaking at a June 14 program in observance of the collection's arrival at Gelman, said that saving Yiddish books is "an important act of cultural preservation." He noted that the Yiddish produced in barely a century (a 75-year period, up to 1935) a modern literature of the first rank. "Yiddish poetry was staccato in rhythm, presenting the dilemmas of modern life," Sunshine commented. He said the National Yiddish Book Center has been created to stem the losses of Yiddish books worldwide.

Books have been saved from basements and dumpsters, Sunshine remarked. The week of June 6, a Yiddish collection was dedicated at the University of Melbourne, Australia, to assure that the Yiddish part of Jewish culture will be preserved there, he stated.

"I congratulate George Washington for being among the pioneers in developing its Yiddish library," Sunshine said, "the next task is to develop a new generation of Yiddish scholars." He continued, "The acquisition of this collection by GW shows its dedication to the purpose of a university as the preservation of man's cultural legacy and its transmission to old and young."

Max Ticktin, assistant professor of Hebrew, noted that Yiddish is centuries older that Chaucerian English and that Yiddish literature, as a whole, goes back hundreds of years. He told those attending from the community that GW has courses in Yiddish, part of the broad offerings in Judaic studies at the University.

University Librarian Sharon J. Rogers said the 500-book collection was purchased with a grant from the National Endowment for the Humanities and that there are 16 categories. The titles in the collection are being entered in the Gelman database and the books have been prepared for shelving.

GW TO PURCHASE NEW HOUSE FOR PRESIDENT

The University is negotiating for the purchase of a house at 2241 Bancroft Place as a residence for the president. This property is a short distance from the current residence at 2330 Tracy Place. This action is being taken at the direction of the Board of Trustees in order to provide a residence that can accommodate institutional entertaining and social events.

Consideration had been given to renovation of the currently owned house at Tracy Place. It was determined that an expenditure of several hundred thousand dollars would be needed to make the kind of improvements that would accommodate the needs already met by the new residence. Tracy place is more suited to family living, while the interior design of Bancroft Place lends itself effectively to functions for both small and large groups.

It is expected that negotiations for the new residence will be completed within a month. Tracy Place will be sold once the new residence is purchased.

LISNER AT NOON MUSIC OF THE ANDES

Ollantay, a Bolivian band, will perform music from the Andes mountains, during the free Lisner at Noon concert Wednesday, July 13, beginning at 12:15 p.m. in Lisner Auditorium.

Ollantay is comprised of four Bolivian musicians now living in Virginia. The band performs using traditional Andean instruments such as the charango, a small string instrument; quena, an open flute made of cane or bone; bombo, a type of drum; the guitar and maracas. Ollantay bases its songs on pre-Columbian music and the traditional rhythms developed after the Spanish conquest of the Andean region of present-day Argentina, Bolivia, Chile, Ecuador and Peru.

The 45-minute performance is open to the public. Listeners are invited to bring a bag lunch, relax and enjoy the music.

SCIENCE, ENGINEERING APPRENTICES GLIMPSE FUTURE

Beverly Berger of the White House Office of Science and Technology Policy gave some 671 high school students a glimpse of what science and technology may be like after the year 2 000 at the June 20 orientation of the Science and Engineering Apprentice Programs, sponsored by the Department of Defense and administered by SEAS.

Noting there are some "exciting trends," Berger spoke of the areas of information, transportation and biology.

The capability of computers is increasing by a factor of 10 roughly every five years, she said, and the coming capability of a trillion operations per second in a computer will allow, among other things, weather forecasts based on scientific predictions, (not just recent history) and mineral mapping via seismic "pictures" of the earth. The U. S. has begun to develop a National Research Network which will allow educational and research institutions access to the world's most powerful computers. This capability will allow scientists around the world to communicate with each other on a daily basis.

In transportation, there will be a prototype aircraft by the turn of the century. This Mach 25 aircraft will be able to take off and land on conventional runways and will burn on-board hydrogen and turbo-charged oxygen from the atmosphere. Delivery of satellites to low earth orbit will thus become a common event. There will be a kind of "Orient Express," a Mach 6-10 aircraft that will be able to reach any place in the world in two hours or less. Superconductors will become common elements of automobile motors.

In biology, by 2 000, important chromosomes involved in DNA repair or cancer will have been mapped and sequenced. It will be possible to identify diseases early in life and provide missing protein to contribute to their cure. It may be possible to go to a laboratory and create a protein to do a particular job. The quality of food crops and the environment can be improved and waste streams of industry can be cleaned up.

One of three speakers at the orientation, Berger, assistant director for life sciences, Office of Science and Technology Policy, Executive Office of the President, followed Robert H. Oswald, director, Army Research and Technology, Office of the Assistant Secretary of the Army, and Robert Ryan, director, Special Programs, Office of Naval Research.

Oswald urged the students not just to learn from the book in the labs but to see how science is built, "a stone at a time." He told them, "This summer is important for the rest of your life, you'll see the wealth of opportunities for engineers and scientists. . . You're there to sample." He said the Army is proud of its participation in the apprentice programs which help not only the military, but the United States as well. Oswald encouraged the students to go on for graduate study. Noting the large number of international students in American graduate schools, he commented, "We are training our competition."

Ryan enjoined the students to seek adventure, to find heroes and to take responsibility. He recommended some kind of sports activity and "adventures of the mind." Ryan emphasized it is the apprentices' responsibility to seek out the adventure, to question those they will be working with. "You're the top of the list," he added, in a reference to the thousands who apply yearly for the apprentice programs.

During the question and answer period, one young man asked the speakers, "Does it get hard after a while? Do you run out of questions, research topics?" All three assured him, in separate responses, that it is quite the contrary, that as the researcher opens up one door, another is there, and as more and more tools are developed, more questions come. Dr. Berger said, "There is just going to be a whole new territory. There is an incredibly exciting world out there."

CONVERSATION -- L to R, Beverly Berger of the White House Office of Science and Technology Policy; Marilyn Krupshaw, director of the Science and Engineering Apprentice Programs; and Arthur Sass, head, Employees Development Branch, Naval Research Laboratory, visited after the Apprentice Programs' orientation session.

GO FOR THE GOLD GWUMC HEALTH SERIES

The Institute for Disease Prevention of The George Washington University Medical Center is sponsoring a series of "brown bag" lectures related to diet, foods and good health. The lectures are part of a new "Gold Plan" program which will include low-fat and low-cholesterol entrees in the Hospital Cafeteria. The noon to 1p.m. sessions will be held Fridays in the Hospital Auditorium.

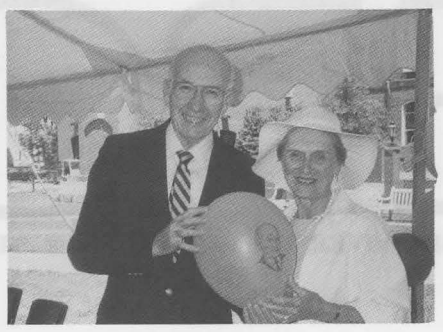
"Foods that Prevent Cancer" will be the subject addressed by Dr. Oliver Alabaster, Director, Institute for Disease Prevention, July 8.

"Protein: Can You Get Too Much of a Good Thing?" is the question to be considered Dr. Susie Lew, assistant professor of medicine, (endocrinology), on July 22.

"Overweight: Dangers and Solutions" will be the topic examined by Dr. Robert Ratner, assistant professor of medicine (endocrinology), on July 29.

"Food and Your Heart" will be discussed by Dr. John LaRosa,dean for clinical affairs and director, Lipid Research Clinic, on August 19.

All the sessions are open to the University community and the public.



FAVORS AND GIFTS for the Elliotts in the last few weeks have included gardening tools from the Engineer Alumni Association, presented at the Alumni Awards Dinner, left; balloons with a sketch of the president at the midday reception, sponsored by the General Alumni Association, upper right; and an aerial photo of Washington, highlighting the GW campus, right, presented on behalf of the Society of the Emeriti by Professor Emeritus of Pathology Thomas M. Peery, left, and Professor of Classics John F. Latimer, center.

PERSONNEL NOTICES

ASSISTANT DIRECTOR, Athletic Department. (Responsibilities include eight men's and women's outdoor sports, supervision of academic coordination program, scheduling and coordination of competitions and travel arrangements, equipment purchasing, supervision and evaluation of coaches, record keeping and knowledge of NCAA rules. Requires a minimum of a bachelor's degree in physical education or business administration or related fields; master's degree preferred. Experience in collegiate coaching, excellent organizational and communication skills also required.) Send letter of application and three letters of recommendation to: Search Committee, Athletic Department, Smith Center.

RESEARCH ASSISTANT/ASSOCIATE, Department of Medicine, Division of Infectious Diseases. (Nurse or physician's assistant for research in infectious diseases to perform clinical duties.) Send resume to: 2150 Pennsylvania Avenue, N.W., Room 4-502, Washington, D.C., 20037.

RESEARCH POSITION, Department of Medicine, Division of Infectious Diseases. (Research position available for M.A. or Ph.D. in immunology or parasitology.) Send resume to: 2150 Pennsylvania Avenue, N.W., Room 4-502, Washington, D.C. 20037.

ASSISTANT DIRECTOR, Continuing Engineering Education Program. (Duties involve developing, marketing, managing intensive short courses used in a worldwide continuing engineering education program; assisting the director in coordinating national and international programs, and in the development and coordination of an extensive program of on-site programs with government agencies and commercial corporations. Individual must be capable of presenting the University's program to training officers and executives and of determining pertinent costs and fees. Requires eight or more years experience involving engineering application or management. B.S. degree in engineering or related science helpful as well as a background in education. Must be sensitive to current and anticipated needs of engineers and scientists in both industry and government. Send or bring resume and three references by August 1 to: Director, Continuing Engineering Education, School of Engineering and Applied Science, The George Washington University, Room T-308, The Academic Center, Washington, D.C. 20052. (202) 994-6106 or (800) 424-9773.

The George Washington University is an equal opportunity/affirmative action employer.

ELLIOTT SIGNS TACK FIRE CURTAIN

President Lloyd H. Elliott has left his signature on the back of Lisner Auditorium's Tack fire curtain at the invitation of the auditorium staff. The curtain was painted in 1944 by the American artist Vincent A. Tack.

Over the last three years, Lisner stage manager Phil Fox has asked the artists appearing on the stage to sign the curtain. The famous signatures include those of the Spanish dancer Jose Greco, Carl Sagan, Mr. Rogers of WETA, Pete Seeger, and Irish singers Liam Clancy and Tommy Makem.

Elliott signed near fellow West Virginian Chuck Yeager.

PROFESSIONAL ACTIVITIES

JAMES D. FOLEY, professor of engineering and applied science, presented a paper, co-authored with graduate students Christine Gibbs, Won-Chul Kim, and Srdjan Kovacevic, "A Knowledge-Based User Interface Management system," at CHI '88, the Computer-Human Interaction Conference in Washington, D.C., May 17. He presented an invited talk, "Tools for the Designers of User-Computer Interfaces," at the John von Neuman Supercomputer Center in Princeton, New Jersey.

MURLI M. GUPTA, associate professor of mathematics, was a national judge at the Fifth National Mathcounts Competition in Washington, D.C., May 12-14. The competition is open to seventh and eighth grade students nationwide. Top winners were congratulated at the White House by President Reagan.

DENNIS H. HOLMES, professor of education, has been named by Mayor Marion Barry to the District of Columbia Commission on Post-secondary Education. The mayor has asked the commission to hold public hearings and develop a master plan for postsecondary education and training for the D.C. government.

DORN C. McGRATH JR., professor of urban and regional planning, spoke at the regional conference of the National Capital Area Environmental Health Association on "Environmental Noise and Human Well-being -- Implications for Public Administration" on April 26.

MARIANNE R. PHELPS, associate provost and professor of education, gave the address at the diploma ceremony for the School of Dental and Oral Surgery at Columbia University on May 19.

JERROLD POST, professor of psychiatry and public policy, participated in a number of different sessions in the area of psychiatry and international relations at the annual meeting of the American Psychiatric Association (APA) in Montreal, Canada, in May. He taught a one-day course on "Personality and Political Behavior"; organized a symposium on the psychology of terrorism, which included his paper on "The Mind of the Terrorist"; and participated in a meeting of the APA Council on Psychiatry and International Affairs.

GEORGE C. STEPHENS. associate professor of geology, presented a paper, "Fault-related deformation of the Eocene Harebell Conglomerate at Togwotee Pass, Teton County, Wyoming," at the 41st Annual Meeting of the Rocky Mountain Section of the Geological Society of America in Idaho, May 16. He also led a two-day pre-meeting field trip to examine the Quaternary geology and glacial history of central Idaho. A guide to this trip is included as a chapter in *Guidebook to the Geology of Central and Southern Idaho* published for this meeting as Bulletin 27 of the *Idaho Geological Survey* for 1988.

DAVID SCOTT SMITH, director of GW Medical Center's Department of Safety, chaired a program entitled "Risk Management Considerations in Contracting for Hazardous Chemical Waste Transportation and Disposal Services" at the 26th Annual Risk and Insurance Management Society Conference, April 17-22, in Washington, D.C. NEAL MOHLMANN, GW Medical Center's industrial hygienist, was a speaker on the program.

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

STUDENT ID PHOTOS are being taken by Casey W. Ferguson of the Registrar's Office, left, one of a team of four, during the Summer Advance Registration Program. Approximately 900 students are taking advantage of the program.

JAY SHOTEL BECOMES SEHD ASSOCIATE DEAN

Jay R. Shotel, who has been serving as acting dean of the School of Education and Human Development for the past year, became associate dean of the school on July 1.

Shotel, professor of special education, came to George Washington in 1972 as assistant professor. Progressing through the ranks, he became full professor in 1981. He served SEHD as assistant dean from 1984 until July 1987, when he became acting dean.

A member of the Council for Exceptional Children and of the American Association of Colleges for Teacher Education, he has served as both institutional representative and research representative to the latter organization. He is also George Washington's representative to the Washington Board of Trade Education Task Force. A member of Phi Delta Kappa fraternity, he serves as faculty adviser to the George Washington chapter. He holds the degrees of B.A., M. Ed. and Ed.D. from Temple University.

LOAN DAYS AT DIMOCK GALLERY

Wednesday and Thursday, July 27 and 28, from 11 a.m. to 3 p.m., will be loan days at the Dimock Gallery.

In accordance with the policy of lending artwork from The George Washington University Permanent Collection to University offices, the Dimock Gallery is offering a selection of works for loan or exchange. Anyone returning a work is asked to bring it the first day, July 27, so that it will be available for other borrowers.

There is a one-time loan charge of $15.00 per object, which covers any damage and provides supplementary funds for framing. Payment is made through interdepartmental procurement (non-stores). Those coming should be aware of their account number for billing. Adequate security must exist in the areas where objects are to be installed and objects can be recalled at any time at the discretion of the curator.

Further information on Dimock Gallery loans is available from the gallery, Ext. 41525.

EDWARD VEST IS NEW GAA PRESIDENT

Edward N. Vest was elected president of the General Alumni Association (GAA) on June 29, to serve for a period of two years.

Vest holds three degrees from George Washington: B.A in Ed., 1959; M.A. in Ed., 1965; and Ed.D., 1972. A past president of the Education Alumni Association, he has been secretary of the GAA Board for the past two years. Vest has also served as chairman of SEHD's yearly program, "New Directions." He is currently vice principal of Friendly High School at Fort Washington, Maryland.

Vest succeeds John R. Manning, who became a member of the Board of Trustees on July 1.

BEDNAREK CHOSEN BASKETBALL COACH

Jennifer Bednarek has been selected new head women's basketball coach, GW Women's Athletic Director Mary Jo Warner has announced.

Bednarek has had nine years of assistant coaching experience at the NCAA Division I level. Since 1983, she has assisted University of Iowa Head Coach Vivian Stringer. During this period, the Iowa program advanced to three NCAA tournaments and, in the past season, won the Big Ten title.

Bednarek assumes leadership of the GW program on July 15, after a best-ever season for the team in 1987-88. This past winter, the Lady Colonials earned an 18-10 win/loss record, finished the highly competitive Atlantic Ten Conference regular season in third place and, for the first time, received votes in the *USA Today* and AP Top 20 polls.

JULY 28 RECEPTION FOR VICE PRESIDENT SMITH

Members of the University community are invited to attend a reception on Thursday, July 28, honoring Vice President for Student Affairs William P. Smith Jr. upon his retirement from the University after 33 years of service. The reception will be held in the Main Dining Room of the GW University Club from 4 to 6 p.m.

SERVICE AWARDS FOR 187 IN THE GW COMMUNITY

Members of the University community being recognized with service awards this year number 187. The awards are for periods of from five to 45 years.

Margaret K. (Peggy) Green, assistant treasurer, received a 45-year award at the June 29 luncheon sponsored by the Office of the Vice President and Treasurer. Receiving an award for 35 years' service was Allan J. Donaldson, maintenance coordinator, Physical Plant Department (PPD). Wilbert L. Ward, also of PPD, who has been at the University 40 years, was not able to be present.

Vice President for Administration and Research Carl J. Lange was honored for 35 years' service at a June 21 luncheon. At the same occasion, 17 members of his division received awards.

At a June 28 reception, sponsored by the Office of the Provost, 14 service awards were presented. Mary Bayliss of the Budget Office received a 20-year award. Also receiving a 20-year award was Margaret Cohen of the Provost's Office. There were five service award recipients from the University Computer Center: Myron Friend, 20 years; Louis Napper, 15 years; Clarence Ellis Jr. and Nancy Spencer, both 10 years; and Theron Tarbush, five years.

In addition to Green, Donaldson, and Ward, more than 80 members of the staff of the Vice President and Treasurer were recognized on June 29.

Joseph L. Jackson of Graphics and Printing was given a 25-year award.

Barbara Kew and David Flowers of Sponsored Projects received 20-year and 10-year awards respectively.

Anne Steever and Joan Whitaker of Student Financial Aid both received 20-year recognition. Sandra Blanton had a 10-year award.

There were awards in three categories to people in the Business Office group. Marshall Brown of Duplicating/Graphics was a 10-year awardee. From the Bookstore came Lena Gee with 20 years and Edna DeLeon with 10 years. From Parking there were Jai Balkissoon with 20 years and James Fenwick with 15.

Marlene Wilson of Planning and Construction had a five-year award.

From Physical Plant, there were seven 20-year people: Oscar Bethea, Henrietta Fewell, Willie Hatcher, John Hayslette, Junell Johnson, James Shiley and Roger Wilhelm.

PEGGY GREEN, assistant treasurer, center, who has served the University 45 years, and Allan J. Donaldson, maintenance coordinator, Physical Plant, left, who has served 35 years, were congratulated by Vice President and Treasurer Charles E. Diehl following a June 29 luncheon for those in his division receiving service awards.

There were also 15, 10 and five-year groups from Physical Plant.

In PPD's 15-year group were Jincy Bacote, Lee Barrow, Thelma Dew, Dorothy Edmonds, Ronald Garmon, James Grissom, Pearl Harris, Mable Herring, Zeinab Ibrahim, Isabelle Ikard, Louise Knight, Callie Lewis, Ronella Lyles, Ollie McNeil, Bernard Moore, Carrie Morris, Margaret Porter, Rosa Reddish, Beulah Sanders, Thelma Spriggs, and Calvin Williams.

PPD's 10-year people were Robert Barnes, Sylvia Benjamin, Sarah Butler, Peter Clarke, Joyce Dozier, Ronald Fisher, Samuel Jackson, Charles Johnson, Millard Lewis, Kevin Mack, Lincoln Payne, Paulette Rousey, Fern Saunders, Richard Segel and Carroll Shorter.

Receiving five-year awards in PPD were Emmark Brown, Gregory Edwards, Ahsaki Effooroo, Andrew Fox, Arthur Nicholson, Robert Oakley, Betty Proctor, William Richey, Ann Tate, Ernest Tinsley, Willean Wells and George Ziemelis.

Clinton Edwards, who works with Servicemaster in association

(contd. on back . . .)

OFFICER Raymond L. Sharp, right, received a five-year service award from the University, presented by Safety and Security Director Curtis W. Goode in a June 21 ceremony.

SERVICE AWARDS

(contd. from front)

with PPD, received a five-year award.

From the Marriott group came Esther Williams with 25 years, followed by Jeannette Robinson, Mabel Williams and Marta Pineda with 20 years each. There were six 15-year award recipients: Charles Boyd, Clara Herring, Jose Funes, Barbara Thompson, Ophelia Sandoval and Hattie Brown. The 10-year Marriott people were Quinton Hood, Kenny Hodges and Nat Johnson. There were five for five years: Guadalajara Catalina, Rosie White, Angie Huang, Lorraine Whitfield and Victor Rivas.

In the division of Administration and Research, awards were given for 15, 10 and five years.

Recipients of 15-year awards were Shirley B. Hawkins of Personnel Services and three from Safety and Security: Donal A. Alderman Sr., George M. Brittle and Billie B. Taylor.

Awards for 10 years went to Theresa L. Everhart, Elizabeth Massengale, Mamie L. Roberson and Thomas A. Rogers Jr. of Personnel Services and James H. Foster of Safety and Security.

Recipients of five-year awards were Sharon A. O'Brien of Personnel Services and, from Safety and Security, Russell A. Foley, Curtis W. Goode, Peggy Ann Minor, George A. Mitchell, Evangeline Radford, Raymond L. Sharp and John A. Wehrenberg.

In the Division of Student Affairs, there were four awards presented in a June 22 ceremony. Recipients were: for 15 years service, Gail Short Hanson, dean of students, and Wilfred V. DeGrasse of the Marvin Center; for 10 years, Rebecca E. Griffin of Housing and Residence Life; for five years, Phillip G. Heil of the Student Health Service.

At a July 8 breakfast, service awards went to 23 recipients in the Division of Academic Affairs.

Kay K. Beach of Academic Computing received a 15-year award.

Admissions Office people recognized were: Scott M. Eldridge, 30 years; William F. Shanahan, 15 years; Sharon K. Briggs, 10 years; and Barbara J. Dunham and Susan L. Westover, five years each.

Gelman Library staff members receiving five-year awards included Elizabeth W. Harter, Isabella Montgomery, Arturo B. Polintan, Alejandro C. Taverna, Sueelen M. Towers, Patricia J. Wathen and Joyce Whitmore.

GWTV staffers receiving five-year awards were Joseph C. Dickens, Christina A. Galarza, Karen S. Peterson, Ernest S. Teutschbein and Thomas M. Wing.

Registrar's Office people recognized were: Helen E. Setter, 20 years; Thomas A. Coons, 15 years; and Sofronia Beam and Casey W. Ferguson, both five years.

In the Department of University Professors, Karen J. Greisman received a five-year award.

In the Division of Development and University Relations, four individuals will be recognized at a July 21 event. They are: Helen Wolford of University Relations, five years; Marie Steeves and Marissa Zuchelli, of Alumni Relations, five and 15 years respectively; and Rita Gilbert of the Development Office, 10 years.

SPANISH DANCE -- Alicia Diaz, left, former principal dancer of Antonio's Spanish Dance Company and of the Spanish National Ballet, worked with students in the Department of Theatre and Dance on style and technique in a series of master classes at the end of June.

In the Columbian College of Arts and Sciences, those receiving awards for 10 years service are Wayne Dabney, Jeffrey Henig, Nan Janifer, John Prentice, Anthony Martin and Lona Simpson Talley. The five-year group includes Vasundhara Chowdhary, Willie Cupples, Peter Gilbert, Hideo Sambe and Carole Tuchrello.

In the Division of Continuing Education, there are four service award recipients: Roy Carter, 20 years; G. Edgar Jones, 10 years; and Mary Chellaraj and Janet Vaughn Powers, both five years.

The School of Education and Human Development has two 20-year awardees, Pony Harrant and Carla Kreppein. In addition, five-year award recipients are Janice Bowe, Michelle Knox, Pamela LeConte and George Tilson Jr.

In the Graduate School of Arts and Sciences is David Alton Rowley with 15 years service.

The National Law Center has two five-year awardees, John Jenkins and Lillian White.

The School of Engineering and Applied Science has four 15-year people: Shirley Forlenzo, Karen Griebel, Sandra Jones and Robin Meader. The SEAS 10-year group includes Alice Y.O. Annum, George Brier, Margaret Hansen, Jeanne Peters and Michele Yao. The SEAS five-year recipients are Darold Dean Aldridge, Merrilee Ferber, Mary Jo Hensler and John Joseph Petrella.

In the School of Government and Business Administration, Virginia Hodges, Kathy Louise Janeczek and Catherine Seller are five-year award people.

The Elliott School of International Affairs has a 10-year awardee, Dorothy Wedge.

LISNER AT NOON OFFERS GUITAR AND VOCAL MUSIC

The Lisner at Noon series will present guitar and vocal music in July.

Wednesday, July 20, William Feasley will perform baroque music on the guitar. The next Wednesday, July 27, Debra Tidwell will give a concert of songs of David Arlen.

Both free programs in Lisner Auditorium will last approximately 45 minutes, from 12:15 to 1:00 p.m. Listeners are invited to bring a lunch and/or a friend.

PHYSICAL PLANT NOTE

In order to provide improved service to those call Ext. 46706 for emergencies or minor maintenance, the Physical Plant Department (PPD) has installed a mechanism which will record all conversations conducted on that number. The recordings are meant to assist in training new PPD personnel and in clarifying, after the fact, past conversations. Recordings will be retained for a minimum of 30 days.

To find and listen to a conversation, it is essential that the date and time of the conversation be known. Therefore, PPD encourages all callers to note the ticket number given on the tape at the time of the call. The ticket number is a record of the time of receipt of the call and facilitates later tracing of the conversation.

PERSONNEL NOTICES

RESEARCH ASSISTANT, Department of Medicine. (Individual to work on toxicology experiments using endothelial and smooth muscle cells. Requires B.S. in biology, experience in samples preparation for ultrastructural studies and with scanning and transmission EM.) Contact Dr. B.F. Dickens, Department of Medicine, 2300 T Street, N.W., Washington,D.C. 20037.

RESEARCH ASSISTANT, Department of Physiology. (Duties include performing carbon isotope tracer experiments and preparing hepatocytes. Requires B.S. degree in science. Position available immediately in cellular physiology laboratory.) Send resume to Joanne K. Kelleher, Ph.D., Department of Physiology, GWUMC, 2300 I Street, N.W., Washington, D.C. 20037.

POSTDOCTORAL RESEARCH ASSOCIATE, Department of Physiology. (Individual to study intermediary metabolism in isolated cells, hepatoma and hepatocytes. Stable and radioactive tracer methods and mathematical modeling techniques will be used. Background in cellular physiology, biochemistry, or experience with GC/MS desired. Position available September 1988.) Send curriculum vitae and names of three references to: Joanne K. Kelleher, Ph.D., Department of Physiology, GWUMC, 2300 I Street, N.W., Washington D.C., 20037.

RESEARCH ASSOCIATES (TWO, POSTDOCTORAL FELLOWS) Microbiology Department. (Individuals with M.A./Ph.D. degrees needed to work with Dr. Julia W. Albright. One-year positions with possible renewal. Laboratory dedicated to in vitro and in vivo analysis of interactions between parasites and cells as an approach to studying their host/parasite relationship or the aging of the immune system. Must be experienced in tissue culture techniques, including cloning procedures, inter-leukin assays, hybridoma production and have background in biochemistry and immunology.) Send resume to Dr. Julia W. Albright, Postdoctoral Fellow Positions, at 723 Ross Hall, (202) 994-2409.

RESEARCH SCIENTIST, Division of Occupational Medicine, Department of Medicine. (Division seeks a Ph.D. epidemiologist with training in occupational epidemiology. He/she will analyze data collected in clinical studies, design longitudinal studies of occupational diseases, and develop a data base to be used nationally for occupational medicine programs.) Contact Laura Welch, M.D., Occupational Medicine, 2150 Pennsylvania Avenue, N.W., Washington, D.C. 20037 (202) 994-1734.

The George Washington University is an equal opportunity/affirmative action employer.

GW REPORT

August 26, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

Ambassador Han, left, and President Trachtenberg, at the Chinese book collection

CHINESE BOOKS PRESENTED TO THE UNIVERSITY

Ambassador Han Xu of the People's Republic of China presented 1,000 Chinese books to the University in an August 11 ceremony in the Gelman Library.

The ambassador said he was delighted to present the collection on behalf of China's State Education Commission, "especially during the initial stages of Dr. Trachtenberg's presidency." He noted the increased interest in China throughout the United States in the past one or two decades and the unprecedented number of Americans studying the Chinese language and other aspects of China. He called the George Washington Department of East Asian Languages and Literatures, chaired by Dr. Chung Wen Shih, "one of the most outstanding in the country." He spoke of George Washington as "an institution whose devotion to teaching, research and service is balanced with a powerful involvement in national and international affairs."

Ambassador Han also took note of the 130 students and scholars from China at George Washington and the 12 scholarships offered by the University to Chinese students.

"I cannot tell you how pleased I am to be here for this occasion," Trachtenberg said. Pointing out that it was the 11th day of his presidency, he commented, "I take it as a sign of good fortune that we are receiving these volumes. May the books and the bridge of friendship that they represent be symbolic of peace between our peoples, now and for the future. I hope that together George Washington and the People's Republic of China will go from strength to strength and that there will be many exchanges of students and faculty for years to come."

University Librarian Sharon J. Rogers, in brief remarks, said that the books covering a wide range of topics, including Chinese politics, economics, the arts, education, geography and history, are "truly an enriching addition to the University collection." The Chinese books will be in several different locations in Gelman, she stated, with some of them in the Sino-Soviet Information Center. "You are also enriching libraries here in the Washington area through inter-library loan and throughout the United States, through the OCLC (Online Computer Library Center) terminals," Rogers told Ambassador Han.

The collection includes volumes in both Chinese and English.

NEW TELEPHONE FEATURE NOW IN PLACE

A "last number dialed" feature is now available on all System 85 voice terminals, according to the Department of Telecommunications Systems.

This feature allows the user to have the system automatically call the last number dialed with one simple command.

The feature functions for all numbers dialed (campus, dial 9 - local and long distance-domestic). When activating the feature for a domestic long distance call, the system will dial the complete number and the caller will hear the beep-beep-beep tone requiring the insertion of the user's authorization code. The system will not re-dial the authorization code.

To activate the feature:
Lift the receiver, hear the dial tone, dial #1. The system will then dial the last number dialed.

For answers to questions about this or any other telephone feature, call Telecommunications Customer Service at 45530.

TRACHTENBERG TO SPEAK AT OPENING CONVOCATION

President Stephen Joel Trachtenberg will be the speaker at the 1988 Opening Convocation on Friday, September 9, at 12:30 p.m. in Lisner Auditorium. This will be his first major address to the University community.

All units of the University are invited to attend the convocation and to join in the procession which will begin at noon in the courtyard of Gelman Library and wind through the campus to Lisner Auditorium.

A Scottish pipe band and a color guard from the NROTC Unit at the University will be at the head of the procession which will pick up marchers as it moves through the campus.

An all-University reception will follow the convocation.

PUBLIC ADMINISTRATION COLLEAGUES HONOR PRESIDENT TRACHTENBERG

On his third day in office, August 3, President Trachtenberg was honored at a reception sponsored by the Department of Public Administration's Master of Association Management Degree Program.

Trachtenberg, who is also professor of public administration, was welcomed with brief remarks by Department of Public Administration Chairman Kathryn Newcomer.

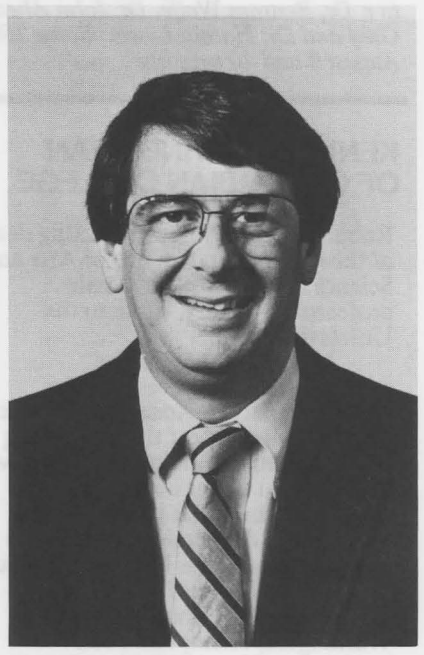
The president said he has a long interest in associations and that a battery of tests he took as a young man indicated that he ought to become director of the Y.M.C.A. He pointed out that how he spends his working day as a university president is not too different from the way most association executives spend theirs. "We don't make things. What we are dealing with is ideas and the management of people," Trachtenberg stated, adding, "to some extent we are all kindred souls."

Trachtenberg told the some 60 association executives and public administration faculty members gathered in the George Washington University Club that he believes Washington is exactly the right place for developing a body of theory and an academic core in association management.

PUBLIC ADMINISTRATION RECEPTION -- Michael M. Harmon, professor of public administration and acting associate dean of SGBA, left, and Mark E. Keane, distinguished visiting professor of public administration and association management, center, talked with President Trachtenberg at the August 3 reception in his honor.

ROBERT A. CHERNAK NAMED VICE PRESIDENT

Robert A. Chernak has been named vice president for student and alumni support services. He assumed the position this month.



Robert A. Chernak

In this post, he has responsibility for student life, enrollment management including admissions and financial aid, athletics and recreation, campus security and Lisner Auditorium.

Now entering his 20th year of service in higher education, Chernak has had experience in all aspects of administration at the vice-presidential level.

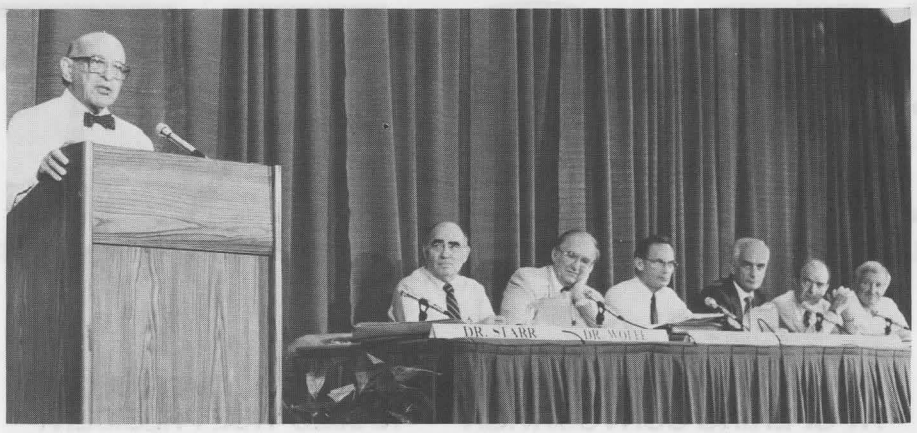
For the past 11 years, he was associated with the University of Hartford where his positions included responsibility for providing leadership and direction in marketing, financial affairs, student services, intercollegiate athletics, academic programs, community relations, physical plant management and campus security. For the last three years, he was vice president for administration and student services. He also served as acting vice president for business and financial affairs, vice president and assistant provost for academic services, associate vice president and director of summer programs.

Before going to Hartford, Chernak served as special assistant to the vice president for student affairs, and then assistant to the vice president for academic services at Boston University. From 1970 to 1972, he was at Bryant and Stratton Junior College in Boston, first as a full-time faculty member, then as director of student personnel and alumni services.

Chernak earned a B.S. degree in Business Administration from Boston University (1968) and an M.E. from Boston State College (1975). He served two years in the United States Navy and was attached to the U.S. Naval Security Group at Kamiseya, Japan.

Active in professional and community organizations, he has served on the boards of the Connecticut Student Loan Foundation and the West Hartford Chamber of Commerce and on the Aetna

(continued on back)



INTERNATIONAL CONFERENCE -- Dr.Chauncey Starr, left, founding president and vice chairman of the Electric Power Research Institute, moderated a session on "Nuclear Power Today and Future Requirements" at the International Conference on Enhanced Safety of Nuclear Reactors sponsored by The George Washington University Institute for Technology and Strategic Research. Distinguished panelists included, l to r, Dr. Bertram Wolfe, Dr. John Ahearne, Harold A. Finger, Angelo Gadola, John E. Gray and Dr. Harold Lewis. Some 150 experts in nuclear technology attended the August 9 and 10 meeting.

KENNY IS ACTING DEAN OF COLUMBIAN COLLEGE

Robert W. Kenny became acting dean of the Columbian College of Arts and Sciences on August 15. Kenny, professor of history, came to the University in 1962.

In commenting on the appointment, Vice President for Academic Affairs Roderick S. French said, "I am confident that the strong forward momentum in the College will be sustained under his leadership. This is but the latest in a very long narrative of distinguished service to the College and the University by our respected colleague."

During his tenure at George Washington, Kenny has been instrumental in establishing the University's M.A. program in Historic Preservation, the B.A. program in Environmental Studies and the experimental Utopian Ideals and Social Change project. He is also co-founder of the Folger Shakespeare Library History Seminar, predecessor of the Folger Institute.

Kenny has held several administrative and leadership positions at the university, including the chairmanship of the History Department. He also has served as chairman of the College Faculty Personnel Committee, the Committee to Advise on Tenure Appointments, the University Committee on Sponsored Research and the University Student Life Committee.

In addition to his work with the University, Kenny, a resident of McLean, Virginia, was a member of the Fairfax County Bicentennial Commission Advisory board and is a grant applications reviewer for the National Endowment for the Humanities.

He holds the B.J. degree from the University of Texas-Austin, the M.A. from the University of Minnesota at Minneapolis, and the Ph.D. from the University of Chicago. He also studied at the University of London.

An artist as well as a historian, Kenny received the M.F.A. (Painting) from The George Washington University in 1983 and has been a participant in juried shows in the Washington and Northern Virginia Area. He has served as president of the Artists of Arlington Arts Center and on the board of the Community Arts Council of Arlington.

LISNER AT NOON AUGUST 31, SEPTEMBER 7

Lisner at Noon, the free lunchtime series in Lisner Auditorium, will present Neil Tilkens, associate professor of music, in a concert of piano selections on Wednesday, August 31, and the GW Student Jazz Jam on September 7. Both events will begin at 12:15 p.m. and are open to the public.

ROBERT A. CHERNAK NAMED VICE PRESIDENT

(continued from front)

Institute for Corporate Education's Task Force on Adult and Continuing Education. He is a former executive director of the Massachusetts Junior College Athletic Conference.

His memberships include the American Association of College Registrars and Admissions Officers, American Association of University Administrators, National Association of Student Personnel Administrators, National Association of Collegiate Directors of Athletics and the American Marketing Association.

Now a resident of Bethesda, Maryland, he is married to the former Linda Ellen Fox and the father of one daughter.

KOREAN PUBLISHER TO SPEAK AUGUST 31

Jaedu Nam, chairman of the *Taedjon ILBO* newspaper in Seoul, Korea, will hold an informal roundtable discussion on recent business, economic and political conditions in South Korea, capital market developments and China-Korea trade relationships on Wednesday, August 31, at 2 p.m. in the Morris Room of the GW University Club.

Nam, a former Korean congressman, served on congressional committees including defense, economic affairs and interior. He was a financial economist for the Central Bank of Korea for five years.

Following his opening remarks, Nam will entertain questions. The discussion is open to members of the University community.

PERSONNEL NOTICES

RESEARCH ASSOCIATE, full-time, Intergovernmental Health Policy Project. (Individual will review, catalog, summarize and analyze state legislation and regulations pertaining to AIDS, respond to numerous information requests and represent Center at appropriate conferences and seminars. A master's degree in health care administration, economics, public policy, and/or a law degree with at least two years of health policy experience required. Candidates should have excellent research, writing and verbal skills, as well as a working familiarity with general health policy issues and problems. Prior experience in AIDS-related issues would be helpful.) Send resume to Lee Dixon, Deputy Director, Intergovernmental Health Policy Project, 2011 I Street, N.W., Suite 200, Washington, D.C. 20006. Application deadline is September 16, 1988.

RESEARCH ASSOCIATE, full-time, Intergovernmental Health Policy Project. (Individual will be responsible for producing at least two policy research papers on AIDS during the year and assisting with the Project's AIDS newsletter, responding to numerous information requests and representing the Center from time to time, at appropriate conferences and seminars.) A master's degree in health care administration, economics, or public policy, and two years of health policy experience is required. Candidate must also have excellent research, writing and verbal skills, as well as a working familiarity with general health care financing issues. Policy experience on AIDS-related issues is desirable. Prior work experience in state government, as well as some computer training or experience with statistical packages, would also be helpful.) Send resume to Lee Dixon, Deputy Director, Intergovernmental Health Policy Project, 2011 I Street, N.W., Suite 200, Washington, D.C. 20006. Application deadline is September 15, 1988.

RESEARCH ASSISTANT, full-time, Intergovernmental Health Policy Project. (Individual's principal function is to assist the Research Associates in fulfilling their primary research functions in AIDS policy. A B.A. or B.S. degree with some course work related to general health policy issues or enrollment in a master's program in public health or health administration is required. Some research experience or prior work within a state government or the federal government is helpful.) Send resume to Lee Dixon, Deputy Director, Intergovernmental Health Policy Project, 2011 I Street, N.W., Suite 200, Washington, D.C. 20006. Application deadline is September 9, 1988.

RESEARCH ASSISTANTS, two, full-time, Department of Medicine. (Duties include application of surgical, anesthesia and hemodynamic monitoring equipment; animal surgery; utilizing IBM PC/AT and data management/statistical analysis software; tissue preparation; and using biochemical assay procedures. B.S. in biological sciences required.) Send resume to Dr. J. Kramer, Department of Medicine, Room 409 Ross Hall, The George Washington University, 2300 Eye Street, N.W., Washington, D.C. 20037. (202) 994-5080.

LECTURERS/INSTRUCTORS, part-time, Department of Human Kinetics and Leisure Studies. (Individuals to teach karate, cycling, and aerobics for the 1988-89 academic year.) Please call 994-7122 or 994-6280 for further information.

RESEARCH ASSOCIATE, full-time, 12-month appointment (effective September 1, 1988), United Nations Development Program/World Tourism Organization - Training and Tourism Planning for South Asia - Fellowship Program. (Responsibilities include general coordination of training courses, research assignments, practical attachment and a study tour. Minimum of a master's degree in tourism development, planning, or administration and one year full-time professional experience in an Asian country or within the Asian region.) Send resume to Dr. Donald Hawkins, Principal Investigator, Building K, Room 305, 817 23rd Street, N.W., Washington, D.C. 20052.

POSTDOCTORAL POSITION, full-time, Department of Pharmacology. (Individual will perform unit recordings from brain noradrenergic neurons of unanesthetized, behaving rats. Studies are focused on the interactions between stress and depression on activity of noradrenergic locus coeruleus neurons. Previous experience in electrophysiology is useful.) Send resume and three references to R.J. Valentino, Department of Pharmacology, The George Washington University Medical Center, 2300 Eye Street, N.W. Washington, D.C. 20037.

POSTDOCTORAL RESEARCH ASSOCIATE, full-time, Department of Biochemistry. (Individual must have experience in liposome technology, fluorescence and photolabeling methods, protein purification, standard biomedical techniques, cell culture and a background knowledge of immunology. Will study complement protein interactions with model membranes and cells.) Send CV and names of two references to Dr. Valerie Hu, Department of Biochemistry, The George Washington University School of Medicine and Health Sciences, 2300 Eye Street, N.W., Washington, D.C. 20037.

RESEARCH ASSOCIATE, full-time, Institute for Disease Prevention. (Individual to perform research in carcinogenesis at the post-doctoral and junior/senior research assistant /associate scientist level. Will study the effects of diet manipulations on development of colon cancer in rats.) Minimum of three years of relevant laboratory experience required. Send resume and three letters of recommendation to Oliver Alabaster, M.D., Director, Institute for Disease Prevention, The George Washington University Medical Center, Suite 421, Ross Hall, Washington, D.C. 20037.

RESEARCH ASSOCIATE, part-time, Department of Anatomy. (Individual will conduct research involving mechanism of vascular and hormonal interactions in neural transplants into the brain. Requires a Ph.D. in anatomy and prior experience in the techniques of neural grafting, autoradiographic labelling of endothelial cells and immunocytochemistry at the light and electron microscopic levels.) Send resume to Dr. J.M. Rosenstein, Department of Anatomy, The George Washington University Medical Center, 2300 I Street, N.W., Washington, D.C. 20037.

ASSISTANT DIRECTOR FOR ATHLETIC ADVANCEMENT, full-time, Department of Athletics and Recreation. (Individual to coordinate and oversee the marketing, fund-raising and special events activities of the Department of Athletics and Recreation. Will work with men's and women's booster groups, marketing and promotions for athletics and recreation, ticket sales, supervising the cheerleaders and band, securing radio and television exposure for athletic teams, and special events include award dinners, golf tournaments, and other events hosted by the department.) Call Steve Bilsky at 994-6650.

The George Washington University is an equal opportunity/affirmative action employer.

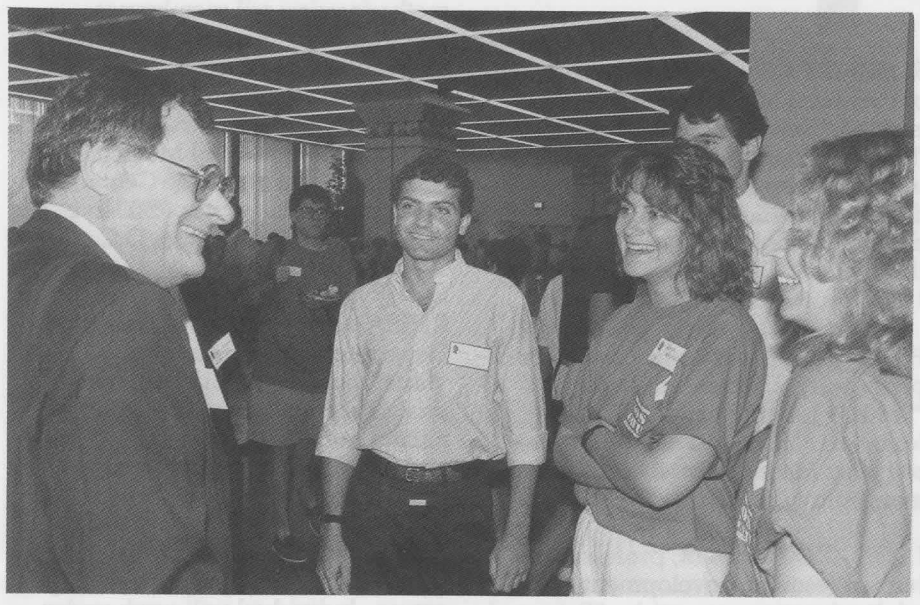
GW REPORT

September 12, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY



RECEPTION -- President Trachtenberg, left, talked with, l to r, Kamal Siblini of the Information Center, Wendy Wagowitz and Susan Roman of the Student Orientation Staff at the August 25 President's Reception, part of Orientation Week.

TRACHTENBERG SPEAKS TO FACULTY ASSEMBLY

President Stephen Joel Trachtenberg, in a speech September 7 to the Faculty Assembly, said that what we most need "is a renaissance of the value called responsibility."

"Universities never have achieved and never will achieve more than their societies assist them to achieve," he continued. "If our higher education system, the envy of the industrialized and industrializing nations, is to do all it can for our economy then those ultimately responsible for that economy — corporations, government and the American people themselves — will have to begin the process of taking their own well-being seriously." He further observed that when goals are clear, higher education will have the "compass needle required" to make it through the "stormy and dangerous seas" of the modern world.

"What we must learn today," he went on, "is how to restore to our souls their inner hopefulness, the inner sense of aspiration and the sheer love of life that ultimately guides our learning in a fruitful rather than a destructive manner." He observed that at The George Washington University, we need to see our future as a garden.

Trachtenberg enumerated as current challenges: a degree of disillusionment on the part of the American people regarding university life; the uncertainty of the long-range prospects for high enrollment; extreme stress in the area of job security; and the unfavorable United States position in international competition. He remarked that as the lesson of reduced standing and capacity "gets rubbed in over the next few years, we should be seeing to it that univeristies in general, and The George Washington University in particular, offer the smallest possible target of opportunity to those seeking scapegoats to take the blame for our national situation."

Pointing out the extent to which America's universities have indeed been responsive to perceived public needs, he noted that around the turn of the century American scholars moved to supply the graduate training required by a modern industrialized society.

In a discussion of the Western Tradition, Trachtenberg stated that its vitality "has always consisted, at least in part, of the fact that it incorporates wit, drama and subversion as much as any sort of orthodox boosterism." The tradition constitutes an enormous body of learning, he observed, noting that finding ways to do justice to this magnitude, while also giving our students an introduction to other traditions is the challenge for all universities, "led by those as independent and strategically positioned as George Washington."

Taking into account the University's geographical location, the roles of its graduates in the U.S. and other governments, in business, the arts, law , engineering, the social sciences, the humanities and the field of medicine, and the institution's local, regional, national and international perspective, Trachtenberg summed up what he sees as a positive challenge for the faculty and for himself as president —"to live up to who and what we already are." He called George Washington, "a rather new kind of university" — a school that achieves nationwide and world-class status by choosing not to imitate Oxford and Cambridge but by bringing the heritage of the human past and the present to bear on the increasingly pressing matter of the collective human future. Trachtenberg emphasized the University's responsibility to seize its present opportunity and said to the faculty, "I look forward, with real anticipation, to what you and I will now proceed to accomplish."

DIMMOCK GALLERY SHOW - LANDSCAPE TRANSFORMED

An exhibition of works by selected Washington area artists, addressing the theme of landscape imagery, can be seen in the University's Dimock Gallery through October 7.

The show includes loans from local galleries and artists and works from local historical collections such as the Kiplinger Washington Collection and the University's permanent collection. Paintings, drawings, watercolors, and prints are shown.

Contemporary pieces, chosen by Dimock Gallery Curator Lenore Miller, were selected for their format, media and innovative use of imagery. The historical portion of the exhibition, chosen by Assistant Curator Myra Merritt, surveys the landscape tradition in Washington, D.C., from about 1800 to 1930.

Gallery hours are 10 a.m. to 5 p.m. Tuesday through Friday; noon to 5 p.m., Saturday; closed Sunday and Monday.

BRAZILIAN LANDSCAPE ARCHITECT TO LECTURE

Roberto Burle Marx, noted Brazilian landscape architect, and botanist will give an illustrated lecture at 7:30 p.m. on Tuesday, September 13, in the Marvin Theatre.

The lecture is being given in conjunction with an exhibition of works by Burle Marx in Marvin Center's Colonnade Gallery which will run through September 23.

At 79, Burle Marx is one of the world's foremost landscape designers, best known for his dynamic design of the sidewalks and streets along Copacabana and Impanema beaches in his native Brazil. In the United States, he is recognized for the UNESCO gardens in Washington, D.C. Since entering the field of landscape design in 1934, he has completed nearly 2,000 landscape projects. He is a painter turned landscape architect who has been working on canvas, in sculpture and with gardens, streets and public places for five decades.

Burle Marx has received awards from the American Society of Landscape Architects, the American Institute of Architects, the National School of Fine Arts in London.

The lecture and exhibit are jointly sponsored by the Landscape Design Program at the University, the U.S. Botanic Garden and several landscape and horticultural societies. For tickets and more information, call Frances Lombard at 45758.

COLONIAL CLUB CRUISE IS SATURDAY, OCTOBER 1

The Colonial Club of The George Wasington University is sponsoring its annual "Meet the Coaches" Potomac River cruise on Saturday, October 1, aboard the Spirit of Washington.

The 7 to 10 p.m. cruise will be preceded by a 6:30 p.m. cocktail party on board "The Spirit"; the cruiser will depart Pier 4 at 6th and Water Streets, S.W. The evening includes dinner, a musical show and dancing. Tickets for the event, which recognizes the men's athletic coaches, are $30. To make reservations, call Ed McKee, executive director of the Colonial Club at 45778.

U.S. SAVINGS BONDS CAMPAIGN IN SEPTEMBER

The University is sponsoring a United States Savings Bond campaign through the Payroll Savings Plan during the period Monday, September 19, thorugh Friday, September 30. Savings bonds feature a market-based interest rate that is seen as highly competitive with other savings and investment vehicles which should make the purchase of savings bonds attractive to University faculty and staff members.

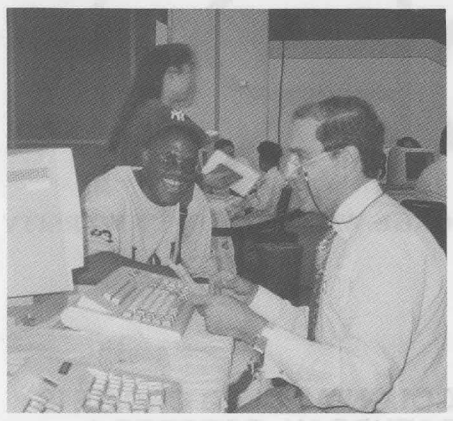
Members of the University community will receive literature, prior to September 19, with details on the current savings bond offering through the Payroll Savings Plan. To provide additional information and assistance, a representative from the U.S. Treasury and staff members from the Records and Benefits Division of Personnel Services will be on campus on two different days in two different locations -- Monday, September 19, in Marvin Center, Room 410, from 10 a.m. to 2 p.m. and Thursday, September 22, from 1 to 4 p.m. in the Hospital Auditorium.

A video presentation will be shown at both locations.

STOP SMOKING WORKSHOP OFFERED

The Wellness Resource Center and The George Washington Medical Center are offering a free Stop Smoking Workshop for all faculty, students, staff and the general public beginning on Wednesday, September 14.

Based on the Freedom from Smoking program of the American Lung Association, the workshop will be conducted by trained facilitators. Pre-registration is required for the sessions to be held every Wednesday from 5:30 to 7 p.m. To register, or for more information, call the Wellness Resource Center at 46927 or Kathy Hale in Hospital Administration, 42500.



REGISTRATION -- Rick Bradley, left, Columbian College senior majoring in mathematics, had help in registering from J. Matthew Gaglione, university registrar.

CHERNAK TO BE CLUB BREAKFAST SPEAKER

Robert A. Chernak, vice president for student and academic support services, will speak on "The Future of GWU" at a breakfast in The George Wasington University Club Thursday, September 15. Reservations for the 8 a.m. event may be made by calling 46110.

BRIEFLY...

THE FACULTY/EMPLOYEE ASSISTANCE PROGRAM, a confidential counseling service for all University employees, has moved to Building II, 3306 Eye Street, N.W., Room 204. The telephone number is 994-1417.

A new TDD number has been installed by the Equal Employment Activities Office to enhance its services to hearing impaired employees. The new phone number is 994-0243.

LISNER AT NOON will present pianist Tom Mastroianni in a free concert Wednesday, September 14, at 12:15 p.m. Bring your lunch if you like.

PROFESSIONAL ACTIVITIES

APOSTOLOS K. KAKAES, assistant professor of engineering and applied science, presented a paper, "Topology and Capacity of Multi-Hop Packet Radio Networks," at the 1988 IEEE International Symposium on Information Theory, held in Kobe, Japan, June 19 through 24.

ALI BULENT CAMBEL, professor emeritus of engineering and applied science, and CHARLES M. GILMORE, professor of engineering and applied science, both of the Department of Civil, Mechanical, and Environmental Engineering, participated in the conference on the Commercial Applicaiton of Superconductivity, held at the Gottlieb Duttweiler Institut in Zurich, Switzerland, May 26-27, 1988. Gilmore presented a paper, entitled "Material Science in Review: Challenges in Thin Films and Bulk Material." Cambel's paper was entitled "The Future of Electric Utilities: Energy Distribution without Loss." Cambel was also a member of an international panel that discussed "Key Issues for R&D Policy in Superconductivity."

JOSEPH L. GASTWIRTH, professor of statistics and economics, presented an invited paper, "Estimation of the Prevalence of a Rare Disease Preserving Anonymity of Respondents: Application to Testing for Exposure to the AIDS(SHIV) Virus," at the Western Regional Meeting of the Institute of Mathematical Statistics. During the Spring Semester, he was invited to speak on this topic at a colloquium of the Harvard Statistics Department.

NADINE NATOV, professor of Russian, participated in a Dostoevsky conference May 25 through 30 in Staraya Russa, the city where Dostoevsky lived for the last 10 years of his life and where he wrote *The Brothers Karamozov.* Professor Natov and three American colleagues were the first U.S. scholars to participate in this particular conference and the first to be admitted to Staraya Russa, a city usually closed to foreigners. Natov presented a paper at a plenary meeting on the activities of the North American and International Dostoevsky Societies and on the state of scholarly work on Dostoevsky in the United States. She also chaired a session at the conference and participated in round table discussion on "Dostoevsky in Our Time." In June, she spent two weeks in Leningrad and Moscow participating in an academic exchange program between the Moscow Institute of World Literature and the Washington area universities.

L. THOMPSON BOWLES, professor of surgery, was among 40 new members recently elected to the Institute of Medicine. The institute was chartered in 1970 by the National Academy of Sciences to enlist distinguished members of the medical and other professions for the examination of policy matters pertaining to the health of the public.

LOIS G. SCHWOERER, professor of history, chaired a session at the Anglo-American Conference of Historians' annual meeting in London this past July and attended the opening of the official exhibit at the Banqueting House commerating the trichentenary of the Glorious Revolution. She was present at the presentation of loyal addresses to Queen Elizabeth II by the Lord Chancellor and the Speaker of the House of Commons, also in honor of the three hundredth anniversary of the Glorious Revolution. In August, Professor Schwoerer presented a paper, "John Locke and the Glorious Revolution" at the annual meeting of the Pacific Coast Branch of the American Historical Association in San Francisco.

RAYMOND I. PICKHOLTZ, professor of engineering and applied science, was invited to present a seminar at the University of Ottawa on June 29. The topic was "Data Protection and Authentication in Networks."

STEPHEN G. HAMBURGER, supervisor of design, Physical Plant Department, has been certified by the Construction Specifications Institute (CSI) as a certified construction specifier (CCS). This certification is recognition of experience in preparation of project manuals and of having passed a written proficiency examination. The current pass rate on the examination is 28 percent.

JEANNE SNODGRASS, professor of human kinetics and leisure studies, served on the 1988 Blue Ribbon Advisory Panel and made brief remarks at the ceremony for The Director's Awards for Outstanding Health and Fitness, U.S. Office of Personnel Management, held June 24, in the Indian Treaty Room of the Old Executive Office Building.

PUBLICATIONS

R. EMMET KENNEDY, JR., professor of European history, an article entitled "Neues und Altes in der 'Massenliteratur''der Revolutionszeit" in *Die Franzosische Revolution als Bruch des gesellschaftlichen Bewustseins,* edited by Reinhart Koselleck et al., (Munich: R. Oldenbourg Verlag, 1988), pp. 305-310.

PETER CAWS, university professor of philosophy, an essay entitled, "Sartre's Last Philosophical Manifesto," in *Philosophy and Non-Philosophy Since Merleau-Ponty,* Hugh Silverman, editor, Routledge, 1988.

LEONARD NADLER, professor of human resource development and adult education, an article, "Future of HRD" in the *STADA Annual 1988,* published by the Singapore Training and Development Institute.

STEPHEN C. SMITH, associate professor of economics and MENG-HUA YE, assistant professor of economics, a paper, "Dynamic Allocation in a Labor-Managed Firm, in *Journal of Comparative Economics,* (June 1988).

ROBERT H. WALKER, professor of American Civilization, a book entitled, "*Cincinnati and the Big Red Machine.*" (Indiana: Indiana University Press, 1988).

JAMES WILLIS ROBB, professor emeritus of Romance languages, an article, "*Variedades de ensayismo en Germán Arciniegas,*" in J.G. Cobo Borda, *Arciniegas de cuerpo entero,* Bogotá: Planeta, 1987, pp. 172-182.

INES AZAR associate professor of Spanish, an article entitled, "The Archaeology of Fiction in *Don Quixote,* in *Cervantes, Bulletin of the Cervantes Society of America,* Special Issue (Winter, 1988), pp. 117-126.

PERSONNEL NOTICES

RESEARCH ASSOCIATE/RADIATION COMPUTER SYSTEMS ANALYST, full-time, Radiologic Sciences and Technology. (Individual to be responsible for computer technology, both hardware and software, and problem-oriented projects essential to day-to-day clinical treatment as well as ongoing and future clinical, physical and biological research. Will also be responsible for a continual monitoring and analysis of the needs for computerized support, both in hardware and software, in regard to the activities of the Radiation Oncology Branch, including the requirements of clinical, scientific and research applications, which generally are interfaced with other branches of the NCI or other Institutes at the NIH. A master's degree is required, in addition to a depth of knowledge in this speciality area. Send resume to Geri Rosen, Grants Manager, Radiologic Sciences and Technology, The George Washington University, 2300 Eye Street, N.W., Washington, D.C. 20037.

RESEARCH ASSISTANT, part-time (25-30 hrs./week), Division of Experimental Medicine, Department of Medicine. (Individual must have M.S. in biological sciences and one/two years experience in biochemical methods using cell membranes, spectrophotometry, centrifugation, enzymology, lipid extraction, HPLC and related techniques required). Send resume to Dr. W.B. Weglicki, Division of Experimental Medicine, Room 409 Ross Hall, The George Washington University, 2300 Eye Street, N.W., Washington, D.C. 20037. (202) 994-5080.

RESEARCH ASSISTANT, full-time, Department of Pharmacology. (Individual must be familiar with drug analysis on biological specimens of animal human origins using HPLC and other techniques. Able to perform protein binding assays, assist in laboratory procedures with experimental animals, and calculate pharmacokinetic data using computer programs. Individual will work under minimal supervision. A BA./B.S. in chemistry or biology is requested.) Send resume to Dr. James A. Straw, Department of Pharmacology, The George Washington University, 2300 Eye Street, N.W., Washington, D.C. 20037.

ASSISTANT COMPTROLLER, full-time, George Washington University general accounting. (Individual will oversee all activities relating to general accounting operations — a general, cash, trust fund, cost allocation, and fixed asset accounting — including financial statement preparation and tax reporting. A minimum of eight years of progessively responsible accounting and management experience with large automated financial operations required. Experience in a non-profit or University environment is desirable. A C.P.A certificate or an M.B.A is preferred.) Send resume to Emily Carnes, Academic Center, Room T-701, 801 22nd Street, N.W. Washington, D.C. 20052.

CARDIOVASCULAR RESEARCH ASSISTANT, full-time, Cardiology Division, Department of Medicine. (Individual will supervise clinical cardiology trials and perform data analysis. A B.S. is required and previous reseach experience and familiarity with computers preferred.) Contact Judith Hsia, M.D., Cardiology Division, ext. 4-5461.

The George Washington University is an equal opportunity/affirmative action employer

***Correction** -- In the GW Report of August 26, Vice President for Student and Academic Support Services Robert A. Chernak was wrongly identified as vice president for student and alumni support services. GW Report regrets the error.*

CHERNAK BREAKFAST TALK WIDE-RANGING

Robert A. Chernak, Vice President for Student and Academic Support Services, threw away his prepared speech and touched on a wide variety of subjects at the September 15 George Washington University Club breakfast.

Chernak, who joined the University on August 1, said he considers George Washington "one of this nation's great institutions."

Based on his experience elsewhere, he said he has discovered that large institutions can sometimes be somewhat bureaucratic and impersonal. "If there is one theme I'd like to stress," Chernak commented, "it is that we have to be much more conscientious of the kinds of courtesies we pay to each other and that we pay to students." There is no reason, he pointed out, for George Washington, "despite its vastness," not to be a personal institution. One of the ways that happens is to develop a management style and a management team committed to what he called "participatative management." Chernak observed that we are an educational institution with room for debate, dissent and differing opinions.

Among some of the processes to be implemented at the University will be the formation of a budget advisory team Chernak said, that will include vice presidents, faculty, staff and students. The team will begin its deliberations in the next two months to develop a process for beginning to plan the fiscal year '90-'91 budget. The meetings are expected to last through next March or April. Minutes of the meetings in the form of executive summaries, will be distributed and will be on file in Gelman Library. There will be town meetings, at least one each semester, so that "any interested citizen on this campus can discuss points of concern with the budget advisory team. Eventually the team will forward a set of recommendations to the president to help him formulate his decisions "about which direction the University is going to go."

Chernak cited this process as one example of participative management designed to "reach out and get various segments of this community involved in a feeling of pride and authorship about the institution." He said the same concept holds true for enrollment management planning, taking into account all the factors that relate to student enrollment, including such factors as priorities for housing , financial aid and consistency with financial and budgeting objectives. Chernak said there is a need for "congruency" between planning at all levels. "Once we get to some congruency, getting the gears of this vast machinery working together, I think you'll find that people have a better feeling about the place and will feel more a part of the decision-making process," Chernak predicted.

Speaking of athletics, Chernak stated that recent changes consolidating the men's and women's athletic programs are "in no way meant to imply that the way George Washington was conducting business in athletics was wrong, but it was unusual." He noted that only three institutions within the National Collegiate Association had separate departments of men's and women's athletics. Since the conference to which George Washington belongs, Atlantic 10, has competition in all of its sports for men and women, Chernak said,"it made more sense, to start to integrate the two departments so that there is a single philosophy in the way we conduct affairs." Stating that he, personally, does not accept the principle that mediocrity is O.K. in athletics, Chernak declared, "It's important to win." He pointed out that "all the literature that has ever been written" suggests that winning athletic programs not only increase the number of applications but also increase the quality of the student body because "people want to be associated with success."

A posture in athletics that meets the needs of all of our students, faculty and staff, along with an athletic program on the intercollegiate level, for both men and women, that cultivates "the habit of winning" is going to be developed, Chernak said.

BREAKFAST — Sheila McIntyre, director of the Publication Specialist Program in CCEW, left, talked with Vice President for Student and Academic Support Services Robert A. Chernak following his September 15 talk at the George Washington University Club as Sheila Hoben, academic coordinator, Department of Athletics and Recreation, looked on.

THIS WEEK WITH DAVID BRINKLEY on ABC September 11 featured , l to r, John M. Logsdon, professor of political science and international affairs; Rear Admiral Richard H.Truly, USN, NASA Associate Administrator for Space Flight; Senator William Proxmire (D-Wis); and Robert Hotz, member of the Challenger Commission.

SUSAN KAPLAN NAMED ASSISTANT TO THE PRESIDENT

Susan B. Kaplan has been named assistant to President Trachtenberg.

In the post of assistant to the president, Kaplan will exercise overall supervision in the areas of Equal Employment Activities and the Faculty/Employee Assistance Program. She will be working with various University constituencies and taking on assignments concerned with procedural matters and policy reappraisal or formulation. She will also be involved with the Inauguration Committee and will carry out other duties as assigned by the president.

An attorney admitted to practice before the bar of the District of Columbia and the United States Supreme Court, Kaplan received a J.D. degree from The Catholic University of America School of Law in 1980. Her undergraduate degree is from Boston University where she was graduated cum laude with honors in political science.

Kaplan joined the University on September 1. From May ,1978, through this past August, she was with Morgan Associates, Chartered, of Washington, D.C., first as a law clerk and then as an associate. Her legal experience includes work in litigation at administrative, state, and federal trial and appellate court levels in the areas of discrimination in employment, nuclear power, constitutional rights, government failure to enforce anti-discrimination laws, discrimination in higher education, regulation of pesticides, and conflicts of interest in federal regulation.

From 1975 to 1977, she was a research associate at the Center for National Security Studies (CNSS). She served as co-editor of *Documents*, a collection of memoranda, letters and telexes drawn from the files of the FBI and CIA, with accompanying text (Penguin: 1980); prepared a chapter and participated in the editing and production of *The Lawless State* (Penguin: 1976); as well as in the writing, editing and publication of *The Abuses of the Intelligence Agencies* (CNSS: 1975). She also researched the history and development of the FBI's domestic activities and assisted attorneys involved in litigation on behalf of targets of surveillance. At the center, she was responsible for recruitment, placement and general supervision of interns working with CNSS projects.

Kaplan has worked as a Congressional intern in the office of Congresswoman Cardiss Collins (D-Ill) and as a Massachusetts State House intern in the office of State Senator William Saltonstall.

NEW FULL-TIME, NON-MEDICAL FACULTY THIS FALL

Joining the University as full-time non-medical faculty as of September 1, were the following:

HUGH LECAINE AGNEW, Assistant Professor of History and International Affairs

ALI A. ALANI, Assistant Research Professor of Biological Sciences

MOHAMMAD ANJUM, Visiting Assistant Professor of Mechanical Engineering

NURAY METIN AYKIN, Associate Professor of Engineering Administration

HOWARD J. BEALES, III, Assistant Professor of Business Administration

FAYE Z. BELGRAVE, Assistant Professor of Psychology

GIORGIO V. BORGIOTTI, Professor of Engineering and Applied Science

I. GLENN BOTTOMS, Visiting Assistant Professor of Engineering Administration

Continued on back

KATHLEEN JOAN BRAGDON, Visiting Assistant Professor of Anthropology

BARRY EASTBURN BRETSCHNEIDER, Visiting Professor of Law

GEORGE R. BRIER, Adjunct Associate Professor of Engineering

YVONNE CAPTAIN-HIDALGO, Assistant Professor of Spanish

YAOBIN CHEN, Visiting Assistant Professor of Engineering and Applied Science

HYEONG-AH CHOI, Visiting Assistant Professor of Engineering and Applied Science

SHARMAN WORD DENNIS, Visisting Instructor in Special Education

NANCY M. DIXON, Associate Professor of Human Resource Development

RICHARD GARY EPSTEIN, Assistant Professor of Statistics

FREDRIC DANIEL FORNEY, JR., Assistant Professor of Naval Science

JACK H. FRIEDENTHAL, Professor of Law and Dean of The National Law Center

SUSAN GALLOWAY GOLDBERG, Visiting Assistant Professor of Business Administration

SUZANNE POORE GRANT, Visiting Instructor in English as a Foreign Language

CARL F. GUDENIUS, Assistant Professor of Theatre and Dance

HELMUT HABERZETTL, Assistant Professor of Physics

ALAM E. HAMMAD, Visiting Professor of Business Administration

SALAH S. HASSAN, Assistant Professor of Business Administration

REFAEL HASSIN, Distinguished Visiting Professor of Engineering and Applied Science

KEVIN G. HOCKETT, Assistant Professor of Mathematics

MARY L. JASNOSKI, Assistant Professor of Psychology

FREDERICK L. JOUTZ, Assistant Professor of Economics

JOHN WILLIAM KEATING, Assistant Professor of Economics

MARY KEELER, Assistant Professor of Communication

TAEKO KIMURA, Instructor in Japanese

GORDON BRUCE LEIGHTON, Visiting Assistant Professor of English

LEO D. LEONARD, Professor of Education, and Dean, School of Education and Human Development

MARTIN W. LEWIS, Assistant Professor of Geography and Regional Science

RAINALD LOHNER, Associate Professor of Engineering and Applied Science

THOMAS ANTON MAUET, Visiting Howrey Professor of Trial Advocacy

LINDA HANRAHAN MAURO, Assistant Professor of Secondary Education

MICHAEL OWEN MOORE, Assistant Professor of Economics and International Affairs

FAYE STOLLMAN MOSKOWITZ, VIsiting Assistant Professor of English

GEORGE MUNDSTOCK, Visiting Associate Professor of Law

BOBBY JACK NELSON, Jenny McKean Moore Writer-in-Residence

THOMAS J. OLDHAM, Visiting Professor of Law

NICHOLAS B. PALEY, Assistant Professor of Elementary Education

JOSE A. QUIROGA, Assistant Professor of Spanish

MICHAEL PATRICK RALPH, Assistant Professor of Naval Science

WILLIAM E. SEALE, Distinguished visiting Professor of Financial Markets

DIANA L. SEDNEY, Visiting Assistant Professor of Chemistry

DAVID A. SONENSHEIN, Visiting Lyle T. Alverson Professor of Law

JOHN ANDREW SPANOGLE, JR., Visiting Lobingier Professor of Comparative Law and Jurisprudence

CLAIRE B. SPONSLER, Assistant Professor of English

RICHARD BRIGGS STOTT, Assistant Professor of History

CHRISTINE ELIZABETH STRYKER, Visiting Instructor in English as a Foreign Language

STEVE M. SURANOVIC, Assistant Professor of Economics

BLAZA TOMAN, Assistant Professor of Statistics

STEPHEN JOEL TRACHTENBERG, Professor of Public Administration and President of The University

FERENC VAJDA, Distinguished Visiting Professor of Engineering and Applied Science

ROBERTO VALERO, Assistant Professor of Spanish

LEOPOLD S. VANSINA, Visiting Professor of Management Science

DONALD EUGENE VERMEER, Professor of Geography and Regional Science and Chair, Department of Geography and Regional Science

DALE FREDERICK VOELKER, Visiting Assistant Professor of Music

RONALD WEITZER, Assistant Professor of Sociology

SUSAN LOUISE WILEY, Assistant Professor of Political Science

FRED C. ZACHARIAS, Visiting Associate Professor of Law

PROFESSIONAL ACTIVITIES

JONATHAN CHAVES, associate professor of Chinese, gave a lecture to the Luce Scholars at Princeton University, August 23, on "Poetry, Painting, Calligraphy: The Scholarly Arts of East Asia." This marked the tenth year he has been invited to address the Luce Scholars.

PHILLIP D. GRUB, Aryamehr Profesor of Multinational Management, was the luncheon speaker at the Inland Northwest World Trade Council Conference in Spokane, Washington, August 10. The topic of his speech was "Pacific Rim Update: Implications for U.S. Manufactuerers."

DORN C. McGRATH, JR., professor of urban and regional planning , gave a lecture in the 1988 National Transportation Colloquium Series at the Transportation Systems Center in Cambridge, Massachusetts, on August 11. His topic was "Community Development Constraints on Airport Landside Capacity."

MARGARET K. O'BRYON, assistant professorial lecturer in urban and regional planning, participated in a special workshop on developing a strategy for meeting the needs of the homeless in the District of Columbia. The meeting, held on August 25, was conducted by McKinsey & Company for the D.C. Homeless Coordinating Council, which is chaired by Board of Trustees Chairman Oliver T. Carr, Jr.

MARY LOUISE ORTENZO, director, mathematics/science program and TERRY L. HUFFORD, associate professor of botany , were invited to present a seminar at The International Council of Associations for Science Education World Conference held in Canberra, Australia July 3-8. The topic was "Innovative Approaches to Improving the Quality and Effectiveness of Science Teachers."

AUTHOR Elinor Harris Solomon, adjunct professor of economics, left, talked with National Law Center Dean Jack H. Friedenthal, center, and University Professor Marcus F. Cunliffe at the September 15 reception in honor of faculty authors which marked the opening of Gelman Library's exhibition, "Scholarly Vitality: Research and Creativity at GWU." Solomon is the editor of the book ***Electronic Funds Transfers and Payments: The Public Policy Issues****, one of some 200 1987 faculty publications submitted for the exhibition, which runs through October 14.*

BRIEFLY...

Correction —The New Year's Holiday will be Friday, December 30, and Monday, January 2. This is a change from the previously announced dates of December 29 and 30.

NLC Dean Jack H. Friedenthal will speak to members of the D.C. Chapter of the GW Law Alumni Association on Thursday, September 29, at a noon luncheon in the George Washington University Club. For more information and reservations, call 46420.

Lisner at Noon will present Marshall Key's Quartet from the Capital City Jazz Festival on Wednesday, September 28, at 12:15 p.m. Admission is free.

Vocal Auditions for opera and musical theatre, for both lead and choral roles, will be held Monday, October 3, from 6:00 to 10:00 p. m. the Marvin Theatre. (Performances will be March 3 and 5, 1989.) Call the Department of Music, 46245, to reserve an audition time.

PERSONNEL NOTICES

RESEARCH ASSOCIATE, full-time, Department of Medicine, Lipid Research Laboratory. (Individual must have strong background in lipid biochemistry, preferably with a Ph.D. degree. Experience in the field of Carotenoid/Retinoids is desirable. Proficiency in enzymology, small animal surgery, gel electrophoresis and HPLC techniques will be preferred. Position available immediately.) Contact Dr. Raj Lakshman, Lipid Reseach Laboratory, V.A. Medical Center, 50 Irving Street, N.W., Washington, D.C. 20422, (202) 745-8330.

RESEARCH ASSISTANT, full-time, Department of Medicine. (Individual will administer research projects for the Division of Cardiology. A bachelor's degree is required in addition to a familiarity with PC spreadsheets, personnel policies, medical practice and research programs.) Send resume to Shelly Winston, The George Washington University Medical Center, The H.B. Burns Memorial Building, 2150 Pennsylvania Avenue, N.W., Washington, D.C. 20037

The George Washington University is an equal opportunity/affirmative action employer.

GW REPORT

October 3, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

ACE FELLOW JOINS THE UNIVERSITY

Demetrios S. Giannaros, 1988-89 American Council on Education (ACE) Fellow, is serving a year-long internship in residence at The George Washington University. Giannaros is on leave for the internship from the Barney School of Business and Public Administration at the University of Hartford.

The prestigious ACE Fellowship program, now in its 23rd year, is designed to identify and train faculty and staff members who have demonstrated the potential to become effective administrators and leaders in higher education. Fellows are selected through a national competition for the one-year internship; and work closely with presidents and senior administrators who serve as mentors. From the program's 872 fellows have come 110 college and university presidents and some 450 deans and vice presidents.

Giannaros, who serves as associate professor of economics and director of the Executive Master of Public Administration Program at the University of Hartford, will work directly with President Trachtenberg, Vice President for Academic Affairs Roderick S. French and Vice President for Student and Academic Support Services Robert A. Chernak.

During the internship, Giannaros will be observing and carrying out special research on institutional structure and decision-making, budget development, long-range planning, admissions and financial aid, faculty development and accreditation of professional schools. He also has a special interest in the impact of federal and national agencies on private higher education.

He has done extensive research on the federal deficit and deficit spending and was the recipient of three Coffin Grants from the University of Hartford for his work in this area.

His research reports on international economic issues, which include the budget deficit, investment and capital market economy, treasury bill rate forecasting, inflation and interest rates, international banking, world debt and foreign trade, have been widely published. His articles have appeared in scholarly publications such as the *Journal of Economic Development*, the *Eastern Economic Journal*, the *Journal of Macroeconomics*, and the *Atlantic Economic Journal*.

Giannaros has been a faculty member at the University of Hartford since 1980. Prior to that, he was a senior teaching fellow at Boston University and assistant professor of economics at Suffolk University.

An active member of the faculty senate at Hartford for the past five years, he became a member of the group's executive board in 1987. He also served on the president's Budget Advisory Board and is a member of numerous Hartford University administrative committees.

Giannaros is active in professional societies, including the American Economics Association, the International Economics Association and World Affairs Center/ World Forum. He also is involved in civic and community service, having served as president of the Helicon Society and trustee of the Maliotis Cultural Center of Hellenic College.

He earned the B.A .degree in economics from the University of Massachusetts, an M.A. in development economics, an M.A. in political economy and the Ph.D. in economics at Boston University.

TRACHTENBERGS TO BE HONORED BY GW CLUB

President and Mrs. Stephen Joel Trachtenberg will be honored at a welcoming tea on Thursday, October 6, from 4 to 6 p.m. in The George Washington University Club. Everyone in the University community is invited to attend.

SENATOR ARLEN SPECTER (R-Pa) right, talked with Columbian College junior Tina Mazaheri, a former intern in his office, before the September 27 program, "Who Will Win in '88?" when he debated the question with Senator Dale Bumpers (D-Ar). The Program in the Marvin Theatre was sponsored by the GWU College Democrats and the Program Board.

PRESIDENTIAL MERIT FELLOWSHIPS CREATED

Six new Presidential Merit Fellowships for graduate student support at the doctoral level have been established at the University, Vice President for Academic Affairs Roderick S. French has announced.

Each fellowship will carry a $14,000 stipend and 18 hours of tuition. In the initial stage of the program, two of the fellowships will be assigned to the Graduate School of Arts and Sciences for use in the Genetics Program and by one of the natural sciences departments; two will go to the School of Engineering and Applied Science for students in the areas of computer graphics and reliability studies; and two to the basic medical sciences departments of the School of Medicine and Health Sciences.

The fellowships will come from some endowed funds which were identified as applicable to this purpose during the preparation of an exhaustive analysis of graduate student support across the campus. The analysis, prepared by Assistant Vice President for Academic Affairs Anthony G. Coates and several colleagues, brought together information on support derived from endowed funds, from research contracts and from the University's annual operating budget. 1986 was taken as the year for this study, which will be available to anyone who is interested after the October meeting of the Council of Deans.

In announcing the creation of the fellowships, at the fall meeting of the Faculty Assembly, French commented, "Although far from inconsequential in themselves, these fellowships also may be taken as a symbol of where we are going." He noted that "this investment of our resources does two things simultaneously, . . . strengthens our research capacity and enhances the quality of our graduate programs."

JAROL MANHEIM IS FIRST WEDNESDAY LECTURER

"Public Relations of Foreign Nations: Images in the News" will be the topic addressed by Jarol B. Manheim, professor of political communications and political science and director of the program in political communications, in fall's opening First Wednesday Lecture on October 5.

Manheim will speak in the Continental Room of the Marvin Center at 8 p.m. The lecture, sponsored by the Alumni Relations Office, is open without charge., Those planning to attend are asked to call 45435 to reserve seating. Dinner, for both members and nonmembers of the George Washington University Club, will be served beforehand, beginning at 6:30 p.m. Call 46610 for dinner reservations.

AUTHOR, John W. Kendrick, professor emeritus of economics, right , was congratulated on the publication of his book ***Personal Productivity*** *by a former student, Stephen A. Hoenack, now professor of public affairs at the University of Minnesota, on loan to the World Bank as a senior economist in the Latin American Technical Department, left, as Professor and Chairman of the Economics Department Bryan Boulier looked on at a recent booksigning in the University Bookstore.*

BRIEFLY ...

Lisner at Noon will present violinist Stephen Jenkins in a concert on Wednesday, October 5, at 12:15 p.m. He will perform music of Mozart, White, Wieniawski, Rachmaninoff, Paganini, and Thad Jones. Admission to the Lisner Auditorium event is free. Bring your lunch if you like.

Tracing our Heritage, an excursion to Richmond, Virginia, sponsored by the Alumni Relations Office, is set for Saturday, October 29. The tour will include the State Capitol; St. John's Church, site of Patrick Henry's famous "Liberty or Death" speech; the Wickham-Valentine House and Museum ; and several newly restored areas of Richmond. For further information and reservations, call the Alumni Relations Office, 46435. Reservation deadline is Tuesday, October 11.

PROFESSIONAL ACTIVITIES

PETER CAWS, university professor of philosophy, presented a paper "May 1968: Twenty Years Later" at the Eighteenth World Congress of Philosophy in Brighton, England, on August 23. He also gave a paper on "Posthumous Anachronisms in the Work of Sartre" at the meetings of the Internaional Society for Value inquiry at the University of Sussex on August 24. "Posthumous Anachronisms in the Work of Sartre" was published in Sander Lee, ed., *Inquiries into Values*, Lewiston (New York: The Edwin Mellen Press, 1988) pp. 363-373.

R. PAUL CHURCHILL, associate professor of philosophy, presented a paper entitled, "Non-violent Resistance as the Moral Equivalent of War," at the Fourth International Conference on Social Philosophy held at Somerville College, Oxford University, August 23-26.

STEPHEN S. FULLER, professor of urban and regional planning, organized and hosted the second annual conference on Educating Planners for the 21st Century at Airlie House, September 15-18. Twenty-three planning professors representing twenty-one different universities participated in the conference which had as its dual themes: planning research and planning pedagogy. The discussions produced a wide range of proposals relating to undergraduate and doctoral education, an agenda for basic and applied research, and teaching techniques and curricula for professional education. These proposals will be presented at the 1988 Association of Collegiate Schools of Planning Conference in October.

JOSEPH L. GASTWIRTH, professor of statistics and economics, presented an invited paper, "Timing Considerations in the Analysis of Data in Equal Employment Litigation" at the Annual Meeting of the American Statistical Association in New Orleans, August 22-25. He was the discussant for the session "Statistical Methods in AIDS Research." His co-authors, Professors P.K. Batacharya and W.O. Johnson, presented their joint research: "Estimation of the Odds-Ratio in an Observational Study Using Bandwidth Matching" and "A Bayesian Evaluation of Medical Screening Tests for Rare Diseases."

MURLI M. GUPTA, associate professor of mathematics, presented a paper, "Spectrum Enveloping Techniques for Divergent Iterations" at the 1988 Summer Meeting of Society for Industrial and Applied Mathematics in Minneapolis, Minnesota, July 10-15. Gupta was also an academic visitor at the Institute for Computational Mechanics in Propulsion at NASA Lewis Research Center, Cleveland, Ohio, from July 25 to August 19 at which time he participated in an ICOMP workshop on large gradients. On August 17 he gave a talk, "A Fourth Order Finite Difference Scheme for Viscous Flow Problems" in the Internal Fluid Mechanics Division of NASA Lewis Research Center.

ALF HILTEBEITEL, professor of religion, has reviewed a two-part video edited by GWTV, "Lady of Gingee: South Indian Draupadi Festivals," Parts 1 and 2. The film had its first showing July 9 and will be shown at four academic conferences this year. Hiltebeitel has also been consulting on the television production of the Peter Brook dramatization of "The Mahabbharata." Hiltebeitel recently chaired the Program Committee of the Association of Asian Studies in preparation of the association's annual meeting next March in Washington.

ALI M. KIPER, professor of engineering, presented a co-authored paper "Exploratory Study of Temperature Oscillations Related to Transient Operation of a Capillary Pumped Loop Heat Pipe" in the 1988 National Heat Transfer Conference held in Houston, Texas July 24-27. The paper has been published in ASME Proceedings of the conference.

PETER F. KLAREN, professor of history and international affairs, a paper, "The Latin American Image in the American Mind: A Stereographic View of the Caribbean in the Age of American Expansionism" at a workshop at UCLA on "Nineteenth Century Images of Latin America in Graphic & Statistical Views," August 19 and 20. The workshop was the first phase of NEH sponsored UCLA project to mount a major public exhibit, including a lecture series and accompanying illustrated scholarly book on the subject. Klaren also lectured during the summer on Latin American development at the Foreign Service Institute of the State Department.

HUBERT W. LILLIEFORS, professor of statistics, presented a paper, "The Chi Square Goodness of Fit Test Revisited" at the Annual Meeting of the American Statistical Association in New Orleans, August 22-25.

MICHAEL LOEWY, assistant professor of economics, a paper, "Reagonomics and Reputation Revisited," in *Economic Inquiry*, April 1988.

RICHARD LONGSTRETH, associate professor of architectural history, gave a paper, "The Value of Things not Very Old," at the annual conference of The Committee on University and Post University Training, International Council of Monuments and Sites, in Edinburg, June 23.

CHRISTINE MELONI, assistant professor of English as a foreign language, presented two papers at the Second International Conference on Teaching English to Speakers of Other Languages held in Jerusalem, Israel, July 17-20. Papers were entitled, "Developing Technical Writing Courses for EFL Students" and "Expressing Personal Concerns in Dialogue Journals."

SONYA QUITSLUND, assistant professor of English, presented a paper, "Women: Partners in the Church?" at A Theological Conference on the Local Church at Fordham University in New York, September 17.

PUBLICATIONS

DAVID S. BROWN, professor emeritus of management, articles, "How to Make Quality Decisions," in *Topic*, published by the U.S. Information Agency in both English and French, October 1987; "Let's Not Over-Invent," in the *Bureaucrat* , (Winter 1987); "Management's Biggest Enemy in Non-Performance," in *Journal of Systems Analysis*, (March 1988); and "The Group of One" in *Management Quaterly* (Winter 1987-88).

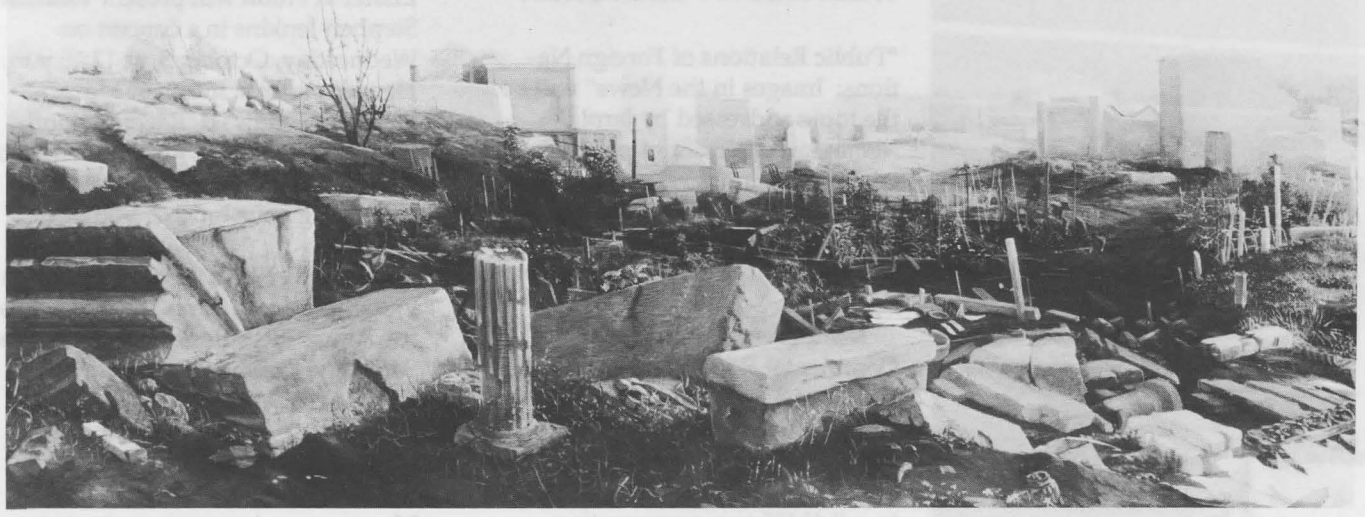
HERBERT J. DAVIS, professor of business administration, an essay, "A Reconsideration of England's Values Research in Cross-Cultural Management," in *Advances in International Comparative Management*, (Richard N. Farmer and Elton G. McGoun, Eds.) JAI Press, Conn., pp. 109-125, 1988.

ALF HILTEBEITEL, professor of religion, a book, *"The Cult of Drauadi, Volume I: Mythologies, from Gingee to Kuruksetra* (Chicago: University of Chicago Press, 1988), the first of a three-volume study.

TERRY L. HUFFORD, associate professor of botany, a letter to the editor, "Wisdom by 'Doing'" in the *Washington Times* (August 23, 1988).

LEONARD NADLER, professor of human resource development and adult education, an article, "HRD and Productivity: Allied Forces in the *Training and Development Journal*, August, 1988), pp. 25-29.

FREDERIC R. SIEGEL, professor of geochemistry, articles, "Marine Exploration Geochemistry" in the Encyclopedia of Earth Sciences Series, Vol. XIV, *The Encyclopedia of Field and General Geology*, pp. 553-563; and "Geochemistry of Chilean Archipelago Bottom Sediments, 55•-42• S Latitude" in the *Antarctic Journal of the U.S.*, Vol XXI, pp. 139-140, 1987/88, with co-authors PAUL HEARN (Ph.D GWU, 1983) and JACK W. PIERCE, Adjunct Professor of Geology.



***WASHINGTON CITY GARDEN**, 1988, oil on birch panel by Sarah McCoubrey Olmsted, is one of 33 works in Dimock Gallery's exhibition "Landscape Transformed," which runs through October 7.*

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, Department of Radiology. (Individual will work on radioimmunotherapy project in cancer research laboratory which involves laboratory work, irradiation experiments, data analysis and coordination of student technicians. Minimum B.S./B.A. in biological or physical sciences. Send resume to Dr. B.W. Wessels, The George Washington University Medical Center, Department of Radiology, 901 23rd Street, N.W., Washington, D.C. 20037 or call (202) 994-4683.

The George Washington University is an equal opportunity/affirmative action employer.

GW REPORT

October 10, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

DEAN LEONARD MEETS WITH EDUCATION ALUMNI

In a wide-ranging discussion with members of the GW Higher Education Association September 29, SEHD Dean Leo D. Leonard touched on a number of issues of particular importance to the education community including financial aid, the experience of international students and educational planning in developing countries.

In the immediate future, Leonard said that it is going to be increasingly difficult for middle class families to finance even public education. The need for educational support for the middle class is an area that neither federal nor state governments have adressed very well, he continued, commenting that "until they do, it's very hard for either the public or private institutions to do much." The dean stated, "They are going to have to re-target the aid picture so that it moves up."

In response to a question as to whether international students are well received, Leonard said that "there's always a distance and it isn't intentional, but people tend to move in their own cliques." He emphasized the importance of a "good interchange" between American and international students. There needs to be the opportunity for the students to work together, he said, and there needs to be more structured activities. He noted that often international students return to their countries and become leaders and if they have an unfavorable view of the United States, this does not serve our country. "What we in America don't understand sometimes," he observed," is how a foreign student can perceive us as very arrogant, very selfish, very aloof." The reason we have disasters is lack of understanding between cultures, he said, adding that in foreign trade, success will go to "the one who really gets in and understands" other cultures.

Leonard also discussed the idea of permitting a student to write a dissertation in his/her own language. "I would say a person needs to have enough language skill to be able to speak, converse and understand in class but it's not necessary for that same student be be held up in writing a dissertation," he commented, adding, "I think it's an idea that should be considered."

In a discussion of educational models and planning, particularly in developing nations, the dean stated, "What you want to do is move people as quickly as you can to a state of academic and social freedom, wealth and opportunity. You must think where you are and decide what your goals are."

UNIVERSITY CLUB NOTES

J. Wendell Crain, director of SGBA's Office of Alumni Relations and Development, will speak on his "China Experiences" at the George Washington University Club's Round Table Dinner, Wednesday, October 12, at 5:30 p.m. For reservations, call 46610.

NLC DEAN JACK H. FRIEDENTHAL, right, and Mrs. Friedenthal, center, visit with South Trimble III (J.D. 1954) before the September 29 Law Alumni Association luncheon.

FRIEDENTHAL WELCOMED BY LAW ASSOCIATION

Members of the D.C. Chapter of the GW Law Alumni Association welcomed National Law Center Dean Jack H. Friedenthal at a September 29 luncheon in the George Washington University Club.

"We cannot say enough about the support the center has had from the University," said Dean Friedenthal in his first formal remarks since becoming dean on July 1. He praised the faculty, the students and the enrichment programs.

Friedenthal stated that he is committed to keeping the evening program operating and wants to strengthen the graduate programs "so that they meet the highest standards."

As for alumni relations, he said, "We're going to build a stronger tie than we've ever had with our alumni."

HEALTH FAIR '88 IS WEDNESDAY, OCT 12

The University community is invited to celebrate health and well-being on Wednesday, October 12, at Health Fair '88, sponsored by the Wellness Resource Center of HKLS in the main arena of the Charles E. Smith Center.

President Trachtenberg will make opening remarks at noon. The fair will continue until 5:30 p.m. Both health screenings and health information will be offered by a variety of sponsors. There will be screenings for cholesterol, blood pressure, lung capacity, vision, skin, oral health, cancer risk appraisal and posture, among others. Health information will be offered on eating disorders, alcohol and drugs, AIDS and sexual health, and stress. There will also be information on health benefits plans, CPR class registration and mental health services.

A GW "Health Stride" walking event is scheduled for 1 p.m., sponsored by Smith Center's Recreational Sports. There will be a healthy food bar provided by Marriott, plus healthy give-aways and a grand prize drawing for lunch for two at Devon's. Admission to the fair is free.

RECEPTION FOR AUTHOR AMITAI ETZIONI, OCT 13

All members of the University community are invited to a reception for Amitai Etzioni, university professor and author of *The Moral Dimension: Toward a New Economics* (The Free Press, September,1988). The reception will be held at Sidney Kramer Books, 1825 Eye Street, N.W., on Thursday, October 13, from 6 to 7 p.m.

In the book, sociologist Etzioni presents a new vision of "socio-economics." He advances the view that people are not innately self-serving individuals constantly attempting to maximize personal gain. Instead, he contends that they have several "wants," including a desire to live up to society's moral standards.

THEATRE PRESENTS *THE RUNNER STUMBLES*

Milan Stitt's play, *The Runner Stumbles*, will be presented by the Department of Theatre and Dance October 13 through 16 in the Marvin Theatre.

John MacDonald, artistic director of the Washington Stage Guild, will direct performances of the play, a courtroom drama about a rural priest accused of murdering a nun.

The play is the first production of the Theatre and Dance Department's 1988-1989 season. Performances October 13, 14 and 15 will be at 8 p.m. There will be a 2 p.m. matinee on Sunday, October 16. For tickets, call 46178.

PARENTS' DAY IS OCTOBER 15

President Stephen Joel Trachtenberg will speak to families and students at 11 a.m. in the Marvin Theatre on Saturday, October 15, Parents' Day.

A series of activities for families is planned throughout the day. Members of the faculty and administrative staff are especially invited to attend the Parents' Day Reception from 4 to 5:30 p m. in Market Square, Marvin Center, first floor. Vice President for Student and Academic Support Services Robert A. Chernak and Vice President for Academic Affairs Roderick S. French will make brief remarks.

Those who would like to attend the reception to visit with students and their families should call the Office of Campus Life, 47470. A complete schedule of events is available from the office.

COLUMBIAN WOMEN BEGIN THEIR YEAR

The Columbian Women of The George Washington University will hold their first meeting of the year on Saturday, October 15.

Hazel Ingersoll, who received her doctorate from the University, will speak on the Spanish culture, as seen in the Caribbean and Central American countries, at a 12:30 p.m. luncheon at the Arts Club of Washington. The Columbian Women, the University's oldest women's organization, sponsors scholarships for deserving George Washington students. At the present time, 17 students are receiving scholarship aid from the group.

For further information, call 845-9558.

DIMMOCK PRESENTS ALUMNI ARTISTS

The works of 27 graduates of The George Washington University art degree programs will be shown in the Dimock Gallery from October 14 through November 11 in the fourth "GW Art Alumni Exhibition."

For the juried exhibition, 69 artists submitted a total of 187 works of art. From this group, 47 pieces were accepted. The juror was Wretha Hanson, proprietor of the Franz Bader Gallery. The Cecille R. Hunt Prize will be awarded to three participants in the exhibition.

Art works to be shown include ceramics, computer graphics, drawings, paintings, photographs, prints and sculpture.

The Columbian College Alumni will host a gallery talk with Lenore Miller, curator of art, from 3 to 5 p.m. on Saturday, October 15, in the gallery. There will also be an informal discussion among artists present.

PROFESSIONAL ACTIVITIES

NIK ALEXANDRIDIS, professor of engineering and applied science, co-authored a paper, "Multigranularity Hierarchical Image Transform Architecture" with S. Ziavras, 3rd International Conference on Supercomputing, Boston. May 15-20. He also acted as chairman for the session on Supercomputer Architectures at the conference.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was the guest speaker at the September 9 luncheon of the Alaska World Affairs Council in Anchorage. Grub spoke on "Pacific Rim Update: Political and Economic Changes in Japan and China."

He also addressed the Harvard Club luncheon meeting September 6. He spoke on China and the potential for U.S. investment and trade with that changing economy. September 7 he partipated in a conference on timber resources sponsored by the Alaska Center for International Business, speaking on the demand for timber products, particularly logs and woodchips, in both middle eastern and far eastern markets.

ALI KIPER, professor of engineering, participated in a special NASA workshop on "Two-Phase Fluid Behavior in a Space Environment" June 13-14. The workshop was coordinated by Goddard Space Flight Center, Lewis Research Center, and Johnson Space Center for obtaining input from a diverse group of qualified scientists and engineers.

JERROLD POST, professor of psychiatry and public policy, participated in the llth annual meeting of the International Society of Political Psychology in New York, July 1-5. He chaired an experiential workshop on Conflict and Cooperation in International Organizations, chaired a roundtable on international Terrorism and Counterterrorist Policy, and presented a paper on "Personality and Political Belief Systems: Bridging the Gap," co-authored by J. PHILLIP ROGERS, assistant professor of political science. In late August, he was a member of the faculty of a Continuing Medical Education course on "Neuropsychiatric Aspects of Politicians and Politics" sponsored by the Southern California Neuropsychiatric Association.

BERNARD REICH, professor of political science and international affairs gave the following lectures: "Truman Connection - 40 years Later: United States-Israeli Relations, 1948-1988" at The Harry S. Truman Library, Independence, Missouri, July 7; "The Iran-Iraq War and the Future of the Persian Gulf," Petroleum Association of Japan, Tokyo, Japan, July 27; "Superpower Rivalry in the Middle East," at the Military Intelligence Academy in Taiwan, Republic of China, August l; "The Superpowers and the PRC in the Geostrategic Studies, Republic of China, Taiwan, August 2; "United States Policy in the Middle East," Malaysian International Affairs Forum (MIAF), August 9; "Superpower Rivalry in the Middle East," Armed Forces Defense College (AFDC), Malaysia, August 10; and "Negotiating Peace in the Middle East," Crists and Choice in American Foreign Policy, Symposium, The Washington Center, August 24.

JAMES WILLIS ROBB, professor emeritus of Romance languages, participated in the Fifth Annual Congress of the International Association of Colombianists, in the historical city of Cartagena de Indias, Colombia, August 1-5. He presented a paper, "La Neuva Novelísta de Fernando González." The paper has been published in *El Mundo Semanal*, Medellín, Colombia, No. 459 (August 13, 1988). In June, in Bogota, he met with Germán Arciniegas, Colombian essayist and President of the Colombian Academy of History, author of biographies of Amerigo Vespucci and Simón Bolívar and of works of the Discoveries of America.

NOZER SINGPURWALLA, professor of operations research and statistics and REFIK SOYER, assistant professor of management science, presented a special contributed paper, "Bayesian Analyses of Nonhomogeneous Autoregressive Processes" at the Annual Meeting of the American Statistical Association in New Orleans, August 22-25.

GEORGE W. SMITH, professor of education, presented an invited paper, "The Training of Teachers for Non- and Limited English Proficient Students," at the World Assembly of the Internaional Council on Education for Teaching held in Sydney, Australia, on July 22.

CARL STEINER, professor of German, presented a paper, "Aus Liebe zu Deutsschland: Das Werk des Karl Emil Franzos (1848-1904)" before the American Goethe Society at the Embassy of the Federal Republic of Germany, September 21.

RICHARD P. TOLLO, assistant professor of geology, and geology graduate student Sara Arav, presented a paper, "The Robertson River Formation: A Late Proterozoic, Anorogenic (A-type) Granitoid Suite of Unique Petrochemical Affinity" at the 8th International Conference on Basement Tectonics held August 8-12 in Butte, Montana. The presentation was part of a special symposium concerned with the characterization and comparison of Proterozoic through Mesozoic continental margins.

STEPHEN JOEL TRACHTENBERG, president of the University and professor of public administration, spoke to the National Capital Intrafraternity Forum on September 14; at a CASE seminar for chief public relations officers on "Academic Public Relations in a Much Higher Gear" on September 25; and to the Rotary Club of Washington, D.C., on October 5.

PUBLICATIONS

JEROME BARRON, Lyle T. Alverson professor of law, an article, "The Rehnquist Court and the First Amendment: The 1987-1988 Term," October 12 issue of *Presstime*, the journal of the American Newspaper Publishers Association.

CHARLES CRAVER, professor of law, an article, "The Regulation of Federal Sector Labor Relations: Overlapping Administrative Responsibilities," in the *Labor Law Journal (1988)*, pp. 387-401.

CHRISTOPHER JOYNER, associate professor of political science, two articles, "The Antarctic Legal Regime and the Law of the Sea" in *Oceanus*, Vol. 31 (Summer 1988), pp. 22-31 and "In Search of an Anti-Terrorism Policy: Lessons from the Reagan Era," in *Terrorism: An International Journal*, Vol. 11 (1988), pp. 29-42.
As Committee Chairman, Joyner also drafted the "Report of the Antarctic Committee" published in the American Branch of the International Law Association's *1987-1988 Proceedings and Committee Reports* (1988), pp. 69-94.

MARVIN S. KATZMAN, associate professor of business administration, and Kenneth J. Smith, associate professor of accounting, Towson State University, an article, "Appraising the Value of Wellness" in the September 10 issue of *Health Action Managers*. The article summarized the evaluation efforts and measured costs savings as reported in a nationwide survey of occupational health promotion programs.

ARTHUR F. MANFREDI, JR., associate professorial lecturer of engineering, an article, "U.S. Military Satellites — Survivability" in *National Defense* magazine (September 1988).

MICHAEL LOEWY, assistant professor of economics, a paper, "Reaganomics and Reputation Revisited," in *Economic Inquiry*, April 1988.

PETER F. THALL, associate professor of statistics and JOHN M. LACHIN, professor of statistics , three articles, "Analysis of Recurrent Events: Nonparametric Methods for Random-Interval Count Data" in *Journal of the American Statistical Association*, vol. 83, pp. 339-347; "Two-State Selection and Testing Designs for Comparative Clinical Trials" in *Biometrika*, vol. 75, pp. 303-310. Richard Simon and Susan S. Ellenberg of the National Institutes of Health were co-authors. The paper proposes a new protocol for selecting the best from among several innovative medical treatments, and subsequently comparing it to a standard therapy; and "Optimal Two-Stage Designs for Clinical Trials with Binary Response" in *Statistics in Medicine*, vol. 7, pp. 571-9. Richard Simon, Susan S. Ellenberg and Richard Shrager of the National Institutes of Health were co-authors. The paper proposes a new protocol for evaluating innovative medical techniques, especially cancer treatments, which allows early termination of the study if the new therapy does not perform well in comparison to the established treatment. The paper was presented at the annual meetings of The Society for Clinical Trials in San Diego, May 22-25.

INTERVIEWS

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, interviews, by David Brown, Monitor Radio, August 10, on the subject of the Iraq-Iran cease fire and its implications for future trade for the United States and other countries; by Sean Jamelson, *Spokesman Review*, for an article "Pacific Rim Nations May Forge Common Market" which appeared in the financial section of the August 11 issue of the *Spokesman Review* ; by D.J. Feldmeyer, *Yomiuri Shibun* (Japan), concerning efforts of various Asian-American ethnic groups and their lobbying efforts in Wasington and their participation in running for elective office in the United States; by Scott Paul, *Yomiuri Shibun*, on August 23 on the impact of the recently passed U.S. trade bill on U.S.-Japan relationships; and by John Peterson, *Detroit News*, on Korean lobbyists. The focus of the interview, which was published in the September 8 issue of the *Detroit News*, was the role of Korean lobbyists in Washington and how they compare with Japanese and other lobby groups.

JOHN LOGSDON, professor of political science and public affairs and director of the Space Policy Institute, was interviewed extensively in connection with the recent successful flight of the space shuttle Discovery. His comments related chiefly to space policy for the future and also included historical references. He appeared on the ABC, NBC, CNN, INN, Fox and Austrian TV networks, as well as on the BBC, National Public Radio, and the Voice of America, Logsdon was quoted in *Time*, *Newsweek*, the *New York Times*, the *Los Angeles Times*, the *Christian Science Monitor*, and the *Washington Post*, among others.

PERSONNEL NOTICES

RESEARCH SCIENTIST, full-time, Department of Biochemistry. (Individual should have a Ph.D in Biochemistry, at least 2-3 years of research training, and extensive experience in subcellular fractionation, membrane lipid analyses using TLC and GC, and mitochondrial cholesterol metabolism.) Contact Dr. Gary Fiskum, Department of Biochemistry, The George Washington University, 2300 Eye Street, N.W., Washington, D.C. 20037, telephone (202) 994-8819.

RESEARCH ASSISTANT, full-time, ICU Research Unit. (Individual must have a B.S. with nursing background, interest in applied physiologic research on acutely ill patients. Position requires strong background in physiology and must be a team player. Data collection experience, writing skills, and background in computerized date bases necessary.) Send resume to ICU Research, The George Washington University Medical Center, 2300 K Street, N.W., Washington, D.C. 20037.

The George Washington University is an equal opportunity/affirmative action employer.

TRACHTENBERG CALLS FOR NATIONAL HIGHER EDUCATION PLAN

President Stephen Joel Trachtenberg called for the development of a national plan to mobilize America's colleges and universities on behalf of international competitiveness in an October 5 speech to the Rotary Club of Washington D.C.

Trachtenberg said that "the United States is at a real crossroads in the relationship between its economy and its system of higher education."

"America faces a challenge so daunting that it's far from certain whether we'll be able to surmount it. We now confront a level of international competition that could not have been anticipated during 1945-1970," he said.

He went on to say that during those years, initiative was clearly in the hands of the United States, and we made the most important decisions about our economic future. However, "we have grown increasingly reactive rather than pro-active, and initiative has just as clearly passed into the hands of other nations."

Trachtenberg said that according to some communicators, "the United States seems unable to close the gap between its need for workers, and the potential workers whom it somehow cannot reach and train."

He noted the 1940s population shift of center-city dwellers to suburban areas which resulted in"the emergence of two different economies—one of them identified with a mainly white, affluent suburban middle class, the other with a mainly non-white or non-Anglo urban under class."

He said that there is a growing economic and education gap between those in urban and suburban locations, "which is why," he said,"few foreign observers sound optimistic about the economic future of the United States of America."

"Since the early 1970s, a number of attempts have been made to enhance the opportuities for center-city residents," he said, noting programs designed to enchance residents' access to the suburban job market, to create moderate-income housing in suburban townships, and to break down the jurisdictional lines that separate suburban public school systems from those of the center cities. However, according to Trachtenberg, "most of these have enjoyed limited success."

On the other hand, America's system of higher education offers "an 'engine' that can be harnessed to America's present efforts to become once again, a fully competitive player in the global economy," he said.

Developing a national plan will be "one of the most difficult tasks we've undertaken since the Second World War, for two reasons," Trachtenberg warned. The difficulty is due to both "the full range of America's personnel needs," and the very nature of our society which "values individual initiative and competition in the quest for success."

He said the task we face is to somehow "equalize the experiences of millions of children growing up in the center-cities with those of children growing up in the suburbs." He also said we would have to contact our minority populations "in ways that are sensitive and varied, yet effective in breaking through decades of suspicion and alienation."

Trachtenberg noted that the path will not be easy because competition between schools is much more common today than wholehearted cooperation. "If we're to mobilize our institutions of higher education on behalf of international competitiveness, we'll have to make certain the effort isn't undermined by competitiveness with each other," he said.

He noted that as a nation confronted with fierce business competition from East Asia and Western Europe, "we must overcome our disadvantages as a heterogeneous society. . . and integrate our population sufficiently to ensure that our companies can find and communicate with the workers they need, and that those workers have or can swiftly acquire the skills that are needed."

"The issue is no longer that we have a moral duty to help our less affluent citizens, especially the large numbers of them from minority backgrounds," Trachtenberg said. "Today, the issue is that we desperately need those citizens as workers to keep our economy afloat and our nation competitive."

AMERICAN STUDIES SEEKS GUEST LECTURERS

The American Studies Program will offer a course in the Spring Semester on The Reagan Legacy (AMCV 752: American Issues). The course is intended to be of broad interest touching not only economics, politics, defense, disarmament and foreign policy but also religion, political philosophy, popular culture and basic values. For the course, the program seeks to attract well-known public figures either associated with the Reagan administration or its critics, in equal number if possible. Suggestions as to desirable and available lecturers are welcome. If you have suggestions, send a note to Robert H. Walker, American Studies, Building P, Room 202.

WELCOME — David A. Pryor, left, chairman of the George Washington University Club Board of Governors, presents flowers to Francine Zorn Trachtenberg as President Trachtenberg looks on, at the October 6 club tea in their honor.

FAYE MOSKOWITZ TO GIVE READINGS

Short-story writer and essayist Faye Moskowitz will read from her works on Thursday, October 20, at 8 p.m. in Room B-120 of the Academic Center.

Moskowitz is the author of a collection of essays, *A Leak in the Heart*, and, most recently, a collection of short stories, *Whoever Finds This: I Love You*, both published by David Godine. A frequent contributor to the *New York Times* and the *Washington Post*, she is often heard on National Public Radio. Moskowitz is currently teaching literature and creative writing as a lecturer in English at the University.

Her appearance is part of the Jenny McKean Moore Reading Series, co-sponsored by the Jenny McKean Moore Fund and the Department of English. Admission to the reading is free and open to the public.

OPEN ENROLLMENT PERIOD FOR HEALTH CARE PLANS

The Records and Benefits Division of Personnel Services announces an open enrollment period for health care plans beginning today, Monday, October 17, and continuing through Friday, November 11.

During this time, all eligible employees will have the opportunity to make changes in their current health care coverage. *Please note that Capital Care Blue Plan and Aetna Choice Health Plan will no longer be available to employees, effective January 1, 1989.* *Therefore, members must choose an alternate health plan.* All coverages elected or changes made will be effective as of January 1, 1989.

Representatives from all of the health plans will attend the group meetings shown in the following schedule. The representatives will be able to answer specific questions. All eligible employees affected are encouraged to attend one of these meetings.

Date	Time	Location
Monday, Oct. 17	8:00 a.m. - Noon	Hospital Auditorium 23rd Street Entrance
Thursday, Oct. 20	1:00 p.m. - 5:00 p.m.	Hospital Auditorium 23rd Street Entrance
Monday, Oct. 24	1:00 p.m. - 5:00 p.m.	Marvin Center Room 410
Tuesday, Oct. 25	8:00 a.m. - Noon	Marvin Center Room 410

PROFESSIONAL ACTIVITIES

DINA DORICH, assistant vice president for university relations, chaired a three-day CASE (Council for Advancement and Support of Education) seminar for chief public relations officers in New York City, September 25-27. The invitational conference included President Stephen Joel Trachtenberg as keynote speaker. Other presenters ranged from prominent educators to members of national media.

RAYMOND R. FOX, professor of engineering and applied science, was an invited speaker at South Carolina's Coastal Issues Conference, at the Hilton Head Island, September 29-30. His topic was "Current Engineering Design Practice for Buildings in Coastal Areas."

DONALD GROSS, professor of operations research, has assumed the position of program director for operations research in the Systems Theory and Operations Research Program of the National Science Foundation Electrical, Communications and Systems Engineering Division. He will be on leave from the University this year to fulfill this responsibility.

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was the keynote speaker at the Conference on "Doing Business in Japan," sponsored by the Alaska Center for International Business at Matsu, Alaska, September 16. He also spoke at the symposium on "Doing Business with China" in Anchorage, September 23. Grub addressed the Juneau World Affairs Council, September 28. His topic was "Emerging Markets, China and the Pacific-Rim." He also gave 11 lectures to classes at the University of Alaska Anchorage, University of Alaska Juneau and Alaska Pacific University, as well as speaking at a number of forums for various business groups of Alaska including the Fairbanks Chamber of Commerce.

MICHAEL HARMON, professor of public administration, attended the Minnowbrook II Conference on The Future of Public Administration at Syracuse University, September 4-8. Harmon presented a paper, "Decision and Action as Contrasting Perspectives in Organization Theory."

GEORGE HONADLE, professorial lecturer in public administration, was a guest lecturer at the University of Zambia, July 20. His topic was, "Organizational Contradictions in Rural Development Management: Analysis and Experience."

CYNTHIA McSWAIN, professor of public administration, conducted two training programs for the U.S. Naval Air Systems Command, "Executive Leadership and Career Development" and Managerial Coaching." She directed a one-day program on "The Feminine, The Masculine and Men and Women" for the National Identification Program for the Advancement of Women in Higher Education. McSwain also presented apaper at the Minnowbrook II Conference, "Transfiguring the Golem: Technicism, Human Relations, Technology, and the Human Project."

JERROLD POST, professor of psychiatry and public policy, represented the World Federation of Mental Health at a two-day meeting of the Peace Issue Reseach Group of the International Social Science Council, sponsored by the United Nations, September 1-2. The meeting was held at the National Science Foundation during the meeting of the International Political Science Association.

CHARLES PUFFENBARGER, associate professor of journalism, a lecture, "Journalism for the Real World," at "Printfest '88" at the Armory Place in Silver Spring, Maryland, September 20.

SUSAN J. TOLCHIN, professor of public administration, presentations: "Trade and Investment Politics in the Global Economy: The U.S. Position." American Political Science Association, September 2; "Foreign Investment: Advice to the Next President," conference, Smick-Medley Associates, Washington, D.C., September 19; "The Art of Politics," T. Rowe Price, Washington, D.C., September 22; and "The Buying of America," Foundation for Women's Resources, San Francisco, California, October 2.

STEPHEN JOEL TRACHTENBERG, president of the University and professor of public administration spoke at the Washington Journalism Center October ll on "Problems and Issues Facing Private Colleges and Universities."

ROBERT WALKER, professor of American civilization, presentation, "The Everyday Life of Reform," a keynote speech for annual meeting of German-American Studies Association.

INTERNATIONAL STUDENTS In Hae Min of Korea, holder of a George Washington University Scholarship left, and Tung Lung Chang of Taiwan, R.O.C., Rita Keller Scholarship holder, center, both doctoral candidates in international business, talked with Director of International Student Services E. Donald Driver at an October 3 reception sponsored by SGBA's Office of Fellowships and Scholarships.

BRIEFLY ...

U.S. Foreign Science and Technology Policy will be the subject of an October 19 colloquium with Deborah Wince, assistant director for international affairs, Office of Science and Technology, Executive Office of the President, in Marvin Center, Room 413, from 4 to 5:30 p.m. All students and faculty are invited. The event is sponsored by the Center for International Science and Technology Policy (formerly the Graduate Program in Science, Technology and Public Policy).

Lisner at Noon will present V.I. F., a wind ensemble, October 19, at 12:15 p.m. Admission is free.

The George Washington University Club annual meeting will be October 18, at 5:30 p.m. The club's fall dinner dance, with a United Nations theme will be October 22, at 7 p.m. A surprise chef's special is now offered every Wednesday, at the suggestion of Vice President for Student and Academic Support Services Robert A. Chernak.

PERSONNEL NOTICES

RESEARCH ASSOCIATE/ASSISTANT, full-time, Department of Anesthesiology, ICU Research. (Individual must have a B.S. or M.S. with nursing background, interest in applied physiologic research on acutely ill patients. Position requires a strong background in physiology. Data collection experience, writing skills, and background in computerized data bases necessary.) Send resume to ICU Research, 2300 K Street, N.W., Washington, D.C. 20037.

RESEARCH ASSOCIATE (Laboratory), full-time, Department of Radiology, Division of Nuclear Medicine, Section of Radiopharmaceutical Chemistry. (Individual will do research involving the conjugation of chelating agents to tumor antibodies for the radiolabeling of antibodies with gamma emitting radionuclides for cancer research. Ph.D. in physical organic, bioganic or inorganic chemistry is required.) Send resume with three references to Geri Rosen, Grants Manager, Radiologic Sciences & Technology, The George Washington University Medical Center, 2300 Eye Street, N.W., Washington, D.C. 20037.

RESEARCH ASSOCIATE (Laboratory), full-time, Department of Radiology, Division of Nuclear Medicine, Section of Radiopharmaceutical Chemistry. (Individual will do research involving the immunoreactivity determinations, pharmacokinetics and metabolic studies of radiolabeled tumor antibodies. Ph.D. in biochemistry or related field is required. Knowledge of radionuclides desirable.) Send resume with three references to Geri Rosen, Grants Manager, Radiologic Sciences & Technology, The George Washington University Medical Center, 2300 Eye Street, N.W., Washington, D.C. 20037.

RESEARCH ASSISTANTS (2-3), part-time, Department of Radiology, Division of Nuclear Medicine, Section of Radiopharmaceutical Chemistry. (The research assistants will work on the in vivo distribution and metabolism of tumor specific antibody-drug conjugates or the chemical conjugation of chelating agents to tumor antibodies and the purification of the antibody conjugates. Work 10-20 hours a week. Call Dr. Paik, 994-5028.

RESEARCH ASSOCIATE, full-time, Department of Medicine, Lipid Research Laboratory. (Individual must have a strong background in lipid biochemistry, preferably with a Ph.D. Experience in the field of Lipids and Lipoproteins is desirable. Proficiency in Gel Electrophoresis, Western/Northern Blots, Small animal surgery, and HPLC techniques preferable.) Contact Dr. Raj Lakshman, Lipid Research Laboratory, V.A. Medical Center, 50 Irving Street, N.W., Washington, D.C. 20422. (202) 745-8330.

RESEARCH ASSOCIATE, full-time, Lipid Research. (Individual must be a registered dietician with experience in clinical research trials for large outpatient cholesterol clinic and will be responsible for writing protocols, instructing patients on diet, and monitoring compliance. Master's degree and appropriate experience is required.) Send resume to Lipid Research, 908 New Hampshire Avenue, N.W., Suite 500, Washington, D.C. 20037.

RESEARCH ASSOCIATE (Biostatistician), full-time, George Washington University Biostatistics Center. (Individual must have a master's degree in biostatistics or statistics for work in clinical trials and epidemiologic studies. Individual will assist in study design, procedures, data management and analysis. One or more years experience in biomedical research and good communications skills essential. IBM computer experience using CMS and SAS helpful.) Send resume to Margaret Townsend, The George Washington University Biostatistics Center, 6110 Executive Boulevard, Suite 750, Rockville, MD 20852.

TRACHTENBERG URGES HIGHER EDUCATION TO HELP STUDENTS MEET REAL WORLD CHALLENGES

The traditional nature of an educational system that teaches technical subjects in one department and ethics someplace else is obsolete, said President Stephen Joel Trachtenberg in an October 15 speech at Parents' Day.

Speaking to a capacity audience in Marvin Theatre, Trachtenberg called for a broader, more integrated, learning experience for students. His criticism of the isolated context in which many subjects are currently taught was part of a larger theme in which he suggested that today's colleges and universities must develop as centers of real-world experience, introspective study and societal role models. "As we deal with a generation of young men and women for whom stability and balance represent a challenge, there is less and less validity to the old distinction between a quiet liberal arts college tucked away in some distant rural spot and a major university smack in the middle of 'real-life,' " Trachtenberg explained.

The president described three important functions that schools must integrate in order to provide students with the best possible preparation for adult life. First, he said, a university should be a microcosm of the world outside, " a microcosm that accurately represents what is going on across our planet and allows (students) to try out their wings further and further from the nest where they began."

Second, education must offer a place to which students can withdraw for periods of reflection, he said. Trachtenberg observed that the cloistered atmosphere prevalent at small colleges today and at the large universities of past centuries needs to be made part of the modern university center. "A well-functioning school of higher education has that function built right into its daily life. It opens doors to a tumultuous world, but it doesn't close them to the student who has momentarily had enough and who needs a welcoming shelter within which to recoup his or her strength and sense of self," he noted.

The third element important to the ideal institution is a "wrap-around role model," Trachtenberg stated. Expanding on the notion that many people point to role models as influential in their own educational and professional development, the president called on colleges and universities to make themselves role models for young people. Not just specific teachers, he said, but the entire faculty, adminisitrative and support staff must find "a sense of connection and common purpose that rises above their departmental specializations."

Trachtenberg observed that while George Washington is unique in its educational culture, an increasingly complex society requires special attention to the integration of disparate subjects and disciplines. "A world (that complex) is struggling to find, among other things, the type of higher education that can keep up with it . . . that can produce graduates for whom keeping up is second nature," he concluded.

PARENTS' DAY — LeNorman J. Strong, director of the Office of Campus Life, left, talks with Elizabeth DeFilippo, a sophomore in the Elliott School of International Affairs, center, and her mother, Linda DeFilippo of Schenectady, New York, at the Parents' Day Reception October 15.

WORLD FOOD DAY TELE-CONFERENCE AT GWTV

The University's television station, GWTV, was the production center for the World Food Day Teleconference on October 17, part of World Food Day 1988.

It is estimated that more than one million people viewed the three-hour program which originated at GWTV and was beamed to more than 500 sites in the United States and Canada.

The teleconference was picked up by PBS stations throughout the United States, the Black College Satellite Network, the Learning Channel and the Hospital Satellite Network.

This is the fifth year in succession that the live interactive teleconference has originated at GWTV and the fifth consecutive year that GWTV producer Paul Caffrey has been in charge of the broadcast.

Africa's food problems and solutions were discussed by a panel of international experts for 60 minutes, followed by an hour of on-site discussions and a final hour of call-in questions for the panelists. Washington's Renee Poussaint of WJLA-TV served as panel moderator. Nationally known actor Eddie Albert served as teleconference host.

GRADUATE AND PROFESSIONAL SCHOOL FAIR THIS WEEK

More than 150 admissions representatives from universities nationwide will be available to discuss students' plans for graduate study at Washington's 11th Annual Graduate and Professional School Fair to be held in Marvin Center's Continental Room on Tuesday and Wednesday, October 25 and 26.

Wednesday's 2:00 to 5:30 p.m. program will focus on graduate school applications and financing. Tuesday's discussions at the same hours will revolve around how to apply to law school and survive, and careers in law. Videotaped replays from 5:45 to 7:00 p.m. will present highlights of the day's earlier discussions both Tuesday and Wednesday.

The fair, sponsored by the American, Catholic, Gallaudet, George Mason, George Washington, Georgetown, Marymount and Maryland Universities, and Hood, Mount Vernon, and Trinity Colleges, is open to the public without charge.

ETZIONI AND NISKANEN TO DEBATE ECONOMIC ISSUES

University Professor Amitai Etzioni and CATO Institute President William A. Niskanen will engage in a debate on "Economic Issues in the Election Campaign: The Role of Government and Markets in the American Political Economy" on Tuesday, October 25, at 8 p.m. in Marvin Center's first floor Market Square. Henry R. Nau, associate dean of the Elliott School of International Affairs, will moderate.

The question of the extent to which markets should be allowed to develop on their own or be directed by government will be examined during the evening. The debate will offer a serious discussion of the intellectual traditions that enter into American political life and of the current presidential campaign.

Etzioni is the author of the new book *The Moral Dimension: Toward a New Economics* (The Free Press, 1988). William A. Niskanen, a former member of the Council of Economic Advisers, is the author of the recent book *Reaganomics: An Insider's Account of the People and Policies* (Oxford University Press, 1988).

The program is sponsored by the Elliott School of International Affairs and is open without charge.

TELECOMMUNICATIONS ALERT FOR OCTOBER 29

As part of the telephone system upgrade process, the University telephone system **will not** be operational on Saturday, October 29, between the hours of 2:00 a.m. and 6 a.m.

During this four-hour period, all calls to the University 994 exchange will automatically be diverted to the University operator in the Academic Center. The University Operator will have the capability to transfer all incoming calls to all hospital patient areas, to both University and Medical Center Security Offices and to Hospital Communications. All calls in progress when the system shuts down will be disconnected.

Personal emergency calls for staff on duty and for residence hall students will be forwarded to the appropriate security office for immediate notification of the individual involved.

During the four-hour period, incoming calls to the 676 residence hall exchange will ring but cannot be connected or re-directed to the University operator. The telephone system will not be operational for campus calls or outgoing local or long distance calls. The system 994 data lines will not be operational. Features such as call forward, send all calls, abbreviated dialing, etc., which are activated from the individual telephone set, will not be operational after the four-hour period. Each individual will have to reactivate the respective features after 6:00 a.m. October 29.

Please direct questions or concerns to the office of Telecommunications Services on extension 46521.

TRUSTEE LEVINE DIES

University Trustee Sidney A. Levine died Sunday, October 16, in Boston, Massachusetts. He was 73.

Born in Melrose, Massachusetts, where he attended public schools, he received a B.A. from the University of North Carolina in 1937 and an M.D. from The George Washington University in 1941.

He served continuously on the Board from 1972 until his death. His Board Committees included University Development, Medical Center and the Executive Committee.

Engaged in the private practice of medicine in Melrose, he had been principal investigator for a coronary drug project of the National Heart Lung Institute.

Dr. Levine was a member of the American Medical Society, Massachusetts Medical Society, American Heart Association, American College of Cardiology and the American College of Angiology.

INTERVIEWS

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, was interviewed by Bruce Milzer, News Director of KSKA Radio in Anchorage, Alaska on the question of political prisoners in the People's Republic of China.

STEPHEN JOEL TRACHTENBERG, president of the University and professor of public administration, was among university presidents and other education leaders interviewed by Scott Jaschik for a front-page article in *The Chronicle of Higher Education*, September 14, titled "Specter of Anti-Intellectualism Seen in Presidential Campaign."

PROFESSIONAL ACTIVITIES

HOWARD F. GILLETTE, professor of American civilization, addressed the opening celebration of "River Park and its Neighbors: 25 Years of Urban Renewal, 1963-1988," October 14. His presentation was "The Story of Urban Renewal: An Illustrated Lecture."

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, spent the month of September as a Distinguished Visiting Scholar in Residence at the Alaska Center for International Business. The Center was funded by the Alaska legislature to assist Alaskan export. In addition to undertaking research on Alaska's natural resources and export potential, Grub assisted both the Center and the World Trade Center Alaska in development efforts.

DORN C. MCGRATH, JR., professor of urban and regional planning, presented proposals for city-wide mapping of ward plan informaton to a community workshop on ward planning in the District of Columbia on Saturday, October 8. The workshop was sponsored by the American Planning Association's National Capital Area Chapter; the Citizens Planning Coalition; the Committee of 100 on the Federal City, of which McGrath is chairman; and the D.C. Federation of Civic Associations.

DELORES M. SAUNDERS, associate professor of education, conducted instructional leadership workshops for the Department of Defense Dependent Schools, (DODDS-A) in Nievpoort, Belgium, September 28-29. The workshops offered training to superintendents, principals and supervisors in systems for managing instruction. They were conducted during the Annual Fall Conference of DODDS-A.

GEORGE STEINER, professor emeritus of music, has assumed the position of first violinist of the Gallery String Quartet, ensemble in residence at the Washington County Museum of Fine Arts in Hagerstown.

RICHARD P. TOLLO, assistant professor of geology, presented an invited paper, "Studies in the Robertson River Formation: Petrologic and Geochemical Evidence for Multiple-Phase Anorogenic Magmatism" at a workshop sponsored by the U.S. Geological Survey in Reston September 21. He was also co-leader of a field trip to examine stratigraphic and petrologic relations of units comprising part of the Blue Ridge anticlinorium in Northern Virginia September 22.

PETER THALL, associate professor of statistics, gave an invited talk, "Mixed Poisson Regression Models for Longitudinal Count Data" at the Medical College of Virginia, Virginia Commonwealth University, in Richmond, October 7.

AMITAI ETZIONI, University Professor, second from left, listens to favorable comments from John Sansing, left, on his book *The Moral Dimension: Toward a New Economics* at an October 6 booksigning reception at Sidney Kramer Books as Jean Carper, center, and Sandra Westin, right, look on.

PUBLICATIONS

MURIEL A. ATKIN, associate professor of history, a chapter, "Russian Expansion in the Caucasus to 1813," in *Russian Colonial Expansion to 1917*, Michael Rywkin, ed., (London: Mansell Publishing Limited, 1988), pp. 139-187.

CHRISTOPHER J. DEERING, associate professor of political science, a book, *Congressional Politics* (Chicago: The Dorsey Press, 1989 - just published).

PHILLIP D. GRUB, Aryamehr Professor of Multinational Management, and BRYAN L. SUDWEEKS, Assistant Professorial Lecturer, an article, "Securities Markets and the People's Republic of China," in the Summer 1988 issue of the *Journal of Economic Development*.

CHRISTOPHER C. JOYNER, associate professor of political science, a book, *"The Antarctic Legal Regime* (Martinus Nijhoff Publishers, The Hague). The volume was completed under the auspices of the Antarctic Interest Section of the American Society of International Law.

JILL F. KASLE, associate professor public administration, the fourth volume of her comprehensive work on the AT&T divestiture *Decision to Divest*, published in August.

JAMES E. KEE, associate professor of public administration, an article, "A Better Way to Finance State Offices," *State Government*, July/August 1988; also, a book chapter with CHARLES F. BINGMAN, distinguished visiting professor of public administration, "Uses of Strategic Management in the Federal Government" in *Handbook on Stategic Management*.

HENRY M. STEINER, professor of engineering, a book, *Basic Engineering Economy*, (Books Associates, Glen Echo, Md., 1988).

SUSAN J. TOLCHIN, professor of public administration, articles, "The Trouble with Foreign Investment," *The Washington Post*, July 20; "Foreign Investment in U.S. - A Trojan or Gift Horse?", *The Japan Times*, May 25; "States Court Foreign Investors," *Best of Business Quarterly*, Spring 1988, Vol. 10, No. 1; "The Political Uses of Evaluation Research," in Dennis Palumbo, ed., *The Politics of Program Evaluation*, Sage Publications, 1988; "Bargain Giant Bought with Cheap Dollars," *Nikkei Business*, May 15, 1988; "The Influence Peddlers," *Japan Newsweek*, January 21, 1988; and "Foreign Money, U.S. Fears," *New York Times Magazine*, December 13, 1987. Tolchin also contributed a chapter, "Cost-Benefit Analysis and the Rush to Deregulate: The Use and Misuse of Theory to Effect Policy Change," to *Policy Studies Review Annual*, Ray C. Rist, ed., Vol. 8, (New Brunswick: Transaction Books, 1987).

IRENE THOMPSON, associate professor of Russian, with Richard T. Thompson and David V. Hiple chapters, "Memory in Language Learning," in *Learning Strategies in Language Learning*, Anita Wenden and Joan Rubin, eds. (Prentice-Hall, 1987), pp. 43-56; "Issues Concerning the Less Commonly Taught Languages, " in *Second Language Proficiency Assessment: Current Issues*, Pardoe Lowe, Jr. and Charles W. Stansfield, eds., (Prentice-Hall, 1988), pp. 83-123; "Adapting ACTFL Proficiency Guidelines to Russian: Problems, Applications and Implications," *Proceedings of the Symposium on the Evaluation of Foreign Language Proficiency*, Albert Valdman, ed. (IN: Indiana University Press, 1987).

ROBERT WALKER, professor of American civilization, an article, "The Reds: Inventing the Midwest," in the *Antioch Review*, Summer, 1988.

BRIEFLY ...

The First Fifty Years of Columbian College, an exhibition in Gelman Library's Special Collections documenting the college's early years after its founding in 1821, opens Thursday, October 27, on the library's second floor.

Gottfried Wagner, great-grandson of composer Richard Wagner, himself an author and opera director, will give a free lecture, "The Neitzsche and Wagner Cases," on Monday, October 31, at 4:30 p.m., in the Marvin Center Theatre.

"Vascular Disease: Improved Diagnosis and Treatment," will be discussed by Dr. Joseph Giordano, professor of surgery, chief, Division of Vascular Surgery, The George Washington University Medical Center, in a free lecture on Friday, October 28, at noon in the Hospital Auditorium, 901 23rd Street, N.W.

The First Wednesday Lecture for November will be given by Lance J. Hoffman, professor of engineering and applied science, on November 2 at 8 p.m. in the Continental Room of the Marvin Center. His subject will be "Making Every Vote Count." Admission is free, but call 46435 for seating. Dinner, for both members and non-members of the George Washington University Club, will be available beginning at 6:30 p.m. Call 46610 for dinner reservations.

PERSONNEL NOTICES

ASSISTANT DIRECTOR, full-time, ERIC Clearinghouse on Higher Education. (Individual will manage office, coordinate customer services activities, conferences and document acquisitions; manage special projects; prepare proposals and reports for contract review, supervise mailing list development; and train staff in current computer technology. A master's degree in education or related area preferred but will accept individual with bachelor's degree). Send resume to The ERIC Clearinghouse on Higher Education, 1 Dupont Circle, Suite 630, Washington, D.C. 20036.

BOARD ADOPTS TRACHTENBERG PROPOSAL FOR SPECIAL TRUSTEES SCHOLARSHIP FUND

The Board of Trustees, at its October 20 meeting, unanimously adopted a proposal by President Stephen Joel Trachtenberg to establish a special Trustees Scholarship Fund.

In commenting on the scholarship program, President Trachtenberg said it is designed to involve trustees in "helping to see to it that young people get the education they need in order to become productive and happy citizens who can look into their mirrors with a sense of self-respect."

Board members will generate the Trustees Scholarship Fund through their participation in board meetings. The University will add to the fund the amount of $250 per trustee attending each meeting. The Board of Trustees meets four times a year.

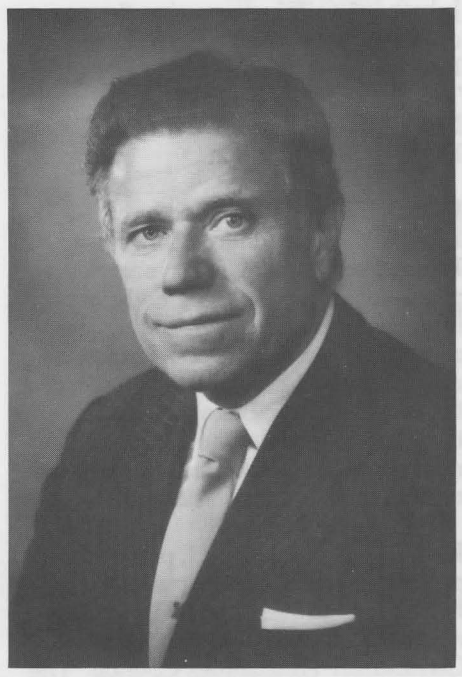
Trachtenberg pointed out that the private sector frequently compensates board members for their time and service in planning and overseeing the administration of the organization. While the University trustees are unpaid volunteers, the University seeks to recognize and show appreciation for the guidance the Board provides in many ways.

He sees this plan as one way for the University "to creatively adapt corporate procedures to university ideals."

He detailed plans to select scholarship recipients "the old-fashioned way, with a lot of close attention paid in the interview process, so that we know we are getting someone whose present accomplishments appear to point toward still more impressive ones in the future."

He also emphasized that the progress of the Trustee Scholars would be regularly reported to the Board and that scholarship recipients would have an opportunity, once each year, to get acquainted with the members of the Board.

The president emphasized that the Trustees Scholarship Fund would "help provide full scholarships to highly deserving and talented high school seniors . . . whose family incomes would normally make it impossible for them to attend a school of higher education that offers the advantages, the excitement, and the location of The George Washington University."



William H. Cooper

Myron P. Curzan

COOPER AND CURZAN ELECTED TO BOARD OF TRUSTEES

The Board of Trustees elected two new members at its October 20 meeting. They are Dr. William H. Cooper and Myron P. Curzan, president and chief executive officer of MPC & Associates and a partner in the law firm of Arnold & Porter.

Cooper, an alumnus of The George Washington School of Medicine (M.D. 1949), is a Fellow of the American College of Obstetricians and Gynecologists and the American College of Surgeons. He is a diplomate of the American Board of Obstetricians and Gynecologists, the American Board of Medical Examiners and the International College of Surgeons.

A graduate of Western Reserve University, (B.A. 1946), he was an intern at The George Washington University Hospital in 1949-50. He currently holds an appointment as clinical professor of obstetrics and gynecology in The George Washington University School of Medicine. Cooper has taught at Georgetown University and has held visiting professorships in Japan, South Africa, the People's Republic of China, and Great Britain.

Cooper, a member of numerous medical societies is a past president of the Medical Society of the District of Columbia, Sibley Medical Association, Washington Gynecological Society, Pan American Medical Association, Commission on the Healing Arts of the District of Columbia and the Academy of Medicine. He serves on the boards of Sibley Memorial Hospital, Hahnemann Hospital and St. Alban's School.

Dr. Cooper has been honored by the American Medical Association and the American College of Surgeons. He has been twice recognized by The George Washington University, in 1977 with the Most Distinguished Alumnus Award, and, in 1984, with a General Alumni Association Service Award.

Myron P. Curzan has been president and chief executive officer of MPC & Associates since its founding in 1983. He was president of APCO Associates, the Arnold and Porter Consulting Group from its 1983 founding until January of this year. Curzan specializes in analyzing development projects and then managing the implementation of those projects. Active in real estate and project development on a national basis, he serves on the boards of the Connecticut Mutual Life Insurance Company, the Greater Washington Educational Telecommunications Association, Inc., and the National Captioning Institute. He is also on the board of the *Housing and Development Reporter*, a publication of the Bureau of National Affairs. A member of the National Policy Council of the Urban Land Institute since 1984, he has served as panelist on several recent research projects relating to major educational institutions. He was a director of the Council on Public Interest Law from 1978 to 1981.

In the area of real estate development, Curzan has represented universities and corporations concerned with analyzing and then developing multi-family housing projects, single-family housing programs and mixed use facilities.

In the telecommunications field, he played a principal role in the management of the program leading to the establishment of publicbroadcasting's satellite interconnection system. He was project manager of a joint Department of Education/PBS project that developed captioning for the hearing impaired.

A magna cum laude graduate of Columbia Law School (LL.B. 1965) where he was a Harlan F. Stone Scholar, Curzan holds an M.A. from Yale University, where he was a Woodrow Wilson Fellow. He received a B.A. in 1961 from Columbia College, where he was elected to Phi Beta Kappa. He was a judicial clerk to Roger Traynor, Chief Justice of the California Supreme Court and a legislative assistant to Senator Robert F. Kennedy.

UNITED WAY CAMPAIGN AT GW BEGINS TODAY

This is the first day of the University's 1988 United Way Campaign.

President Stephen Joel Trachtenberg, in informal remarks at an October 24 meeting of coordinators, noted that he has been working for almost 20 years with the United Way, first in Boston and then at Hartford. "The kind of work it does is really quite extraordinary," he said. "What we give is ultimately invested back in us — our neighbors and friends — people who need help."

Serving as loaned executives for the campaign are Anne Carey of Arthur Andersen and Company and Yulonda Queen of American Security Bank. Queen pointed out at the meeting that The George Washington University is held up as an example to all the other universities in the District of Columbia because of the University's fine record in United Way giving.

Co-chairs of the 1988 campaign are James Clifford, director of Personnel Services, and Michael M. Barch, administrator of the Medical Center. "You are absolutely the key," Clifford said to those attending the meeting. He emphasized the importance of providing everyone the opportunity to give. Barch observed that whatever a person's political philosophy, there is still the obligation for the private sector "to pick up the slack" created by lack of public funding. He noted that 90 percent of what is given for the United Way goes directly into helping others.

UNITED WAY — Loaned Executive Yulonda Queen of American Security Bank, right, shows a 1988 poster to United Way coordinators Joy Brookbank, executive aide, GWTV, left, and Rosanne O'Hara, assistant registrar.

LIVE TELECAST TO FEATURE LLOYD ELLIOTT

The University's Continuing Engineering Education Program will present Lloyd H. Elliott, president of the National Geographic Society Education Foundation and president emertius, The George Washington University, in a one-day seminar titled "University Administration: Observations of a Lifelong Educator," on Tuesday, November 15.

Presented live in Washington, D.C., the seminar will be telecast nationwide via satellite for professionals in educational institutions, businesses, and government organizations. During the seminar, to be presented in one-hour segments, beginning at 11 a.m., Elliott will focus on the uniqueness of university administration, ways to strengthen the university and college academically, and the questions of what should be taught in the university today and what knowledge is of greatest worth. At the end of the seminar, there will be a 30-minute question and answer period. Viewers, both in Washington and at satellite sites will be able to address specific questions to Elliott.

For information and reservations, call Mauricio Velasquez at 48520.

BRIEFLY ...

Lisner at Noon will present pianist Myriam Teie and harpsichordist Gretchen Eliker in music of Scarlatti on Wednesday, November 2, at 12:15 p.m. in Lisner Auditorium. Admission is free.

The GWU Trio will offer a workshop on "The Piano in Chamber Ensemble" Saturday, November 5, from 3 to 5 p.m. in Room B-120, Academic Center. There is a charge. call 46245.

A Month of Music, presented by the Music Department in November, will begin with three events: GWU Troubadours Concert of close harmony and a capella favorites under the direction of Catherine Pickar on Saturday, November 5; GWU Community Orchestra in music of Britten and Beethoven ,William Wright, conductor, Sunday, November 6; and GW Faculty Trio with Mary Findley, violin; Marilyn Garst, piano; and Keith Fleming, cello in music of Haydn, Amram and Schubert, Monday, November 7. All three programs will be in the Marvin Theatre at 8 p.m. November 6, admission is free. On November 5 and 7, there is an admission charge. Call 46245.

New Directions XIII, an annual conference sponsored by the School of Education and Human Development, is scheduled for Saturday, November 5, from 8:30 a.m. to 12:45 p.m. in Funger Hall. Dean Leo D. Leonard will speak at 9 a.m. An open house for potential graduate students and two rounds of seminars will follow. Admission is free. Call 46160.

PROFESSIONAL ACTIVITIES

JOHN F. BANZHAF, III, professor of law, appeared on Crossfire, nationally televised on CNN, to debate Joseph DeGenova on the subject of Michael Deaver's sentence September 23; Crossfire, on cigarette ads ban July 9; WRC-TV, discussing the criminal proceeding against Carl Rowan September 30; Hello Henry Talk Show, WBT Radio, Charlotte, N.C., August 2; and the Morton Downey Show, July 26.

DONALD W. DEW, director of the Regional Rehabilitation Continuing Education Program, and research professor of psychology and behavioral sciences and of counseling, received the Rehabilitation Manpower Award of the Mid-Atlantic Region of the National Rehabilitation Association, on October 5. The award recognizes significant contributions toward rehabilitation of professionals.

RODERICK S. FRENCH, professor of philosophy, was the recipient of a Public Humanities Award in ceremonies held October 20 by the D.C. Community Humanities Council. The DCCHC is the "state" humanities council in the District of Columbia. French was a charter member and first chair of the Council.

EILEEN M. GUENTHER, studio instructor in organ, performed organ recitals in Wiesbaden, West Germany, in April and in Obidos, Portugal in May. She and trombonist ROY GUENTHER, associate professor of music, performed duo-recitals in Brazil in July in the Cathedral of Mariana, Minas Gerais. In June, Roy Guenther served as panelist and respondent at a Colloquium on Russian Folk Music at the Wilson Center for Advanced Russian Studies.

ALI M. KIPER, professor of engineering, presented a four-part seminar to the technical staff of the Goddard Space Flight Center's Applied Engineering Division. The topic was "Two-phase Flow Heat Transfer in Microgravity Environment." The award is presented for significant contributions in the professional preparation and upgrading of rehabilitation professionals.

PAMELA LeCONTE, director of the Collaborative Vocational Evaluation Program and lecturer in special education, received the Mary E. Switzer Award from the Mid-Atlantic Region of the National Rehabilitation Association October 5. This award is presented to a woman who has made significant contributions in the field of rehabilitation.

HENRY R. NAU, professor of political science and international affairs, was the keynote speaker at a conference held in Tutzing, Germany from September 29 to October 2 on "German-American Relations: Political Alliance and Economic Competition?" The conference was sponsored by the Association of German Protestant Academies and the Vesper Society Group. He also lectured at the America Haus in Munich September 28, the European Business School in Oestrich, Germany, October 4, and at the University of Paris V and the French Institute of International Relations in Paris October 5 and 6, respectively. His topic was "The Legacy of Reaganomics and the American Election."

LISA E. OSTERMAN, assistant professor of geology, presented two papers at a meeting on the "Geologic History of the Polar Oceans: Arctic versus Antarctic" held in Bremen, West Germany, October 10-14. The subjects of the papers were "Benthic foraminiferal biostratigraphy of Site 643 in the Norwegian Sea" and "Foraminifera from Glacial-marine deposits of Margurite Bay, Antarctica Peninsula" co-authored by Geology Department graduate student Matthew Cotton.

JERROLD POST, professor of psychiatry, political psychology and international affairs, spoke to the staff of the Cornell-Westchester Medical Center on the topic "Effects of Disability and Illness on Political Leadership" September 30. He also presented a paper October 15, at a symposium he organized, on the psychology of terror and terrorism for those attending the regional meeting of the World Psychiatric Association, in Washington, D.C. The topic of his paper was "Individual, Group and Organizational Psychology of Terrorism."

ANN ROMINES, assistant professor of English, presented papers at two conferences: at the National Willa Cather Symposium at Brigham Young University," *Sapphira and the Slave Girl*: The Daughter's Plot," September 17; and at a Colloquium on Literature and Film at West Virginia University, "'Oh my; I am the teacher': Laura Ingalls Wilder and the Frontier Schoolteacher," October l.

RICHARD H. SCHLAGEL, Elton Professor of Philosphy, attended a conference on "Bell's Theorum, Quantum Theory and Conceptions of the Universe," at George Mason University, October 21-22.

CARL STEINER, professor of German, a paper, "*Witiko* and *das sanfte Gesetz*: Stifter's Anti-Hegelian Concept of History," at the 12th Annual German Studies Association Conference, October 6-9 in Philadelphia, Pennsylvania.

SUSAN J. TOLCHIN, professor of public administration, testified before the House Foreign Affairs Committee, Subcommittee on International Economic Policy and Trade on September 14. She also testified before the Senate Budget Committee in a hearing on foreign investment in the United States , specifically the Bryant Amendment to the 1988 Trade Bill on March 22, and before the Senate Commerce Committee in a hearing on the same subject March 24. She testified before the Senate Appropriations Committee, Subcommittee on Labor, Health and Human Services, Education and Related Agencies on June 7. At the American Political Science Association, September 3, she spoke on "Foreign Capital and U.S. Debtor Status: The Federal Response."

STEPHEN J. TRACHTENBERG, president of the University and professor of public administration, addressed the Phi Beta Kappa Alumni Association of Greater Hartford on Friday, October 21.

INTERVIEWS

JOHN H. BANZHAF, III, professor of law, was interviewed by Tom Hendrick of Channel 5-TV on the Ed Meese case, July 19; interviewed and taped by Martin Lefkowitz, National Chamber Foundation on First Amendment Rights and advertising, August 15; and interviewed by Bob McDougal, WQBK Radio, Albany, New York on smoking bans across the U.S., July 25.

PERSONNEL NOTICES

First Recipient of Yakobson Graduate Scholarship Chosen

Lee Avrashov, a candidate for the Master of Arts in Russian/East European Studies in the Elliott School of International Affairs, has been selected as the first recipient of the Helen and Sergius Yakobson Graduate Scholarship in Russian and East European Studies.

Avrashov, born in Leningrad in 1960, left the Soviet Union with his parents and grandmother in 1976 when he was in the last year of high school. In 1978, he finished high school at High Point in Maryland. Entering the University of Maryland as an undergraduate, he transferred to the University of Colorado, where he received a Bachelor of Arts in East European /Soviet Studies in 1983. He says his main reason for studying Soviet affairs is for the purpose of possible benefit to United States policy. Fluent in English and Russian with a reading knowledge of Polish and Ukrainian, Avrashov hopes to go into government service and also into academic life. He became an American citizen in 1982.

The Yakobson Graduate Scholarship, established in 1987, provides that recipients will be limited to Russian emigres or defectors. The scholarship is awarded on the basis of financial need and excellent academic achievement or potential as determined by a selection committee of ESIA faculty appointed by the school's dean.

Helen Yakobson, professor emeritus of Russian, came to the University in 1951 as its first lecturer and teacher in the Russian language. Chairman of the Department of Slavic Languages and Literatures from 1953 to 1969, Yakobson was active in University life, serving on the Faculty Senate and faculty-student committees. Born in St. Petersburg, she migrated with her family to China in the wake of the Russian Revolution.

Arriving in the United States in 1938, she was associated with Columbia University and the Voice of America before joining The George Washington University. She is a past president of the American Association of Teachers of Slavic and East European Languages. In recent years, she has been a motivating force behind Litfund, a fund for the relief of Russian writers and scientists in exile. This year, she was chairman of the Washington-based Millennium Committee to mark 1000 years of Christianity in Russia.

Helen Yakobson, left, with scholarship recipient Lee Avrashov

Sergius Yakobson, born in Moscow, studied there and in Germany, where in 1926, he received a doctorate in history from the University of Berlin. Escaping the Nazis, he fled to England where he was associated with the University of London School of Slavonic and East European Studies from 1934 to 1940. The next year he came to this country on a grant from the Rockefeller Research Foundation to join the staff of the Library of Congress as a Fellow in Slavonic History. At the library, he served in positions of increasing responsibility, retiring in 1971 from the dual post of senior specialist in Russian affairs in the Legislative Reference Service and chief of the Slavic and Central European Division. Dr. Yakobson, who died in 1979, was seen as playing a principal role in broadening the horizons of scholarship in the Slavic and East European fields.

GRADUATE AND PROFESSIONAL SCHOOL DAYS — Merryl Silverman, left, Columbian College senior in economics, listens to Jane Scarborough, associate dean of Northeastern School of Law in Boston, Massachusetts, on October 26, the second of two days of Washington's 11th Annual Graduate and Professional School Fair, held in Marvin Center and attended by over 1,800 students who consulted with admissions representatives from universities nationwide.

President's Budget Advisory Team

Members of the President's newly appointed Budget Advisory Team include representatives of the faculty, the student body and the administrative staff.

Serving on the committee, under the chairmanship of Vice President for Student and Academic Support Services Robert A. Chernak are: Wayne Arden, third-year law student; Susan Bilsky, personnel projects coordinator, Personnel Services; Philip S. Birnbaum, dean for administrative affairs, The George Washington University Medical Center; Barkley Clark, professor of law; Margaret Cohen, assistant provost for institutional research; Charles E. Diehl, vice president and treasurer; Maurice A. East, dean of the Elliott School of International Affairs; Roderick S. French, vice president for academic affairs; Peter P. Hill, professor of history and international affairs; Arthur D. Kirsch, professor of statistics and of psychology; John W. Larsen Jr., professor of obstetrics and gynecology; Harold Liebowitz, dean of the School of Engineering and Applied Science; Robert D. Shoup, director of the budget; Raffi Terzian, Columbian College senior and president of The George Washington University Student Association; Susan J. Tolchin, professor of public administration; and Ann Webster, director of Housing and Residence Life.

The team, which has already begun its meetings, will be recommending to President Trachtenberg a process to be followed in the development of the fiscal year 1990-91 budget and will also be making specific recommendations to him of resources to address University goals and priorities.

In addition to the regular meetings of the committee, there will be two town forums scheduled, one each semester, where interested individuals from The George Washington University community will be able to ask questions about the budget process being developed. The town forums will also give members of the President's Budget Advisory Team an opportunity to learn first-hand from colleagues and students about the issues that concern them. The first of the forums will be held in early December.

Singers and Actors Sought for Martin Luther King Program

There is an opportunity for singers, actors and actresses to take part in the the Martin Luther King Jr. Birthday Memorial Service, now in preparation for Friday, January 13.

Singers for the King Ensemble will begin rehearsals this month. There will be two rehearsals weekly, beginning the week of November 14 — one at noon on Thursdays and one at 5:30 p.m. on Fridays. The first two rehearsals are Thursday, November 17, at noon and Friday, November 18, at 5:30 p.m. If you would like to sing with the ensemble or to have more information, call 47402.

Actors and actresses are needed to participate in a drama at the January 13 service. Professor Alan Wade, chairman of the Department of Communication and Theatre, is seeking persons interested in participating in this part of the service. If you are interested, call Professor Wade at 48072 to make an appointment for an audition. Those auditioning should bring a two-minute monologue.

University Policy on Adverse Weather Conditions

If October's rains brought a few questions to your mind about the University's policy on the days of snow and sleet to come, the Office of the Vice President and Treasurer has some answers for you.

Because of the nature of the University's services, as a general policy, the University will remain open despite local weather or travel conditions or other emergency situations.

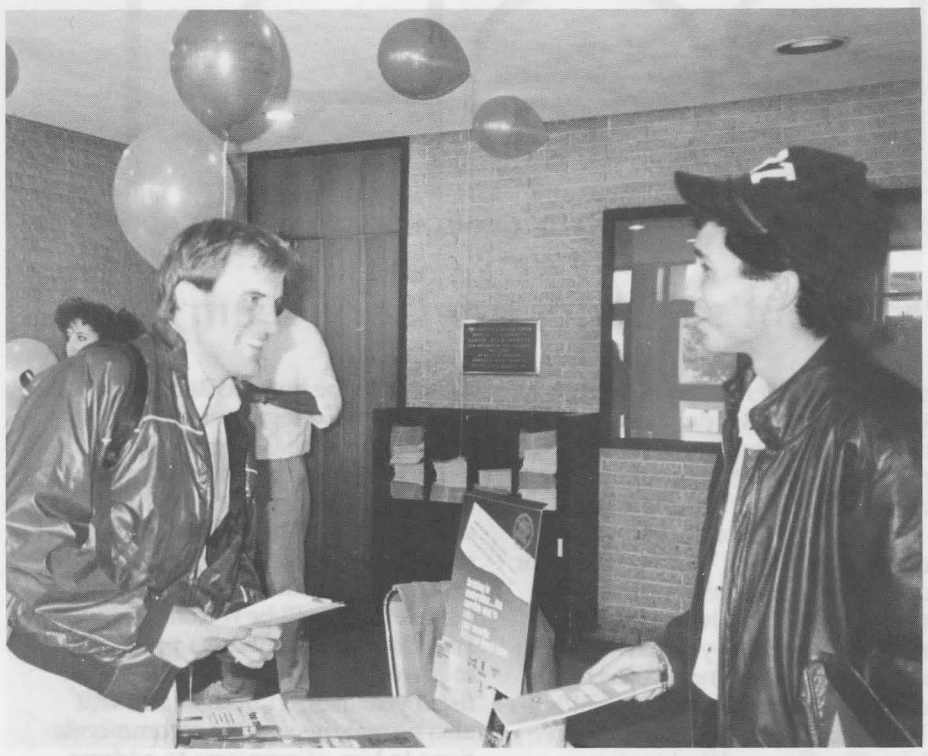
When conditions indicate, however, the University may take one or both of two actions: first, cancel academic classes; and second, invoke a liberal leave policy. The cancellation of classes does not mean that a liberal leave policy has been invoked, since certain services must be maintained at all times.

The decision to invoke a liberal leave policy will be announced by the Director of Personnel Services. If such a decision is made and you are at work, you will be notified by your supervisor. If you have not yet come to work, you will be notified by public announcements through local radio and television broadcasts. Among the radio stations that will carry information are WMAL-AM,WTOP-AM, WRC-AM and WASH-FM.

During adverse weather conditions, certain employees will be called "designated" employees. These are the ones who have been previously designated by their department heads as being needed to provide services. If you think you could be a "designated" employee, you will need to know this before the snow flies. It is best to check with your supervisor to make sure. Then you'll be ready.

The liberal leave policy means that employees may decide to use accrued annual leave without prior approval. Employees who are unable to remain at work or to report to work will be granted the use of accrued annual leave. Those with no accrued annual leave will be granted leave of absence without pay. If liberal leave is announced, each employee will need to notify his or her supervisor about his/her work status as soon as possible.

Employees in temporary positions, who are unable to remain at work or to come to work, will be excused without pay. With the approval of supervisors, such employees may remain at work or report to work and will be paid for the time worked. Temporary employees are also requested to notify supervisors regarding their work status as soon as possible.



ALCOHOL AWARENESS WEEK - R. David Flaig, SGBA junior, talks with volunteer Jon Lappin before signing a "Tough Enough to do Just Two" contract. 550 individuals from the University community signed the contracts as part of National Collegiate Alcohol Awareness Week, October 16-22.

PROFESSIONAL ACTIVITIES

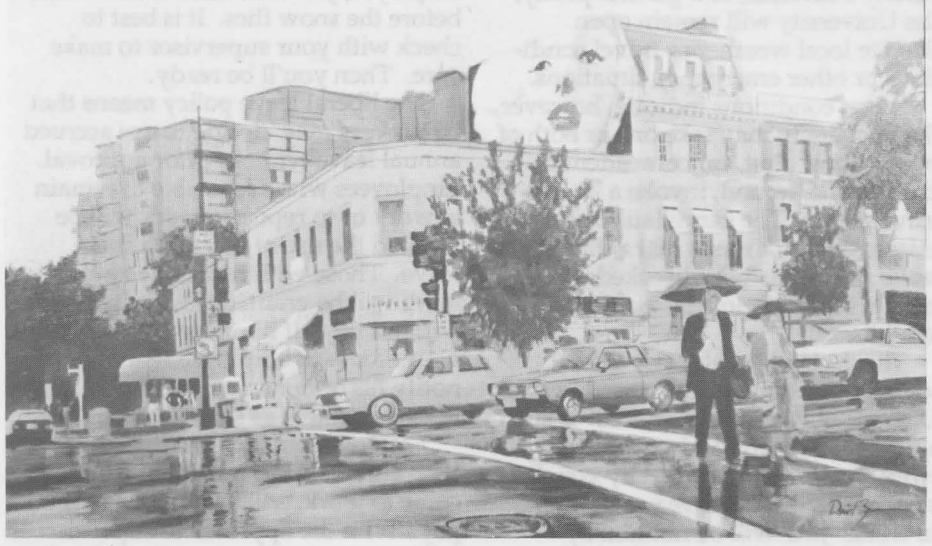
YONAH ALEXANDER, research professor of international affairs, was co-chairman of the International Inter-University Conference on "Future Trends in Terrorism" at Tel Aviv University, August 4. Alexander also participated in a conference on "The Uprising in the Terrorities: Causes and Media Coverage" at the Harry S. Truman Research Institute for the Advancement of Peace, Hebrew University of Jerusalem, August 17.

VICKI J. BAKER, director, Office of Student Financial Aid, and CLAIRE PAOLA, counselor, participated in the CASE/USA TODAY Financial Aid and Admissions Hotlines Program answering questions on financial aid from callers nationwide. The call-in program was coordinated by the Council for the Advancement and Support of Education as part of National Higher Education Week.

MAURICE A. EAST, professor of international affairs and political science and dean, Elliott School of International Affairs, gave the keynote address at the 20th Anniversary of the Center for Teaching International Relations (CTIR) at the Graduate School of International Studies of the University of Denver, October 7. The topic of his speech was "International Studies Education: From the 1960s into the 1990s." He was presented an award for his role as the founder and first director of the CTIR. East, also gave two speeches, one at the University of Wyoming, for the International Relations Program, October 11, titled, "Domestic Politics and Foreign Policies: Do Elections Matter?" and at James Madison University, Department of Political Science, October 14, "Superpowers and Small Wars."

DOUGLAS LASKO, telecommunications technician, Telecommunications Technical Services, hosted the first annual meeting of NUGATT. NUGATT is the user group for AT&T's ISN, STARLAN, and other data products. Representatives from universities and private industry across the United States and Canada attended. Lasko was also elected to the board of NUGATT.

FREDERIC R. SIEGEL, professor of Geochemistry, presented a paper, "Geochemistry Defined Excesses and Deficiencies of Trace Elements in Rocks, Soils, Vegetation and Waters - An Asset to Nutritional Epidemiology," April 14 , at the 29th Annual Meeting of the American College of Nutrition. The paper was published in the *Journal of American College of Nutrition*, Vol. 7, p. 412, 1988.



"Good-bye Norma Jean" oil on canvas 25"x37", by David Zimmerman is one of 47 art works on display in Dimock Gallery's GW Art Alumni Exhibition, which runs through Friday, November 11.

SUSAN TOLCHIN, professor of public administration, has been elected President of the National Capital Area Political Science Association and appointed a member of the Research Education Advisory Panel, General Accounting Office. She spoke at Bryant College, Rhode Island, October 13 on *Buying into America*, the book she authored with Martin Tolchin.

PUBLICATIONS

YONAH ALEXANDER, research professor of international affairs, editor of the 1987 Annotated Index and related documents to *Terrorism: An International Resource File*, published in Ann Arbor by University Microfilms International.

CHARLES F. BINGMAN, distinguished visiting professor of public administration, a book, *Japanese Government Leadership and Management*, (London: Macmillan Press Ltd., 1988); a chapter, "Revitalizing Federal Management", in *The Executive Presidency: Federal Management for the 1990s*, (Washington, D.C.: The National Academy of Public Administration, 1988).

DAVID S. BROWN, professor emeritus of management, Department of Public Administration, articles, "Effective Presidential Management: Some Suggestions," in *Government Executive*, November 1988; "The Professional's Responsibility for Productivity Improvement," in *The Bureaucrat*, Spring, 1988; and "The Causes and Effects of MIS Dysfunctions," Parts I and II in *Managing MIS Personnel*, September and October, 1988.

JOHN A. FREY, professor of Romance languages and JEAN-FRANÇOIS THIBAULT, associate professor of French, have contributed to the book, *Emile Zola and the Arts-Centennial of the Publication of L'Oeuvre* (Georgetown University Press, 1988). Frey's article is "The Artist as Failure - Two Brands of Naturalism: *Madame Sourdis* and *L'Oeuvre*", pp. 99-114. Thibault's article is "La Teinture en marche: académisme et modernité chez Claude Lantier", pp. 25-33.

INTERVIEWS

YONAH ALEXANDER, research professor of international affairs, was interviewed on terrorism by INN-TV, October 3; Cable News TV, October 4; WSVN-TV Miami, October 7; and Knight-Ridder.

C. DIANNE MARTIN, assistant professor of engineering and applied science, was interviewed by the *Economist*, a weekly newspaper in Irkutsk, Siberia, U.S.S.R., in June about the American educational system, particularly the college and university system.

SUSAN TOLCHIN, professor of public administration, was interviewed on the Diane Rehm Radio Show, WAMU-FM, October 14.

BRIEFLY ...

Traditional Persian Paintings by Mohammed Nasseripour go on display today in the Colonnade Gallery, third floor, Marvin Center, to remain through Friday, December 16.

Introduction to Entrepreneurship will be discussed by a representative of Arthur Young & Company on Wednesday, November 9, at 8 p.m. in Room 413 of the Marvin Center. The free event is sponsored by the University's Epsilon Sigma chapter of Beta Alpha Psi, national accounting fraternity.

"Ledge," a full evening's concert of dance, a mythic journey set to new music by Michael Willis with Maida Withers and John Lancaster performing, will be presented in the Marvin Theatre Saturday, November 12, at 8 p.m., and Sunday, November 13, at 7:30 p.m. Call 48072.

PERSONNEL NOTICES

SENIOR RESEARCH SCIENTIST, full-time, Radiological Sciences and Technology. (Individual will direct and supervise a molecular pharmacology laboratory studying neuroceptors by radioligand binding, biodistribution and autoradiography. Ph.D. and a strong background in medicinal chemistry is required. NIH/DOE funding.) Send resume to Geri Rosen, Grants Manager, Radiological Sciences and Technology, The George Washington University Medical Center, 2300 Eye Street, N.W., Room 708, Washington, D.C. 20037.

MOLECULAR BIOLOGIST, full-time, research position at post- doctoral level, Institute for Disease Prevention. (Individual will conduct studies on colon carcinogenesis involving situ hybridization, western and northern blotting, immunocytochemistry and flow cytometry.) Call (202) 994-2482 or write immediately to: Oliver Alabaster, M.D., Institute for Disease Prevention, Suite 421, Ross Hall, The George Washington University, Washington, D.C. 20037.

RESEARCH ASSISTANT, full-time, The George Washington University Biostatistics Center. (Microcomputer specialist to be responsible for system application development on IBM or IBM compatible PCs for a medical research center. Will assist end users with system design and development, analysis and programming, communications, network structuring, maintaining data bases and evaluating hardware and software products. B.S. in computer science and two years related experience required.) Send resume to Charles Harris, The George Washington University Biostatistics Center, 6110 Executive Boulevard, #750, Rockville, Md. 20852.

The George Washington University is an equal opportunity/affirmative action employer.

CORRECTION -- In the *GW Report* of October 31, University Trustee William H. Cooper was wrongly identified as clinical professor of obstetrics and gynecology. He is professor emeritus of clinical obstetrics and gynecology, having received emeritus status in May of this year. *GW Report* regrets the error.

Editorial Assistant for the *GW Report* is Shirley A. Bernardin.

CAMPUS WALK VIEW

Architect's rendering of The George Washington University Northern Virginia Campus

George Washington University to Build Northern Virginia Campus

The University will be expanding into Northern Virginia, President Stephen Joel Trachtenberg announced November 9. A favorable vote by the Loudoun County Board of Supervisors on rezoning property for a University Center project clears the way for the establishment of the Northern Virginia campus.

At its November 7 meeting, the Loudoun County Board of Supervisors voted seven to one to rezone a 576-acre property slated to be a mixed-use development with the George Washington University campus at its center. Located at the intersection of Route 7 and Route 28, University Center is a joint project of the University, the Charles E. Smith Companies and the Michael J. Swerdlow Companies.

In the initial stages of development, the new campus will offer professional and graduate programs and provide new facilities to support University research programs. To start, a 70,000-square-foot facility for classrooms, laboratory space, a library and administrative offices will be built. Classes are expected to open in 1991.

Plans for the Research Center include establishing a George Washington University Center for High Technology, which will focus on enhancing the region's industrial competitiveness by merging academia with industry for joint research and development programs.

"We are immensely appreciative of the support for The George Washington University Northern Virginia Campus by the Loudoun County Board of Supervisors," Trachtenberg said. "Together, we have the opportunity to create a dynamic graduate education and research center which will attract top scientists, teachers and students, while contributing greatly not only to its home community but to America's competitiveness as well," he added.

The developers provided a gift of 50 acres of land for the University campus and research center, an option to purchase an additional 79 acres for future expansion, and a permanent 20 percent income participation in endowment in the proceeds of the development, which must be reinvested in the Northern Virginia Campus in Loudoun County.

Trachtenberg said, "The University Center project represents a first step in our partnership with the private and public sectors." University Center combines a major university with the high technology interests of some of the world's leading corporations and incorporates Loudoun County's own new vision statement.

"The University Center takes the academic, research and scholarly talents of an extraordinary University faculty and puts them in new laboratories and classroom facilities adjacent to offices and activity of high tech companies of industry and commence in a way that will serve scholarship, students and Loudoun County and the District of Columbia, and transcending all of those, will serve America," Trachtenberg said.

The project includes 321 acres for research and development, office and retail uses, 52 acres for residential uses, and 123 acres for open space. Provisions have been made for affordable housing, ample common areas and significant transportation improvements. Some $18 million in regional road improvements will be provided by the developers in accordance with a comprehensive phasing program designed to keep improvements in pace with the development of University Center.

UNIVERSITY CENTER

Secretary of State Shultz Receives Statesman Award

Secretary of State George P. Shultz received the second annual Statesman of the Year Award from The George Washington University School of Government and Business Administration at a November 9 luncheon in the Marvin Center ballroom. The event was co-sponsored by the National Law Center.

Andrew Kolaitis, chairman of the SGBA Alumni Association, presented the award, a crystal elephant, its trunk upraised "for good luck," with an appropriately engraved crystal cube, designed to serve as a base. The accompanying citation praised Shultz's "vision and leadership" and took note of his accomplishments and service as Secretary of State, Secretary of Labor, Secretary of the Treasury and Director of the Office of Management and Budget as well as his "superb negotiating skills" in the work done on the INF treaty with the Soviet Union, his "persistent influence and guidance to help move foreign forces out of Afghanistan, Cambodia and Angola" and "his strong commitment in working for political rights and human freedom around the globe."

Shultz, in a brief response, noted that a university that combines attention to business and government with help from the law school "is in a sense the combination that I have grown up in." For that reason, he said, he was especially appreciative of the award. He expressed the opinion that the concepts and experiences that are before people who are in business schools turn out to be very useful, commenting that this has been true in his own career in business and government.

"It always strikes me how important it is to have in your life an attitude of learning," Shultz continued. Quoting George Burns' remark, "You can't help growing older, but you don't have to grow old," he pointed out, "You've got to stay engaged and that means learning." Management, he said, to a certain extent is similar to teaching and, in his career he has tried "to create an environment where people learned." " If you can create a lively learning environment," he said, "that's an environment people really enjoy and benefit from. If people feel 'I'm learning something here and I'm part of this process,' then you've got a hot outfit . . . . Then you're bound to see things happen."

In addition to his government service, Shultz, a graduate of Princeton University and the Massachusetts Institute of Technology, taught at M.I.T and the University of Chicago, where he was named dean of the Graduate School of Business. From 1974 to 1982, he was president of the Bechtel Corporation and a director of Bechtel Group, Inc. He became the 60th United States Secretary of State in July, 1982.

SECRETARY OF STATE George P. Shultz, left, speaks after receiving the SGBA Alumni Association's Statesman of the Year Award, as (l to r) Acting SGBA Dean Ben Burdetsky, Jo Anne Friedenthal, President Stephen Joel Trachtenberg, SGBA Alumni Association Chairman Andrew Kolaitis, NLC Dean Jack Friedenthal, Francine Zorn Trachtenberg and George Washington Law Alumni Association President Joseph L. Brand and many others listen.

Benjamin DeMott to Speak on "Politics and the Right Conduct of Mind"

Benjamin DeMott, a 1949 George Washington University graduate (B.A. English), now Mellon Professor of Humanities at Amherst College, will deliver this semester's lecture in the University's Distinguished Alumni Scholar Series.

His topic is "Politics and the Right Conduct of Mind." He will speak Wednesday, November 16, at 3 p.m. in Marvin Center, Rooms 402-404.

DeMott, Danforth Award-winning teacher, essayist, novelist and commentator, has taught at Amherst since 1951. He is the author of four volumes of critical essays, two novels, and several hundred articles and reviews that have appeared in *The Atlantic, Harper's, New York Times Book Review, New York Review of Books, Esquire, TV Guide, Partisan, Hudson* and *Kenyon Reviews* and many other journals here and abroad. His most recent book is *Close Imaging* (1988).

Professor DeMott's lecture is sponsored jointly by the Office of the Vice President for Academic Affairs and the Department of English. Admission is free and a reception will follow the lecture.

This is POW/MIA Awareness Week

The Navy ROTC Unit at the University is sponsoring a series of events this week, November 14 through 18, which has been designated POW/MIA Awareness Week. Admission to most events is free.

Monday, November 14, there will be an 8 p.m. showing of the film "Hanoi Hilton" in Funger Hall, Room 103. Just before the film, at 7:30 p.m. there will be comments by Darlene C. Caldwell a concerned citizen, and Robert I. Randall, a former POW at the Hanoi Hilton, the name given to the Northern Vietnamese prison where United States servicemen were held. There is a $1.00 charge.

Tuesday, November 15, there will be a screening of the BBC documentary "We Can Keep You Forever" at 8 p.m. in the George Washington University Club.

Wednesday, November 16, a panel discussion on the question, "What is being done to account for the 24,387 American Servicemen listed as missing in Southeast Asia?" is scheduled for 8 p.m. in Funger Hall, Room 103. Moderator will be RADM Robert H. Shumaker, USN (Ret.), who was a POW for eight years and one day. Panelists are expected to include Col. Joseph Schlatter, USA, chief of the Defense Investigative Agency's Special Childress, Director of Asian Affairs, National Security Council; Ann Mills-Griffiths, Executive Director, National League of Families for POWS and MIAs; and Representative Robert Dornan (R-CA).

Thursday, November 17, CDR Everett Alvarez, USN (Ret.) will give the week's keynote speech, "The Essence of the POW Experience," in Funger Hall, Room 108, at 7:30 p.m. Alvarez was the first American taken prisoner in Vietnam.

Friday, November 18, the closing ceremony will be a wreath laying at the Tomb of the Unknown Soldier at Arlington National Cemetery at 8:30 a.m., followed by closing remarks at 9 a.m. by RADM Robert H. Shumaker, USN (Ret.) in the Arlington National Cemetery Amphitheater. Shumaker joined the University in September as assistant dean for off-campus programs in the Division of Continuing Education.

Adverse Weather Information Number

There is now a University phone number — 994-5050 — which will provide a recording giving our operational status during periods of adverse weather. As many as 10 callers can be listening to the recording at one time. The number is meant to be the primary means of providing information when the weather is bad. If you don't get information from radio or TV telling you what you need to know, call 994-5050 for your fifty-fifty chances.

PROFESSIONAL ACTIVITIES

CHARLES F. BINGMAN, distinguished visiting professor of public administration, addressed the annual conference of the National Assistance Management Association, October 3 in Washington, D.C., on the subject "Assistance Management in the Nixon/Ford Administrations."

DONALD DRIVER, director of International Student Services has been elected to serve as the 1988-89 Chairman of Region VIII for the National Association for Foreign Student Affairs. The Association has 5,000 members and is the largest professional membership association concerned with the advancement of effective international educational exchange in the world. Regional VIII consists of the District of Columbia, Delaware, Maryland and Virginia.

JOHN EFTIS, professor of engineering and applied science and adjunct professor of applied mathematics, received an ASEE-Navy Summer Faculty Research Associateship (1988), at the Naval Research Laboratory, Washington, D.C. for studies involving shock-induced spall fracture.

JAMES F. FOLEY, professor of engineering and applied science, gave the keynote address at the Bellcore's First Annual Symposium on End-User Computing, November 3. His topic was "The Inside and Outside of End-User Computing: The Evolution of Tools and Paradigms."

JOSEPH L. GASTWIRTH, professor of statistics and economics, presented a seminar on "Statistical Reasoning in Legal Cases" at Oxford University, October 27. He also participated in a panel discussion on "Statistics in the Law" sponsored by the Washington Statistical Society, October 17, as part of a special seminar series celebrating the sesquincentennial of the American Statistical Association.

YOUNG-KEY KIM-RENAUD, associate professor of Koren language and culture, presented a paper, "The Rise and Demise of the Vowel i," at the Sixth International Conference on Korean Linguistics, at the University of Toronto, July 21-23. She was also one of the invited representatives from nine countries at the international linguistics conference commemorating the 80th anniversary of the Korean Language Society, one of the oldest linguistic societies in the world.

CHRISTINE MELONI, assistant professor of English as a foreign language, spoke at the Regions IX and X Conference of the National Association for Foreign Student Affairs held in Philadelphia, November 1. Her topic was "Contrasting the Learning Styles and Attitudes of Japanese and Korean Students in the Classroom."

KATHRYN NEWCOMER, professor of public administration, was elected to the Executive Council of the National Association of schools of Public Affairs and Administration October 28. She was also elected to the Executive Council of Pi Alpha Alpha, which is the honorary society for Public Administration in January. Newcomer attend the annual conference of the National Association of Schools of Public Affairs and Administration in Atlanta, Georgia October 20-23.

DONALD E. RICKERT, director of the Computer Information & Resource Center, was chair of the session "The Computer and the Soul: Dehuminization& Educational Responsibility," at the EDUCOM '88 Conference held in Washington, D.C. October 25-28.

PUBLICATIONS

PETER CAWS, University professor , a book, *Structuralism, The Art of the Intelligible* (New Jersey: Humanities Press International, Inc., 1988).

HERBERT J. DAVIS, professor of business administration, an article, "Values Research and Managerial Behavior: Implications for Devising Culturally Consistent Managerial Styles," in *Management International Review*, Vol. 28, No. 3m 1988, pp. 11-20. The article was co-authored with S. Anvaar Rasool, Chase Manhattan-Karachi.

JOSEPH L. GASTWIRTH, professor of statistics and economics, a book, *Statistical Reasoning in Law and Public Policy*, Vol. 1, *Statistical Concepts of Fairness* and Vol. 2, *Tort Law, Evidence, and Health* (Academic Press, 1988).

RICHARD H. SCHLAGEL, Elton Professor of Philosophy, an article, "In Search of Physical Reality," in *Einheit in der Vielfalt: Festschrift für Peter Lang zum 60. Geburtstag*, Bern, 1988.

KLAUS THOENELT, professor of German, "Hans Carossa (1878-1956)," in Dictionary of Literary Biography, Vol. 66, Part 1, James Hardin, Ed., Gale Research Co., 1988, pp. 65-73.

ROBERT H. WALKER, professor of American civilization, a chapter," 'We are all a little wild here...': the Everyday Life of Reform" in *Vormals Jahrbuch für Amerikastudien*, Vol. 32, pp. 209-215, 1988.

INTERVIEWS

WILLIAM C. ADAMS, professor of public administration, was interviewed by Reuters News Agency, Gillette Washington News Bureau, and the Swedish National Radio program "Good Morning, World," on the role of TV in the presidential campaign on October 10. He was also interviewed on Septebmber 26 by WHUR radio, Mutual Radio network, the *Washington Post*, the *Miami Herald*, the *Philadelphia Inquirer*, WRC-TV, Kyodo News Service of Japan, and Copley News Service on the first presidential debate. Adams was quoted in the *New York Times* on October 15 and 17 on the second presidential campaign debate. He was interviewd October 19 on Dukakis' standing in the polls.

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

Francine Trachtenberg Honored by University of Hartford

George Washington University's first lady, Francine Zorn Trachtenberg, was honored by the University of Hartford Alumni Association as the 1988 Honorary Alumna of the Year at the association's awards dinner November 4. One individual is so honored annually.

The honor recognizes the impact of the recipient on the past, present and future of the University of Hartford as well as professional, personal, civic and philanthropic pursuits in accordance with the high standards and values associated with that university and with higher education.

Francine Trachtenberg's "spirit of collegiality, her striving for quality in all of her undertakings, her teaching, lecturing and artistic abilities, her special talents and work with capital projects" were highlighted in the remarks of Hartford Alumni Association president Ben Kaplan. He also saluted her as a role model for professional women.

13th Annual Pride Day Observed, Awards Made

At a 6 a.m. breakfast in The George Washington University Club on November 10, the Housekeeping Department's 13th Annual Pride Day awards were presented. President Stephen Joel Trachtenberg expressed his appreciation for the department's work and his pleasure at meeting members of the staff. He emphasized the importance of housekeeping's work to the University as a whole.

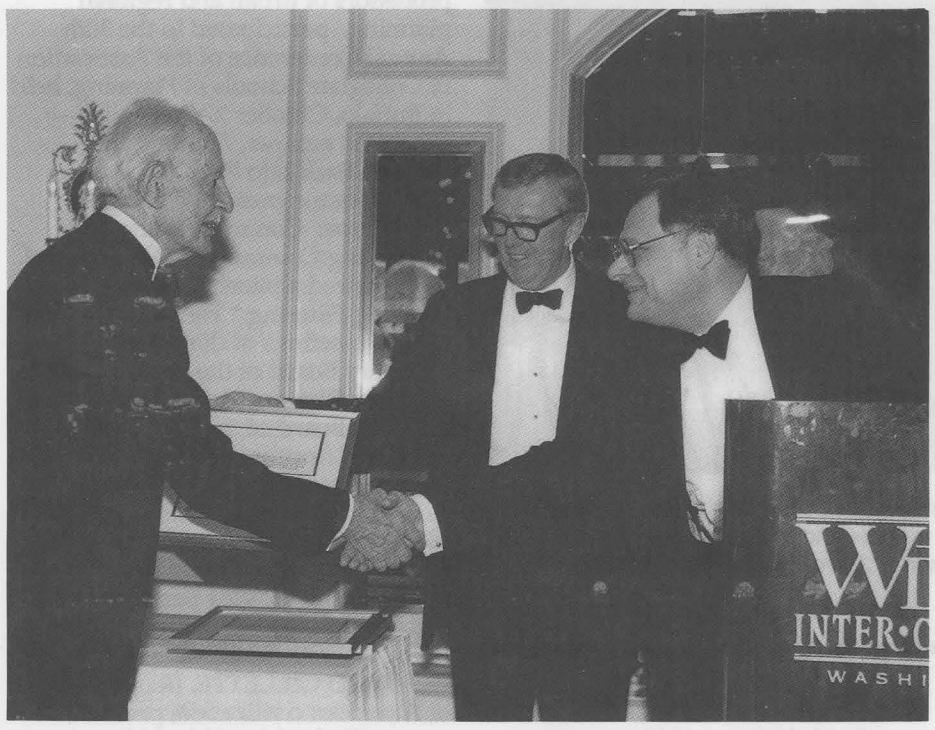
Awards went to six in the Clean Equipment Contest. Winners were: David Kelly, Medical Center, day shift; Joann Hendrick, Residence Halls; Patience Berko, Main Campus, day shift; Edward Brown Jr., East Campus, night shift; Terry Neal, North Campus, night shift; and Joe Bonner, Medical Center, night shift.

Special presentations from the Housekeeping Department were made to four individuals. President Trachtenberg received a carpet care kit. Vice President and Treasurer Charles E. Diehl and Vice President for Facilities Robert E. Dickman each received auto care kits. Physical Plant Department Director Robert F. Burch received a pet care kit.

More than 200 attended the annual event.

Holiday Dates Reminder

The dates for this year's Winter Holidays are Friday, December 23, Monday December, 26; Friday, December 30 and Monday, January 2.



LUTHER RICE SOCIETY — President Stephen Joel Trachtenberg, right, recognizes Oscar I. Dodek Sr., left, as one of the 1821 Associates while University Trustee Thaddeus A. Lindner, chair of the Luther Rice Society, looks on. The November 9 dinner marked the society's 20th anniversary.

Trachtenberg Speaks to Luther Rice Society

In a speech to members of the Luther Rice Society November 9, President Stephen Joel Trachtenberg shared his "personal vision" for the future of the University and outlined steps for its fulfillment.

The major reason for his decision to accept the presidency, he said was "the sense of living, glowing, throbbing opportunity that seemed to come pulsating from the walls themselves."

Noting that The George Washington University has been built into an institution that covers the full range of modern professions and disciplines "in ways that are deeply interconnected with its presence here in Washington, D.C.," Trachtenberg observed that "a university like ours with well-developed international connections, and a location in the heart of our nation's capital, is a university positioned to become a role model for many other institutions of higher education in the United States and abroad."

"With your help," the president told his audience of some 400 alumni and friends who are major donors, "two things will be done. We will bring the good news about The George Washington University to every part of this country and other nations and undertake the long and arduous task of making that good news even better. . . . To the extent that we've kept our light slightly hidden under a bushel, we're going to do away with the bushel. To the extent that we've hesitated to move forward with exciting projects and new approaches to the international arena of knowledge, we'll move forward just slowly enough to make sure we keep our books balanced and just quickly enough so that no one can accuse of us of being shy. That's the vista I offer you as the new president of this splendid school. . . . Let's show the world what we can do."

Free Hearing Screening to be Offered December 1st

The Department of Speech and Hearing and The George Washington University Speech and Hearing Center are sponsoring a University-wide Hearing Screening Day on Thursday, December 1. Free screenings will be given between 9 a.m. and 4 p.m. in Room 107, Funger Hall, 2201 G Street, N.W. Students, faculty, staff, alumni and friends will be welcome. For further information, call 47367.

Elliott Telecast Discussion Ranges Wide

During the November 15 satellite telecast which featured President Emeritus Lloyd H. Elliott, questions ranged from the campus disturbances of the late '60s, to the declining numbers of minorities in colleges and universities, to ways to strengthen a university. The one-day telecast, sponsored by the University's Continuing Engineering Education Program and originating in the studios of GWTV, presented Elliott, now president of the National Geographic Society Education Foundation, in a seminar titled "University Administration: Observations of a Lifelong Educator."

The teleconference was beamed to 12 sites in the United States and Canada.

L. Thompson Bowles to Speak First Wednesday

"The Biology of Aging" will be the topic addressed by L. Thompson Bowles, professor of surgery, acting vice president for medical affairs and dean of The George Washington University Medical Center for Academic Affairs, in December's First Wednesday Lecture, sponsored by the Alumni Relations Office. He will speak at 8 p.m.in the Continental Room, Marvin Center, third floor. Dinner, for both members and non-members of the University Club, will be served before the lecture beginning at 6:30 p.m. Admission is free, but call 46435 for seating.

Three Events Planned by Music Department

Upcoming events sponsored by the Music Department will offer a musical ensemble, choral music, and a piano recital.

Robert Parris, professor of music for 25 years at the University, will appear in a retrospective concert of his work with five other musicians on Monday, November 28, at 8 p.m. in Marvin Theatre.

The program will include Four Early Songs, Second String Trio, Sonata for Solo Violin, and The Raids, 1940. The musicians who will appear with Parris are: Elizabeth Small, violin; Nina Falk, viola, Steven Honigberg, cello; Marilyn De Reggi, soprano; and Edward Newman, piano. Parris himself will also perform on the piano.

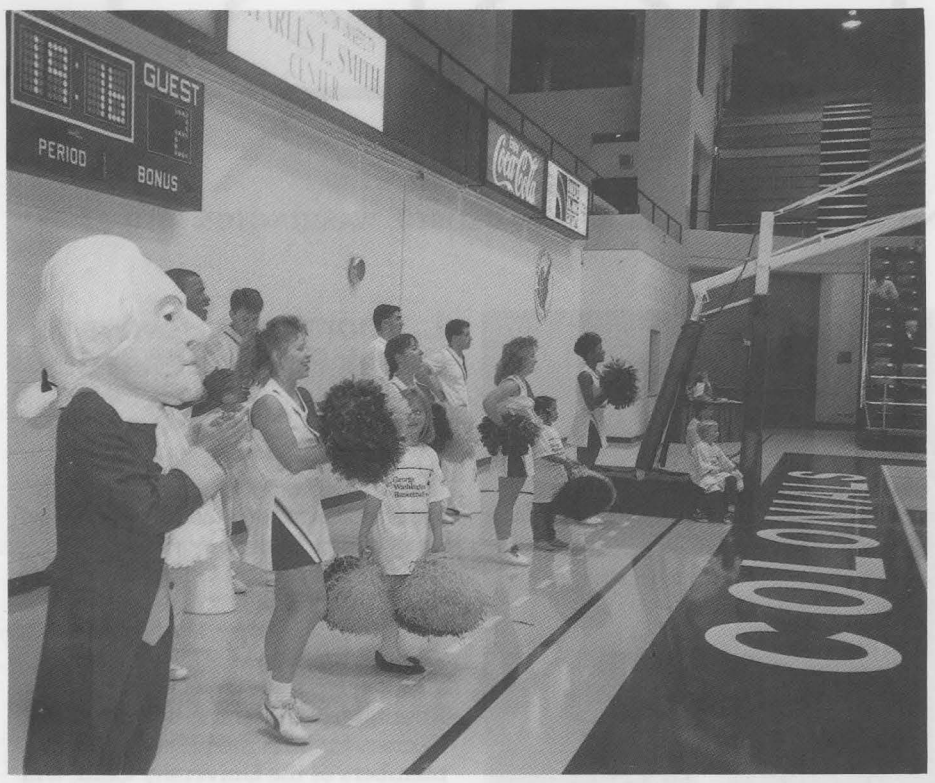
The George Washington University Singers will present their annual winter concert and "Messiah" Sing-Along on Friday, December 2, at 8 p.m. in Marvin Theatre. The free program will include works of Brahms, Mendelssohn, Britten and Hayden, in addition to Handel.

Marilyn Garst, adjunct associate professor of music, will appear in a piano recital, sponsored by the Greek Student Club, "Kosmos," with the cooperation of the Department of Music, on Saturday, December 3, at 8 p.m., in Marvin Theatre. The program will include works of Greek contemporary composers working in the classical style.

BRIEFLY ...

Dean Maurice A. East of ESIA will lead the Round Table dinner discussion at The George Washington University Club on Tuesday, November 29, at 5:30 p.m. The topic will be "The International Situation Facing the new Administration." Call 46610 for reservations.

(Continued on back...)



GEORGE AND FRIENDS — A George Washington with a heroic-sized head and The George Washington University Cheerleaders will greet those attending the November 26 opening basketball game of the 1988-89 season at 2 p.m. in the Charles E. Smith Center when the Colonials meet Yale University.

Briefly *(continued from front)*

President Stephen Joel Trachtenberg will be the honored guest and speaker at the December 1 meeting of the D.C. Chapter of the George Washington Law Alumni Association to be held at noon in the National Lawyers Club. For more information, call 46420.

Jane Shore, poet and winner of the 1986 Lamont Poetry Prize, will read selections from her work as part of the reading series sponsored by the Jenny McKean Moore Fund and the English Department, on Thursday, December 1, at 8 p.m. in Room B-120 of the Academic Center. Admission is free.

Professor of Public Administration Susan J. Tolchin will speak at The George Washington University Club on Monday, December 5, at noon. The event is part of the club's Speaker Series. Call 46610 for reservations.

Auditions will be held by the Department of Theatre and Dance for presentations of *Crimes of the Heart* by Beth Henley and *The Dining Room* by A.R. Gurney Jr. on Monday and Tuesday, December 5 and 6, at 7 p.m. in Marvin Theatre. Call 48072.

JEFFREY D. ROSENDHAL, visiting professor of international affairs, the lead editorial, "The American Space Program: Flagship Under Sail or in Drydock" in the October 1988 issue of *Space World*.

ALAN WADE, associate professor of theatre, edited Volume 8 Numbers 1 and 2, *Literature in Performance*, a journal of literary and performing art, November 1988.

PROFESSIONAL ACTIVITIES

WILLIAM BACK, adjunct professor of geology, was honored by the Hydrogeology Division of the Geological Society of America at the 100th Annual Meeting of the GSA, October 30-November 3, in Denver, Colorado. He was presented the Award for Distinguished Service in Hydrogeology at the Annual Awards Ceremony of the Society.

MARCUS CUNLIFFE, university professor, presented a paper on "James Bryce and Anglo-American Convergence," at a British Academy colloquium in London, held October 15 to commemorate the centenary publication of Bryce's *American Commonwealth*. Cunliffe acted as chair and commentator on four papers at a session of the annual conference of the American Studies Association in Miami Beach, October 30. The theme of the session was "The Hegemony of the Center: How Mainstream Intellectuals Frame the Controversial in Art, Culture, and Politics."

STEPHEN S. FULLER, SHERWIN GREENE, and DENNIS E. GALE, professors of urban and regional planning, participated in the 30th Annual Conference of the Association of Collegiate Schools of Planning, held in Buffalo, October 27-30. Fuller presented a paper, "Putting the 'Future' Back into Planning Education,"; Greene presented a paper, "Cityshape: Communicating and Evaluating Community Design"; and Gale chaired a panel on "Accelerating Housing Filtering." He also attended annual meetings of the Editorial Advisory Board of the *Journal of the American Planning Association* and the Editorial Board of the *Journal of Planning Literature*. He is a member of both organizations. The Planning Accreditation Board met during the conference and approved the Department's application for accreditation for the six-year period July 1987 to July 1993.

HOWARD GILLETTE, JR., professor of American civilization, presented a paper, "Rethinking Urban History: New Directions for the Post-Urban Era," at the 13th annual meeting of the Social Science History Association in Chicago November 5. He also commented on a panel of Cuban Americans discussing their assimilation in America at the American Studies meeting in Miami October 30.

CAROL D. HOLDEN, dean of the Division of Continuing Education, gave two presentations at the Region I meeting of the National University Continuing Education Association at the New England Center for Life Long Learning on the campus of the University of New Hampshire, October 14. The talks were "Marketing Paradise: It's Not a Matter of Large or Small" and "Marketing Without Research is a Road to Nowhere." Holden was recently elected to the Board of Directors of the Association for Continuing Higher Education at a national conference in Salt Lake City on November 2.

EUGENE W. KELLY, JR., professor of counseling and human services, presented a paper, "Religion in Marriage and Family Therapy: A Review and Analysis of the Mainline Journal Literature," October 28, at the 46th Annual Conference of the American Association for Marriage and Family Therapy, in New Orleans.

RICHARD LONGSTRETH, professor of architectural history and director of the Graduate Program in Historic Preservation, gave a paper, "The Seminal Role of Washington, D.C., in the Development of the Planned Shopping Center" at a conference on "Americans and the Automobile." The conference was co-sponsored by the Society for Commercial Archaeology and the Henry Ford Museum at Dearborn, Michigan, on November 5. Longstreth received a preservation award from the Art Deco Society of Washington for outstanding contributions to the society's historic preservation efforts in the areas of scholarship and strategy on Octrober 15. He has also been nominated vice president of the Vernacular Architecture Forum.

RAYMOND L. PICKHOLTZ, professor of engineering and applied science, gave a talk on "Array Processing" and chaired the session on "Performance of Spread Spectrum Systems" at MILCOM '88 in San Diego, October 24-26. He also gave a talk on "Message Authentication in Networks" at the International Conference on Computer Communications, October 29 in Tel Aviv.

JEFFREY ROSENDHAL, visiting professor of international affairs, presented colloquia on "Will the Universities Have the Same Role to Play in the Space Science Program in the Future as They Have in the Past," at the John Hopkins University, October 17; the University of Colorado, Center for Space & Geoscience Policy, October25; and the University of Wyoming, October 26. Rosendhal presented a public lecture on "The Exploration of the Solar System" at the University of Wyoming on October 26. He was appointed a member of the Editorial Advisory Board of the *Journal of the British Interplanetary Society* and is currently serving as a member of an ad hoc committee of the NASA Advisory Council which is planning a study of the future of NASA and the universities.

GEORGE C. STEPHENS, professor of geology, presented a paper, "Shear Zones in Marble: Observations on the Zero Fault, Sterling Hill Mine, Sussex County, New Jersey," at the 100th Annual Meeting of the Geological Society of America, November 1, in Denver, Colorado. He also co-authored a paper presented by Gunnar Schlieder entitled, "Potassium/Argon Ages and Evidence for at Least Four Plio/Pleistocene Glaciations in the Northern Patagonian Andes, Argentina."

INTERVIEWS

JOHN H. BANZHAF, III, professor of law, was interviewed by Alan Gold of the *New York Times* , for an article, "One State Says No Smoking for Police and Fire Departments" October 2; and Bill Starks, News 4-TV on the Carl Rowan case, September 30.

ROBERT DUNN, JR., professor of economics, was interviewed October 17 for U.S.I.A. on the subject of the LDC debt crisis that ran on Channel 7 in Manila on "Viewpoint." Portions of the interview were also run on the Phil-Am Focus radio program.

LANCE J. HOFFMAN, professor of engineering and applied science, was interviewed on the CONUS Newss Service on problems with security in computerized vote counting. CONUS services approximately 85 television stations around the country. He was interviewed on computer viruses and election security on November 8 by radio station WMAL and was a guest on the Mike Cuthbert show on WAMU discussing the same topics.

Editorial Assistant for the *GW Report* is Shirley A. Bernardin.

L. Thompson Bowles Named Vice President For Medical Affairs

L. Thompson Bowles has been appointed vice president for medical affairs and executive dean of The George Washington University Medical Center.

In making the announcement November 28, President Stephen Joel Trachtenberg said, "Dr. Bowles is absolutely first-rate. He is an enthusiastic and dedicated professional with an exceptional grasp of the medical community. I think we are most fortunate to have him, and I am excited about the prospects for the Medical Center."

Bowles, a member of George Washington's Medical Center faculty for 18 years, has served as dean of academic affairs for 12 years and as acting vice president for medical affairs since July 1987.

"I feel very honored to be selected as Vice President of the George Washington University Medical Center," said Bowles. "The Medical Center will continue its progress in serving the Washington community and increasing its considerable prominence as a research-intensive institution which educates physicians for all parts of the United States."

A cardiothoracic surgeon, Bowles came to George Washington in 1970 as clinical assistant professor of surgery. In 1973, he was named associate professor of surgery and associate dean for curricular and student affairs, and in 1976, dean and professor of surgery. He also serves as president of The George Washington University Health Plan and Executive Committee Chairman of the Governing Board of the University's Medical Faculty Associates.

Bowles was in private practice in New York during the 1960s and has established a distinguished record of scholarship and teaching that now spans more than 25 years. He has been a member of the faculties at New York University, Baylor University Medical School and Cornell University Medical College.

His previous professional positions include serving as director of medical education for Project HOPE and director of the Division of Curriculum and Instruction for the Association of American Colleges.

Author of some 40 articles in technical and professional medical journals, he has served as editor of two books on medical curricula. Many of his articles and professional presentations focus on issues in medical education such as curriculum, teaching basic medical sciences, aging and extended care for the elderly, federal policies and ethics.

Bowles has received considerable recognition nationally for leadership and service to the medical profession. He is chairman of the National Board of Medical Examiners, and, in October, was inducted into the National Academy of Science/Institute of Medicine. He was recently voted chairman-elect of the Council of Deans of the Association of American Medical Colleges.

Former chairman and currently a member of the editorial board of the *Journal of Medical Education*, he also serves as a senior member of the American College of Surgeons Committee on Continuing Education, a member of the Special Medical Advisory Group for the Veterans Administration and has been chairman of the Dean's Committee for the Veterans Administration Hospital.

He has addressed issues in health research and education before the Senate Appropriations Committee for Llabor, Health and Human Services and Education, and members of the House of Representatives. He served as special consultant to the White House Conference on Aging, chairman of the Board of Regents of the National Library of Medicine and representative to the National Institutes of Health Advisory Council.

A leader in a number of local and professional organizations, Bowles is active in the Society for Thoracic Surgery, the American College of Surgeons and the Medical College Admissions Assessment Program. In 1980, he was awarded the D.C. Medical Society's Community Service Award.

Bowles earned the A.B.degree in 1953 and M.D. in 1957 from Duke University where he was elected to Phi Beta Kappa and Alpha Omega Alpha. He also received an M.S. degree in 1964 and a Ph.D. in 1971 from New York University.

Alec Horowitz Lecture is Thursday, December 8

Uwe E. Reinhardt, James Madison Professor of Political Economy at Princeton University, will give the 10th Annual Alec Horwitz Memorial Lecture on Thursday, December 8, at 5:30 p.m. in Room 101 of Ross Hall, 2300 I Street, N.W. His subject will be "American Healthcare at the Crossroads."

Born in West Germany, Reinhardt holds degrees from the University of Saskatchewan and Yale University where he earned his Ph.D. in economics. He joined the Princeton faculty in 1968.

The lecture is open to all members of the University community. A reception will follow immediately in The George Washington University Club.

Frank Howard Lecture is Monday, December 19

W. Edwards Deming, who has been called the "Father of Quality Control," will give the 1988 Distinguished Frank Howard Lecture on Monday, December 19, at 6 p.m. in the Marvin Theatre. Sponsored by The George Washington University Engineer Alumni Association, the lecture is open to all members of the Washington technical community.

HONOR STUDENT Cynthia Phillips of Portland, Connecticut, a freshman in international affairs, left, talks with President Stephen Joel Trachtenberg at the November 22 reception for entering students who were in the top 10 percent of their classes and who had SAT scores above 1300.

Trachtenberg Speaks on Leadership Crisis in America

"One of the reasons we are in a leadership crisis is because Americans say they want, but don't really want, a leader or leaders who will make a genuine difference, President Stephen Joel Trachtenberg told the Washington chapter of the American Society of Public Administration in a November 16 speech.

"Only when grass-roots Americans tire of lullabies and insist on being told the truth, . . will the leaders they need step forward and receive an appropriate welcome," he declared.

Trachtenberg noted the ambivalence in media coverage of the recent presidential election. "Each time a journalistic barrage was launched on how dismayed Americans were feeling about the tawdriness of campaign rhetoric," he said, "the counter-barrage would insist that Americans didn't want to hear the harsh truths about their nation's worsening economic situation and inability to compete with the other industrial powers."

One of the themes running through the modern literature on leadership, Trachtenberg told his audience, is that the successful leader reflects and catalyzes the feelings of those who agree to be led. That was true of a destructive leader like Hitler and is true of the constructive leaders, in government and business, who succeed in re-energizing a country or a corporation that is stagnant or declining.

But leaders like that "seldom come in inoffensive packages," Trachtenberg warned. That may make it particularly difficult for a potential leader to become an actual leader in today's America, where envy and criticism are so quickly aroused by anyone who shows signs of excelling as an inspirational organizer. "If the organization as a whole is permeated with a preference for holding others down rather than moving one's own performance up," he said, "then the 'can do'/'take charge' personality will be stopped in its tracks."

The most disturbing possibility raised by recent critics of American business, Trachtenberg noted, "is that many or most of our major corporations have frozen into bureaucratic structures of this kind."

Trachtenberg believes that the economic crisis which now confronts the United States, including the huge national deficit, is ultimately a crisis of motivation. "Our former enemies, the Germans and the Japanese, have done so well," he said, "because the Second World War crushed their pridefulness while leaving intact their pride: pride in personal craftsmanship, pride in a job well done. Pride of that kind was once widely shared by Americans."

One of the leadership theorists particularly worth paying attention to, Trahtenberg observed, is John W. Gardner, former U.S. Secretary of Health, Education and Welfare and former head of Common Cause. He praised Gardner for noting that Americans sometimes resent the very idea of being led because they cherish — at least theoretically — the democratic "town meeting" approach to political organization.

"Gardner correctly puts physical vitality and stamina at the very top of his list of leadership qualities," Trachtenberg noted, "and also includes in that list the tendency toward assertiveness or dominance without which a leader is unlikely to succeed."

A true leader in today's United States would have the courage to tell Americans that their current economic "prosperity" is an illusion, he declared. "Truths like that hurt," Trachtenberg concluded, and will not be told until the citizens of this country are willing to listen.

Here's A Retirement Plan Reminder for You

The Records and Benefits Office wishes to remind those employees eligible for the new Retirement Plan as of January 1, 1989, to return their completed TIAA/CREF applications by Wednesday, December 21, 1988. Even if you are a current particpant, you must complete a new application in order to receive the University's contribution.

If you are going to contribute part of your own salary to TIAA/CREF Vanguard or Equitable, and wish to change the percentage of your own salary you are contributing, you must complete a change form by Monday, December 12, 1988.

Visit the Records and Benefits Office, 2125 G Street, N.W., if you have any questions.

Smith Center Announces Winter Holiday Hours

The Smith Center's Winter Break Hours will begin on Wednesday, December 21, and continue until Friday, January 6.

The hours will be — December 21 and 22, 10 a.m. to 8 p.m.; December 23 through 26, closed; December 27, 28 and 29, 10 a.m. to 8 p.m.; then, December 30 through January 2, closed; January 3, 4 and 5, 10 a.m. to 8 p.m.; and January 6, when regular hours resume, 9 a.m.to 11:30 p.m. (NOTE: The Women's Basketball game, George Washington vs. Radford will take place as scheduled on Wednesday, December 21, at 7:30 p.m.)

IT'S TIME TO VALIDATE YOUR ID FOR NEXT YEAR

The pink or blue photo identification cards currently held by eligible faculty and staff will become invalid on January 1, 1989.

Beginning today, here is a schedule for the 1989 validation of these identification cards:

Hospital Cafeteria		
Date		Time
Monday	December 5	7:00 a.m.- 3: 00 p.m.
Tuesday	December 6	9:00 a.m. - 4:00 p.m.
Wednesday	December 7	7:00 a.m. - 3:00 p.m.
Thursday	December 8	9:00 a.m. - 4:00 p.m.
Friday	December 9	7:00 a.m. - 3:00 p.m.
Personnel Services Building GG Lobby		
Monday	December 12	9:00 a.m. - 4:00 p.m.
Tuesday	December 13	7:30 a.m. - 3:00 p.m.
Wednesday	December 14	9:00 a.m. - 4:00 p.m.
Thursday	December 15	7:30 a.m. - 3:00 p.m.
Friday	December 16	9:00 a.m. - 4:00 p.m.

Each individual must bring his/her current blue or pink University photo identification card to one of the designated locations. There a staff member of the Department of Personnel will verify eligibility and affix a 1989 validation sticker on the blue or pink card.

At this time, the only part-time on-campus University faculty for whom 1989 validation stickers will be issued are those who have been appointed through the 1989 Spring Semester. Others should wait until they receive a Spring Semester letter of appointment from the Vice President for Academic Affairs before requesting 1989 stickers.

In the event that you have lost your current photo identification card, please contact the Records and Benefits Division of Personnel Services, 44480, for assistance.

The validation process will involve a large number of faculty and staff. Every effort will be made to ensure a smooth process. The cooperation of everyone will be very much appreciated.

DIMOCK GALLERY — Tatayana S. Schriempf, center, an undergraduate degree candidate in sculpture, shows daughter Alexa her 78-inch-high laminated linden wood sculpture, "Woman of Chaillot," one of the 74 art works on exhibit in Dimock Gallery's Annual Student Show, which runs through January 5.

INTERVIEWS

LANCE J. HOFFMAN, professor of engineering and applied science, was interviewed on computer viruses on Cable News Network, November 11. He was also a guest discussing the same topic on the Diane Rehm show on WAMU.

STEPHEN JOEL TRACHTENBERG, President of the University and professor of public administration, was interviewed by KMOX Radio AM, St. Louis, Missouri, (a CBS affiliate) on its live call-in talk show, "Total Information AM" on November 29, from 10 to 11 a.m.

PROFESSIONAL ACTIVITIES

JONATHAN CHAVES, associate professor of Chinese, gave a lecture, "Poets of the Northern and Southern Sung: Wen T'ung (1019-79) and Yang Wan-li (1127-1206)," at the China Institute in America, in New York, November 22.

AMES FOLEY, LAURIE REUTER, HIKMET SENAY and JOHN SIBERT, professors in engineering and applied science, were recently awarded a highly competitive research grant. Their proposal was one of four funded from over 80 submitted to the Center of Excellence in Space Data and Information Sciences (CESDIS), a new program established by NASA at the Goddard Space Flight Center. Their proposal, "Knowledge-Based Advisory System for General Scientific Data Visualization," is funded for three years at a total level of approximately $400,000.

BRIEFLY ...

Lisner at Noon will present a traditional Irish folk trio, CEOLTOIRI, on Wednesday, December 7, at 12:15 p.m. in Lisner Auditorium. Admission is free.

Europe's Future in Space will be discussed by Alain Dupas of the Centre National d'Etudes Spaitales (CNES) at a colloquium Wednesday, December 7, from 4 to 5:30 p.m. in Marvin Center, Room 405, sponsored by the Graduate Program in Science, Technology and Public Policy Space Policy Institute. Dupas is advisor to the director of programs at CNES, the French Space Agency. All students and faculty are invited.

The Spanish Dance Society will perform in the Grand Foyer of the Kennedy Center on Saturday, December 10, at 7 p.m. as part of the center's holiday festivities. Admission will be free.

The Jazz Band will give a free concert on Sunday, December 11, at 8:30 p.m. in George's on the fifth floor of the Marvin Center. The performance will be under the baton of William Wright, director.

PERSONNEL NOTICES

RESEARCH ASSISTANT, full-time, The George Washington University Medical Center, Hematology Research Laboratory. ((Individual must be an ASCP certified medical technologist with previous research laboratory experience, independent and familiar with quality control, have mastered radioimmunoassy, ELISA, and immunoelectrophoresis techniques, and be willing to assume administrative and budgetary responsibilities.) Contact J. Winton at 994-3081.

RESEARCH ASSOCIATE, full-time, The George Washington University Medical Center, Depatment of Medicine. (Individual to be a Physician's Assistant or Nurse-Practitioner for longitudinal studies involving combination therapies in clinical research trials for the treatment of AIDS and AIDS-Related Complex patients. Duties to include physical examination of patients, past medical histories, drug administration, patient follow-up and fulfillment of study reporting requirements. Previous research experience is a plus. Certification as a Physician's Assistant or a B.S.N. degree is required. A master's degree or graduate work in a related medical field is preferred.) Please contact Jeffrey Stallings at 994-2293.

RESEARCH ASSOCIATE/NETWORK COORDINATOR, full-time, Intergovernmental Health Policy Project. A master's degree in health care administration, or public policy or a law degree, and two years of health policy experience required. Candidates should have excellent research, writing, and verbal skills, as well as a working familiarity with the general health policy issues and problems. Specific duties will include ensuring that appropriate research materials and policy information are disseminated to the organizations and, in turn, their constituents; communication of important policy concerns, issues and initiatives to the organizations and in turn ensuring that the organizations are informing their constitutents of them; scheduling and developing the format for training the research liaison staff hired by each of the five to 10 organizations comprising the IHPP's AIDS Policy Network; scheduling, developing the format, and chairing the bi-monthly meetings of the network; gathering from the organizations information and data to be incorporated into the Center's AIDS newsletter; and assistance with identifying and preparing proposals for potential sources of funding for the center and network.) Mail resume to Lee Dixon, Deputy Director, Intergovernmental Health Policy Project, 2011 Eye Street, N.W., Suite 200, Washington, D.C. 20006.

The George Washington University is an equal opportunity/affirmative action employer.

Editorial Assistant for the *GW Report* is Shirley A. Bernardin.

GW REPORT

December 12, 1988

JANE LINGO, EDITOR (202) 994-6460 ■ OFFICE OF UNIVERSITY RELATIONS ■ THE GEORGE WASHINGTON UNIVERSITY

US/JAPAN ECONOMIC AGENDA — The Honorable Clayton K. Yeutter, U.S. Trade Representative, left, keynote speaker at the November 30 luncheon conference sponsored by the U.S.-Japan Economic Agenda in the George Washington University Club, talks with Clyde Farnsworth of The New York Times, beforehand.

From President Trachtenberg...

Once again the flags of The George Washington University are lowered as we mourn the loss of members of our community. On Tuesday, we learned of the murders of Warren H. Fulton III, a GW student, and Rachel Raver, a GW graduate. Both were athletes, Rachel, a soccer player, and Warren, a basketball player. They enriched this University by their contributions to it.

We deplore this senseless violence and share the hope that those responsible are brought to justice swiftly.

The entire George Washington University community expresses heartfelt sympathy to the families and friends of Warren and Rachel. We mourn with you.

Trachtenberg Urges Nationwide "Self-Reform" by Universities

Universities must recognize that criticism leveled by William Bennett, former Secretary of Education, had substance and stuck a responsive chord in the American population, President Stephen Joel Trachtenberg said in a November 15 speech to the Washington Higher Education Group, an organization of professionals from local universities, the federal government and various associations.

Trachtenberg said the American public is not happy with the level of teaching that many students receive at universities. And even if Americans must bear a large part of the responsibility for the fact that good teaching does not necessarily lead to high status for a faculty member, he continued, universities will have to take the lead in restoring a better balance to their scale of values.

"Self-examination leading to self-reform would therefore appear to be the mandated task," Trachtenberg said. "After all, when Bill Bennett's fuel has been removed from the fires he helped to light, those fires will slowly burn out."

What Bennett's message boiled down to, Trachtenberg said, "was that America is disappointed in what it gets for the money invested in higher education." After an American family has worked hard to get a son or daughter into the best school possible—usually a school like Harvard, Yale, Princeton or Stanford—it "then discovers to its horror that Mr. or Ms. Chips isn't sitting in a wood-panelled office waiting to chat with the new student about an appropriate philosophy of life."

Indeed, Trachtenberg continued, such a family may be even more stunned by the fact that so many courses are taught "by harassed graduate students who carry their dissertation drafts in briefcases and their students' term papers in shopping bags."

The American public must assume a large part of the responsibility for its disappointments with higher education, he told his audience. By defining elite universities with enormous annual budgets as "the top of the pyramid"—universities which concentrate on research rather than teaching—Americans see to it that all of their universities and many of their four-year colleges also undervalue teaching.

In world-class research universities, Trachtenberg noted, the rule is that "the higher you rank as a faculty member, the less you teach." One result of having those universities serve as a paradigm, therefore, is that faculty members everywhere seek time away from teaching on the grounds that they have other duties to perform, including not only research but committee work and participation in faculty governance.

Even if Americans were to acknowledge their responsibility for this interpretation of academic life, Trachtenberg warned, many would then insist that those who work in universities, "with our claims to knowledge and reasoning power, ought to point the way toward a solution."

Trachtenberg emphasized that one of the main problems awaiting a solution is the fact that so many American faculty members do not publish any research after they complete their dissertations. Moreover, "of those who do go on to publish books and articles, only a minority produce research that is regarded, within their own fields, as significant."

Trachtenberg characterized this situation as a "time-bomb waiting to go off." If universities are to regain the support of the American public, he said, then effective teaching that helps students to enter rewarding careers must receive much stronger support than is the case at present. Academic officers throughout the nation must begin to discuss the reforms that can help to produce such a shift in their values.

Trachtenberg to Serve on D.C. Public Education Commission

President Stephen Joel Trachtenberg has accepted an invitation from the Federal City Council to serve on the D.C. Commission on Public Education.

The commission will conduct a program evaluation and needs assessment of the District of Columbia Public Schools. The commisson will also work to develop a consensus on what actions are required to improve education in the nation 's capital. The work of the commission is expected to extend over a period of several months.

Francine Trachtenberg Joins Channel 26 Board

Francine Zorn Trachtenberg has been elected to the board of directors of Channel 26-WETA.

She joins four other prominent Washingtonians as a new director. They are Mari Carmen Aponte, partner, Pena & Aponte, P.C., and former president of the Hispanic National Bar Association; June Hechinger, active philanthropist in the Washington cultural community and secretary of the board of trustees of the National Symphony Orchestra; Carmen Turner, general manager of the Washington Metropolitan Area Transit Authority; and Marvin Weissberg, president of the Weissberg Corporation. Prior to coming to Washington, Trachtenberg served as vice president of the board of trustees of Connecticut Public Broadcasting.

Colonnade Gallery to Show Works of Nadar

Works of Nadar, one of France's most famous 19th century photographers, will be on display in Marvin Center's Colonnade Gallery from December 19 through January 27 of next year.

The exhibition will include 50 portraits of French 19th cenutry celebrities of the artistic, literary and political worlds such as Baudelaire, Berhnardt, Debussy, Gambetta and Hugo. Traits and mannerisms of Nadar's subjects are said to be skillfully captured in his portraits.

Colonnade Gallery hours are 10 a.m. to 7 p.m. daily.

BRIEFLY ...

The Urban Landscape in the Early National Period: New York, Philadelphia, Washington will be discussed by Dell Upton of the Department of Architecture, University of California at Berkeley, at 7 p.m. in Room 404, Marvin Center,this evening, December 12. The free lecture is sponsored by the George Washington Folklife Association and the Program of American Studies. A reception will follow in Building P.

Labor Secretary Ann McLaughlin will be the opening speaker at a special one-day conference on the future of the American workplace, which will examine the changing nature of families and the workforce on Thursday, December 15, in the Marvin Center. The conference is sponsored by the University's Labor Management Institute and the U.S. Department of Labor. There is a charge. Call 994-45214.

Terrorism: A Review of 1988 and Prospects for 1989 is the subject for a December 19 press conference from 10 a.m. to noon in Marvin Center, Room 404, being coordinated by Yonah Alexander, research professor of international affairs. The conference is open. For information, call 296-2561.
